Meet and speak with IIT students

**Trustee conversations**

A number of current IIT Trustees will be visiting the campus during the 1983-84 academic year to meet with students in small informal conversations. A similar series was held in 1976-77 and proved quite popular with students.

Robert W. Galvin, Chairman of the Board of Trustees of IIT and also Chairman of the Board of Motorola Incorporated, led off the series on Wednesday, September 7. Mr. Galvin will open the conversations with general questions of special interest to him — business matters, public issues, personal interests or whatever. The floor will then be open for questions on any subject and should provide a good opportunity for students to get to know one of the major figures in the business and civic life of Chicago. The format for subsequent meetings will be similar.

Each conversation will be limited to 25 students. Some students will receive special invitations based on the interests of the guests, but for each session some places will be held for open sign-up. Students interested in attending may sign-up in the Student Life Office in Hermann Hall.

Several of these discussions are scheduled for later in the year:

- **Monday, September 26:** Jerome S. Goode, Chairman of Hart, Schafffer, and Marx.
  - Active in many civic groups.
  - A native of Chicago.
  - Chairman of the Board of Directors of the Chicago Council on Foreign Relations, and active in many legal groups.
- **Monday, October 3:** L. J. Schrindo, Partner in Baker and McKenzie, the world's largest law firm. He has a PhD in law and earned his law degree from Chicago-Kent.
  - Chairman of the Board of Inland Steel Company and a director of a number of other corporations.
  - Thursday, November 9:
    - Frederick K. Thielbach, Trustee and Chairman of the Board of Trustees of Illinois Institute of Technology.
  - Mr. Lane is chairman of four local banking institutions and is chairman of the Illinois Soccer Association.
  - A number of Trustees have been asked to lead a group of IIT students on a trip to their corporate headquarters during the 1983-84 year. This program was started by Trustee Earle Blandin Corporation in cooperation with Tau Beta Pi and has featured presentations at Sandia National Laboratories and at Frederick Jacks and at Standard Oil of Indiana at a presentation to John Horneman.

**ID students win $41,000**

A team of students from IIT have won over more than 3,000 designates worldwide to win a grand prize in the first International Design Competition in Osaka, Japan. The Illinois Institute of Technology's design for the "House of the Future" won first prize of $40,000 in the competition which is sponsored by the Japan Design Foundation. The houses are considered to be the Olympics of Design.

Twenty-four students from product design, architecture, and city and regional planning competed against entries from professionals, corporations and other students.

**Alcohol abuse and stress**

A new academic year is beginning, there are usually new resolutions that students make: "I really will get all my papers done on time and study three hours every night!" For many students, more every year, these kinds of resolutions may be difficult to keep due to their abuse of alcohol.

Alcoholism is more than a statistic — it is a major national problem which often gets its start in college. The problem drinker affects many lives, those of friends, roommates, relatives, and professors. Often, the problem drinker is the last one to acknowledge that there is a problem. If you or somebody you care about seems to be "over their head" help is available. For confidential information on alcoholism or related problems, call Riveredge Hospital in Forest Park, at (312) 775-6278.

**The House of the Future project is a detailed projection of what a home designed to be responsive to people' needs and using the newest technology could be like in 20 or 20 years.**

The award for the project will be given October 7 in Osaka, and a model of the house will be on display at the first International Design Exhibition in Osaka, October 7-28. Plans for the house, which took about nine months to complete, include everything from a robot that vacuums the rugs and picks up discarded clothing to a sophisticated computer system that warns residents against break-ins and fires.

Library Photocopying Changes

IIT Libraries announces that it has signed an agreement with the Dual Office Suppliers, Inc. to provide photocopying services in the libraries. The installation of Dual's photocopying machines will be accomplished during the first weeks of September.

The new service will allow copies to be made with credit card convenience at a cost lower than was possible with the previous coin-operated machines.

Students, faculty, and staff will be able to pick up blank copy cards in IIT Kemper Library (main floor). From September 12 through September 16 from 8:30 am to 5:00 pm. instruction will be available on encoding the cards with copies and the use of the equipment.
Borrowed art

Prints and other framed pictures which students may check out to keep in their rooms for a semester are available in the Student Life Office in the HUB beginning Thursday, September 1, 1983.

Pictures were made available originally through a grant from the Engineering Students Art Loan Fund established by Mr. E.C. Koepfer, a retired engineer living in Wisconsin. Additional material has been given by Professors Los Grahm and Louis Johnson.

The pictures which are available to be checked out have been on exhibit at the Gage Lounge (east corridor) of Hermann Hall for the past two years. There is a $3.00 charge for insurance, and the pictures must be returned by December 2, 1983. They will be available to students on a first-come, first-serve basis.

Co-op set up

Co-op will be set up in the HUB on Monday, August 29 and Tuesday, August 30, 8:00 a.m. to 5:00 p.m. in Room 306 of Hermann Hall. Come, bring your lunch, and help get the ball rolling. If you are interested in Tech Enterprises, but unable to attend Thursday meeting, drop a note to Professor Richard A. Rettig, Department of Social Sciences, or call him at 367-5292.

Get to know Tech

The series of programs "Know IIT" is designed to provide an in-depth look at activities and services at IIT. These programs are designed particularly with new students in mind but are open to and may be useful for upperclassmen or graduate students. They are scheduled on Thursdays during the "free period" when no undergraduate classes are scheduled. Each program will begin at 12:30 p.m. (The length of the programs will vary.) All meetings will be in the Crawford Auditorium in the Engineering 1 Building.

August 25, An Introduction to IIT, or How Not To Waste Your Money

September 1, An Introduction to the Academic Computing Resources at IIT by Professor Rollin Dit. September 8, Academic Advising and Counseling Resources at IIT: A Meeting with Dean Johanna Findland, Dr. Sander Marcus, and Assistant Dean Normand Zagovori.

September 15, Financing Your Education: A Meeting with Dr. Charles Reitzel. September 22, Professional and Honor Societies: A Meeting with Officers of Some of the Groups who will Explain their Services and Benefits.

September 29, Cooperative Education and Placement:
A Meeting with Dr. Harvey Idles. October 6, Being Active at IIT and in Chicago - Things To Do and See: A Meeting with Assistant Deans Janice Dawson and Robert Morgan and Program Director Wallace Goode.

James Vice, Dean of Student Life, will serve as host for the meetings. For further information, call or stop by the Student Life Office in Hermann Hall (367-3080).

Prep for Co-op

If you are interested in applying for a Cooperative Education position to begin this spring, you will need to attend the Cooperative Education Preparation Seminar.

The Co-op Office has scheduled two sessions per week for each topic area, so check your schedule and plan on attending the one most convenient for you. The sessions will be held in the following sessions:

Session 1: Introduction to the Cooperative Education Program and Resume Preparation.—Tuesday, September 6 from 5:15-6:15 p.m. and Thursday, September 8, 6:00-7:00 p.m.

Session 2: Career Directions and Work Assignments.—Tuesday, September 13 from 5:15-6:15 p.m. and Thursday, September 15 from 5:00-6:00 p.m.

Session 3: Interviewing Workshop with Corporate Recruiter.—Tuesday, September 20 from 5:15-6:15 p.m. and Thursday, September 22 from 6:00-7:00 p.m.

In addition you will meet at least once individually with your Co-op Advisor. We look forward to seeing you in the future.

Due to machine failures, Tech News is only a mere shadow of what it could have been. We apologize for any inconvenience.

"We're starting from scratch with an eye toward future development. It's the first time in many years that the paper has been completely redesigned. We're going to try to get the best out of Tech News: high quality, high production values, and a strong focus on local news and features. We're looking forward to working with everyone to make Tech News a success." —Andrew F. Johnston, Business Manager

The Athletic Department is expanding its sports program for women this fall. Among its new offerings is a first intercollegiate Women's Cross Country team this fall, interested in improving its team at Deane Baker at Kenting Hall any day this week, between 2:00 and 3:30 p.m. Those who cannot make Deane Baker at Kenting Hall any day this week, between 2:00 and 3:30 p.m.

"Team membership in this, our first intercollegiate women's sports program, will be based on enthusiasm and ability. Everyone will be welcome, regardless of present ability, or lack of it." —Coach Baker explained.

"The athletic program is designed to provide an outlet for young women who are interested in participating in a team sport. We hope to attract more women to the program and encourage them to continue their involvement in sports." —Coach Baker added.
