Campus security update

Physics professor slashed; card readers electrified
by Robert Aft

On Saturday, September 17, 1983, at 1:00 pm, one of ITT's physics professors was assaulted in the Physics Department Office. Commander Higgins disclosed a recent Campus Security Meeting. The professor (name withheld by campus police) left his individual office for a moment and returned to find a twenty-five to thirty-year-old man with a knife, demanding the professor's wallet. The professor refused, a verbal argument breaks out, ending when the man with the knife struck at the professor. The knife cut through the professor's jacket and left a shallow cut on his skin. The assailant then ran out of the building. The professor was not injured badly, and remained in his office after notifying the campus police.

One of the questions raised at the campus security meeting was why hadn't the campus police warned the professor with the TV monitor. Commander Higgins replied, "The doors have to be open for security reasons, and states law. It states that you need three doors open... so we may as well leave them all open." If the attack had occurred after dark, when the building is officially closed, and only the entrance with the monitor is open, would the campus police have been responsible for the intruder being in the building.

In response to the question of acquiring more monitors, Commander Higgins said, "I expandedcamera coverage, we would need a new location and more personnel to watch them, which would increase costs." People should be more cautious, he also advised, "The problem lies in people being in the building alone. People should call the campus police if they see suspicious people."

Lightning hit the ELF tracks during a thunderstorm on Sunday, September 18, 1983, and the resultant power surge knocked out all the parking lot magnetic-card readers. Somehow, the ELF tracks were grounded to or tied in with ITT's lines, leading to mass damage to electrical devices. All the card readers had been burnt out.

The real number of campus rapes and sexual assault cases may be many times higher than officials have traditionally believed, according to a new Auburn University study on sexual attitudes. Nearly one out of every six male students questioned admitted to forcing women to have sex with them, the study of over 200 sophomores found.

Moreover, 20 percent of the female students surveyed said they had been forced to have sex even though they objected. Surprisingly, "very few of the women defined such situations as rape," notes Auburn psychologist Barry Bublitz, who helped direct the study.

"None of these men were ever arrested or charged with rape, and as far as I know none of the women had reported what happened to them," he says.

The reason, it seems, is because all of the incidents involved what experts are now calling "acquaintance rape." "We're finding that acquaintance rape is a very frequent type of incident that takes place on campuses," says Dan Keller, director of public safety.

Plau "has no objection to notes being sold as strictly a supplemental service in classes where attendance is required." But in large lecture classes without "regular attendance reports," student could buy notes instead of attending class.

Even at San Diego State, where the university owns the service, the History and Zoology departments bar professional note takers and even tape recorders from their classes.

Universities cracking down on professional notes

On Thursday, September 29, 1983, from Noon to 2pm, the IIT Tech Entrepreneurs will hear Dr. Thomas P. Carney discuss starting and financing new business ventures. The meeting will be held in Stuart Building, Room 103, a change necessitated by the large turnout at the September 15th meeting.

Carney holds a B.S. in Chemical Engineering from the University of Notre Dame (1977), and MS. and Ph.D. degrees (1979, 1984) in Organic Chemistry from Pennsylvania State University. Currently he serves as President and Chief Executive Officer of two small, technology-based firms, MetaTech Corporation and BioMed, Inc. His vast experience in industry includes nearly twenty years with Eli Lilly and Company, beginning in 1964, the last nine as Vice-President for Research, Development, and Control. In 1984, he joined G.D. Searle & Co., first as Vice President and later as Executive Vice President. He also serves presently as Chairman of the Board of Trustees of the University of Notre Dame. An outstanding speaker, Carney brings to the discussion of entrepreneur ship the perspectives derived from both the large corporate lion and the small technology-based innovative firm.

Into Rush, UFO, Scorpions, etc. Must have transportation or practice space for band. Call Mark (before noon) at 229-1006 and leave name and phone number.

EXPERIMENTAL, MY DEAR WATSON
ACADEMIC YEAR
If you have at least two years of graduate or undergraduate education ahead, and you keep getting signs that your money is running short, then at least a two-year Air Force ROTC scholarship may be the solution.
Currently we're seeking young men and women who would like to serve their nation as Air Force Officers. Consequence?
ily, if you're thinking of a selected technical or scientific field, or you can qualify for a commission as an Air Force ROTC Scholarship. The scholarship pays your tuition, lab fees, books and textbooks, uniforms, and $100 per month tax-free. And even if you don't qualify for the two-year scholarship, you still receive the $100 per month while enrolled in the Air Force ROTC one-year program.

What do we pay in return? That you serve America at least four years as an Air Force officer. Your Air Force ROTC counselor has the details and qualification requirements. Check it out. It might even make your education financing seem ordinary. Contact:

Captain Mark Longaker

announcements

Computer ass.
The Educational Technology Center, ETC, located in the basement of the Life Science Bldg., offers computer-assisted instruction, videotapes and tutoring to aid students in first and second year courses in physics, chemistry, mathematics and materials science. Also, there are a number of computer dialogues to aid students with problems in basic writing skills in se circuit analysis.
ETC is open Monday through Thursday from 9:00 a.m. to 6:00 p.m. and on Friday from 9:00 a.m. to 5:00 p.m.

The lucky ones
"The Luck of Roaring Camp," an adaptation from Jack London's dramatic account of California gold mining, will be the feature of "Master Films," Friday, September 30 at 8 p.m. in Cohen Lounge of Lewis Residence Hall.

Scripture art
The Biblical Studies-Frayer Group will meet Wednesday, September 28 at 12 noon in Field Conference Room of the HUB (see corner). An Intro. paragraph of Scripture will be presented to express the theme "The Bible and You Today."

Humanity vs. tech
"Technology and Human Values," in conjunction with the Faculty-Student Forum, will convene a planning session, Thursday, September 29 at 1 p.m. in the Field Conference Room on the HUB.

Register for a Job
The Placement Office has concluded their workshops on placement orientation, interviewing skills, and resume writing. Graduating students who could not attend these meetings are urged to register their qualifications with the office as soon as possible. IIT students were fortunate to be briefed on interviewing techniques by company representatives from six different companies. IIT and the placement office thanks the following for their time and assistance:
Janet Vianco, R.R. Donnelley and Sons; Paul Schmitt, Northrop; Brian Hamer, Standard Oil Company of Indiana; Paul Hinson, Digital Equipment; Tom Lindell, Sargent and Lundy; Vincent Luber, Travenol Labs.

Sign of cancer
The Society of Women Engineers holds its second meeting Wednesday, September 28th from 12:00 p.m. The meeting will be held in Room 122 El. The speaker is Dr. Florence Westfold from Argonne National Laboratories talking on cancer research. Our office is in Room B El. Come on by!

SWE aerobics
The Society of Women Engineers presents Aerobics, Monday, Wednesday and Thursdays, 3:40 p.m. at Keating Hall Workout Room. All students are welcome!

Sign for you loans
Any student with either a National Direct Student Loan or a Institutional Loan must sign for their award by October 15, 1983 or it will be cancelled. Student Loans may be signed at the Student Loan Office, Main Building, 5th Floor.

Spyro Gyra tickets
Tickets for Spyro Gyra will go on sale Friday, September 23 at 10:00 a.m. at the HUB box office. The limit is four tickets per student with IIT I.D. Ticket prices for students is $7.00 and $10.50 for the general public. Tickets are also on sale at Ticket Master outlets.

Help the pushers
Pi Kappa Phi Fraternity will hold its Second Annual Wheelchair Pushathon. All the proceeds from the pushathon will go to play units for the Severely Handicapped (P.U.S.H.). Your donation will be greatly appreciated. "Please help us to help them."

Chem Eng break
The American Institute of Chemical Engineers is holding its Diamond Jubilee Symposium on Wednesday, October 12, 1983 at 8:00 p.m. at McCormick Inn, Chicago. IIT's own Chemical Engineers Department Chairman, Persh T. Wason, will be one of the speakers in the afternoon Technical session. The topic of the evening program is "Chemical Industry Faces the 90s: Stability State or Crisis Management?" Special rates for students apply; no dollars for symposium admission and ten dollars for the benefit. Call Jim Karrer at Gabriel and Associates at 456-2223 for reservations and additional details.

Get to the answers faster: With the "TI-55-II"

What you need to tackle the higher mathematics of a science or engineering curriculum are more functions more efficiently than a simple slide-rule calculator has.

Enter the TI-55-II, with 112 powerful functions. You can work faster and more accurately with the TI-55-II, because it's preprogrammed to perform complex calculations like definite integrals, linear regression and hyperbolics—just at the touch of a button. And it can also be programmed to do repetitive operations without re-entering the entire formula.

Included in the Calculator Decision-Making Sourcebook. It makes the process of using the TI-55-II even simpler.

To get the answers faster, Let a TI-55-II show you how.

SEMESTER IN SPAIN

Not just for Spanish majors only, but for everyone: beginners, "in between" students, and advanced. Put some excitement into your college career!!

BEGINNER OR ADVANCED - Cost is about the same as a semester in a U.S. college: $3,189. Price includes jet round trip to Seville from New York, room, board, and tuition complete. Government grants and loans available for eligible students.

Live with a Spanish family, attend classes four hours a day, four days a week, four months. Earn 16 hrs. of credit (equivalent to 4 semesters - taught in U.S. colleges over a two year time span).

Your Spanish studies will be enhanced by opportunities not available in a U.S. classroom. Standardized tests show our students' language skills superior to students completing two year programs in U.S. Advanced courses also.

Hurry, it takes a lot of time to make all arrangements.

SPRING SEMESTER — Feb. 1 - June 1/FALL SEMESTER — Sept. 10 - Dec. 22 each year.

FULLY ACCREDITED — A Program of Trinity Christian College.

Making money

continued from page 1

Tech Entrepreneurs was Rick Aronos, President of Data Voice Corporation. Aronos, a marketing consultant, shared the experiences of starting his own company with a group of 30 students. He suggested that career strategies to aid students in preparing themselves for creating their own company and outlined techniques of obtaining capital to fund expansion of a personal venture into a self-sustaining company. Highlighted in Aronos' presentation was the difficulty of securing venture capital, particularly in the Chicago area.

Tech Entrepreneurs provides a forum where IIT students can explore the prospects of starting their own company through discussions with people from industry and other interested students. All interested IIT juniors, seniors, and masters students are invited to attend. Call Dr. Richard A. Retig, 567-5129, for further information.

TRIVIA . . . .

Answers to this quiz should be turned in at the Thursday movie and a prize of 2 movie tickets will be drawn at the movie.

QUESTIONS:
1) What kind of hat does Indy Jones wear and what color is it?
2) When does Jemma talk to her mother, and what do they say?
3) What kind of car does Eddie Murphy claim he is going to buy?

What Is Money?

Money is an adventure, and with every adventure comes new experiences such as "Autumnfest". Autumnfest is a week of fun, entertainment, and competition, and money. Teams of various districts will compete for that ever-popular First Place, so they can say they won Autumnfest 1983 and win the massive $250.00 first prize. Autumnfest is non-discriminatory, anyone can enter as long as you, the contestant, can manage to get there. So, I mean tactfully persuade at least 4 other people to join you as teammates. Teams can range from 4-8 people.

The basic events of Autumnfest will commence on October 30, 1983. Events of Autumnfest will test your coordination, marksmanship ability, ability to follow direction, and memory (i.e. how well you remember to ride a tricycle). To partake in the illustrious events of Autumnfest a nominal fee of $40.00 per team will be necessary just so there will be some money to pay the bills.

The Union Board ‘Movie of the Week’ will be

Richard Pryor Live on the Sunset Strip

It will be appearing in the McCormick Auditorium located in Hermann Hall and will be shown on Thursday Sept. 29 at 5:15 p.m. and Saturday Oct. 1 at 7 p.m. & 9:30 p.m.

THE TRUTH OF VICTORY

THE AGONY OF BIG FEET

COMING NEXT WEEK

BLADE RUNNER

This grand, fabulous, outlandish, incredible, fantastic, outrageous, entertaining event is being brought to you live via the Special Projects division of your own Union Board.

P.S. All members of each team must bear the burden, and drudgery, of attending the ever-popular IIT.

Union Board Members

Union Board is a student programming organization bringing entertainment to the IIT campus.

**Sculpture?**

Chicago Artist, ROB BFERO, born in 1946, is a self-taught metal sculptor, working in varied metals including gold, silver, bronze, steel, copper and glass. BFERO has been welding for a potential of over twenty years and has won numerous awards for his distinctive designs and outstanding work. The artist's work is in private collections as well as in the offices of many corporations.

BFERO travels extensively for approximately five months of the year throughout the country of Mexico. His work is displayed in galleries in Mexico and the United States, including Arizona, California, Kansas, Las Vegas, Michigan and Wisconsin.

**SKI CLUB**

ITW introduces its very own Ski Club which is open to students and faculty. The Club will offer discount rates, a "learn-to-ski" program, and a winter trip to the Rockies. Anyone interested in becoming a member of the club is welcome to attend the first meetings on Oct. 4 and 5 both from 12:30-1 pm in Herrmann Hall - room 360. For any further information please contact Bob O'Shea at 509-331.

**FOOD!**

Coming in the Bog, "Lunch: Yin, on Saturday the Bog will be open for lunch at noon. Come on over and have something to eat, and maybe even a few drinks. And if this works well the Bog might even be open for lunch on other days.

**"Gypsy-Fari is to Chicago reggae what Muddy Waters is to Chicago blues"**

— Illinois Entertainer

**"Chicago's most popular reggae band"**

— WMUR Reggae on Radio Poll

**REGGAE DAVE!**

Come on down to the Bog for the first of the Union Board mini-concert series on Thursday, September 29th, and enjoy the reggae sounds of Chicago's own Gypsy-Fari. Gypsy-Fari is "not a reggae imitation but a reggae sensation." The group combines the sounds of reggae, Funk, Calypso, and Rock and turns it all into a unique, enchanting musical experience.

These "Reggae-Rockers" are also well experienced and have traveled to such ports-of-call as Wichita, Madison, Puerto Rico, and even the Caribbean as well as Gypsy-Fari's birthplace - Jamaica.

Gypsy-Fari has also received rave reviews from such critics as Aaron Gold of the Chicago Tribune, Joe McClure of the San Francisco Times, and also for the Illinois Entertainer which claims that, "Gypsy-Fari is to Chicago Reggae what Muddy Waters is to Chicago Blues."

So come on down September 29th and treat yourself to the sounds of "Chicago's Most Popular Reggae Band," Divivo recording artists GYPSY-FARI.

**JAZZ COMES TO TECH**

**Spyro Gyra**

If the number of inquiries about the coming performance of Spyro Gyra is an indication of the group's popularity at IIT, Spyro Gyra is highly respected in our community and their October 14 performance is going to have to surpass the previous concerts of the Ramones and Survivor. No problem, right? Right! Let's hope that we don't get 30 feet of snow that evening (Remember the Jeff Lybeer Fusion).

Listening to some old Spyro Gyra albums has evoked the gun and on 10/14 the gun's going to go off with genuine panache. The first major album, "Spyro Gyra" features the Caribbean-born "Shaker Song," "Cascade," "Opus de Opus," and "Pygmy Funk" all of which are classics. This album reflects the beginning of jazz fusion in the life of Spyro Gyra.

The next album, "Morning Dance" features the fusion single of the same title. "Morning Dance" is the group's most memorable single. Pick it up for someone who says that there isn't similar with Spyro Gyra and they'll be thrilled.

When the evening arrives, you can be in the box office to buy a pair of tickets to the show.

Each consecutive album, "Catching the Sun", "Frecipient", and "Innocent" displays the progression in complexity and perfection the group has achieved during their 5-plus years together. The main band members, Jay Beckenstein, Jeremy Wall, and Tom Schuman all contribute to writing the songs and producing the albums. Beckenstein is most renowned for his mastery of his saxophone and Wall for the percussion instruments. Their vibrant intensity and total control is unmatched by any other fusion group.

So if you're going to one of the concerts, they've got something in store for you.

Part of the concert will feature instruments from their current release album, "City Kids", its current popular single being "Island in the Sky". This album contains some soft and smooth, some funky and rhythmic, some tap your feet, and some just mellow out.

Need I say more other than buy your concert tickets at either IIT or any of the 14 Chicago-area Ticketmaster Ticket Centers: All Rose Records, All Sportmart, 8 selected Baskin Clothing Stores, 12 participating Carson, Pirie, Scott & Co. locations and the Tribune Terminal, and both Spin-It Records locations. Charge By Phone: 559-1212.

**"Soap Scoop"**

All My Children: Donna realizes her baby is dead after Phoebe forces her to go to the cemetery and see Johnny's grave. Phoebe tells Chuck that he should think twice before marrying Donna. Lara and Olga see brother and sister. Elsie finds out about Max's cocaine habit but decides to stick by him in the world of taking things. Tony enforces his control and Jan's engagement. Gail and Tony go to buy a diamond ring for Janice. Erica constantly seduces her wife. Brooke discovers her husband is pregnant. Nika accepts Steve's proposal, thinking that she doesn't have to be alone. Monique tells Tina that she should not marry Steve because she still loves Cliff. Steve over hears and throws Monique out of his apartment. Monique blames Palmer for the proposal and confronts him. Palmer is made out to look like an embarrassment after Lois manages to break into computer system and transfer all of Palmer's money into an illegal bank account. The excitement.

Days of Our Lives: Bo thinks that Pete is a threat to Marlena and beats him up. Corner reports Renee dead from poison. Julia retraces confession of Renee's murder when David has a good idea. The chief suspect in Renee's death are Alex and Peter. Kelly dies in the same way as Renee. Tristan and Eugene decide to stop.

General Hospital: Gregory shot Dr. Haptrix and placed the gun in Professor's hand to make it appear as murder. Jackie demands that Professor Arnold's death was suicide. The DHB learn they only have half the microfilm and plans to find out if Robert has the other half. Robbie learns she is pregnant. Tiffany advises Blanche to kick off her husband. Scotty blackmails Jackie.

One Life to Live: Dorian forces Ed to charge Clint in Echo's murder because Dorian says she saw Clint push Echo over bridge. Echo names her new baby boy Drew. Delilah almost has a fit while Bob comments on how cute the baby is and a nurse says, "Of course, he looks just like you." Ann tells Bob that he is the baby's father. David admits to Scott that Chase is his daughter. Dorian wants David to sign papers stating that he is Chase's real father. Clint confronts Dorian about her story. Bob goes to see Becky concerning "their" baby.

Ryan's Hope: Delta decides to take Frank to court for custody of little John. Jill finally talks that Frank is the one who bailed him in the election because of his involvement with Charlotte. Max worries. Max. Roger the truth about her mother's poverty. Roger comes on to Maggie. Stefan learns the truth about do's death.

Young and the Restless: Carl learns that the gun was registered to Pati and thanks Jack for not turning it in, both want to kill him when he learns entire truth of matter. Paul doesn't know whether he can go after Cindy's death. Nick talks to Bobbi about admitting that Bobbi was the body in "Hot Lips".

Charge By Phone: 559-1212.**
Women's X-country place 3rd in first invitational meet

IIT's first women's cross country team made its debut at the St. Xavier Invitational, September 17th.

Six women's teams were entered in the meet. IIT finished 3rd while 3 other schools failed to qualify for team standings, having fewer than five runners finish the course.

"I was pleased with our performance," stated Coach Baker. "We were an inexperienced team competing after only three weeks of training. None of our girls had ever competed at the collegiate distance (i.e. 3 miles) before, and for the three members of the team it was the first cross country meet they had ever witnessed, and there they were, competing in it! Team standings were first-place-North Park College, 2nd-place-Wheaton; 3rd-place-IIT.

Aurora, Elmhurst and UIC (Circle Campus) did not earn team scores.

Showing the way for IIT was Cindy Sullivan (22:23), followed closely by Elisa McIntyre in 22:49. IIT's other scorers were Jane Martinez (23:40), Eva Perret (23:46) and Sherry Ann Finley (31:39).

Coach Baker indicated that it is still too late for interested women to join the team. "I'll work with any girl who demonstrates that she is interested enough to practice," the coach said. "I'll start fresh next season, with individual instruction and a training plan that begins at whatever level of conditioning (or lack of it) the individual possesses. One of the advantages of the sport is that anyone who is in good health can be an asset to the team if they train properly and consistently," Baker said.

Interested female students may phone Vivian at X3296 for an appointment with Coach Baker.

The team's next meet will be close enough for interested fans and friends to attend, because it will be here in Chicago at Montrose Harbor. Both men's and women's teams will compete in separate races.

The meet will begin at 10:45 a.m., Saturday, October 8th, when Loyola will host their annual Lakefront Invitational.

Take Charge At 22.

In most jobs, at 22 you're near the bottom of the ladder.

In the Navy, at 22 you can be a leader. After just 16 weeks of leadership training, you're an officer. You'll have the kind of job your education and training prepared you for, and the decision-making authority you need to make the most of it.

As a college graduate and officer candidate, your Navy training is geared to making you a leader. There is no boot camp. Instead, you receive professional training to help you build the technical and management skills you'll need as a Navy officer.

This training is designed to instill confidence by first-hand experience. You learn by doing. On your first sea tour, you're responsible for managing the work of up to 30 men and the care of sophisticated equipment worth billions of dollars. It's a bigger challenge and a lot more responsibility than most corporations give you at 22. The rewards are bigger, too. There's a comprehensive package of benefits, including special duty pay. The starting salary is $17,000—more than most companies would pay you right out of college. After four years, with regular promotions and pay increases, your salary will have increased to as much as $51,000.

As a Navy officer, you grow, through new challenges, new tests of your skills, and new opportunities to advance your education, including the possibility of attending graduate school while you're in the Navy. Don't just take a job. Become a Navy officer, and take charge. Even at 22.
