I.S.C. improving

One of the oldest and most respected members of the IIT Board of Trustees, Frederick Jacks, retired president and chairman of Inland Steel Company, was a group of interested students and faculty members at IIT this Tuesday, November 9th in the continuing series of conversations between board members and students.

Speaking mainly about changing steel industry, Mr. Jacks focused on these aspects that have made the industry "as problem-ridden as it is." He cited trade, productivity, labor, and the lack of investment in steel manufacturing as reasons for the depression in the American steel industry. "Trade, especially with Japan, is mainly responsible for the state of American productivity." Seeing the future of the steel industry as one full of change, Mr. Jacks stated that the United States needs to decide the shape of the steel industry. With this in mind, he pointed out the various steel companies need to shut down older, obsolete facilities, renew their commitment to research and development, and make drastic improvements in the relationship between management and labor. The final luncheon session will be Thursday, November 17th with William Lenee, Chairman and President of Laclede Industries. The talks will be held in the Herman Lounge between 4:30 p.m. All interested students should sign up in the Office of Student Life at least a day in advance.

New research service initiated

IIT students now have access to timely and comprehensive information in the library through BUSINESS INDEX, a product of Information Access Company of Menlo Park, California.

The new service provides comprehensive indexing of more than 650 business journals in addition to Barron's, as well as the eastern and western editions of the Wall Street Journal, and the business and financial sections of the New York Times, with coverage dating from January 1979 to present.

This allows students to conduct their own research projects simply by looking up any topic, person or product name in the INDEX. Under the word or name is a listing of all articles relating to the subject which have been published.

The service simply press a button on the BUSINESS INDEX console to rapidly search the appropriate sections of the alphabetized index. The user selects those articles relevant to his or her research project, then down the publication names and issue dates and requests copies of the periodicals from the librarian.

BUSINESS INDEX is updated monthly to provide current information to IIT students. The INDEX uses a microfilm reader which can be operated without instruction from library personnel.

BUSINESS INDEX provides a significant advance in automatic information searching and allows students to conduct their own research projects without assistance from library personnel.

Information Access Company is the world's leading supplier of periodical indexes. More than five million people have access to IAC indexes annually in libraries and corporate and government terminals. A division of Ziff-Davis Publishing Company, IAC is headquartered in Menlo Park, California.

Bomb threat shuts Main Friday

By Ernest Talarico

The challenges afforded by a career in medicine today are both formidable and exciting. This is one of the many reasons students choose to study medicine. In fact, here at IIT, there is a committee specifically devoted to comprehensive counseling with respect to Medical, Dental, Osteopathic, and other health-related professional schools. This is the side purpose of the Health Professionals Advisory Committee (HPAC) under the Pre-Med Advisory Committee.

The services of the committee are available to all IIT students and alumni regardless of their major. While most applicants and most entering medical students have majored in one of the sciences, it is important to note that applicants with non-science majors are also accepted, and demonstrate equal success.

Services include:

- Information and counseling, students may consult with the committee.
- Application guidance: the Committee's advisor consults with students to help them file applications and complete the necessary forms.
- Matching: the Committee arranges interviews with schools and medical schools.
- Personal statement: the Committee provides guidance on writing personal statements.

For information and counseling, students may consult with the Pre-Med Advisory Committee by phone at 405-4545.

Pre-medical assistance

Puzzle 5

P is a point 17 decimeters from the center O of a circle of radius 8 decimeters. If A and B are points of tangency for lines tangent to the circle through the point P, then what is the area of quadrilateral PAOB?

Solve it and you could win a $5 purchase from The Bog

Challenge

Solution to Puzzle 4

m< EJB equals 140°

The Winner!!!! Michael Taylor

The winner should pick up the prize by noon, Nov. 18, 1983

Happy Birthday, Eddie!! (What?)
announcements

Cans for Kappas
Kappa Delta Sorority is sponsoring a canned food drive on Friday November 12. There will be a container near the Dean of Student Life Office (N.E. corner of the HUB) in which to deposit any non-perishable canned food. The donations will be given to a local charity for distribution in time for the Thanksgiving Holiday. Please help Kappa Delta help others and bring home cans to donate! Thanks! The food drive will end Monday, November 21, 1983.

Get some exercise
The second session of class will begin November 21st and ending February 10. The fee is a modest $20.00. This and all sessions will be twelve (12) weeks long. You are asked to purchase 5-pound hand weights (optional). Last week of class: a small part of the class. As you know the winter is creeping upon us, which means more eating and less exercise, I strongly suggest any serious minded individuals that are concerned about their body and health participate.
Class will meet every Monday, Wednesday and Friday at 12:00 NOON SHARP! For sign-ups come or call the Athletics Office, ask for Vivian X3296. I expect everyone that signs up to participate each and every day class meets. This is important in order to see any results that you would be happy with.

"A mailing pertaining to attendance at the December Commencement has been sent to all candidates. If you have not received this material, please contact me at 567-330. The Office of Student Records and Registration, Room 304 MB prior to November 22, 1983."

Glamour contest
Applications for the 1984 Career and College Competition sponsored by the SAE graduate student chapter in the Department of Mechanical Engineering are available in the Dean of Student Life Office. Application and submission of material deadline is December 9, 1983. Call Jean Watson, Assistant Dean of Student Life, for more information at 567-3300.

Questions for God
Where is God when it hurts? Inter-Varsity Christian Fellowship is a campus ministry that helps people here on campus understand how the God of the Bible relates to our everyday life and how we can know God's presence in our life. According to Inter-Varsity's President, Bryan Shepard, "An informal poll of students who participated at our question and answer session asked, you God?" responded with questions about God and the nature of suffering.

"Inter-Varsity is co-sponsoring a seminar on this topic with the Technology and Religion Group on Tuesday, November 29th, from 12:15 to 115 in the HUB Mezzanine, Room 306. All are welcome!"

Design-a-car
See how "actual" scale of the art race car prototypes are designed. The SAE student section presents "Race Car Design" which will be held at the ITRI Research Institute Auditorium on Tuesday, November 22 at 2:30 pm in the HUB. All are welcome. Food will be served. Registration is necessary. If interested, call Stuart Rabbin at (320)967-9187.

Partying co-ops
The Co-op students are throwing a party, Friday, November 30th at the Alumni Lounge, HUB, from 3:00 to 7:00. Donations is $2.00. Drink with your fellow co-ops. For Information call Curt Oswald, X3287.

$50 jellybeans
A Jellybean Contest Fund Raiser for Co-op Student Organization. Win $50.00 certificate, good at IIT Bookstore, Runner up wins Black Hawk Old-Timer Game tickets (December 17). Enter Information outside HUB Cafeteria, November 14th and November 16th at lunch time only. Just 50c per guess.

I robot, you Jane
The HERO I robot will be presented by the IEEE along with the Robotics Interest Group and Eta Kappa Nu. All are welcome to this presentation and demonstration by Heath/Zenith. A member of the organization will be on hand to answer all of the most complex questions. So all of the E.E.'s, M.E.'s, C.S. etc. be there! "November" Thursday, 17th at 12:50 in Stuart Building, Room 904. Refreshments to be provided by Eta Kappa Nu.

Get your AIAA shirt
The American Institute of Aeronautics and Astronautics T-shirts are finally in. The shirts feature a new colorful design. The design consists of three colors on a gray T-shirt. These shirts will be sold for $7.00 each, which is the lowest price you will be able to purchase a shirt, contact Paul Rapprecht at x3289 or Nathan Lewis at x3286.

Bible study
"The Bible and you Today" study-group group meets Thursday, November 17th, at 12:35 p.m. in the Field conference room of the HUB. Reflection on the Letter to the Ephesians continues.

technology news

Blow off P.E.
Veterans, Varsity Athletes, and Medically excused students, are no longer required to register for P.E. classes. Veterans and Medically excused students should present proof to the Athletic Director or P.E. Coordinator, of their status to receive a P.E. waiver.

Forum on change
The Technology and Human Values planning group for a forum on changes in our society and the impact of computers and science. The forum will be held Wednesday, November 15th, at noon in room 306 of the HUB Mezzanine. Students and consultant faculty will continue the program development in an open meeting.

Laurel and Hardy
Don't miss these weeks classic comedy, MURDER CASE. The movie starts this week at 8 p.m. Also for your enjoyment a film on "The Architecture of Chicago and IIT, focusing on the work of Ludwig Mies Van Der Rohe." The films will be presented Friday, November 18th at 8 p.m. in the Cotter Residence Hall Lounge.

Hooray for HKN
As scheduled, we will have a meeting this Tuesday (Nov. 15) at 12:30 in room 301 HUB Mezzanine. An election will be held for the office of the Recording Secretary, and more activities will be discussed.

Love buildings?
Are you in love with Chicago and its magnificent architecture? If so, the Chicago Architecture Foundation (CAF) encourages you to apply for its 1984 Summer Internship Program. The Doemet Training Program, equivalent to a college-level course, prepares individuals for a professional architectural career and in around Chicago on behalf of the CAF. CAF is a not-for-profit organization dedicated to promoting public awareness of Chicago's architectural heritage.

What is a Marathon?
We hope by now that most of you have seen this slogan around campus and know what it means. (If you don't, we thought we should let you know that the MARATHON is not a race or contest of any sort. It is a dance. It's not an ordinary dance but is an EXTRAVAGANZA! We have invited all of the professional dance groups to the area to perform a dance to your fancy. So, come join us on the MARATHON and try to not let be left to the last.)

The date is November 18, 1983 in the HUB Ballroom, 3rd and Federal, from 7:00 pm to 2:00 am.

For dollars, in advance, six at theatre. Present your dance ticket stub at the box office to receive a free drink on November 18th and get a free drink with any meal purchased.

For further information contact L.F.E. at 567-3896 (Octavio Matores)

All proceeds go to the L.F.E. Scholarship Fund.

International switch
Would like you to obtain a training position outside the U.S. this summer? If so consider the summer program of the International Association for the study of Social Education Attracting Students for Technical Education. This program places students in Engineering and the Sciences in training positions in many fields. The most placements are for 8-12 weeks during the summer. For more information and application forms, come to the International Office, Room 105, Farr Hall.

Human powered car
Time to get serious on the Human Powered Vehicle! The AIAA will be organizing a project to build a human powered car in the future. All those interested in gaining design and engineering experience should involve themselves. Meetings for the Aerodynamics Group will be every Wednesday at 2:20 to 4:00 in the AIAA group meeting room in the HUB. For more information, contact the Office of the President, Room 103, Farr Hall.

Immigration alert
The Immigration and Naturalization Service (INS) has significantly changed many regulations pertaining to students holding F visa's. A three-page summary of the new regulations has recently been sent to all international students with their billing addresses. If you did not receive this mailing, come to the International Office, Room 103, Farr Hall, to pick up a copy and indicate your correct mailing address. Please note that you are required to comply with these regulations, and that the INS does not accept ignorance of the law as an excuse.

Students having questions about the new regulations are encouraged to contact the International Office, Room 103, Farr Hall.
Think about draft

By now most students have received a letter from the Financial Aid Office asking them to sign a "Statement of Understanding" that students won't take this statement lightly, even though they may be forced to sign it at this time to meet their obligations to IIT. I hope that they will express their concerns to both the financial aid director, Charles Carothers, and to their elected representatives. There are several good reasons to oppose this procedure, even if one supports the draft. The first is that it deprives students the right of due process by depriving them of financial aid without the right to challenge this in an administrative or judicial proceeding.

Sincerely,
Blake M. Davis

Horny viewers

Aerobics are becoming more and more popular with television audiences. It is a major contributor to physical fitness and mainly used by women. So why is there so much viewing and talk by male audiences? As a woman, I cannot tell what I hear and observe. Aerobics is generally done by young, rather healthy and attractive women. The attire consists of shoes, rather revealing leotards, tights, tennis shoes, and maybe leg warmers. The leotards are generally no-sleeve, low-cut, high hip and thigh, and belted for the small waist look. The women are generally panting the count as time passes on. One can see the body perspiration beading up on these women as her hair floats around as they exercise. There are always encouraging remarks to ease the frustrated minds of the viewers as they attempt the exercises.

Believe it or not, these are all characteristics men generally look for when sexually aroused. What more innocent way to show such lust than by simply watching a daily television program? Couldn't one just visualize some overweight man sitting in front of the television set with his three-feet tall Submariner sandwich, huge bowl of popcorn, and a six pack. Most men just love to hear panting women express words like, "Come on, you can do it!", and toss their hair with every movement.

But, the intentions of TV aerobics are not to have men drooling before their TV screen, but to benefit and care for the human body. Aerobics is extremely effective for toning, developing muscles, and weight loss. The key to aerobics is to keep moving at all times. To do this one has to have to wear something light and comfortable. Leotards were designed for exercise and dance. They are simply being designed in a more modern fashion, not necessarily to promote sexual fantasies. As far as the panting goes, all humans, exhibit a shortness of breath after excessive exercise. Encouraging words are simply that -encouraging.

It is a pitiful shame that some men abuse a major aide to the health of women. Some turn aerobics into an innocent form of pornography. The body is beautiful and that is the way it should be kept. TV Aerobics is a public way of helping others who need that special "push" to exercise. Let us not abuse this fabulous gift to television, let us rather promote its success. TV aerobics is highly recommended for all audiences, with their doctor's approval. As for those eye-bucking droolers, maybe doctor's approval is highly in need.

Valerie T. Jeffries

Good for E.T.

Dear Editor,

I wish to congratulate you ad your staff on having the guts to print an article such as "E.T. Expresses His Opinion On Abortion." Too often this subject is avoided in so called "Liberal Publications" because it in some people's opinion bears the mark of the conservative right.

I like this article because it didn't over-think the subject and yet provided some real information as to what really happens during an abortion.

I believe people should also realize the long-lasting results psychologically on the "Mother" and "Father" as well. I know I would more frequently be made. People should be allowed to make their own choices but all the pros and cons should be known to them. There could be no pressure to make such a serious decision for abortion but other alternatives freely provided. Hopefully, someday a situation such as this will be a rare one.

Congrats, to Ernie Talarico

U.S. students tell of events in Grenada

continued from page 1

be shot on sight. There was a lot of unrest on the island. As far as the school went, people were becoming very nervous, scared to the point where half the school wanted to pack it up and go home.

Fiorielti, who did his undergraduate work at the University of Maryland's main Campus Park campus before emigrating to St. George's, says the med school faculty decided "to see how things went" the week of October 24th before deciding whether to call the semester off.

Things did look brighter at the beginning of the week, when the government lifted the curfew. "It was only a matter of Monday afternoon," Fiorielti says.

One school administrator was quoted soon after the invasion began as saying the worst was over by then, and that students were safe.

President Reagan, in his subsequent explanation of the American invasion, said American troops had uncovered evidence on the island that the常规政府 had been considering taking the med students as hostages.

Regardless of his safety, however, Fiorielti never got to retrieve valuables from his dorm.

The invasion began soon thereafter, and "everybody's future changed." Fiorielti says.

"We typically get electrical storms, and that's what it looked like," he adds. "My Hovercraft's already at the landing stage of the school, but I don't know if it's going to take off or not."

"I was just afraid of the wind," Fiorielti says. "We're just waiting for the worst to happen."

"I'm just wondering if we're going to make it through," Fiorielti says. "But I'm sure we will."

"I'm just waiting for the worst to happen," Fiorielti says. "But I'm sure we will."

Thanksgiving Holiday Hours

The Director's Office in Hermann Hall announces their building hours for the Thanksgiving holiday week-end. The building will be closed Thanksgiving Day and Friday, November 20, 1983. For both Saturday and Sunday the building will be open at 12:00. The BOG and the Bowling and Recreational Center will be open from 2 p.m. until midnight when the building closes. The Bowling and Recreational Center is offering half-price bowling in celebration of the holiday. IIT students, staff and their friends are invited to call the Recreational Center and make lane reservations. Their number is 567-3079.

MOVIES COMING UP

TALK ABOUT . . . . BOG MUZIK

CITY LIT

LOVE AFFAIRS—THE STORY OF A SCAR by James Alan McPherson (author of "A Shot in the Dark"). A flashboy, vulnerable woman is scarred by the contradictions men offer up to her in the name of love.

HEALTH CARD by Frank Yerby (author of "The Four Horsemen") A young soldier struggles against an indifferent social system to maintain his loving relationship with his wife.

FOREIGN AFFAIRS—VENGEFUL CROW by (Chinese name.) (author of "The Black Stallion"). The great Japanese writer portrays a young village girl's longing for independence and knowledge in this powerful tale of class conflict and family responsibility.

LIFE IS SWEET AT KUMANSUN by Ahsan Nisar (author of "The Truly Married Woman"). This magicial tale about the power of a mother's love brilliantly captures the awe and mystery lying just below the surface of everyday life in the villages of Srinar Looe.

Shape of IIT's swim team

continued from page 5

to 100 Back. A faster this year. This year's squad is also the smallest in Mauch's 15 years as Swimming Coach, but at the same time it is the most talented and versatile squad he has ever had almost everyone can handle two strokes and distance as well as swim in three strokes. This Saturday the Hawk Swimmers encounter their first adversaries at Rockford College with Loras College of Dubuque.

Grad hiring optimism

continued from page 5

"Those were entry-level jobs in remote, rural areas," explains John Pappas, manager of Trivers' personnel office. "Rather than have people relocate and then impose reductions in the work force, we decided not to bring them on board."

Trivers, which used to hire about 800 new graduates annually, still has "a few thousand" employees laid off and so will keep this year's campus recruiting "very limited," Pappas says.

Some energy firms, however, are starting to show up again at Texas. Phillips, Gulf, Conoco and Shell have returned after a year's absence.

The market for teachers still appears to be sluggish, despite the rash of new proposals for higher teacher salaries and more teacher hiring.

Yet "The school population is still declining, and budgets are still tight," says Northern Iowa's Wood. "I think that things will pick up dramatically in a few years, though. They have to. So few people are going into education, and more children are coming along. Already, enrollment is up for kindergarten and first grade."

Loras College is supposed to be very improved from last year when the Hawks won by 40 points, and Rockford is always a tough contender, even though last year IIT won by 8 points—IT 2 and 2 with Rockford for the last 10 years. And Coach Mauch feels this would be the year to win the Rubber game, at the same time IIT is in the mix and they have over Loras for that same time.
New blood for basketball

New faces have invaded the Scarlet Hawk Basketball Team. According to Coach Topper, the newcomers' skill level is quite high so they are welcome additions.

Leading the way is Bill Rencich (6'5 Forward - West Chicago H.S.). Rencich has a great feel for the game and will be counted upon immediately.

Jim Lemonaki (79 Center - Homestead Central H.S.) is rapidly developing and could give starting center Pete Barron a welcome break.

V-Boy to Canada

IIT’s Women’s Volleyball Team will travel to St. Catharines, Ontario, the weekend of November 12th to compete in a volleyball tournament hosted by Brock University and Ridley College, both located in St. Catharines. The Scarlet Hawks will compete against Brock and other Canadian teams during the weekend meet.

Coached by Chris Meyer, the Hawks recently ended their volleyball season with a 26-7 record, tying for second place in the Chicagoland Collegiate Conference.

Fee wins coveted Pineapple prize

Freshman Chuck Fee won the coveted Pineapple Interquad Swimming Meet by sweeping five events out of the twelve event competition. Besides winning his favorite events, the 200, 500, and 1000 yard Freestyles, Chuck was able to beat out co-captain Mike Chermisn in the 100 and 200 yard Backstroke, in very close races.

Sophomore Steve Ide, who was Fee's roomate at Alpha Sigma Phi Fraternity, was second with 23 points. Ida won four of his five events, losing only the 100 yard Breaststroke event to freshman Aaron Henley by a mere three-tenths of a second.

Third place went to co-captain Mike Swenson. Mike captured his favorite event, the 500 and 100 yard Freestyle, and also got seconds in the 800 yard Butterfly and 500 yard Freestyle event. Coach Manuch stated that he was very happy with the results of the Interquad Meet, in that this was the fastest Pineapple Meet ever with 9 of the 12 events of last year being continued on page 3.
