Get some "Hands On" experience

Major Chicago area universities are invited to participate in a unique program of educational and professional development. The program, called I.F. INTERNS, directs students towards careers in the field of compensation and benefits. This is accomplished through on-the-job paid summer work experience in area or national firms and supplementary educational seminars.

The value of an internship speaks for itself. It is the key factor in job competition. Providing "hands-on" experience along with professional contacts and technical "know-how," it literally opens the door to a successful career.

I.F. INTERNS is an exceptional opportunity for students willing to explore a growing, dynamic field. Compensation and benefits is cited as one of the top growth fields of the next several decades. It encompasses a broad range of interests and offers a wide variety of career options. Backgrounds in management, marketing, communications, finance, personnel, industrial relations, law, computer programming, and other related fields can all lead to demanding careers in compensation and benefits.

I.F. INTERNS began almost three years ago in Chicago as a pilot program. Now well established, it boasts 31 interns - two of whom are IIT University students - and 26 sponsoring organizations. Last summer, IIT students were employed as interns at The Quaker Oats Company and Apple-Cole General Builders, Inc.

I.F. INTERNS is a challenging opportunity for individuals who are serious about career development. It is open to sophomores enrolled full time at Chicago area universities. Students must have at least a 3.0 GPA (on a 4.0 scale) and anticipate graduation in either Winter or Spring of 1985.

Qualified students are encouraged to visit the IIT Career Planning and Placement Office or obtain more information directly from the I.F. INTERNS staff. Call of write:

Scholarships are there: you have to find them

Students in need of financial aid for next fall should begin to apply now for the thousands of scholarships being offered by private foundations, trade and civil groups and other sources. There are over 25,000 different scholarships available, according to the director of The Scholarship Bank. Scholarships are available from tax exempt foundations that are required by law to make a certain amount of financial aid available each year in order to maintain their tax-exempt status.

The Scholarship Bank matches students with available aid and sends the student a print-out of the private financial aid sources that appear to be most promising for that student. Each student may receive up to 50 sources of aid. Most scholarships have a value of approximately $1,000 and many are renewable annually. Financial need is only one of several criteria to receive aid. According to The Scholarship Bank, major in college, occupational goal, geographical preference, military service of the student or his parent, employer, union membership, academic standing, ethnic heritage, and whether the student is interested in work-study, loans, essay contests and the like all determine eligibility for aid.

Students wishing to receive a print-out should send a stamped, business-size self addressed envelope to The Scholarship Bank, 10100 Santa Monica Blvd., No. 750, Los Angeles, CA 90067. A questionnaire for the student to fill out describing him/herself will be sent back to the student and the applicant then can receive the personalized information.
For how many different positions of point P, in the plane of \( \triangle ABC \), will \( \Delta PAB \), \( \Delta PBC \), and \( \Delta PAC \) all be boundaries of regions which have equal areas?

Solve it and you could win a $5 purchase from the Bog.

All entries must be accompanied by your name, phone, and address. Drop off entries at Tech News, 5th Main, by March 11, 1983.

The Winner!!!! Owen Ward

The winner should pick up his prize by noon, March 4, 1983.
announcements

Lenten Devotions

The IIT Chapel will hold Lenten evensongs, a short service of the word and the Holy Communion, from 12:20 - 12:40 p.m. each Wednesday throughout the Lenten season. The IIT Chapel is located at 32nd Street between Wabash and Michigan Avenues just north of the Residence Hall complex.

Wind drag vigilante

The American Institute of Aeronautics and Astronautics will be sponsoring a colloquium presented by Dr. H. Nagi, Mechanical Aerospace Engineer of IIT, on “Aerodynamics Research for Airplane Design” in Eddy group of IIT, Wed., March 27 at 12:10 in Room 212 E1. A tour of the IIT Wind Tunnels will immediately follow the colloquium. Bring a bag lunch, all are welcome.

Intramural ball

Intramural softball will start Tuesday March 22. Games will be Tuesdays and Thursdays from 12-2 p.m. Deadline to sign up will be Thursday, March 10.

Good badminton

Badminton and a Student vs. Faculty tennis tournament will be the other Spring Intramurals. Deadline to sign up for these events will also be March 10. Sign up in Keating Hall. For more information, call Chris Meyer at x399.

Women’s softball

There will be a meeting of all those interested in trying out for the IIT Women’s Softball Team on March 4, 1983 at 3:30 p.m. in Keating Hall.

Students on Stage

UCBS presents: The Chicago Colleges Talent Show, Friday March 4th at 7:00 p.m., in the Grover M. Hermann Hall Auditorium. Tickets are $2.50 at the door.

Get a load of this!

The Physics Department will present a colloquium entitled "Maxwell Diffusionless Phase Changes in Solids with Special Reference to Martensitic Transformation and Shape-Memory Materials" by Dr. Ahmed A. Gатачев of IIT on Wednesday, March 2, 1983 at 12:00 p.m. in Siegel Hall Room 217. There will be a pre-colloquium social in the Conference Room of Siegel Hall (202) at 11:30 a.m.

Wanna be an RA?

Applications for Resident Advisor positions are now available at the Student Life Office. If interested please call (561-3000) or stop by the office. Applications and recommendations are due by March 21.

It’s time for aid

Financial aid applications for the 1983-84 academic year have been available late January, from the Office of Financial Aid, Room 212, Main Building. Students are asked to go to the office to pick up applications. Students are urged to submit their 1983-84 Financial Aid Forms (FAF) of the College Scholarship Service (CSS) by March 1, 1983, and no later than May 1, 1983, to receive consideration for all available forms of financial aid.

Bookswork observe

The spring break IIT Library hours are as follows: Sat., 12-3:00; closed; Sun., 3-7:00; closed; Mon., 3-14 through Fri., 9-12; 9:00-11:30; Sat., 9-3; closed; Sun., 3-7, regular hours. Please note that this is a change from Spring Semester hours issued 1-10-82.

Be bullish on Tech

There will be brief organizational meeting of the IIT investment club at 12:30 p.m. Tuesday, March 1 and at 5:45 Wednesday, March 2, in Room 204 Stuart Bldg.

All IIT students, faculty and staff are welcome to attend one of these sessions. If your club has funds available to invest on the basis of group analysis and decisions. Learn more about making profitable investments.

For more information, contact Randy Spunt at x5941.

See yourself

The Religious Studies and Biblical Studies Group will hold a dialogue on “Religious Self-Image and In Relation to Life-Values and Commitment”, as expressed by Carl Rogers. The group’s meetings are each Thursday in the Crown Conference Room (SE area of the HUB) at 12 noon.

Honor Frat for MMAE’s

The number of awards per year is not specified, but it is expected that up to ten awards per year would not be unreasonable. The selection procedure is outlined as follows: The nomination of a particular student must be made by a faculty member. A one-page abstract of the project activity and results will be included along with the nomination form. Next, the nomination should be endorsed by the Department Chairman. The nominating faculty member should have a complete report on the project available for inspection by the Department Chairman or other faculty members of the Department. Upon endorsement by the department, the nomination should be sent to the chairman of the Sigma Xi Undergraduate Student Recognition Selection Committee.

The selection committee will consist of the Sigma Xi President, Dr. Sudhir Kumar, two immediate past presidents, and two other members of the faculty, one from Armour college, and the other from Lewis college. The two members of the colleges will be nominated by the President of Sigma Xi for a term of two years. Dr. Sudhir Kumar will serve as chairman of the committee.

An eligible student may be selected for an award during any of the semesters of his or her junior or senior years. The formal award, however, will be given at the time of the graduation at thecommencement program.

Dynamnic Careers

Go For It!

Go for a career with a premier company in the ultramodern toy industry — where worldwide sales exceed $200 million; where creativity is the constant; where products of excellence and sophistication in manufacturing and operations, marketing and distribution are the order of the day.

Go for our dynamic environment that spares continual adventure — where opportunity for personal contribution is unsurpassed and the challenge to keep pace with an unceasing quest for new products ignites ability and advance careers without fearing the fun behind.

Go for Cincinnati, the Queen City of northern Ohio and southern Kentucky — one of the most attractive living areas in the country. You’ll enjoy our city’s acclaimed downtown and waterfront, its dazzling variety of recreation, fine institutions and moderate, four-season climate.

Go for Kenner Products, a subsidiary of General Mills, whose remarkable success and ambitious goals have created positions for equally ambitious Mechanical Engineering Graduates.

If you’re unable to interview with us, forward your resume for complete Information to: Personnel Department, Kenner Products, 1714 Vine St., Cincinnati, OH 45208.

**Healthful hints from E.T.**

by Ernie Talarico

Two diseases have been having an extremely high occurrence in men are lung cancer and prostate cancer. Both diseases are very deadly, and can render one's life unproductive.

The prostate is a secondary sexual gland with several lobes; it lies just below the urinary bladder. Overall, the incidence of prostate cancer in 1982 was 73,000 new cases in the United States, accompanied with a mortality rate of 20,000. In addition, these rates seem to be increasing (as with lung, breast, and colon cancer). Unusually, the disease is more frequent in elderly men, however it can occur in young men (usually between twenty and thirty). In this case, the cancer is usually more aggressive. Prostate cancer is the number three killer of men between the ages of 55-74, and becomes the number two killer, second to lung cancer, in men past the age of seventy-five.

There are basically two types of prostate disease: 1) benign prostatic hypertrophy (BPH), and 2) adenocarcinoma of the prostate (ACP). BPH is basically an IIT is offering a course in oncology (the study of cancer and tumors) next Fall. Call x4380.

**Civician Career Opportunities**

The Naval Ship Weapon Systems Engineering Station, Port Hueneme, California

Has Immediate Openings for:

**ELECTRONIC ENGINEERS**

If you will be graduating this year with a B.S./M.S degree in Electrical or Electronics Engineering, we would like to talk to you about the opportunities being offered by our staff of approximately 600 professional engineers in such areas as technical software, digital computers, missile testing, launching systems, fire control systems, radars, and test and evaluation in support of U.S. Navy ships. Travel required in most positions. Flextime. Civician service benefits.

Our representative will be on campus to interview students on Wed., March 9

---

**Pilotobus Dancers to perform in Skokie**

Pilotobus Dance Theatre, which is known for its unique blend of gymnastics, theatricality and dance, will appear in two performances on Friday, March 4 and Saturday, March 5 at the Center East in Skokie. The group takes its name from a genus of propophylactic and is as unique as their name. Many of their works, or choreographed collectively, or without an artistic director, a process which the company feels maximizes their creativity and energy.

Both performances feature Molly's Not Dead, and the Chicago area premiere of Elag for the Moment and Day Time. Molly's Not Dead, an exuberant piece with a series of twists, turns, embraces, seductions, is set to country and folk music.

A Chicago area premiere, Elag for the Moment, was choreographed in 1982 by Alison Chase, a dancer instructor at Dartmouth for three years before she joined Pilotobus in 1973.

Day Two, also a Chicago area premiere, is performed to music by David Byrnes, Brian Eno and The Talking Heads. The dance, while collectively choreographed, is under the artistic direction of Moses Pendkin, one of Pilotobus' founders.

Pilotobus' pieces, unlike most of Pilotobus' repertoire, resembles a formal dance work.
Mr. Rogers saves the day at WOUI

Manager and fearless leader at WOUI. The results of this decision prove that the search was worth the effort, since the station has been run mainly by students in the past. When I first arrived at WOUI, I noticed that the station was slowly deteriorating. While student interest was more intense back then, the programming factor was still missing.

Bob came to BNI at the beginning of the Spring 1983 semester. His accomplishments are noticeable. Regular listeners are constantly calling in on the phone lines (567-3088) to request a favorite song or to comment on a DJ's show. This sort of communication, with an audience serves as a complement and provides encouragement plus

Mr. Rogers is in office, a complete overhaul of the station has begun. New equipment has been installed, including new microphones and much needed tone arms for the turntables. The station has even purchased a set of headphones, which had been supplied by individual DJs in the past. Furthermore, Bob has been busy keeping an eye on the budget and has taken the transmitter problem to the phone lines which link the studio to the transmitter. Representatives from the phone company were immediately called in to correct the situation. As a result of the fast action and generous response on the part of the new station manager, WOUI is

Student organizations are welcomed to submit announcements to be aired over any of the radio shows. The HUB Recreation Room and Union Board Films are currently providing prizes to be awarded to listeners of one particular radio program in return for the broadcasting of promotional messages over the airwaves. It would be nice if the station were to solicit a higher status as a radio entity, whereby record companies and distributors may wish to donate materials to WOUI.

We welcome any interested individuals to stop by for a tour of the facilities high atop Main Building, and we beg those who live on or near the campus to tune their dials to 88.9 FM.

Why not you too?

Diplomacy and foreign policy: part 1

One of the diplomats whose name is often mentioned in connection with the League of Nations was Sir Harold Nicolson, who had been the British ambassador to the League before the outbreak of World War I. He was a man of high ideals, but his efforts were not always successful. In 1918, when the United States entered the war, Nicolson returned to Washington as the American ambassador to the League. He worked hard to secure American support for the League, but his efforts were not always successful. In 1920, when the United States finally joined the League, Nicolson was appointed as the American delegate to the League. He continued to work for the League, but his efforts were not always successful. In 1922, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1925, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1928, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1930, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1932, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1934, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1936, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1938, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1940, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1942, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1944, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1946, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1948, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1950, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1952, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1954, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1956, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1958, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1960, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1962, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1964, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1966, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1968, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1970, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1972, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1974, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1976, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1978, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1980, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1982, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1984, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1986, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1988, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1990, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful. In 1992, when the League was dissolved, Nicolson returned to England as the British ambassador to the United States. He continued to work for the League, but his efforts were not always successful.

The newsmen work hard to deliver the news accurately and及时.
Are you good enough for UnionBoard?

Undergraduate students are faced with many questions and decisions during their college years. There are big issues such as “What will be my major?” or “Will I live on or off campus?” There are more emotional issues involving roommates, friends and male-female relationships. Then there are minor, day-to-day decisions, such as “Will I get up for breakfast?” or “Who will I ask to the Taylor concert?”

But all the decisions faced on the curricular side of student life, the biggest and most far reaching, deal with involvement and leadership in student organizations. This involvement can have an important impact on friendships that develop, the focus of a student’s non-academic life, the time available for all pursuits (including academic), and the development of marketable skills through practical experience. A student’s general sense of accomplishment and sense of value in the university community may be closely linked to these choices.

This article focuses on those decisions dealing with leadership in student organizations. Before moving into that area, however, it would seem appropriate to briefly touch upon a few more basic questions regarding student involvement.

The choices in campus activities are much more complex than they seem. There are five factors which should enter into a wise decision concerning involvement in organizations: What are your personal needs and values? Are the values of the group(s) you are considering compatible with yours? Do the activities of the group(s) you are considering compatible with you? Do the activities of the group(s) show promise of meeting your needs? Will the group(s) allow you to enough freedom? Are the goals of the group(s) ones that you would like to help achieve?

It is only when these questions have been addressed and responded to affirmatively that a student should consider a leadership position in a particular group. Should the responses be negative, the individual should give serious consideration to withdrawing from membership unless he/she feels desirous and capable of affecting changes which will bring the group in line with his/her goals, values and needs. Assuming a leadership position with the anticipation of making major changes is both risky and challenging, yet it is a common occurrence in groups which have lost their sense of purpose and direction.

With conscientious efforts, good commitments, student leadership can be, and often is, a challenging and rewarding experience. With proper preparation and a little luck, student leadership can provide some of the most memorable experiences in collegiate life.

Union Board, with the cooperation of Hermann Hall, will be showing the final episode of M*A*S*H tonight at 7:00pm. There will be a television set up in the band room-accessible through the Bog along with plenty of seating. Food and beverages from the Bog will be allowed in the room.

Don’t miss the boat! Be onBoard!

The few, the Proud, the Union Board
The Adventures of Penway

On the edge of campus, bordering on the Edge of the World, stood the school's eighteen-story research building. Constructed in the style of the rest of the campus, it resembled a high-rise eyewax palace. The sky, merging with the horizon. The sun was setting, casting a golden glow over the city below. The sky was a canvas of vibrant colors, with hues of orange and yellow blending into the blue. The clouds were scattered, creating a picturesque scene. The city below was illuminated with a soft, warm light, casting a serene atmosphere. The scene was breathtaking, as the sun set over the city, creating a beautiful silhouette of the high-rises. The sky was a vibrant canvas of colors, with the sun setting on the horizon, casting a warm glow over the city. The city below was illuminated with a soft, warm light, creating a serene atmosphere. The scene was breathtaking, as the sun set over the city, creating a beautiful silhouette of the high-rises.
Hawks run all over third ranked Chicago State in Keating Hall
by Bill Gallagher

Chicago State, who is ranked no. 3 in the nation in the N.A.I.A. (behind Champlain, the team that beat Virginia), played HT last Thursday in Keating Hall, and lost a great game 83-61.

The Cougars, who are now 22-6 for the season and have beaten the likes of Southern Alabama (who won their conference last year), Western Illinois, and Eastern Illinois, were already 2-0 in Iowa State by two points, and Illinois State All Division 1 schools. They are one of the favorites to win the National Championship.

Coach Topper, when asked about the game, said, "It was an emotionally packed, well deserved victory with a total team effort." He also added that "the consistent play from Bob Gofsky (25 points, 10 rebounds), Gary Muner (19 points, 9 rebounds), and the Demon-like performance of John Pastineki (22 points, 16 rebounds) gave us this victory."

The Hawks led at the half 50-22, with leads reaching 20 points many times in the game, the Cougars were led by Sherrod Avidal with 16 points, a man Coach Topper feels, "is by far a definite All-American."

Also in the highlights were the performances of Frank Ricciardi (11 assists, 15 rebounds), and Brian Bennett (7 assists). One referee after the game called Bennett's performance the "best I've ever seen him play in the seven years I've known him."

Tech Riders may join nat'l club
by Dan Rico

Once again The Sailing Club is in the paper. The first organizational meeting of the season will be held this Thursday in the Hub. The following were elected for this season: Randy Kuntzmann, Commodore; Susan Scott, Vice-commodore; Dan Rico, Secretary-Treasurer, and George Snack remaining as the ex-officio coach.

This season promises to be a busy one. Regattas will be in March and go all the way to the end of school; with the option of competing in one regatta after the end of classes. Most regattas are two day affairs. Generally the boat school throws a party the night before competition and then throws another one after competition. The boat school always provides sleeping accommodations. The only cost is food, and a few hours of your week to practice.

If the weather stays calm, our boats will be in the water by March 15. If you're never sailed before it is especially important for you to sail as much as possible early in the season. We won't be sailing on the open lake, where the water is rough, and there won't be any other boats in the harbor that you'll have to worry about coliding with. Also you might want to start practicing by picking up a copy of "The Practice Guide" published by the American Sailing Association, 43 E. Ohio St., 440-2000. The book contains all the basic knowledge you will need, and you will be constantly referring to it.

There will be plenty of time for everybody to sail. Mondays, Wednesdays, Fridays, and Saturdays we will be leaving HT about 10:00 a.m. We can sail up until sunset, which doesn't mean you will sail the whole time. You might want to bring a lunch or some homework and be in the run for a while. Sailing nights will be held regularly in order for the beginner to accelerate his knowledge of the sport.

Clothing is not something that has to be expensive and elaborate. Rubber-soled shoes are a must; dockside are fine and last forever. You should wear loose fitting clothes to allow mobility but not so loose that they get tangled in the rigging. Also, dress warmer than you would if you were on shore.

Safety is first while you're sailing. Everyone who intends to sail must first pass a swimming test of entering water for five minutes and then swimming 100 yards. While you're in a boat you will also have to wear your PFD (Personal Flotation Device) or simply, life jacket. It must be U.S. Coast Guard approved. If you're not sure about sailing but would like to try it, the club has FFD's; it can loan out for a few days, but it is our hope that everybody purchases one. Remember, if you have any questions, call Ed Palme or George Snook at 336-9000.

Nothing Else Feels Like Navy Flying.

The thunderous roar of jet engines rolls across the carrier's flight deck.

Throttles are at full power, and you're waiting for the signal to launch.

Now. The catapult fires. G forces press you back into your seat. Suddenly, you're flying low and fast over the open sea. Zero to 150 in 2.5 seconds.

Nothing else feels like Navy flying. Nothing. And when you become a pilot or flight officer you're at the very heart of it.

Once you've earned your wings, the Navy puts you in full control of a multi-million-dollar supersophisticated combination of jet aircraft and electronic wizardry.

And Navy training makes sure you're up to the challenge. Rigorous flight training gives you the navigation, aerodynamics and other technical know-how you need.

Leadership and professional schooling prepare you for the immediate decision-making authority and management responsibility you have as an officer in the Navy.

On the ground, as a Navy officer, you work with and supervise today's most highly skilled aviation professionals. In the air, as part of the naval aviation team, you have about the most exciting job anyone can have.

It's a uniquely rewarding job with pay to match. You start at $18,300 a year — more than the average corporation pays you just out of college. After four years, with regular Navy promotions and pay increases, your annual salary climbs to $31,100. That's over and above a full package of benefits and privileges.

Find out how much more a job in naval aviation has to offer. Fill in the coupon. No other job gives you the kind of leadership experience or fast responsibility you get as part of the naval aviation team. And nothing else feels like Navy flying.
