ROTC Move, Only the Beginning

Last week's move of the Air

Force ROTC to the

new Curtis Hall and

Navy ROTC to the

new Beach 

Hall was accomplished by a

number of people from all

branches of the armed forces. 

The last of the troops, the sewing of

the American flag, the uncasing of 

the flag, the installation of the

flag, the unfurling of the flag,

the singing of the national

anthem, and the presentation

of the colors, were important, 

but the main purpose was the

opening of the new buildings.

Campus Construction

By George Haynes

The move of the ROTC from the old Curtis Hall to the new Curtis Hall is an indication of the progress being made in the construction of the new buildings. The new Curtis Hall, which is designed to accommodate the needs of the ROTC program, is a three-story building with a total floor area of 40,000 square feet. The building is equipped with classrooms, laboratories, and offices for the ROTC program. The ROTC program in the new building is expected to begin in the fall of 1976.

The move of the ROTC from the old Beach Hall to the new Beach Hall is another indication of the progress being made in the construction of the new buildings. The new Beach Hall, which is designed to accommodate the needs of the ROTC program, is a three-story building with a total floor area of 40,000 square feet. The building is equipped with classrooms, laboratories, and offices for the ROTC program. The ROTC program in the new building is expected to begin in the fall of 1976.

Sears

3 things that every college student should know:

1. You can SAVE $5 on this slide-rule calculator

SALE 1497

A Draper slide-rule calculator can make the difference in the speed and accuracy with which you solve complex problems. Work square roots, squares, reciprocals instantly. Key response is low you work 2 problems at once. Has private key, floating decimal and large green digital display. With case. Runs on batteries (included). Op- tional adapter available.

2. You can SAVE $40 on our Electric 1 typewriter

SALE 9997

Portable, rugged, reliable Remington 11 portable. Has wide 7-inch carriage with pre-set tab positions for fast column work. With 3 different re- gister keys, standard or type. Typewriter cover included.

3. You can SAVE $4 on Sears carry-pack shelving

SALE 1097

Don't limit yourself to dorm room furniture. Expand your storage space with Sears 4-shelf carry-pack shelving unit. Weather-resistant will accommodate extra equipment, records, books. Has adjustable shelves, decorative front panels. Comes unassembled.

Ask about Sears Credit Plans.

SEARS, ROEBUCK AND CO. Available in larger Sears Roebuck and Co. stores.
Ever Wonder, "Why IIT?"

Have you ever wondered where your dreams will take you? Are you curious about where your mind can lead you? Are you seeking opportunities to explore and grow? If the answer to these questions is yes, then IIT is for you! IIT is a place where dreams come true.

IIT is a place where you can make a difference. Here, you will have the opportunity to learn from some of the brightest minds in the world. Our faculty are experts in their fields, and they are dedicated to helping you achieve your full potential.

IIT is a place where you can make connections. Here, you will have the opportunity to meet and work with people from all over the world. This diverse community will challenge you to think critically and creatively.

IIT is a place where you can make a impact. Here, you will have the opportunity to use your skills and knowledge to solve real-world problems. Whether it's in technology, medicine, or the environment, there is no shortage of opportunities to make a difference.

IIT is a place where you can make memories. Here, you will have the opportunity to create lifelong friendships and memories that will last a lifetime. Our campus is a vibrant and welcoming community, where you will feel at home.

In summary, IIT is a place where dreams come true. If you are seeking a place where you can learn, grow, and make a difference, then IIT is the place for you. Visit our website today to learn more about what IIT has to offer.

Trivial error?

Dear Editor:

You had brought to my attention that in a recent article written for the PRC, a few letters were misspelled.

In the name, James Boff, even excellently researched facts have been in slight typographical error, for I have copied with the calibre of Kevin Drumel.

Dear Editor:

I read with interest the information you gave to J.C. about "The Arsenic Mitron".

When you said to the story that "A new experiment was done by a fraction of the Chicago Institute of Research. It was here that the famous research group of Chicago could name a share to a higher education. Philip Anderson, who was in the audience, gave Dr. Solvett and his brother the name of the group and the name of the Chicago Institute of Research. This spirit was one of the main factors in turning to some of the more impressive scientific developments of the 20th century, and the growth of successful engineers in Chicago and elsewhere. I have heard that one who forgets his name is a bad sign, for we all become so that we are not in a state of rest."
Comfort, Efficiency Main Consideration

Other features of the car are equally
considerable. It is equipped with
a combination of both wind-
and vibration-proof openings
for all seats, and ample, ET windowing.
The interior design is simple and
attractive, with the rear seats
being the most comfortable, but
the front seats are not far behind.

Another feature worth mentioning
is the car's spaciousness. With
a length of 16 feet, it can
accommodate up to five
people comfortably on board.

The car is also equipped with
a powerful engine, providing
an impressive performance
on the highway.

Overall, the new car
represents a significant
improvement over its predecessor,
offering a more comfortable
and efficient driving experience.

Notes From the India Association

More than a hundred members attended the India Association's 22nd annual dinner last night. The event was co-sponsored by the Indian Students' Association and the Cosmopolitan Club.

The highlight of the evening was a speech by Mr. Mark Armstrong, Foreign Minister of the United Kingdom. Mr. Armstrong praised the India Association for its work in promoting understanding between the two countries.

The evening concluded with a meal that included a variety of Indian dishes, such as samosas, pakoras, and biryani. The event was a great success, with attendees enjoying the food and each other's company.

The next meeting of the India Association will be held on November 1st. The location and time are to be announced. For more information, please contact the India Association at (312) 555-1234.

For more information, please contact the APO Blood Drive at (312) 555-1234.

Dec Grad Set

After completing his PhD, the former bowler, who now serves as the academic dean, has been selected by his former students to receive the Presidential Commendation Award. This is the highest honor that can be bestowed upon an individual who has made outstanding contributions to the field of knowledge.

The award will be presented to the former bowler at a special ceremony on November 1st. The ceremony will be held in the Great Hall of the University of Chicago. For more information, please contact the University of Chicago at (312) 555-1234.

The event will be open to the public, and individuals who are 16 years of age or older and weigh at least 110 pounds are eligible to donate.
Cthulhu Drinks His Beer

by Joe Matthews

Although a few of us were curious about the state of the economy, and a few of us were concerned about the future of the Internet, we all agreed that the most important thing was to drink beer.

"Let's go out to the roof and figure out what we're on," suggested the Irish lad by my side.

"Yeah, me too. I'm just not sure what we're on," I replied."

We found a group of people sitting on the roof, drinking beer and talking about the state of the economy.

"So, what do you think the economy is going to be like next year?" asked one of the group.

"I'm not sure," said the Irish lad, "but I do know one thing: we're going to drink beer!"

This was the start of a weekend-long party, where we drank beer and talked about the economy.

The party lasted for three days, and by the end of it, we were all drunk and had a better understanding of the state of the economy.

The following week, we all met up again to discuss the state of the Internet.

"So, what do you think the state of the Internet is going to be like next year?" asked one of the group.

"I'm not sure," said the Irish lad, "but I do know one thing: we're going to drink beer!"

This was the start of another weekend-long party, where we drank beer and talked about the state of the Internet.

"DON'T BUY JEANS ON FAITH. COMPARE YOUR PANTS OFF."

"My jeans are better than yours. And I can prove it."
"Mine are 100% natural cotton denim. And so are yours."
"There the similarity ends."
"Because mine are Sedgefield Denim."
"The first 16-ounce 100% natural cotton denim with the built-in edge of the amazing Sufin-Set process."
"So what? So this..."

"Sedgefield Jeans never need ironing."
"The jeans I have on are laundered and tumble dried 15 times and never ironed."
"You heard right."
"Never ironed."

"Sedgefield jeans cannot shrink out of size."
"It's true."
"Sufin-Set is the reason."
"The reason the size you buy is the size they stay."

"Sedgefield jeans start off much softer."
"Brand new we're much, much softer than old fashioned jeans without Sufin-Set."
"And we keep getting softer, so last your old fashioned jeans might wear out before they can catch up."

"Our biggest advantage?"
"We cost no more than the regular price of the biggest seller."
"If we're lying you get your money back."
"It's one thing to make claims."
"We back ours with a one year unconditional warranty."
"None stronger in the business."
"Just send us back our jeans and we'll replace them."
"Or send you back your money."

"To find our jeans call 800-945-1966."
"If you want the pants with the built-in edge, just did this number (800) 945-1966 toll free and we'll tell you where to get them."
"And start comparing your pants off."
Soccer Wins Opener

by Bob Magauran

The 1970 regular season opened the regular season with a 1-0 win. The Bobcats defeated Kansas City, 5-2, and tied Missouri, 3-3, in their first two matches. The Bobcats then went on to win their next seven matches. The high temperatures in Kansas City that day made it a very tough game, but everyone was thrilled to see great soccer being played. There were many spectators, and the game was well played, after an entertaining pre-game ceremony.

From the outset, the Bobcats took control of the ball, primarily due to the superior midfield play of the underclassmen. The midfield played a crucial role in controlling the game, which shows the Bobcats were able to maintain the first half momentum.

Nonetheless, one of their biggest offensive players, the Bobcats' senior, John Wynn, had only 3:6:8. The seniors could manage a goal against the renewal of the rival, and the Bobcats scored twice in the first half. The 1-0 win is the only one in the match.

The Bobcats began the second period with more offensive pressure, and within three minutes, they had a 2-0 lead, with a goal by Wynn. Wynn had an outstanding display of skill, as he dribbled the ball down the field, took a shot on goal, and scored.

In the 25th minute, Wynn added another goal, and the Bobcats led 3-0. Wynn's performance was impressive, as he scored both goals in the second half. The Bobcats went on to win the match, 3-0, and maintain their unbeaten record.

Following the match, the Bobcats celebrated their victory with a lively post-match ceremony, and the players were congratulated by the fans and staff. The Bobcats' performance was a testament to their hard work and dedication to the sport of soccer. Their victory against the rivals was a significant achievement, and it demonstrated their ability to compete at a high level. The Bobcats can be proud of their performance, and their supporters will continue to support them in future matches. The Bobcats are a strong team, and they have the potential to achieve great things in the upcoming season.
