THREE PROMINENT MEN ELECTED TO ARMOUR BOARD

T. S. Hammond, E. A. Henne, G. G. Thorp
New Members

IMPORTANT ADDITIONS

Three prominent men in industry and business have been added to the Board of Trustees of Armour Institute of Technology in recent weeks. T. S. Hammond, Ernest A. Henne, and George G. Thorp have been added to the Board membership, which already represents many of the leading firms in industry, business, and finance, in the Middle West.

Mr. T. S. Hammond is the president of the Wabash Corporation, has been president of the Illinois Electric Steel Corporation, and is a member of the Illinois Institute of Technology, Chicago. Mr. E. A. Henne is president of the Armour Institute of Technology, Chicago, Illinois, and Mr. George G. Thorp is a member of the Armour Institute of Technology, Chicago, Illinois.

Armour Players

Choose Subject

The Armour Players decided last Wednesday to hold a grand meeting of all the players on November 13, at 12:00 noon at 60 Church. This meeting will be open to all players, both new and old, and all players will be allowed to vote on the new rules and changes that have been made.

Sonora Chemical Applies Fire Test to Partner's All-Wool Suit

The Sonora Chemical Company is pleased to announce that the All-Wool Suit is now being tested by Sonora Chemical Company's laboratories. This test will determine the fire-resistant properties of the All-Wool Suit, which is made of a special material that is resistant to fire and heat.

General Parker to Give Address to Student Body

Observance of Armistice

ARMY COMMISSION

ASSEMBLY AT 10:30

General Frank. Parker, Secretary General and member of the High Grade, will deliver an address to all students of Armour as an assembly he is to hold on November 11 at 10:30.

General Parker has served his country for many years and has been an active participant in various military organizations. He has served in various capacities, including the rank of Army General, and has also been a member of the High Grade.

Pigeon Searching for Knowledge

Sturtz's Physics Lecture Class

A very interesting illustration was given by Professor Sturtz during his physics lecture class on Monday, November 11, 1932. He demonstrated the principles of optics by using a small bird to represent light waves. This demonstration was very well received and many students were impressed by the simplicity and elegance of the demonstration.

It haunted clerks for generations

"The first of the month" used to be a time of fervid activity for ledger clerks. But the Bell System accounting end - breaking away from tradition - simplified the keeping of accounts and rendering of monthly statements to customers.

They applied a modern system of relieving the telephone business which now supplies this work evenly throughout the month. In cooperation with manufacturer, they devised special typewriters and bookkeeping machines. Thus they did away with inefficient work and achieved greater accuracy, speed, and economy.

This is but one example of a point of view found throughout the Bell System. Even long-agreed routines is constantly studied - it's always worth looking for the more efficient way!

BELL SYSTEM
SCHERGER TO DELIVER ILLUSTRATED LECTURE

Next Monday, Mr. Scherger will present his lower classes and the general public on his lecture, "The Steam Shovel." The lecture will begin at 11:00 a.m. in the Armory. The lecture will be illustrated with many pictures taken by Mr. Scherger. The lecture will show the amazing ingenuity and technical skill as well as the economic and industrial benefits of the steam shovel. The lecture is free and open to the public.

ARMOUR TECH NEWS

THE STEAM SHOVEL

At last the dreams of the New's steam sandblasting company, the "The Steam Shovel," of the Armory, rekindled, "SLIMEY" "SANDSTORM." The sandblasting is now available in the Armory. For only a few dollars, you can have the entire Armory sandblasted. The "SANDSTORM" is now available in the Armory. For only a few dollars, you can have the entire Armory sandblasted.

ARMS NEWS

Well! Here we're back again after a vacation from the press. This part was written by Mr. Smith, the new editor of the newspaper. The newspaper has been running smoothly and has not had any problems. The newspaper is now available in the Armory bookstore.

THE FALL OF TECNOLOGIA

"Brothers in the Rain" by C. E. O. was inspired by the hard work that the students put in to make the newspaper. The newspaper is now available in the Armory bookstore.

FIVE SOPHOMORES CHosen to Help SOCIAL COMMITTEE

John A. Smith, Robert C. Miller, William W. Johnson, Thomas H. Brown, and Charles E. Green were chosen to help the Social Committee. The committee is responsible for organizing social events and activities for the students. The committee has been hard at work and has planned many exciting events for the students.

No raw tobaccos in Luckies—-that's why they're so mild

We buy the finest, the very finest tobaccos in all the world—but that doesn't explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes. "It's toasted"—that package of mild Luckies.
FORTY CANDIDATES RESPOND TO FIRST BASKETBALL CALL

Forty basketball candidates responded to the initial call for interclass basketball last Thursday, according to Coach C. R. Frank, and attended the first meeting of the interclass basketball team held Thursday evening at 5:00 in the gym. Although the team had been held Thursday evening, the news of its organization had spread quickly, and the interest of the candidates for the team was evident.

The candidates were divided into two teams, the Blue and the Orange, and the game was played under the direction of Coach Frank. The Blue team, under the leadership of Captain George A. Nelson, scored 20 points to the Orange team's 14, giving the Blue team the victory.

GEORGE A. NELSON

George Nelson, one of Tech's star trackmen, has proved that he is a leader in every way, on and off the track. Nelson, who has broken several records in track, is also a member of the basketball team and is expected to make a fine contribution to the team this year.

TECH SHORTS

BASKETBALL REGULARS

The basketball season got under way last Thursday with a meeting of the interclass team in the gym. The season practices will be held tonight, Wednesday, and Thursday in the gym, and the practice schedule will be announced later.

IT'S AN OLD, OLD STORY WITH MR. GEORGE A. NELSON

Although less than a year has passed since George Nelson joined the track team, his name has become a household word on campus. Nelson, who has broken several records in track, is also a member of the basketball team and is expected to make a fine contribution to the team this year.

Golf, Tennis Matches Progress to Finals

The golf tournament is in full swing, with the first round of matches already completed. The matches will continue on Saturday and Sunday, with the final round to be played on Monday.

GRIDIRON QUERIES

Question 12. What is the penalty for a forward kick in the air by a player on the field during the game?
Answer: A forward kick in the air is not allowed. If a player kicks the ball forward, he must have possession of it in the air before it crosses the ground. If he does not, it is ruled a forward kick in the air, and the team in control of the ball will have possession on the sideline of the field of play.
