Draft threat

D.C. (CPS)—Giving credence to their earlier fears that forcedSelective Service military registration would lead eventually to reinstatement of the draft itself, student and anti-draft groups are voicing growing concern over Sen. Ernest Hollings' (D-SC) new proposal to establish a peacetime draft.

"There's some debate over how realistic this proposal is because every year someone seems to come up with legislation to re-implement the draft," says Allen Bell of the Committee Against Registration and the Draft (CARD) at the University of Illinois.

"But there does seem to be more interest in this time around," she said, "particularly with the U.S. having troops in the Middle East and Central America.

The draft proposal also is gathering more attention than previous ones because Hollings is one of the contenders for the Democratic presidential nomination, adds Kathy Ove, legislative liaison for the U.S. Student Association (USSA).

Hollings proposed that all men aged 18-24 serve at least two years in the armed forces.

Currently enrolled college students would be allowed to finish one semester of study between the time they were drafted and the time they would be inducted, but seniors would get one year to graduate before beginning to serve.

Hollings introduced the bill "because he doesn't believe the volunteer Army has worked," explains Hollings aide Mike Cooper.

"Sen. Hollings feels the present system perpetuates inequity by placing the burden of the defense on our country on the poor, blacks, and the disadvanta-
ged," added Cooper.

In addition, he says, "If you look at the demographics we won't have all a much stronger manpower coming along in the future, and it is doubtful an all-
volunteer Army will be able to recruit the number of people we'll need to maintain our defense forces."

Hollings' proposal "is very

Walking Plan to begin

Since Daylight Savings Time ends Oct. 31st, it will get dark earlier. Therefore, students are urged to participate in the IIT Walking Plan, Undergraduate, 1983-84 Volunteer System for Rapid Triad runners. Classes on Monday through Thursday (8am-9pm) and afternoons on Tuesday and Thursday, 5:00-6:00 P.M., departures from Kemper Library, call 440-2927. Each group will have a minimum of three persons per station. For more information contact the Dean of Student Life 9.

Xero.

Groups will walk down Dearborn to 35th street. Those going to the Howard-Jackson wedding This will meet on Wednesday, the station together. Those going to the Lake-Dan Ryan train will turn west and proceed to the station platform together. Remember, minimum groups of three per train line.

Commander Higgins recommends calling the Campus Police for a walking escort if there are no other students walking at the time.

Students can call Xero to determine if other students are there; they can ask the attendant to ask them to wait for them.

Lastly, try not to linger after any 10:00 p.m. classes as security may be assigned to walk that particular building at the request of the USU.

Entrepreneurship

On Thursday, October 27, the IIT Tech Entrepreneurs will hear Mr. William Putze, Senior Vice President with Continental Illinois Venture Corporation (CIVC). The CIVC is a small business investment company engaged mainly in venture capital financing, including seed financing, and first and second stage financing. He serves as director of four of CIVC's portfolio companies. He holds an M.B.A. degree from Columbia University and an LL.B. from Boston College. In addition, he completed the Harvard Business School program in 1978. Mr. Putze will present his views on entrepreneurship and the role of the entrepreneur in the marketplace.

The meeting on the 27th will be held from noon until 2:00 p.m. in Room 113 Stuart Building.

At the most recent meeting of Tech Entrepreneurs, George Brodbaker, Associate Professor of Chemistry at IIT, discussed his experiences with starting his own company, Brubaker, with three other educators, started an educational computer software firm about four years ago called Programs for Learning, Inc. This group of four, none with any business experience, started with a total investment of $6000 and in four years turned their venture into a profitable part-time occupation.

Brubaker credits his company's success with being on the leading edge of technology as well as having heavily tested programs which ran on virtually any computer. By keeping close ties with its customers, the company benefited in marketing its products and also profited from improvements suggested by the users.

Because of their lack of business experience, the first company outfits were for advice from lawyers and accountants on

announcements

Immigration alert

The Immigration and Naturalization Service (INS) has significantly changed many regulations pertaining to students holding F-1 visas. A three-page summary of the new regulations has recently been sent to all international students at their mailing addresses. If you did not receive the mailing, come to the International Office, Room 302, Far East Hall, to pick up a copy and indicate your correct mailing address. Please note that you are required to comply with these regulations, and that the INS does not accept ignorance of the law as an excuse.

Students having questions about the new regulations are encouraged to contact the International Office.

Win a calculator

SWE will have a drawing for a Hewlett-Packard 41C calculator to be given away Monday, October 24th. The tickets will be on sale the week of October 24th. There will be a table in the N.E. corner of the HUB on or before the event so you can stop by the SWE office in Room 118 E-L. Good luck!

SWE meeting

Ruth Williams from Bell Labs will be speaking at the meeting for the Society of Women Engineers, Wednesday, October 26th at 12:00 noon. ALL are welcome! Refreshments.

HKN testing

Don’t forget! Testing will be on Monday, October 24th, and Tuesday, October 25th at 5:30 p.m. in Room 302, HUB Mezzanine. It’s okay, but you have to study hard! More information will be announced during the test. Drop us a note in the HKN mailboxes, in the EEE office, if you can’t come.

Physics colloquium

Subject: A Computer Simulation of Electron Solvation in a Molten Salt Speaker: Dr. Arenas Ramos, Argonne National Laboratory Time and place: Wednesday, October 26, 1983, 4:00 p.m., Siegal Hall, room 217 Pre-colloquium social: Conference Room, Siegal Hall, room 202, 3:30 p.m.

IBM Co-op

IBM Corporation will have representatives on campus to discuss Cooperative Education opportunities on Wednesday, October 26, 1983 from 9 to 4 in the HUB Mezzanine. Please wear business attire and bring copies of your Co-op resume.

Changing values

The “Technology and Human Values” planning group for a forum on changing patterns in student values and career goals will meet on Tuesday, October 25th at Noon in Room 306 of the HUB Mezzanine. Students and consultant faculty will continue the program development.

Grant information

Students interested in applying for the FY83-FY84 Fulbright study grant competition to pursue research or a project proposal in Europe, the Middle East, Far East, Africa, or Latin America, contact Anselam Amadio in the Student Life Office of the HUB, Ext. 3082. Application forms need to be completed by November 1st.

ATS correction

CORRECTION: In regard to the ATS ad of last week: Representatives of different organizations to ATS DO NOT need to submit a petition. They are automatically admitted.

Additionally, there will be an AIS meeting Tuesday, November 25th at 12:30, in Room 305 of the HUB Mezzanine.

Honorary freshmen

Ph. Eta Sigma (Frasenusa Honorary Society) will hold its first meeting Tuesday, November 2nd at 12 noon in Room 302 of the HUB Mezzanine. All members are invited to attend.

Bible study

“The Bible and You Today” study-prayer group meets Thursday, October 27th at 3:35 p.m. in the Field Conference Room of the HUB. Reflections and discussion on the Bible passages continue.

Pick-up packets

Packet pick-up for Spring 1984 advance registration will be November 18th through November 20th. The pickup will be on Monday, November 21st from 11 a.m. to 3 p.m. in the Field Conference Room of the HUB. Faculty advisor's signatures are required for all full-time undergraduates. Freshman must have advisor's signature as well. If more than 10 credit hours are taken, the signature of the dean of your college is required. If all financial obligations to.IIT have not been met, the packet will not be issued.

Love buildings?

Are you in love with Chicago and its magnificent architecture? If so, the Chicago Architectural Foundation (CAF) enourages you to apply for its 1984 Docent Training Program.

The Docent Training Program, equivalent to a college-level course, prepares individuals to conduct docent tours in and around Chicago on behalf of CAF. CAF is a not-for-profit organization dedicated to promoting public awareness of Chicago’s architectural heritage.

This year, CAF docents gave more than 46 different types of walking, bus, and bike tours of Chicago neighborhoods, the Loop, and special subjects such as Chicago sculpture.

The 1984 program will meet once a week from mid-January to mid-April. Participants choose either the Saturday or the Monday class. Professional architects, architectural historians, preservation planners and museum curators discuss the development of Chicago’s architectural history, and the decorative arts. Group discussions, readings, homework, and test supplement lectures.

Although there is no charge for the program, CAF requires first-year docents to present 40 hours of tours of Clark House, Chicago’s oldest surviving residence. Gleason House, the only surviving H.H. Richardson design in Chicago or the Loop in the first tour season (April-November).

If you are interested in applying for the 1984 Docent Training Program, call CAF at 326-1935 to request an application. The deadline to receive completed applications is November 15, 1983.

WOUI Halloween broadcast

By Robert E. Rogers

Next Monday, October 31st, is Halloween—when all the ghosts, goblins, and witches come out to play. Sounds like a good time to stay home—and listen to some scary radio dramas. WOUI, 89.9 FM.

We’ve dug in vault (or dungeon) and come up with some classics from years gone by. You’ll hear them just as they were broadcast many years ago. So, settle back with a bowl of popcorn—and maybe a rabbit’s foot—and get ready for a special triple-header.

Starting at 10:00 p.m., if that one-man bloodmobile, Dracula, Ovando Wells stars in the title role of the Transylvania count. At 11:00 p.m., his Herbert Marshall as Frankenstein. This doctor definitely did not get his degree from the Pritzker Institute of Medical Engineering. Finally, at 11:25, a court case that’s required listening for all Kent law students. The Devil and Daniel Webster. One of history’s most famous lawyers takes on the prince of darkness himself. (When was the last time you saw a state’s attorney wearing horns and a tail?) That’s Monday, October 31st, starting at 10 pm on WOUI. Be there or be square.
Raymond Tower, an IT trustee since last November and President of the FMC Corporation, spoke to a small group of interested students on Monday, October 10th. This highly informal gathering was the most recent installment in a series of conversations between members and students known as “Conversations with the Trustees.”

Mr. Tower began by touching upon the various steps he took in climbing the corporate ladder. Born in Yonkers, New York City, his hard work and determination earned him a bachelor’s degree in 1945 by the time he was twenty years old. He immediately entered the post-World War II work force as a technical assistant. His hard work and abilities soon brought him promotion into marketing in only two short years. After gaining twenty years of invaluable experience, the FMC Corporation named Mr. Tower to the Harvard Business School’s two-week Advanced Management Program.

Subsequently, he was named as executive vice-president in 1967. Within ten years, he was named President and Director of Operations. Under his leadership, the FMC Corporation, which started as a food-processing equipment manufacturer, now operates with 30,000 employees and revenues of 3.9 billion dollars annually.

Mr. Tower then spoke on the expanding research and development programs within his company. Noting that expansion in this area is not the norm among most companies today, he pointed out that in order for companies to compete in this highly sophisticated state of the market, it was imperative to increase R&D spending. He said that the greatest interest to the FMC Corporation are the chemical, pharmaceutical, and software industries.

“Not only do we have to find alternative sources of energy, but we have to find new and better ways of getting the oil that we already know about out of the ground,” he stated. He also mentioned that within the computer industry, it was the trend for companies to purchase already fabricated soft- ware that would be less costly than creating something from scratch. He added, “If we change his behavior, the world would like to see his company come up with their own software. This is an area of great interest to his company and national defense.”

Another topic of discussion was the FMC Corporation, and overseas production. The company currently operates chemical plants in South Africa and Brazil, and had begun offshore oil drilling in the Sea of Ok and the east coast of South America.

One of the students then raised the topic of employee relations, and the ability of the FMC Corporation to deal with the many problems brought about by the recent recession. His company, he added, had yet to lay off any employees during his tenure as president, and even more amazing was the fact that they had only closed down two out of all their subsidiaries.

Mr. Tower then asked everyone in attendance their opinion of the curriculum here at UCB, and expressed the belief that there is a strong need to upgrade the Humanities Department, which is seen by students as not being enjoyable and informative. Not surprised, Mr. Tower said he would bring it up at the next board meeting.

James Bond’s latest release

One of the best new movies to come along in a long time is a film called “007: The Man with the Golden Gun.”

The film is about a man who is determined to get her man in a more ways than one.

He uses the charming but sinister Largo, one of the richest and most lethal men in the world, and his mistress, the enigmatic Domino, who is unaware of Largo’s true nature and who is quite taken with the charming Mr. Bond. The entire SPECTRE operation is masterminded by Bond’s longtime enemy, Ernst Stavro Blofeld.

Against the backdrop of evil, Bond is backed up by his American pal, Felix Leiter, who has the knack of turning up at the most opportune moments, as well as by members of the British Secret Service: "M," the adoring Miss Moneypenny, and Algy the Accountant with his sophisticated and ingenious collection of devices.

Stunts, special effects, and high-speed action abound as James Bond follows the story to its dramatic conclusion, refusing to take anything, well, hardly anything, lying down.

So if you’re a James Bond fan, don’t miss this one.

IIT entertainment

By Kenneth D. Matthews

In this week of nightlife cover charges and late admissions, it is nice to find a place to go for quality entertainment, good food, and good libations.

The night club: The Bog on Hermann Hall’s lower level. This night club is open Sunday through Thursday, 4 p.m. to midnight, Friday, 2 p.m. to midnight, and Saturday, noon to midnight. The club manager is Eric Sampson and he, along with his crew, will make all of your visits pleasurable.

The entertainment: The first Monday of every month, the Bog hosts the best in Chicago-area blues artists. Joda Naa and the Shoo-Nuff Band is just one example.

For the first time in its history, The Bog is going to host the outstanding IIT Jazz Band with Neil Dinlen on Tuesday and continuing the rest of the semester on an experimental basis. This is a special event because there is no cover charge on Tuesday so stop by and relax to the sounds of Blues, R&B, and others.

On Wednesday, Beard and Face may perform songs from the 60’s and 70’s.

Thursday is sponsored by the Union Board. On this night a variety of acts perform, ranging from country singers to reggae bands, to rock performers. Recently, Tim Cavanaugh, Gipsy Farli, and Kurt Nort played the Bog.

So stop by the Bog one night this week. I know you’ve got something you’ll like. For more information call 829-8689. Tell Erich that Kenny sent you.

The proposed changes to ATS constitution

In an effort to make the Association of Tech Students, the organization that represents the students of IIT, truly represent all the students on campus, the rules committee has proposed on a number of changes to the A.T.S. Constitution. These changes will be brought up for student vote on Wednesday and Thursday, October 26th and 27th. Voting will take place in the HUB and the Commons daily from Noon to 2:00 p.m. All graduate and undergraduate students, who are enrolled in 10 or more credit hours or who participate in the cooperative education program, are eligible to vote. By taking the time to review and vote on these changes, students can express their opinions on the following proposed changes.

1) The first proposed change concerns clarification of the filling of vacancies in the treasurer’s office. It is presently implied that the assistant treasurer automatically becomes treasurer after two months. What is to be clarified is that this change shall occur only if the treasurer has vacated the office after the first of two months.

2) The position of class representative was originally created so that a student from each year (freshmen, sophomores, etc.) could be appointed to various committees. It is proposed that this position be dropped as being non-essential for filling committee positions.

3) Presently there is no provision for deciding if a proposal should be acted on by the assembly. To solve this it is proposed that a simple majority sufficient to pass any proposal brought before the assembly.

4) In order for A.T.S. to represent more students on all campuses or organizations on campus, each organization should send an representative to the A.T.S. assembly to make this more possible.

It is proposed that as part of the recognition process each organization provide a representative for the A.T.S. assembly. This representative is subject to the rules governing assemblies, which include attendance at meetings and filing a petition signed by 35 students. Failure to attend meetings would be basis for the consideration of withdrawal of the organization's recognition.

Please consider each of these proposed changes and voice your opinion on October 26th and 27th.

CHEVY CHASE

OPENS AT A THEATRE NEAR YOU NOVEMBER 4th
Wine Tasting
Sponsored by Canal Street Liquors, 420 W. 31st in cooperation with HUB Programming Office, October 26th, 1983 from 8 to 9 p.m. in the Hermann Lounge, Hermann Hall. Admission will be $5.00 per person. $2.00 for members. For more information please call 842-5620 for Jim or Fran. Due to space limitations only 100 people will be allowed to attend the tasting.

Jazz It Up
The IIT Jazz Bands are looking for new members. Requirements are the ability to play a horn (saxophone, trombone, trumpet) or rhythm instrument (guitar, bass, piano, drums), and to read music well.

The band will play concerts, give clinics, and rehearse every week. It is an excellent outlet for those interested in jazz.

A new Jazz Band is forming now, so positions are still available. Interested persons should contact the Director, Nad Daniel, at 779-5512 or leave a message in the DOSIL Office.

Halloween Special
On Halloween day the Rec Center will be sponsoring a trick or treat contest and bobbing for apples. A costume contest will take place at 8:00 p.m. in the Rec Center. Prizes will be awarded to the three best costumed contestants.

Society of Women Engineers (SWE)
The following events will take place for the remainder of the semester:

- October 26
  - 12 pm Meeting - Bell Labs
  - 9 am Open Engineering/High School Girls

- November 11
  - 12 pm Meeting - Baxter Travenel

- November 9
  - 12 pm Meeting - General Electric

- December 2
  - SWE Party

*TBA - To be announced

Union Board Members
Union Board is a student programming organization bringing entertainment to the IIT campus.

President: Sylvia Aguilar

Good Times!?! Spyro Gyra Was A Hit

Correction: Apologies -- extended to Marvin Watson, head of house management for the Spyro Gyra concert, for the misprint of his name in the previous issue. Marvin is to be commended for outstanding leadership ability towards his crew members. Thanks Marvin and the best house/hosts for a job well done.

LES IMAGES D’AFRIQUE
photographs by EMERSON WILLIAMS

"Les Images d’Afrique represents a documentary approach to taking in the photography of the cultural, traditional, and architectural heritage of west African life, particularly in Senegal, Ghana, and Liberia. I use transparency as a way of combining still life and subjects, which allow me to turn to print using the Chibahome process of color processing. The result is a selection developing and printing are extremely accurate and well-struck color prints approaching the precise brilliance and intensity of the original subject."

Mr. Williams was born in Mauritania, West Africa. He received his Bachelor of Art degree at Michigan State University. He then returned to West Germany and attended the Goethe Institute in Munich before receiving his Master of Art degree at Northwestern University. He is currently working on his PhD at the University of Chicago.

Mr. Williams has participated in numerous exhibits. To name a few they include the 57th Street Art Fair in which he received an award of excellence, the Milwaukee Inner-City Arts Festival in which he received the first award, the Illinois Service Federation Community Arts Fair in which he received the Best of Show Award and September Fest where he received an excellence award. Williams holds memberships in several organizations. He is President of the Organization of Creative Black Photographers.

Mr. Williams will be exhibiting his work here in the Humann Hall Gallery, 40 West 3rd Street on the campus of the Illinois Institute of Technology, from October 24 – November 17, 1982. There will be a reception for Mr. Williams Monday, November 7 from 6:00 to 7:00 p.m. in the Gallery Lounge. For further information call 887-0879.

TechExpo... Success

On October 13, 1982, two of IT’s very fine organizations, Union of Concerned Black Students (UCBS) and the Student National Technical Association (SNTA) hosted their annual TechExpo Fair. This year’s fair was a humongous success. There were over forty-five companies from across the nation and thousands of students.

TechExpo is a fair held for the students who are truly concerned with their futures and would like to investigate company programs and recruiting services. Generally offered are summer, job, scholarship, employment, and permanent positions if available. The company representatives presented the layout for the fair that was found out to be the right man for the job. Among the forty-five companies were: IBM, Hewlett Packard, Dowell Chemical, Sonicaid, General Electric, Union Carbide, Honeywell, Teletype, and a host of other very fine companies.

Many compliments are extended to the very fine hostesses and hosts who participated in TechExpo. There were quite a number of UCBS hosts and hostesses. There were also officers of SNTA. Those included: Roxanne M. Windford – SNTA Chairperson, Deborah Price – SNTA Vice-Chairperson and Lamonica Thrust – SNTA Secretary. It was also nice to see one of IT’s old friends faces among the company representatives. This was Claud Hallay of Dowell Chemical and alumni of IIT in the Chemical Engineering department.

TechExpo leads to success in that one can make an opportunity of a lifetime once he enters the fair. It was nice to see the huge turnout of students. All students are wished the best of luck; and again, UCBS and SNTA are commanded. Stay tuned for future information on TechExpo… Spring, 1984.

Great Escape Ski Weekend

The great escape weekend at BOYNE MOUNTAIN and BOYNE HIGHLAND will be held January 27-29. The price of 87.50/person includes the following:

- Two nights lodging at the Cliff Dweller’s Lodge, which is located within walking distance to the slopes
- Lift tickets for 2 full-days skiing (1 day at Boyne Mountain & 1 day at Boyne Hills) on both days at either
- Two hearty breakfasts
- An outstanding Saturday evening dinner
- All taxes, all slope activities, and gratuities.

There is an additional expense for transportation and ski (optional) for those persons who do not have skis.

| price/person | $87.50 |
| skis (if needed) | $20.00 |
| transportation | $14.25 |
| Total cost/person | $121.75 |

including optional $20/person ski rental.

For sign-up and information please call:
Roberto x5088
Bob Soza x5084
Alberto x5085

Note: Limited number of seats still available. A $25 deposit will be due by Oct. 31st.
IIT soccer team improves record

IIT’s Soccer Team improved its record to 4-4-1 by defeating Purdue University and tying University of Chicago.

Coach Fay changed the line-up against Purdue by putting Sue Hattma and Jannell Atari on the offensive line. They each answered by scoring a goal apiece to put the final score IIT 5, Purdue 1.

Against the University of Chicago, Sue Hattma came through again by putting in the first goal of the game. In the second-half, Chicago scored a disputed goal that tied the score. Tech placed one man short the rest of their game and over-time a man short due to the ejection of the kickers goal keeper.

But Tech prevailed by controlling the rest of the game and maintaining the tie.

Wednesday, October 26th, will be the Hawks last home game of the year. The game will be against Trinity College on the Soccer Field next to Keating Hall. It will also be Fan Appreciation Day which means the admission will be free.

Women’s V-ball splits matches

By Bill Gallagher

The IIT Women’s Volleyball team split their matches this week, beating Rotary College on Tuesday, 15-6, 15-7, 15-6, and losing to Northeastern Illinois University, 15-2, 15-7, 15-8, 15-2. In the Rotary match, the Hawks were in control all the way. Leading spikers for the Hawks were Laurense Maker with 7 kills and Ruth Zeldenrust with 6.

Against Northeastern, IIT ran into trouble early in the first game but tied it at 15-2. Unfortunately, Northeastern got three quick points to make it 15-5. Betty Linn-O’Connell injured her shoulder in game 2 and this put the Hawks in an unfamiliar lineup. The result was a 15-3 loss. In game 3, IIT got their act together and dominated the game, winning 15-7.

In this game alone, Kelly Ceda had 6 kills, mostly on good sets from Jennifer Gisk. In game 4, the Hawks found themselves at 12-2 again, but Northeastern pulled away to another 15-2 win.

This week the volleyball team travels to College of St. Francis in Joliet on Tuesday, for their final conference dual meet. On Saturday, the conference tournament will be held at Chicago State University from 9 am to 3 pm. The final home match will be Tuesday, November 1st against National College of Education. The Hawks, with a record of 2-1, still have a good chance at first place in the Chicagoland Conference

Intramural V-ball

We need more teams! Deadline extended to October 27th. Play will be Tuesdays and Thursdays. D-2.

This Desk Can Reach Mach 2.

Some desk jobs are more exciting than others.

As a Navy pilot or flight officer, your desk can be a sophisticated combination of supersonic jet aircraft and advanced electronic equipment. But you can handle it. Because Navy flight training gives you the navigation, aerodynamics and other technical know-how you need.

In return, Navy aviation demands something of you as an officer: Leadership.

Your path to leadership starts with officer training that’s among the most demanding in the military. It’s intensive leadership and professional schooling combined with rigorous Navy flight training. And it’s all geared to prepare you and other college graduates for the unique challenge of Navy aviation. The program is tough but rewarding.

One important reward for Navy officers is decision-making authority. In the air, and on the ground, you have management responsibility from the beginning. And your responsibility grows as you gain experience. No company can give you this kind of leadership responsibility this fast. And nothing beats the sheer excitement of Navy flying.

The salary is exciting, too. Right away, you’ll earn about $18,300 a year. That’s better than the average corporation will pay you just out of college.

And with regular Navy promotions and other pay increases, your annual salary will soar to $51,100 after four years. That’s on top of a full package of benefits and privileges.

Before you settle down to an earthbound desk job, reach for the sky. Reach for the coupon. Find out what it takes to be part of the Naval Aviation Team. You could have a desk that flies at twice the speed of sound.
