Show Skills, Make Money, Have a Good Time

Union Board announces a new program designed to give students the opportunity to earn a little money while developing their skills. The program, called "Work and Learn," will be implemented in various departments on campus.

Work and Learn allows students to earn money while developing skills in areas such as computer programming, graphic design, and writing. Students will be paid for their work and will receive credit for their coursework.

The program is open to students of all levels, from freshmen to seniors. Students will be matched with employers based on their skills and interests.

The program will be funded through a combination of student fees and outside grants. Interested students should contact the Union Board office for more information.

Proposed ES Changes Approved

The ES department has approved several changes to its curriculum, including the addition of a new course on data science and a minor in cybersecurity.

The new data science course will cover topics such as machine learning, statistical analysis, and data visualization. The cybersecurity minor will include courses on network security, cryptography, and malware analysis.

The changes are expected to be implemented in the fall semester of the upcoming academic year.

Faculty Perspectives

"We are excited to see these changes implemented," said Dr. Jane Smith, chair of the ES department. "These changes will allow our students to stay competitive in the job market and prepare them for a variety of careers in the growing tech industry."
What to tell your folks when you decide to change your major.

Dear Mom and Dad—

No one was ever more successful at something he didn’t believe in. For some time now, I’ve been plugging away at my major. My grades aren’t bad. My teachers aren’t bad. Everything’s just bad. But for me, that’s just good enough.

So I’m starting from scratch in a field that has spot me, I believe in it. And I know deep down, I’ll be better at it. I hope you’re not disappointed in me. I rather hope you’re proud of me. Let’s talk about it when I get home.

Love,

At Anheuser-Busch, we believe in brewing Busch’s beer just one way. The natural way.

BUSCH

When you believe in what you’re doing, you just naturally do it better.
Announcements

CTA Library
The Committee on Technical Assistance will bring a leading library of our.
300 books available to request on a monthly basis. Contact us at 123-4567.
For more information, please contact us on a monthly basis.

Liquidity Preference
The CTA meeting will have its first liquidity preference function on
Wednesday, November 12th. This will be the first of all our
activities to be held at

German Virgin
The German Virgin is one of our leading speakers, and announcing
a new publication. The publication will be released on
Thursday, November 13th. This is your chance to get your
hands on this new release.

Study Symposium
The upcoming Study Symposium will be held on Friday, November 14th.
This is your chance to discuss and learn from experts in your field.

Alpha Chi Sigma
Would like to announce our Alpha Chi Sigma activities for the
upcoming quarter. Stay tuned for more information.

LSAT Test
Regular registration for LSATs is open. Sign up now to ensure your
spot for the LSAT Test.

Speed Chess
There will be a special event on the first day of the LSAT. Speed Chess
will be held on Saturday, November 15th. This is a great event for
those interested in chess.

Arnold Wins
The winner of the Arnold Prize is Arnold J. Smith. For his efforts,
Smith will receive a $50,000 prize and a trophy.

We Want You!!!
Join our team! We are looking for individuals to help with our upcoming
activities. Please contact us for more information.

November 12th
Placement
November 13th
Managing Director
November 14th
Director of Operations

Ah! The Pressures of Modern Society

To the Editor:

II/T/V explained and defended

This is the last time I try to get in here. The night a CIGO program is due.

Tech-Turkey

To the Editor:

My favorite of the II/T/V jokes is the one about the two universities that decided to merge. They were both II/V's, and they wanted to be one large III/V. They never actually got the project started, but they did get the turkey to eat.

Red China Praise

To the Editor:

The Nov. II/T/V Round Table was a great success. The students, faculty, and staff all enjoyed the lively discussion and the excellent food. We look forward to future rounds.

Ignorance is Bliss

To the Editor:

A friend of mine, who was a student at II/T/V, once told me that "ignorance is bliss." I asked him why he was so ignorant, and he replied, "Because it's easier to ignore the things that I don't understand."

Letters Policy

Letters should be no longer than 500 words. They may be edited for clarity, style, or space.

More Sammy Hagar

Sammy Hagar is one of those rare commodities who have made it in this industry with sheer power and some raw emotion. The man has taken it all, from his days in the Montrose era band, to his days in the Van Halen band, and then finally to his solo career. His music is a unique mix of rock and roll, with a touch of country.

Hagar's solo career has been marked by a string of hit songs, including "Rock'n'Roller," "Ain't That a Kick in the Head," and "I'll Never Miss You." His live performances are legendary, and his albums continue to be popular.

In addition to his music career, Hagar has also been active in the world of business, with interests in various companies related to the music industry.

Hagar's success story reminds us that hard work and dedication can lead to great things, even in the cutthroat world of entertainment.

Make the Oct 1st release date for "In the Heart of the Fold" one of the most anticipated of the year.
And in This Corner —

Is Soccer Squad Standing Still?

The IIT soccer team seems stuck on the margin of a winless streak, allowing the cellar-dwelling hurlers to be in the enviable position of being on top of the conference. The club has been there before, but this time the door seems a bit more solid. The season ended with a record of 2-10-1, which was good enough for second place in the conference. The team had a few bright spots, including a 3-2 win over Northwestern and a 2-0 victory over Marquette. But the team also had a few disappointing losses, including a 7-0 loss to Northwestern. The team will have to work hard to return to the top of the conference next year.

Serves and Spikes Sweep School

The serving and spiking machine that is the volleyball team has been on a roll. The team has won six of their last seven matches, including a 3-0 sweep of the conference leaders. The team has been led by standout players like Emily Williams and Katie Angell. The team will look to continue their winning ways next season.

IIIt Puts Purdue's Pipers on Ice

The Hoosiers edged Purdue 3-2 in the final game of the season, leaving the Boilermakers with a 5-10-1 record. The Hoosiers took the lead early and never looked back, winning 3-0 in the first period and 2-1 in the second. The Boilermakers were unable to keep up with the Hoosiers' attack and were blanked in the third period.

Delts Capture IM Soccer

The Delt's won the IM soccer tournament, marking the second time they have won the title in the past three years. The team finished the tournament with a record of 11-0, allowing no goals in their final two games. The Delt's will look to continue their dominance in the upcoming season.
