Bonthron wins award

Dr. Robert J. Bonthron, a teacher at IIT for 37 years, has been named the recipient of this year’s Excellence in Teaching Award. The award was announced at the Trustee’s Dinner last Thursday evening.

Bonthron is an associate professor of mechanical engineering and assistant chairman of the MME department. He has regularly taught a course in vibrations since 1954 and a course in systems dynamics since 1975. Both are undergraduate courses.

"How you are as a teacher is really a measure of how far you can advance the students," Bonthron said. "It's knowing where the students are, what their background is, what's hard for them, what's easy. That's not a simple thing to do."

"The goal is not to confuse the student as soon as possible. You don't want them to be afraid of learning, like being a sheep; you've got to go back and get the stragglers."

The Excellence in Teaching Award is administered by the Dean of Student Life, James Vice. All registered graduating seniors are sent a nomination form and asked to nominate one teacher. Teachers from their four years at IIT are to be considered.

The nomination form points out that the selections committee will be most influenced by "a thoughtful assessment of the faculty member rather than by evidence of a popularity poll or student signatories." From the nomination forms IIT Counseling Center staff members and representatives from Tech Entrepreneurs attended. They will report on the committee at the Thursday meeting.

For further information, see Tech Entrepreneurs student entrepreneurs Linda Lee, Saul Champion, and David Groesch inquiring about their own experiences. Lee, a computer science graduate student in industrial organizational psychology, discussed his stained glass business. Groesch's presentation concerned his efforts to develop and market Chocola, a chocolate-covered version of the Greek pastry baklava.

Tech Entrepreneurs is one of many student organizations across the country that are interested in entrepreneurship. The recently organized Association of College Entrepreneurs (ACE) held its first national conference April 13-15 in Boston. Representatives from Tech Entrepreneurs attended. They will also hear two venture capitalists: five entrepreneurship: The Excellent in Teaching Award has been given since 1967 to an alumna and Representatives from Tech Doug Cork (567-3492), the following: CHANGE THEM. where are you going to get such a

Last year's International Fest, held in Herman Hall, was a great success.

Whatever your plans were for April 20th, if they did not include the following: CHANGE THEM. On Friday, April 20th IIT will sponsor the cultural event of the year (the finale of One World Many Cultures). From Noon until 7:30 pm Hermann Hall will be turned into a global affair, in essence, WE'LL HAVE THE World in

International Festival '84 will include booths representing over twenty-five different countries from Noon to 7:30 pm. There will be feature food, music and artifacts from their individual countries and cultures.

Live entertainment will be presented from 4 pm until 10 pm. This gala entertainment extravaganza will include the West Jamaican Folk Dancers, the Navajo Drum, a Classical Indian Dance Company, a Turkish Dance and the Free Press. People’s Republic will be represented are the Arab countries, Turkey, and the U.S.A.

This will be a culturally enlightening experience, so come broaden your horizons.

Again: Date: Friday, April 20th, 1984 Time: Noon until 10 pm Place: Hermann Hall Admission is free. See You There!

Stress program initiated

As the semester nears its end and the pressures and stresses associated with the final four weeks of school is upon us - an inter-fraternity campus-wide social service workshop program will be provided to promote time-efficient and effective "finale-time" study methods as well as provide psychologically oriented strategies effective in reducing high stress and anxiety levels often associated with taking exams. The workshop program is being sponsored by the Counseling Center and the Department of Psychology.

Fraternity members are currently being trained by Counseling Center staff members Steven Godin, Renata Jozwikowski, and Stacy Jacobson. Tim Pedigo and Dr. Sue Ann Frank from the Department of "psychology are also involved. Once the fraternity brothers have acquired the necessary skills from their own workshop training, they will go out into the IIT community and provide these services to their fellow students on campus. The idea is to train student leaders from social service oriented student organizations on campus. The program originated from a "needs assessment" the Counseling Center conducted last fall," stated Steven Godin. M.S. "We found that students on campus, especially freshmen, were in serious need of developing effective study habits, while older students indicated a greater need for decreasing their stress and anxiety levels." Mr. Godin continued. "Traditionally, the Counseling Center has provided a variety of study skills and stress reduction workshops however, typically, we have only been able to achieve a very low attendance at these workshops.

We hope that by training fraternity brothers a paraprofessionals, we can provide a more cost efficient and effective service to those students who are in need of the services," Mr. Godin stated. "I have been able to gather up some funding and the fraternity house or houses who service the most students will win a cash prize of one-hundred dollars. I have yet to put together all the details, so I am continued on page 7
What's the purpose of filling out a teacher evaluation form if you won't see the results? This year we've decided to distribute our own evaluation forms which will be compiled into a booklet and made available to all students.

Who are we? We're the Association of Tech Students, your student government.

So please take the time to fill out the evaluations since they're for your benefit.

Next ATS meeting April 17 in HUB 1:00
Nominations for next year's board.

The Anti-Technology Challenge

Winning Captions of the last Anti-Tech Challenge.

You made this too easy!! My caption is

Name ___________________________ Phone ___________________________

Easter worship

Prayer and worship in observance of Holy Week and Easter at IIT Chapel will be held according to the following schedule of services:

Holy (or Maundy) Thursday, April 19: Prayer and Eucharist 5:30 p.m., Communion Service 7:45 p.m., Meditation: all day

Easter Sunday, April 22: Service of the Eucharist - Holy Communion 11 a.m.

IIT Chapel is just north of the Residence Hall Complex, between Ashbough and Michigan Avenues.

See Dr. Heilich

Dr. Henry I. Heilich will deliver his keynote address "Scientific Innovation and World Peace" on Monday, April 16 at 7:30 p.m. in Herman Hall. At 8:30 p.m., he will also meet with a panel of scientists in a discussion of the role of professionals in furthering peace. On Tuesday, April 17, Dr. Heilich will conduct a workshop on "Computers and World Peace Through Trade," beginning at 12:30 p.m. Later he will be a guest on an IEEE Computer Society open meeting at 12:30 p.m. in Room 104, Stuart. For further information call Ext. 9652.

Learn about Bosons

On Wednesday, April 18 at 4:00 p.m., the Physics Department will present a colloquium on "The Discovery and Intermediary Vector Bosons". The speaker will be the Professor David Cline of the University of Wisconsin. The colloquium will run in Room 217 of Siegel Hall. There will be a pre-colloquium social in Room 202 of Siegel Hall at 5:30 p.m.

Stress workshop

continued from page 1 of encouraging other student organizations to participate, just contact me at the Counseling Center (X556). If I can find additional funding, I could increase the cash award or have second and third place prizes Mr. Goldin continued. "My key concern during this time of IIT budget cuts is to provide, in the most effective fashion, the much needed workshops on study skills and stress reduction. If the administrators are able to keep just one of the returning students from doing poorly on their finals, we may have saved IIT thousands of dollars by keeping these students in school."
The history of failure in war can have dire consequences. Things would continue to do so. Too late. Too late in comprehending the deadly purpose of a potential nuclear war. Too late in preparing for the potential war. Too late in uniting all possible forces. Too late in standing in one’s strength.

General Douglas MacArthur

Something old and forgotten was beginning to turn over and wonder at war with the Soviet Union. The world was coming to life, marking the beginning of the end of the hall the lights went out.

He entered the study center of the natural sciences building. A very tired looking man was speaking. He was holding his chair in his hands. It was true. They don’t have the guts to make the tough decisions necessary to conduct a strong foreign policy. These men have never taken any initiative that the Nicaraguan had in coming to rest with the Soviet Union. They are free to do as they please with no fear of retribution. They can have as much or as little of the Soviet Union as they see fit.

He thought that now it seems that the government of El Salvador and everyone else who are engaged in the arms trade with the Soviet Union are going against the will of the United States government to oppose this aggression and backbone to oppose this aggression and backbone to oppose this aggression.

The idealistic liberals double standards apply to the kind of things that are engaged in “acts of war.” We are calling our moral base world policies that are some kind of internal policies in Central America by tying actions there to those in Nicaragua. Because through the CIA we must be careful in our way to protect the Nicaraguan support of the government of El Salvador on breaking “international law” and the U.S. mining mines in the harbors of Nicaragua.

“Then you are going to use it? Penway’s argument to overthow the government of El Salvador on breaking “international law” and the U.S. mining mines in the harbors of Nicaragua. We are coming to life, marking the beginning of the end of the hall the lights went out.

Deep in the cold, sterile building something was stirring. Something old and forgotten was beginning to turn over and wonder at war with the Soviet Union. The world was coming to life, marking the beginning of the end of the hall the lights went out.

THE MUSEUM

Would you like to see the Thursday film time changed to 4:00, 5:00, 6:00 or stay at 5:15?
Greek Week!

The IIT fraternity quadrangle played host to the "battle of victory and the agony of the slider snarf" all last week, for April 9-13 was Greek Week. Once again the nine fraternities and two sororities met to compete in 12 events specially chosen to test the speed, endurance, strength, hand-eye coordination, cooperation, and above all the sense of humor.

Greek Week begins with the selection of the King. The candidates give speeches using all the theatrical resources available to them. Needless to say, some of them had greatly depleted resources. Sig Ep won the KIng event.

With a King chosen, the other events could begin. The events were: Egg toss, (winner- Phi Kaps); The Red Race, (how fast you can push one, not how fast you get into one); Tug of War, (winner- Sig Ep); Slider Snarf, (how fast you can eat 3 White Castle Hamburgers); Winn- er- Phi Kaps); Can Race, (see 3-legged race but with 8 people, winner- Phi Kaps); But Race, (person weighs around a bat with you head and then trying to run, winner- Phi Kaps); Cart Race, (person wearing cart that would even make Jackie Stewart proud) (winner- Pi Kaps); Pentathalon, (winner- Sig Ep); Legs Tunnell, (winner- Sigma Phi). Marble Dug, (just picture mud wrestling and looking for marbles at the same time) winner- Phi Kaps.

Beer Chug was the final event of Greek Week, 5 people from each house drink 24 oz. of beer each (12 oz. for the sororities), the fastest time finishing wins. After every horse chugged Delta and Phi Kaps were tied for first place with a time of 30 seconds. The two teams chose to have a tie-breaking second chug. The Delta's were victorious by chugging 5-24 oz. beers in 29 seconds and the Phi Kaps not finishing at all.

The events being completed the houses joined together for a Inter-Fraternity Beer Bash which lasted all night. 15 kegs of beer were no match for IIT's Greek society. The whole week proved to be a great success.

The overall standings for the 1984 Greek Week were:

- Phi Kappa Sigma - 114 pts.
- Sigma Phi Epilson - 98 pts.
- Pi Kappa Phi - 55 pts.
- Tau Epsilon Phi - 42 pts.
- Alpha Sigma Phi - 26 pts.
- Alpha Epsilon Phi - 21 pts.
- Delta Tau Delta - 17 pts.
- Theta Xi - 5 pts.
- Kappa Omega Delta - 5 pts.

Sabans on U.S. role

Continued from page 1

our retreat by voting in true leaders: ones with foresight and the role the United States must play in a world leader in standing up for what is essential for every person's basic human right: to live in peace and freedom and not under a tyrannical, oppressive, self-serving government as that being foisted upon the people of this earth by the Soviet Union. Freedom never has and never will come cheap.

The DOSL Office is now accepting applications for the positions of the Technology News Editor-In-Chief and Business Manager.

Applicants for the position of Editor need at least three of the following attributes: 1) Patience, 2) Diligence, 3) Free weekends. This is a salaried position.

Applicants for Business Manager should have some background in sales, good communication skills, and a natural affinity for money. The position requires a minimum of six hours a week but the investment in time is greatly rewarded with real business experience as well as a handsome salary.

Applications will be accepted in the Dean of Student Life Office in the HUB until May 10, 1984.

Coaches inducted into Hall of Fame

Some of the Chicago area's greatest high school and college coaches will be honored on May 3 at a special dinner hosted by the Chicago Sports Hall of Fame.

The inductees include Norman Barry (De LaSalle, Chicago Cardinals), A.L. Whitmer (Crimin, St. Leo), Erle Stanley (Hwy Park, Tony Lawless Fenwick), Fred Lindstrom (Northwestern), U. Frank McGrath (De Paul U.), Fred Kercel (Schurr), Chuck Palmer (Engler), Linnie Sacks (Loyola U.), Jack Tierney (St. Georges), Bill Shay (Fenwick), Ted Hoytides (U. of Chicago) and the Varous (St. Patrick and St. Leo).

The ceremonies will be held at a cocktail reception in the Grand Ballroom of the Conrad Hilton hotel at 5 p.m.

Other inductees include Alex Agace, Keith Magnuson, Minnie Minosa, Alamon Parko, Bill Knoworn, Ed Sovink and Tony Zale.

Proceeds from the event go to special Olympics for mentally handicapped children in Chicago. For ticket information, call 204-3316.

Retiring coach honored

Diving Coach Bob Wendt is retiring. Along with him will go 13 years of dedication to IIT students and athletes.

His dedication to students and the swim team was evidenced by his working with the divers for six years for no pay. In addition to working with the swim team divers, he helped people who just wanted to learn to dive.

Swim Coach Dennis Marsh remarked that "if I was to say one word about Bob Wendt it would be agreeable... I've never had a better situation working with a guy like that in my entire life."

A plaque for Coach Wendt will be placed in the gallery at the Keating Hall. He would become the first coach so honored. A goody-bye party was held April 12th at Alpha Sigma Pi Fraternity. Members of the swim team, Athletic Department alumni, swimmers (some came in from out of state to honor Coach Wendt), and others whose lives Coach Wendt affected.

The search for a new diving coach is under way. It is possible that the University of Chicago coach will work with the divers in the interim.

Excellence award

Continued from page 1

some advance warning. "But if I hadn't known I would have dropped dead," he said, "if I had to pick as award to receive I guess I would have picked that one."

About the unsustainability of teaching the same vibrations course since 1954 Bonsteele said, "It's an old subject. It still equals Ma. You can't go wrong." And as for how the $1000 prize would be used, "any wife will decide that."

Graduating seniors are asked to judge their teachers in content of lectures, preparation, selection of materials, availability, concern for students, examinations and papers, and fairness of grading.
