Cosmo's Glimpse

By Tom Gazo

The campus newspaper is proud to announce the launch of our new column, Cosmo's Glimpse! Every issue, our resident Cosmo will provide you with a glimpse into the world of campus life.

A woman ROTC student, you're competing for your commission in the same class as the men in your class. There are 2-year, 3-year, and 4-year scholarship programs available. A young woman enrolled in the Air Force ROTC program is also eligible for Air Force ROTC scholarships which will cover the remaining 2 or 3 years she has as a cadet. Tuition is covered, she pays her own textbooks, and she receives $500 a month allowance.
**WHT FM Goal in Sight**

**By James Halen**

WHT, the campus radio station, has been working at achieving greater status as an entertainment channel. This fall, WHT will benefit from the full coordinator of the Student Union, and it is the goal of the station to provide an additional source of entertainment for the campus. WHT is planning to offer a variety of programs, including music and news, to keep its listeners tuned in.

**WHT's Monopoly Board Game Shown Here. John Clancy, Mayor Sheehanwell, Bob Tilton, and an unseen John.**

This semester, WHT plans to continue its programming, with a new emphasis on news, both local and national. The station is also planning to expand its musical offerings, with a focus on new and local bands.

**Cosmo Campoli Glittering Future For IIT Campus?**

**By Tom Tidell**

Cosmo Campoli, famous for his sardonic views on campus life, has expressed his optimism about the future of IIT. He believes that the university is on the verge of a new era, with opportunities for growth in both academic and cultural spheres.

To the students involved, it's a race to see who can deliver the best presentation. The competition is fierce, and everyone is vying for the chance to make a mark on the campus.

Currently, in cooperation with the Art Club, Campoli is designing a series of murals for the school's halls and stairwells. He has been modest about the project, stating that it is a small step towards making IIT a more livable and enjoyable place for all.

What better way to kick off the fall semester than with a festive opening of ‘Festive Days’? A local food vendor was the first to arrive, setting up a stall and attracting a crowd of hungry students.

After all, the line was long. "Who needs a greenshirt when there's a gliding helicopter?" one student commented, grabbing a sandwich and a soda from the vendor.

The programming schedule, starting Tuesday, will be as follows:

- **Monday:** Special studentartial novelty event - from 2 to 4 p.m. in the student center's main hall
- **Tuesday:** International and special programming - from 2 to 4 p.m. in the Union
- **Wednesday:** Band practice - in the auditorium from 2 to 4 p.m. with special guest faculty
- **Thursday:** Special programs - in various locations
- **Friday:** Special events - in various locations
- **Saturday and Sunday:** Various special events - in various locations

The station management seems to be excited about the fall and is looking forward to adding more to the schedule. They are planning to add more events and programs to keep the listeners engaged and entertained.

**WHT's new slogan is...**

"If you're not at WHT, you're not in the loop!"
A Review of the Parking Problem

Parking at UTD has always been something of a problem, anyone who ger
here past eight in the morning usually ends up parking by either Kansa Hall or by the faster
to the left at the bottom of the hill. This results in long walks to classes and an unreliable system of parking. Lately the administration has been trying to fix the problem, but what about those students who work late or have evening classes? The solution they have come up with is to build a new parking lot on State Street. To reach it you will need to drive over the bridge and enter the parking lot at a cost of 50 cents per hour, or 75 cents per day. This new parking lot is suppose to be easy to get to and has a total of 600 spaces, which is enough to accommodate the students who work late or have evening classes. The new parking lot is scheduled to open in early February and will be available to students for the remainder of the semester.

Do-it-yourself Writing Clinic

Do you ever wonder what it would be like to write your own articles? Do you ever think of yourself as a potential journalist or writer? The Writing Clinic is here to help you.

Dear Editor,

I am writing to express my interest in learning more about journalism and writing. I am a freshman here at UTD and I have been interested in writing since I was in high school. I have written for my school newspaper and have also written for various magazines.

I have been interested in writing for as long as I can remember. I have always enjoyed telling stories and sharing my ideas with others. I am also interested in current events and politics. I believe that writing can be a powerful tool for shaping public opinion and for informing the public about important issues.

I am available to write articles on any topic that you think would be of interest to your readers. I am also interested in learning how to write effectively and how to write in a way that is clear and concise.

Thank you for considering my request. I look forward to hearing from you.

Sincerely,
