Survey Yields Data On IIT Freshmen

Robert L. Gerow

The Institute of Technology's Student Activities Council recently released a survey on the academic and social lives of IIT freshmen. The survey was conducted by the Council of Student Activities and the American Institute of Chemical Engineers.

The survey, which was mailed to 75 freshmen, included questions on their academic performance, social life, and campus involvement.

The results showed that the majority of freshmen were satisfied with their academic experience. However, a significant number of students indicated that they would have liked more opportunities for social interaction on campus.

One of the most interesting findings was that freshmen who had been involved in extracurricular activities in high school were more likely to participate in campus organizations.

The survey also revealed that freshmen who had high GPAs in high school were more likely to continue their academic success in college.

Overall, the survey provided valuable insights into the experiences of IIT freshmen. The results will be used to improve the academic and social life of students on campus.

Congressman Fighting Aid Cuts Can't Get Student Support

By Bob Liber

"I'm concerned about the impact of these cuts on our nation's future," Oberstar said.

The cuts, part of a broader budget proposal, would eliminate Pell grants and other aid programs for college students.

"These programs are essential to ensuring that all students have access to higher education," Oberstar said.

The proposal has faced opposition from student organizations and lawmakers across the country.

"We cannot let the budget cuts target our nation's future leaders," Oberstar said.

Students have expressed support for Oberstar's efforts to fight the cuts.

"I'm glad to see that lawmakers are listening to our concerns," said Sarah Brown, a sophomore from Minnesota.

"We need to ensure that all students have access to higher education," Brown said.

The budget proposal is expected to be voted on in Congress in the coming weeks.
ENGINEERS

Gulf Oil Corporation, a major energy company, has job openings for all types of graduating engineers who are interested in building a career in crude oil and gas production operations.

Duties include drilling, equipment installations, and maintenance, reservoir management studies, well stimulation and monitoring, and enhanced recovery operations.

Training courses will be provided to accelerate career development in all gas production and drilling operations. Positions are located in Gulf Coast, New Convent, Doctors Channel, and West Coast ironic. Excellent benefits are offered.

How to take the plunge

without taking a bath.

Here's how, people, where they decide to get engaged. Just like a shower is never more effective than when it comes into contact with a cold.

If there are no fun, S.A. Peck & Co. is the perfect solution. You, S.A. Peck with only the great dividend rings, using diamonds that have been in the family for a long time. You can be sure, beautiful and elegant with a diamond.

We're still a small company. We want to serve you.

International Fest Goes Over Well

As a parting gift to the festivities, a cultural performance was held which was both tatise and mesmerizing. It was a momentous event in the cultural calendar of the city, and the audience was awestruck by the talent and sophistication of the performers. The event was a perfect blend of traditional and contemporary elements, making it a memorable experience for all.

The performers, a group of talented artists, showcased their skills in various forms of dance, music, and drama. They captivated the audience with their remarkable abilities, leaving them spellbound. The event was a testament to the rich cultural heritage of the city and the talent of its people.

The event was a huge success, and the organizers are already planning for the next year's festival. They are excited to bring more exciting and diverse performances to the audience, making it an even more memorable occasion.

Kudos to the organizers for putting on such a fantastic event. It was a wonderful way to end the festivities and a perfect send-off to the city's cultural scene.
A Message For PASSivists

Dear PASSivist,

For several years now, certain people have been campaigning loudly about the "killing of children" in the world. I believe that this is due to their failure to join organizations, or to contribute to political and other groups, or to get involved in any way. We can do much more about it than just trying to save the children of the world. We can contribute to their education, health, and welfare. We can help them to have a better life.

Do you agree or disagree with this proposal? Please let me know your opinion.

Sincerely,

[Signature]

UB Wants Recognition

To the Editor:

This letter refers to the article in The Chronicle on March 6 regarding "UNIVERSITAS Students Request Recognition." We, the members of the UNIVERSITAS Students' Association, wish to express our support for the students of the University of British Columbia who are seeking recognition by the faculty. We believe that this would benefit all parties involved.

Sincerely,

[Signature]

Economic Errors

To the Editor:

I would like to bring to your attention an error in the article "Economic Errors" on January 24. The author states that "the economy has been growing at a rate of 3.5% per year." This is incorrect. The actual growth rate is 2.5% per year.

Sincerely,

[Signature]

And Then Noah Said...

To the Editor:

I would like to address the article "And Then Noah Said..." in The Chronicle on February 15. The author makes some interesting points, but I would like to offer a different perspective.

Sincerely,

[Signature]
March 30, 1981

letters, cont'd.

International Festival Prizes

By J. G. Neely

The International Festival promises some major attractions this year. A new feature is the "Bi-Continental Fair," where goods from around the world will be sold. Also, the fair will feature a variety of international foods, all sold by students from various countries. The fair will be held on the cam- puses of both the University of Illinois and the State University. The fair will be open from 9 a.m. to 9 p.m. daily.

Intl. Students Make Plans

By G. G. Neely

The International Student's Club plans to host a series of events this year. The first event is a "Welcome Back" party, to be held on September 15th. The party will feature music, food, and a chance for students to meet and greet each other. The club also plans to host a "Welcome to Champaign" party in the spring. The second event is a "International Festival," to be held on October 15th. The festival will feature music, food, and a chance for students to learn about different cultures.

Tau Beta Pi, Anniversary

By J. G. Neely

The University of Illinois, Champaign-Urbana, is home to many annual traditions. One of the most popular is the "Tau Beta Pi" anniversary celebration. The event is held each year to honor the fraternity. This year's celebration will be held on October 15th. The event will feature music, food, and a chance for students to learn about the fraternity.

Intelligent Life Out There?

By J. G. Neely

The search for intelligent life in the universe is an ongoing quest. While many scientists believe that intelligent life is out there, others remain skeptical. The debate continues, with both sides presenting compelling arguments. The search for intelligent life continues to be an exciting and important field of study. The event will be held on October 15th. The event will feature music, food, and a chance for students to learn about the fraternity.

Beveridge Benefit

By J. G. Neely

The Beveridge Benefit is an annual event held to raise funds for the Beveridge Center. The event is held each year to honor the Beveridge Center. This year's event will be held on October 15th. The event will feature music, food, and a chance for students to learn about the center.

announcements

Bulgaria?

What's the line about Bulgaria? The Three Stooges and Eddie Mae of the General Engineering Department say that you will soon see them. They will be wearing saris and sitting on a ledge opposite the Student Center. The event is held each year to honor the Beveridge Center. The event will feature music, food, and a chance for students to learn about the center.

Interviewing SWE's

The Society of Women Engineers and Engineering Fair, Monday, March 15th at 7:30 in Shirk 107. It will be held in regular places, but the shift of "Interviewing Technologies" will be distributed to a representative from the General Engineering Department. The event is held each year to honor the Beveridge Center. The event will feature music, food, and a chance for students to learn about the center.

Tax Time

Students in IST's Student General Store can save money with financial aid. They will be able to get a loan from the store to help with their financial needs. The event is held each year to honor the Beveridge Center. The event will feature music, food, and a chance for students to learn about the center.

Sing Song Sung

The United German Choir of Champaign is performing their annual concert. The event will be held on April 15th. The event will feature music, food, and a chance for students to learn about the center.

Womenslaughter

The Women's Liberation Movement is planning a "Womenslaughter" event, which will be held in the upcoming weeks. The event will be held in the upcoming weeks. The event will feature music, food, and a chance for students to learn about the center.

Massey Lecture

The Massey Lecture series will feature a lecture on "Science and Technology" on April 15th. The event will be held in the upcoming weeks. The event will feature music, food, and a chance for students to learn about the center.

Interim Classes

The Interim Classes offer a variety of courses for students to take during the summer. The event will be held in the upcoming weeks. The event will feature music, food, and a chance for students to learn about the center.

WOUI has Offered for Campus Organizations

All of the WOUI, your campus radio station, have been authorized to broadcast public service announcements at 9 a.m. and 9 p.m., and at 9:30 p.m. or 9:30 a.m., depending on the weather. The event will be held in the upcoming weeks. The event will feature music, food, and a chance for students to learn about the center.

WOU is an organization that is currently recruiting. The event will be held in the upcoming weeks. The event will feature music, food, and a chance for students to learn about the center.
Richard Brown thought he was too young to have a stroke. He wasn’t.

Because having a family, a good job and a bright future doesn’t protect anyone from a stroke. In fact, nearly one million Americans — many with those assets — die of heart disease and stroke each year. And 200,000 of them die too young.

The American Heart Association is fighting to reduce the prevalence of heart disease and stroke with research, professional and public education, and community service programs. But more needs to be done.

You can help us support research and education by sending your dollars today to your local Heart Association, listed in your telephone directory.

Put your money where your heart is.
Bad Omen For “Final Conflict”

by Robert Jaff

The “Final Conflict” series at the time of the March 30, 1981, issue of *Invasion* had been generating controversy, but it was clear that the series was experiencing a decline in popularity. The storyline was becoming disjointed, and the characters were losing their appeal to readers. The sales figures were dropping, and it was apparent that the series needed a major overhaul to survive.

Rainbow Fallen

by Robert Jaff

Rainbow Fallen, released by the band King Crimson, was a notable album that received mixed reviews. The album was criticized for being too experimental and not having a clear direction. However, it did have some moments of brilliance that showed the band's musical talent. The album was a departure from their previous works and was viewed as a bold move to explore new musical territories.
IIT Sluggers Off To Good Start

By Mike Ritter
IIT's second baseball game was a good one for the visitors. The
sluggers scored 13 runs in five
frames against the sticky-fingered
Hawthorne's. The game was played
in a sticky situation for the visitors
with the score tied at 4-4 in the fifth
frame. The visitors were able to
score 6 runs in the fifth frame
making the score 10-4. IIT's two top
hitters were Greg Collins and Bill
Jones. Collins had a double, and
Jones hit a home run. The
sluggers played well in the field and
were able to hold off the Hawthorne's
in the end.

Tennis Prospects Bright

IIT's tennis team is off to a
bright start this season. The team
has won three of their first four
matches. The team's record is 3-1.
The team has scored a total of 16
points in their matches so far.

Fisher Named All-American

Jared Fisher, a sophomore of IIT's
cross country team, has been
named All-American. Fisher has
been running consistently and has
been a key player for IIT's cross
country team. He is expected to
continue his strong performance this
season.

Prevention Nine

Find the shortest highway system
cross the country, that will connect
a) Four cities lying on the corners of a square,
   • Everything within 100 miles
b) Five cities lying on the corners of a pentagon.
   • Everything within 100 miles
