Martin welcomes you

Welcome to IIT and to the main part of the IIT community. I hope that you will enjoy your time here, whether you are a student, an employee, an alumnus, a faculty member, or just a visitor. IIT is a diverse community with a rich history and a broad range of programs and activities. We are committed to creating a welcoming and inclusive environment for all members of the IIT community.

IIT is a private utility company generating steam in a power plant and selling it to two campus affiliates as well as to IIT. We operate a private security force to provide police protection for ourselves and all others living and working at IIT Center. It is an international center being a place where many citizens from almost every nation on earth work and study.

Having recognized these activities of IIT, it becomes clear that more than anything else, IIT is a community, architected along the lines of a complicated community with all of the attributes, characteristics and behaviors that define all communities. But, for all of its similarities to other communities it is different because it is, first and foremost, a community of scholars - a community of students and professors working together in the public interest for the purpose of producing people who will contribute to society through the practice of their professions. The IIT community is also a setting where hundreds of others find their livelihoods, making it possible for a large number of scholars to function effectively and to achieve its purpose. It is the presence of this cadre of scholars within the IIT community that makes this a very special place.

There are nearly 1200 people employed at IIT Center for one inclusive reason - to make the community of scholars a productive community. This makes IIT a place of learning, of a place of teaching. The faculty are expected to function as scholars - a function which includes the affirmation of their faith and allegiance to their profession; they illustrate how their profession operates, outline its history, review examples of its successes and failures, and the works of its greatest practitioners; they review and explain the tools of the profession.

The hallmarks of the community of scholars are civil discourse founded on trust in one another, a politics of consensus achieved in an open environment and power which is persuasive rather than coercive.

We invite you to full participation in the IIT community of scholars.

ATS needs you!

On behalf of the Association of Tech Students, welcome to IIT! ATS is the student government, and our purpose is to serve the students of IIT in any way possible.

Every full-time day undergraduate or graduate student is automatically a member of ATS. To become active requires that you attend a regularly scheduled meeting (dates can be found in the Thriving Calendar).

Freshmen are important to ATS. New students are needed to provide a fresh perspective for ongoing problems upperclassmen have been working on. ATS feels freshmen are qualified to work on committees that deal with issues relevant to students from campus security to teacher evaluation.

At meetings, the Executive Board, the Assemblymen, Organization Representatives and interested members discuss information gathered from the campus. We also address any new problems that arise.

ATS does more than have meetings. We sponsor the Intramural College Bowl competition at IIT, and send our All-Star team to compete against other colleges in the region. We annually hold a Fall Leadership Conference and a Spring Conference. We participate in IIT's International Festival by contributing a booth with an American theme. We also send student representatives to state-wide committee meetings.

Through student input and effort, ATS was able to initiate improvements in campus life, such as getting lights installed in the Dearborn fire lane, developing better relationships with the community through a continued on page 8

UCBS planning orientation

Greetings from the Union of Clay Building and Stone (UCBS), the umbrella organization for all the Black organizations and activities on IIT's campus.

If you are interested in joining our organization (UCBS), in one aspect or another. It is also our goal to assist you in making your stay at IIT a successful and enjoyable one. UCBS is comprised of two sub-groups, both of which function independently under the guidance of their national chapter affiliates. These organizations are the National Society of Black Engineers and the Student National Technical Association.

We also have representatives of the following Black Greek-lettered organizations on campus:

Delta Sigma Theta Sorority Inc.
Kappa Alpha Psi Fraternity Inc.
Omega Psi Phi Fraternity Inc.

Do a little investigation to see which organization suits your needs. Good Luck and we'll be looking forward to seeing you.

Some of our upcoming events are:

Wednesday, August 20, 1986

Techmate helps students to succeed

COMMITTERS HAVE NO FUN. Do you believe that? Techmate believes otherwise.

Techmate is a service program for commuter students. Techmate provides activities for students who want to become involved, be aware of events on campus, meet other students, make friends, do better in their classes, learn leadership skills, and some fun - in other words, succeed at IIT.

Techmate has something for everyone. There are no competitive sports like football, basketball, bowling, or swimming. The Chat-in-Chew helps you get acquainted and have a chance to have lunch with IIT faculty and administrators.

Special events include a Career Fair, IIT Organization Picnic, and at least one activity over the semester break.

Techmate is set up as a peer helper group. New students, IIT students, visiting transfer students, are placed into groups of five or six with Techmate continues on page 3

NSBE planning active year

Are you having fun yet? Join NSBE!!!

What's NSBE???

NSBE is the National Society of Black Engineers, one of the most active, dynamic, and exciting professional organizations on IIT's campus. The National Society of Black Engineers would like to welcome all new and returning students to IIT. We hope that you are looking forward to an exciting and successful year, and we invite you to participate in some of the many activities we have planned for the upcoming semester.

Our organization is a national student society with chapters at several colleges and universities across the nation. The function of NSBE is to promote the recruitment and retention of minority students in engineering and the sciences. Throughout the school year, we plan to host professional development workshops, career fairs, study groups, and various social activities. In addition, we will participate in a National High School Outreach Program to encourage younger students to prepare for college and engineering careers. This year, we are very excited because our chapter also plans to host a fall regional conference with Northwestern University in Chicago during October.

This will be an outstanding opportunity for IIT students to interact with college students continued on page 9

How to hack college.

Yes, it is possible to get through school these days without being a propeller head. All you need is a computer that is not a propeller head, either The Macintosh™.

Take a program like Macintosh Pascal, for example. It lets you write programs with extraordinary ease. Because you can step through program instructions in one window and see it run graphically in a different window at the same time. You can de-bug faster. You can create remarkable graphics. And you have faster development turn-around time.

This is just one example of how Macintosh helps students work smarter, quicker and more creatively. And the beauty of Macintosh is, you don't have to know daddly about computers to use one.

There's only one thing you won't be able to do with Macintosh. Get confused, intimidated and frustrated.

announcements

CAPD Welcome

Sheila Walker, Assistant Director of Admissions, along with the College of Architecture, Planning and Design faculty, staff, and upperclass students, will be hosting a reception to welcome CAPD freshmen and transfer students sometime during the first two weeks of school. Notices will be posted with further details.

CE Picnic

The Civil Engineering Department welcomes the CE freshmen and transfer students. The department is planning to arrange a picnic with the freshmen and would appreciate if the entering students (freshmen and transfers) could provide their addresses and telephone numbers (either dormitory room numbers or home numbers in Chicago or suburbs) to the CE Department Secretary. This information will be used to send invitations for the date and location of the picnic. We would also like to invite the entering students to visit the department and its laboratories. Come browse and ask any questions you may have.

Technology News

The announcement column is for announcements of meetings or events your organization will be holding. To get your announcement printed, simply write it down (legibly, or if you can’t, please type it) and drop it in the mail slot in the door of the Tech News office on 5th Floor of Main Building. We must receive the announcement by noon, the Thursday preceding Monday publication. If it is received late it will be held for next week’s publication if it is still valid. If it is no longer valid it will be thrown out. We cannot and will not take any announcement over the phone or on any of our answering machine. Announcements for events that charge admission or any other fee will be considered advertisements and will be billed as such.

Techmate

continued from page 1

2 p.m., and you need only attend the events you are interested in. If you want to join Techmate, pick up an application form in the Student Life Office. Please respond by Wednesday, August 27th. If you have any questions, you may call the Student Life Office at 567-3080.

The Brothers of Alpha Epsilon Pi, Lombo Chapter, wish to invite freshmen and transfer students to join us for the following Orientation Week events. We hope you will take advantage of this opportunity to meet us and to enjoy yourself before facing the challenges of the semester.

SUNDAY

Our parents and alumni will welcome you and your family with a homecooked lunch.

MONDAY

Start with an authentic Mexican feast then sit down with us for REPI AT THE MOVIES.

TUESDAY

At 8:00, we hit the city's hottest showplace, THE SECOND CITY and then for Chicago-style pizza.

WEDNESDAY

Sit down for a Greek dinner followed by a trip to the WATER SLIDES.

THURSDAY

At 7:00 join us for bowling and games at the HUB; then we tour Chicago on a DOUBLE-DECKER BUS.

FRIDAY

The Interfraternity Council sponsors a band for our enjoyment.

SATURDAY

We'll head out to the WAVE POOL and then on to a PICNIC and PARTY.

For your enjoyment . . .

Union Board presents:

Films
8/21, 8/23 Remo Williams: The Adventure Begins
8/28, 8/30 Body Heat
9/4, 9/6 Breakfast Club
9/11, 9/13 Silverado
9/18, 9/20 1984
9/25, 9/27 Cocoon
10/2, 10/4 F/X
10/9, 10/11 Youngblood
10/16, 10/18 Gremlins
10/23, 10/25 Jagged Edge

12/10
Bud Hudson and the Hornets - 50's/60's rock

All films are shown in Hermann Hall Auditorium at 5:15 pm on Thursdays and 7:00 pm and 9:30 pm on Saturdays. Admission is $2. Excep for Remo Williams which will be shown at 8:30 pm on August 21 due to late registration. Admission is free.

All concerts are shown in the Bog on Thursday evenings at 9:00 pm. Admission is $2.

KAPPA PHI DELTA SORORITY

1904-1986

Come meet the women of Kappa Phi Delta Sorority! We have many exciting events planned this week.

For a schedule of events, call: 842-3930 (campus extension 3421), or come down to the Kappa Lounge located in the basement of Lewis Hall, the women's dorm.
Basketball

The IIT basketball team has signed a fresh team of recruits for its 1986-87 season. New team members include Tom Beaton 6'5" transfer from Eureka College, 6'4" forward guard from Whitney Young High School, and James 6'5" transfer from Michigan Tech University. Mark Thompson 6'6" center from Hillcrest High School and John Lorentz 6'5" center from Weber High School and Charles 6'3" transfer from Rich Central High School. Last year's team posted victories over the University of Chicago, Roosevelt University, Rosary College, Concordia College, and Northwestern University. The IIT basketball team finished its regular season with a disappointing 5-7-4 record. The Hawks, coached by Rich Fay, accumulated victories over Illinois Benedictine College, Moody Bible Institute, Trinity, 1-0; St. Francis College, 2-1, and Carthage College of Kenosha, Wisconsin, 4-0 and tied Wisconsin Parkside College, 1-1. Awards for the season were presented to Mike Grubelich - Most Improved, Francisco Damien - Rookie of the Year, Juan Aparicio - Most Valuable Offensive Player and Monetis Gillo - Most Valuable Defensive Player. The roster for this season's team will be strong, blending new and veteran players. However, the starting line-up and the team itself will be determined. If you are interested in joining the team, tryouts will be held starting on Monday August 28th at the soccer field behind Keating Hall. Subsequent practices will be on M-W-F 3:00-5:00 and T-TH 12:00-2:00.

Soccer

The IIT Soccer team finished its regular season with a disappointing 5-7-4 record. The Hawks, coached by Rich Fay, accumulated victories over Illinois Benedictine College, Moody Bible Institute, Trinity, 1-0; St. Francis College, 2-1, and Carthage College of Kenosha, Wisconsin, 4-0 and tied Wisconsin Parkside College, 1-1. Awards for the season were presented to Mike Grubelich - Most Improved, Francisco Damien - Rookie of the Year, Juan Aparicio - Most Valuable Offensive Player and Monetis Gillo - Most Valuable Defensive Player. The roster for this season's team will be strong, blending new and veteran players. However, the starting line-up and the team itself will be determined. If you are interested in joining the team, tryouts will be held starting on Monday August 28th at the soccer field behind Keating Hall. Subsequent practices will be on M-W-F 3:00-5:00 and T-TH 12:00-2:00.

Volleyball

The IIT volleyball team has completed another successful season, finishing with their best record to date 33 wins and 7 losses. Highlights of the season include first place finishes in the Scarlet Hawk, Trinity, Christian College, and Rockford College Invitational and second place in the Purdue-Culver's Invitational. At the end of the year IIT's

Swimming

The varsity swimming team travelled to Spokane, Washington this year and competed in both the NAIA National Swimming and Diving Championships. After four grueling days of competition the team came out with an 11th place finish, their best ever in national competition. IIT's top performers were Mike Messier (3rd, 4th, and 7th place) and Doug Lovato (3rd & 8th place). Other national qualifiers were Chuck Fee, Matthew Farnes, Patrick Gize, Fred Palfy and David Hattaway.

"Chuck Fee compiled an exceptional undefeated record in dual meets for the last two seasons and is now the all-time leading scorer in IIT varsity swimming team history. The coach of the team, Dennis Matuch, and three time All-American Mike Messier were nominated for the ISA swimmer and Coach of the Year in the college division for their outstanding season.

"They had hoped to place in the top 20 in the national meet, but the 11th place showing was a surprise to us all," stated Coach Matuch. "The team could improve this year tremendously if our recruiting goes well. We have no seniors on last year's squad and with three freshmen on the team with national championship experience, we could do very well. This year's nationals will be in Milwaukee, Wisconsin and we do very well close to our own pool park."

Women's Tennis

The women's tennis team, coached by Bob Tooper, finished their season with a 4-6 record. During the year they defeated Wheaton College, Aurora College, 8-0, North Central College 6-1 and Trinity College in Deerfield 9-0. At the awards banquet Chris Kostner was named Rookie of the Year, Ruth Zeddenmuth - Most Improved Player and Kelley Coda - Most Valuable Player. This year's captain for the team will be Kristy Lyons.

Baseball Team

The baseball team began their season last year with a spring break workout in Jacksonville, Florida where they competed in the Florida Classic Tournament along with other fine teams from the northern states. During their season, they defeated such teams as Concordia College 11-1, Trinity Deerfield 3-1, Loyola Circle 14-8, St. Joseph College 3-2 and 4-3, Northeastern University 5-2, Valparaiso University 5-4 and St. Xavier College 12-10. Men's varsity baseball team tryouts are held in the fall not the spring, so if you think you would like to make the team come out now! For further information contact coaches, Jim Darrah and Rollie Wozniak in Keating Hall or phone x2299.

Hockey Club

The hockey club captured its second consecutive league championship last year with an outstanding 17-1-0 overall record. During the season they defeated such teams as the Beloit College Buccaneers 19-0, Wheaton College 5-3, and Bradley University 4-3.
