Martin Optimistic About IIT's Future

by Bill Sted

metal plate in the middle of a book is an indicator of the metal's quality. The plate shows the metal's thickness, shape, and any imperfections. It is a common practice in the metal industry to provide a metal sample with each order to ensure the customer's satisfaction. The metal plate is usually a piece of the metal that was used in the manufacturing process, and it is compared to the final product to ensure consistency. The metal plate may also be used for quality control and to verify the specifications of the metal.
This is the semester to get your programmable.

The TI-55. Its self-teaching system gets you programming fast.

FREE. When you buy a TI Programmable 59 or 79 you can get this Pogram Leasure Library.

A $95.00 value if you act now.
MR. VASAN'S ADDRESS

The student's variety of interests expressed in a program such as ours, with major emphasis in business administration, is reflected in the diversity of meetings and activities throughout the semester. The variety of organizations, the school newspaper, the yearbook, the radio station, and the television station are but a few of the organizations that provide leadership opportunities.

From the advice I have received, I can say that you must work hard. You should strive for excellence. You must be prepared for the type of life you will face in the business world. This will require you to study hard, to prepare yourself, and to be ready for the challenges that lie ahead.

Questions and Answers

1. What is the purpose of the meeting?
2. What are the requirements for membership?
3. What is the time commitment for the club?
4. What are the benefits of joining the club?
5. How do I get involved?

Further information can be obtained from the club advisor or the university student affairs office.

John Leonard (left) and John Thalman (right) display their awards given at the awards banquet. The awards were given for outstanding performance in the field of business administration. The awards were presented by the university's student affairs office and the business administration department.

The meeting was attended by approximately 50 students and faculty members. The meeting was held in the university's student center auditorium. The meeting was chaired by Mr. Vasan and was also attended by Mr. John Leonard, Mr. John Thalman, and Mr. John Thalman, who were all recipients of the awards.

The meeting started with an introduction by Mr. Vasan, who welcomed everyone to the meeting and introduced the agenda for the night. The agenda included discussions on the purpose of the meeting, requirements for membership, time commitment, benefits of joining the club, and how to get involved.

Questions were asked by students and faculty members, who expressed their interest in joining the club and asked for further information. Mr. Vasan and Mr. Leonard answered these questions and provided further details about the club.

The meeting ended with a closing remarks by Mr. Vasan, who thanked everyone for attending the meeting and encouraged them to get involved with the club.

Curriculum Changes ... Stop and Think

The Amherst College of Engineering is about to begin what may be its most important undertaking in recent years — curriculum revision. The effort was brought about last fall when the college made a request for further study since that time information from the ECEP, which assesses engineering programs, has made it obvious that changes must be made in the near future. Dr. Martin and Dean Wilson have both indicated that during this school year plans will be formulated for a revised engineering curriculum.

Due to the importance of this project, it seems only proper to offer some brief comment.

• A major need that has been expressed is to create more "flexibility" within the engineering programs. It should be noted, however, that flexibility is not synonymous with innovation. Programs created during the past decade for elementary and secondary schools, which were geared at maximum freedom for the student, have failed. Basic skills, such as reading and math, have remained uniformaly and many programs have still failed.

With this in mind, the new curriculum should definitely be based on the student's background in his major and, while offering engineering courses earlier than the fourth semester is an excellent idea, a thorough background is a necessity for the higher level courses.

• Engineering is not an easy subject to master, and the new curriculum should not attempt to make it easy. Classes diverse in backgrounds of ITE students, it is inevitable that some students will not succeed in the engineering program during the curriculum requirements in order to allow more students complete the program would be an injustice to these students who came to ITE seeking a top-notch engineering program, and would only hurt IIE in the long run.

• As the new curriculum is designed, it should be fully documented. When the original plans for the curriculum were made, they were developed without any extended consideration of the various course requirements, class sizes, and changes in individual course descriptions. Some have been brought in. With these decisions reached, and in the light of the new planning, the design should also be made to allow an intelligent decision on the subject.

One of the most important steps that should be taken is to include students in the decision-making process. The students are the ones who must take the courses and who will ultimately benefit (or suffer) from the new curriculum.

letters

Misleading Students?

Dear Editor,

I am a student at Amherst College and wish to bring the campus community's attention to a misleading policy that has been in effect on campus for quite some time. The policy, administered by the Dean of Students, is designed to protect students, but seems to be unnecessarily strict.

The policy requires that all students register for classes every semester. This is particularly confusing for students who have already completed their degree requirements. As a result, students are often misled into thinking that they need to register for courses they have already completed.

I believe this policy is unnecessary and should be reevaluated. It would be more appropriate to allow students to choose whether or not to register for classes, based on their personal needs and circumstances.

Sincerely,

[Signature]

Letters Policy

The campus community is encouraged to submit letters to the Editor. All letters must be signed and are subject to editing for clarity and space. Letters that are published will not necessarily reflect the opinions of the editorial board or the Amherst College community.
APO Spells Service

Technopinions

APO

Listen Smokers: You don't have to wait 20 years for cigarettes to affect you. It only takes 3 seconds.

In just 3 seconds a cigarette makes your hair feel hot. Touch your hair in places around your face and you'll see a difference in just a few seconds. Marcin has been smoking 20 years and says it affects his hair. His hair is now dry and brittle. After 3 seconds you can feel a difference. The longer the cigarette burns the hotter it feels. It's not just a feeling, it actually makes your hair feel hot. So if you're a smoker and notice that your hair is becoming dry and brittle, you might want to think about quitting.

The Annual Book Sale will be held on October 1st. The sale will run from 9:00 AM to 5:00 PM and will include a wide variety of books, including fiction, non-fiction, and college texts. All proceeds will go towards supporting the APO student newspaper.

WOU is looking for a part-time worker to assist with general office duties, including answering the phone, typing, and filing. The position is open to students and non-students. Interviews will be held on Tuesday, September 25th, from 1:00 PM to 3:00 PM in the Administration Building, Room 201.

The Music House is hosting a concert featuring local performers. The event will take place on October 5th at 8:00 PM. Tickets are available at the door for $5.00.

Chapel Hosts Priest

The Reverend Father Louis will be the guest speaker at the Chapel service on Tuesday, September 25th. Father Louis will be speaking on the topic of love and relationships. The service will begin at 10:00 AM in the Chapel of the Cross.

ITF Hockey Club Meeting

The ITF Hockey Club will hold its first meeting of the season on October 15th at 7:00 PM in the Alumni Center. All students and faculty are welcome to attend.

**Announcement Deadline**

Entries for the October issue of Technopinions will be accepted until October 15th. Please submit your entries to the office of the APO Student Newspaper, located in the basement of the Administration Building.
**Kritics Korner**

By Joe Hughes

The do-it-yourselfers that scoop up every junkyard, garage, basement, and department store, are the perfect target for D.I.Y. (do-it-yourself) enthusiasts. They are the ones who break through the barriers of ignorance, who build houses, paint cars, and fix appliances. They are the300 Golden State Drive, Los Angeles, CA 90068, USA.

**Bleacher Bums" a Hit**

The sitting is free and fun at the Ogden Theatre Company's production of "Bleacher Bums." Partial deafness is not a bad thing, according to actress Maison Gittens, who plays the lead role. "Bleacher Bums" is a musical play about the lives of Chicago's bleacher people, who live in the stands of the old Comiskey Park. The show opens next week and runs through the end of the month.

"Bleacher Bums" is a musical play about the lives of Chicago's bleacher people, who live in the stands of the old Comiskey Park. The show opens next week and runs through the end of the month.

Curtis is just one of the four people in the cast. Other characters include John Douglas, who plays the lead role, and Nancy Lockhart, who plays the mother. The music is by John Cacavas, and the book is by Charles Leland.

**Martin Speaks Out**

continued from page 1

What's this: a new event on your campus? The play has been a success so far.

Martin: The "Bleacher Bums" opened last week, and we're getting good reviews. It's a hit! The audience is enjoying it, and I think it will be a big success.

CITIZEN OVERS

These guides allow students to compare the contents of each textbook and identify the ones that are most helpful. They can be used to supplement lectures, and they also provide a list of additional resources that may be useful to you. The guides are available at bookstores, libraries, and online retailers. The authors, who are all former students, have used these guides to help them prepare for exams and assignments. The guides are also available for free online.

Before you start exam avoidance, consider the following:

- Make sure you understand the material before you begin studying.
- Consider taking notes during lectures.
- Use flashcards to help you remember important concepts.
- Practice with previous exam questions.
- Ask your instructor for help if you need it.

By following these tips, you can be sure to get the most out of your textbooks.
