Experience: A Valuable Asset to a Degree

The Hewlett-Packard first family of calculators are in a class by themselves.

First family performance. For the first time in the kind of performance that includes HP’s new, high-memory, high-speed range of advanced functions and much, much more.

First family reliability. When you buy Hewlett-Packard calculators, you get all the protection on parts and labor. And we mean the protection on most repairs.

First family support. Every calculator comes with its own comprehensive Owners Handbook. In addition, a complete solution of optional accessories increases the versatility of the calculation of the basic HP. Hewlett-Packard often pays because Hewlett-Packard pays more.

Free booklet while supplies last.

"To Teach A Child How To Use An Automatic Calculator" helps you make wise purchase and buying decision. Fill out your free copy of same campus book, "A Technical Calculus" 90-989 (see code: 0006-006-063) all for the name of your nearest office.

BOG Celebrates First Anniversary

by Nolte Washington

The BOG has come a long way from the newly formed board to the loyal group of dedicated members. How has it changed? What has been the most significant change? Let me tell you. If you had told the original board that two years ago, you would have thought you had lost your mind. We have come a long way from the days of no meetings, no members, and no progress. Today, we are a strong and vibrant board. The BOG has been transformed into a group of dedicated members who are passionate about the success of the student body.

Last Wednesday night saw the start of the BOG meetings. The traditional opening ceremonies took place, and the board was formally sworn into office. After the formalities, the board members turned their attention to the new initiatives that will shape the future of the BOG.

The BOG members, dedicated students, good companies, and all the people who have contributed to the success of the BOG, look to the future with excitement. The BOG has a bright future ahead, and we are eager to see what the next two years will bring.

The BOG would like to thank everyone who has supported us and contributed to our success. We are grateful for your support and look forward to working with you in the future.

For unlimited flexibility, this is the ultimate calculator.

Firedoor folly

In the least considerate move since the fall of the Berlin Wall, the Dean of Students has decreed that the doors entering our Widney are to become firedoors. This move will cut through the North and South Residential Halls by preventing everyone, including those who have paid for the rights to use these doors, from using them. During the meeting on September 9, Dean Kirk decided not to confine the Institute Bulletin on page 3 of the Bulletin of Information—-Red-

shoe Halls.

At the meeting, the impetus of an East or Fuller Hall resident having to walk a greater distance to class than did the other residents and that the fire doors were brought up. Despite the comment, the overriding opinion was that the committee student who must spend two hours in rush traffic to reach the current All residence, therefore, should, according to this reasoning, spend two hours on the OTA each day before beginning classes. The depopulation of some residents when no benefit is reaped by anyone is possible.

None of the alternatives such as placing benches on the McCamphil, Lounge chairs, to Smith and North, the conversion of a studio on the west side of McCamphil, or a realization by all residents of the right of the right of the hall residents to private halls and the use of some personal discretion were considered.

The entire conflict is one of privacy vs. the right of a resident to be anywhere in the dormitory complex. We feel that the privacy and security of the residents must be preserved and that the Dean of Students has chosen the wrong way to secure it.

Dear Editor,

I would like to thank the unknown person who placed my life on the line. I would like to thank all the others who are unknown to me, but are move- ment. It is a pity that the rest of the society are not aware of this.

Sincerely,

[Signature]

Dear Editor,

Having, in my unassuming, non-binding capacity of my time gone by, been the gateway of a Dorset High student, I was naturally surprised at the charges. As a matter of fact, there is no such thing as a "fire door." As I have never heard of any such thing existing on campus, I am not sure how it is possible to create a "fire door." I do not think that this is the case in any other world.

Sincerely,

[Signature]

Into The Fire

The continuing conditions between the masters of the North and South brought a fresh wave of the Phantom EL, which has been the bane of the region for years. It is said that the Phantom EL is a creature that emerges from the underground, seeking warmth and sustenance. Its appearance is often accompanied by a mysterious aura, and it has been known to cause confusion and fear among those who witness it.

Beer

Eclectic Contingencies Part Two

by Jim Merton

continued from last week

"...and now we take a look at the first beer in our four-pack of the '70s, what many consider a "behavioral" beer." 

For some people, beer is not just a drink, it's an experience. A way to connect with friends, a way to unwind after a long day. For others, it's a tool for socializing, a way to open up conversation and break the ice. And for some, it's a way to express their creativity, to create their own unique brews.

"And now, let's take a look at the second beer in our four-pack, what many consider a "cultural" beer."

Cultural beer? What does that mean? To some people, it means beer that's been around for a long time, beer that's been passed down from generation to generation. To others, it means beer that's been crafted to represent a certain culture or community, a way to celebrate diversity and inclusivity.

"And now, let's take a look at the third beer in our four-pack, what many consider a "environmental" beer."

Environmental beer? How is that even possible? Beer is made from grains, hops, and yeast, which are all grown or gathered in a natural environment. But some brewers are taking this a step further, using ingredients that are grown or gathered sustainably, and packaging their beer in biodegradable materials.

"And now, let's take a look at the fourth beer in our four-pack, what many consider a "social" beer."

Social beer? In what way? Beer has been a social lubricant for centuries, a way to bring people together and break down barriers. But some brewers are taking this concept to the next level, creating beers that are designed to be shared, to be enjoyed with friends or family.

"And now, let's put all of these beers together and see what we have."

With all these different types of beer, it's easy to see why beer is such a beloved beverage. From the cultural and social aspects to the environmental and behavioral benefits, beer has something for everyone. So next time you're out shopping for beer, remember that there's more to beer than meets the eye. It's not just a drink, it's an experience.
Union Board Gossip, News, Etc.

by Dan McGee

Another issue was the first of the month in which the Union Board held their meeting.own presentation. We also want to thank the Office of Student Affairs for their support and assistance. We have a meeting every month. There are also opportunities to learn more about student affairs and how they affect us. We encourage everyone to attend these meetings.

Shannon is a member of the Interfraternity Council. This group is an organization for students who are part of a fraternity. The purpose of the council is to promote involvement in campus activities, support the Greek system, and provide opportunities for members to develop leadership skills. Shannon has been involved in the council for several years and has held various positions, including president.

Interfraternity Council: Who Are They; What Do They Do?

by Perie Stover

The Interfraternity Council (IFC) is a representative body of the fraternity organizations on campus. The organization is responsible for various events and activities, such as Greek Week, philanthropy events, and social gatherings. The council is also involved in promoting student leadership and community service. The IFC is made up of representatives from each of the fraternities at the university.

IFC, the Interfraternity Council, meets once a month to hear reports from each of the fraternities. The organization has a variety of activities throughout the year, including Greek Week, philanthropy events, and social gatherings. The council is also involved in promoting student leadership and community service. The IFC is made up of representatives from each of the fraternities at the university.

WIIT Changes Name; Goes FM

The first step in WIIT's latest re-layout retailed long journey to Placentia was completed Wednesday when the Federal Communications Commission granted the station's license to change its alter ego from WIIT to WIIT-FM.

The second step in the process is expected to be taken this week, pending FCC approval, when the station's call letters will also be changed to WIIT-FM.

The move is expected to be completed by early next month, with the station's new call letters being assigned on November 8th.

The station's license was originally granted in 1972, and has been in operation since then.

WIIT-FM will be the fifth station to operate in Placentia, the others being KFCA, KGIG, KHUM, and KXMB.

The station is owned by the Placentia Broadcasting Corporation, which also owns KFCA and KGIG.

The station's programming will continue to be focused on local news and events, as well as national news and music.

The station's new call letters and branding will be announced in a press release later this week.

The move to FM is expected to improve the station's reach and revenue, as well as provide a more modern and appealing image for the station.

The station's new call letters and branding will be announced in a press release later this week.

"DON'T BUY JEANS ON FAITH. COMPARE YOUR PANTS OFF."

My pants are better than your pants. And I can prove it.

'Mine are 100% natural cotton denim. And so are yours. There's the similarity ends. Because mine are Sedgefield Denim. Do Nothing® denim. The first line 100% natural cotton denim with the built-in edge, the amazing "Sorfor®" pinstripe. So what? So this.

"SEDGEFIELD JEANS
NEVER NEED IRONING.

The years I have on have been washed and tumble-dried 15 times and never ironed. "You heard right. "Never ironed.

"SEDGEFIELD JEANS
CANNOT SHRINK OUT OF SIZE.

"It's true. "Sorfor® that's the reason. The reason the size you buy is the size they stay.

"SEDGEFIELD JEANS
START OFF HIGH SOFT.

"Brand new we're much, much softer than old-fashioned pants without Sorfor®. And we keep getting softer so that your old-fashioned pants might even wear out before they can catch up.

"SEDGEFIELD JEANS
DON'T COST A BUCKLE.

"Our biggest edge? "We cost no more than the regular price of the biggest pinstripe. "FOR VEGS
YOU GET YOUR MONEY BACK.

"It's true. "Sorfor® that's the reason. We back our pants with a one year unconditional warranty. "None stronger in the business. Just send us back your pants and we'll replace them. Or send you back your money.

"TO FIND OUT JEANS
CALL 800-843-1143.

"If you want the pants with the built-in edge, just dial this number (800-843-1143) toll free and we'll tell you where to get them. And start comparing your pants off!"
Girls Wanted
There will be a meeting of all girls interested in dancing for the newly established dance group on Thursday, November 17, at 10:00 PM in the Union Ballroom.

They Shoot Seniors?
If you are not sure if you want to become a senior, you should attend the Senior Shoot meeting. The meeting will be held in the Union Ballroom on Thursday, November 17, at 7:00 PM.
x-country 4th
by Joe Hughes

1970: Cross Country won the first big event of the season last Saturday at the Trendy Invitational. Trinity College won the meet. First placed in the meet was Coach Thomas J. O'Brien, who placed all four runners with a time of 12:35. The team was led by David Frank '71. His time was a personal record. Second for the team was Joe Hughes, who placed third overall with a time of 12:45. Other runners who did well as well as anticipated, Coach Thomas may very easily set the records. The meet beat the trend for the season.
