Nominate Officers

The Armour Institute of Technology, Chicago, Illinois

Tuesday, October 4, 1931

All students are invited to nominate officers for the Armour Institute of Technology, Chicago, Illinois. The nomination process will be held on October 4th. Nomination forms will be distributed to all students.
Our Football Problem

Many students, particularly freshmen, wonder why Armour does not have a football team. Numerous attempts have been proposed. Few times by students and family members who did not understand the pros and cons of the project.

In 1923, Harold W. Murphy ’23 and John L. Schirmer ’23, Armour Athlete directors, formed the Armour Tech Athletic Association to promote and support athletics, the Armour Engineer, and the Cyclones. Their primary goal was to publicize the name of Armour Tech as widely as possible through the media of athletic teams and publications. A secondary interest was the building of a surplus crowd from the advertising of the publications, whose missions in time, furnished enough capital to support the team. Necessary alumni would about $5,000 would be required to do this. Unfortunately, this surplus has been drained from time to time by various improvements of athletic equipment and personnel.

The reason人次 for such a large sum of money is the fact that the team would require at least three weeks’ training camp before the commencement of school in order to hold its own. Our season practice was conducted after that initial training program would then suffer. This plan is the only one of positive value potentially to a school whose curricula are as difficult and time-consuming as ours.

Although Armour Tech will not host a football team during our time, the day is near enough to have one. It is believed that in initial fund of the magnitude aforementioned the team could be maneuvered to a point where alumni would have no authority here the football problem in mind and that it is entirely possible that a team will be put in play by the next season of two.
The Armour Engineer, Its Development, Content, and Purposes

By Jeri T. Sorvum (Editor-in-Chief)

This is the third article of a series written by the editors of the magazine to discuss the history and development of the Armour school and its role in the food industry. The second article was published in the previous issue of the magazine.

Fraternity Notes

PHI KAPPA SIGMA

The regular meeting of the chapter was held on Friday evening. The meeting was attended by a large number of members and several guests. The chapter officers outlined the plans for the upcoming semester and discussed the activities that are scheduled.

SIGMA KAPPA DELTA

A large number of alumni and active members attended last Saturday evening. The event was held at the Armour Engineering Building. The chapter officers and alumni delivered speeches and shared memories from their days at Armour.

SIGMA ALPHA MU

The chapter officers met to discuss the plans for the upcoming semester. The officers outlined the activities that are scheduled and discussed the challenges that they are facing.

The Steam Shovel

Ray Nelson has been ordered to design a new steam shovel for the company. The design is based on the latest technology and is expected to improve the efficiency of the company's operations.

Delta Tau Delta

A formal dinner was held at the chapter house to celebrate the induction of new members. The event was attended by a large number of guests, including alumni and faculty members.

Beta PSI

The chapter officers met to discuss the plans for the upcoming semester. The officers outlined the activities that are scheduled and discussed the challenges that they are facing.

Theta XI

A formal dinner was held to celebrate the induction of new members. The event was attended by a large number of guests, including alumni and faculty members.

Movie Notes

Educational films are being shown in the smokehouse on Monday evenings. The films are aimed at educating the students about the history of the Armour school and its role in the food industry.

They Satisfy...all you could ask for!

Chesterfield

The Detroit Free Press, known for its coverage of the national news, is publishing a series of articles about the impact of the economy on the food industry. The series is titled "They Satisfy...all you could ask for!" and is being written by Dan Brown. The series is expected to run for several weeks.
TECH BOXERS AND WRESTLERS HOLD INITIAL WORKOUT

Fifty Men Appear At First Meeting of Season

FIVE LETTERMEN BACK

At a meeting held a week ago in the armory at the request of Coach William in company with Assistant Coach, William will give a review of instructions in boxing and wrestling, and will give for a number of years, with cliffnotes, what will be covered in the coming season. In the review, William will leave the instruction with the union and will return to the university for the session.

daughter

CHANGING LINEUP

To present this meeting, the review dot demand that at least five of the five for offense must be within five yards of their weight. Any player who is more than five pounds overweight must be corrected and the coach will discuss the matter with the team.

TECH SHORTS

The Armor Tech squad has been practicing for the past twenty days. The players have been working hard to get into shape, and the coach has been pleased with the progress made.
