Utilities Conduct Wind Researches

Experiments concerning wind as a source of power are being conducted by Falmouth Laboratories, Woods Hole, and the United States Bureau of Reclamation.

Public utilities and industries are also experimenting with the same methods.

Special Note

Professor Leigh says that golden are rarely seen by land, but even by the sea, in the current of the current, are never seen more than rarely by golden.
No raw tobaccos in Luckies—that's why they're so mild

We buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "NATURE in the Raw is Seldom MILD"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every town, city, and hamlet say that Luckies are such mild cigarettes.
