HKN hosts AT&T speaker

Ella Kappa Nu, the electrical engineering honor society, hosted a speaker from AT&T on Tuesday, October 26th. The speaker, Sherie L. Brown, is currently working for the System Administration and Maintenance Group of AT&T in San Francisco.

Ms. Brown discussed general information relating to her present work and used overhead visuals to highlight the main points. Individual topics of her current project were discussed, and how related to one another. On a product basis, she discussed a typical schedule which would be followed for providing a custom database management system. Initial customer requirements and protected business growth were highlighted.

A question and answer period was then followed by a brief discussion on employment at AT&T. The Study Program was explained, as well as what to expect in the field for a responsibility when employed at AT&T. "Each employee must be a team player, but should also possess a strong personal motivation and self-disciplined work ethic."

This second discussion was followed by an informal question and answer period complete with refreshments. Information booklets were handed out at the close of the meeting. Extra copies of these are available in the HKN/IEEE lounge.

Ella Kappa Nu would like to thank Ms. Brown for taking the time to visit our campus and provide our honor society members with her informative presentation.

In other IEEE news, the honor society held a meeting on Thursday, October 30th in the HUB, and discussed the initiation banquet. The majority of this semester's initiates have already taken the initiation test and completed the other requirements for acceptance to the society. We would like to congratulate those initiates, and remind any student who is eligible and still interested in joining the society to submit their initiation applications at their earliest convenience.

Communications Colloquium to be held

The Chicago region is becoming a national center for telecommunications systems development and marketing. Consequently, the need for marketing high technology telecommunications products and services increases. Strategies for new ways of positioning their companies, assessing their customer's perception value of vendor relationships, and organizing to meet customer needs. Successful high tech marketers must learn to use information systems to effectively manage their selling activities. Increasingly, they are relying on increased consultative activities to stimulate and support sales.

On Thursday, November 6, IIT's Stuart School of Business Administration Executive MBA Program will present a special Telecommunications Issues Colloquium at IIT Research Institute, 10 West 35th Street, from 10:00 AM to 3:30 PM. This unique colloquium will provide an excellent opportunity for participants to learn about important aspects of high technology marketing. The public is invited to attend. The program is free to students who register in this event: the $20.00 registration fee includes lunch. Advance reservations are required.

The program for the event is as follows:

10:00 AM — "Market Positioning," Robert M. Janowiak, Adjunct Professor of Marketing, Illinois Institute of Technology

11:00 AM — "Effectively Meeting Customer Needs," Thomas E. Furr, Administrative Vice President, Marketing and Business Development, Rockwell International Communications

Chit-Chat coffeehouse open

Have you seen the advertisements around campus for the Chit-Chat? It is held every Wednesday in the Fireplace Lounge in the HUB from 11:45 until 1:00 in the afternoon and from 7:30 until 10:30 in the evening. There is live music, and free coffee and punch is available. The perfect place to bring your lunch during the day or just stop for a while and talk over some class notes while listening to the music. In the evening there is full availability to right in front of the fireplace with some friends. You might even see some of the campus notables like the Chippel or Dean Vike. Last night we heard a jazz number by Fred Filipkow played. He is an excellent guitarist who has played all over the Chicago area and has been a professional musician for 22 years. The week before there was a demonstration of some of our local talent; Joe McNulty, an architecture student at IIT, played some good pop music, from folk to bluegrass.

If you have not yet stopped by the Chit-Chat, try it out. The music is good, the coffee is free, the fire is warm and we would love to use a little break in the middle of the week.

Battle of the Titanos? Actually the crate was being used to replace a broken window on the third floor of the Life Sciences Building Friday.

IEEE Bendix Award Contest

Have an idea for a project but need financial help implementing it? Are you currently working on a project and would like the possibility for national wide recognition of it? Simply get together with your fellow IEEE student Branch members and submit your idea as a proposal in the IEEE Student Branch Bendix Award Contest.

The objective of the contest is to provide the opportunity for IEEE student Branch members to work with others on an engineering project. Topics may be of a technical or non-technical nature. Only last year two IIT student's, Maurice Givens and Jim Hoover, received $500 for the implementation of a proposal submitted.

The submission deadline is November 15. This is quite soon but prior announcements have been made at IEEE meetings. It is therefore almost a requirement that you have already done the research necessary to write a proposal on your project idea. If anyone is interested please contact your local IEEE Chapter or your local IEEE Section. IEEE Special P-Joint Coordination, at 567-4587 or Dr. Samis, IEEE Adviser at 567-3412. A final note is that only one submission can come from the IIT student branch, so contact one of the other before November 7 so there will be time to select from multiple proposals.

College women fighting harassment

(CPS) - College women nationwide are entering their second school year without Title IX and women's groups regarding how to fight campus sexual harassment cases - missing their best shot at ending equal funding - say it's getting harder to force schools to pay attention to them.

In June, 1984, the U.S. Supreme Court effectively gutted Title IX of the Higher Education Amendments of 1972, which said colleges would lose their federal funding if they discriminated on the basis of gender. Women's groups had used Title IX to force colleges to adopt ways for women to appeal campus sexual harassment cases, to hire and grant tenure to female faculty members and to begin funding women's athletics equally to men's sports.

All that's over now, some say.

"In funding women's athletics and in sexual harassment cases, if a school has no policies or procedures in place (already), students in most states have no (legal) recourse," contends Bernice Bandler, head of the Project on the Status and Education of Women, which, in turn, is funded by the Association of American Colleges.

"We lost an enormous amount of ground but, as yet, we don't even know how much we've actually lost," says Ellen Vargyas, an attorney for the National Women's Law Center.

Yearbooks are Back!

During college years, students find so many new and exciting experiences. We have designed a way to capture these experiences forever . . . . A college yearbook. Yearbook meetings are held every Monday at noon in the HUB Mezzanine. We are open for new ideas and suggestions.

We also have order forms for early birds. If you would like to order a yearbook now, please fill out the form below. All yearbooks will cost $19.00 and consist of color as well as black and white photographs. Let's catch the wave and show some spirit at IIT.

PIFC OLYMPIAD

Saturday, November 15, 12 pm — 4 pm

A day of competitive events! AWARDS TO THE TOP 3 TEAMS!
Tug-o-war, obstacle course, tricycle race . . . . And More!
Entry open to fraternities, sororities, dorms, commuters, and faculty!

EVERYONE IS WELCOME

REGISTER NOW

Must register in teams of 5 by Wednesday, November 12!
$5.00 entry fee per team

to enter contact: Dan Bean
call ext. 3288
or 842-9417

or write to: Delta Tau Delta
3349 S. Wabash
Chicago, IL 60616

When registering you must provide:
1) Name of each of the five team members
2) Name of the team.
Award Giving
The HKN Computer Programming Contest Awards Presentation will be held on Tuesday, November 4th in the Electrical and Computer Engineering Office Conference Room. The Conference Room is located in the ECE office in Siegel Hall. The awards ceremony will begin at 1 PM. Congratulations to the winners!

Ethics
Leon Lederman will be the speaker of the first lecture in a series celebrating the 10th Anniversary of the Center for the Study of Ethics in the Professions. Lederman is the Director of Fermilab (Fermi National Accelerator Laboratory) and an internationally known specialist in high energy physics.

His title is "Science, The Promise and The Threat." The lecture will be held on Tuesday, November 4th at 11:30 AM in the ECE Office Conference Room. Dr. Lederman will talk about the rewards of working in science and the perils science poses. The lecture is made possible through the generous assistance of the Crawford Foundation and will be broadcast over the AT&T.

SWE Meeting
The Society of Women Engineers will be having a general meeting on Wednesday, November 5th. The speaker will be Esther Neumann. She is the Ruby Cooley Thompson Professor of Engineering and Dean of Engineering at the University of Michigan.

Get Spaced
A new course, Physics 120, Astronomy, will be offered in the Spring 1987 semester. It will meet on MW from 11:10 to 12. This course will involve a descriptive survey of observational astronomy, the search for the origins of the universe and its evolution. For example, the formation of the Sun and planets, the birth and death of stars, the origin and nature of galaxies, black holes, galaxies, quasars, and the origination of life and the universe. This course will cover the basic concepts of modern cosmology and will have a relevant subless such that it can be taken by all students with no background other than high school physics and trigonometry.

Dec. Grad
A mailing pertaining to attendance at the December 20, 1986 Commencement has been sent to all candidates. If you have not received this material, please contact us at 567-3310, The Office of University Records and Registration, Room 104 MB prior to November 21, 1986.

Later, Man
"Overcoming Procrastination" will be held by the Counseling Center in the 12:15-1-1, in the Hubbard Mezzanine on November 7th.

Job Fair
All graduating students of all majors interested in Chicago area employment are invited to participate in a Chicago Job Fair. The Job Fair will be held at the IT Ballroom on Tuesday, September 9, 1986 from 8:30 a.m. to 5 p.m. The purpose of the Job Fair is to provide students from eight schools interested in employment in the Chicago area an opportunity to meet and participate with Chicago firms. A minimum of 25 employers are expected to participate.

Want Money?
"How do you want some money? Or how about something great to put on your resume? How about both? It's possible and it's legal. The American Institute of Aeronautics and Astronautics is entering the 1986-87 aeronautics competition. Groups of 3 to 10 are now forming and there are 3 categories of competition. Sound interesting? It gets better.You don't have to be an aerospace major to take part. In fact, Bright H.E.A.S.I. (Bright H.E.A.S.I. for the winning design) and the redesign of our logo for the AIAA T-Shirts. Anyone interested is encouraged to attend.

Logo Design
Attention all designers-to-be and/or creatively talented people! The American Institute of Aeronautics and Astronautics is looking for a new logo design. The logo will be included on the AIAA T-shirts and the winning designer will receive a free shirt. Just think of your design emblazoned on scores of people all over the country (well, at least Illinois). A rough sketch is all it takes, and the logo should be submitted to the AIAA office during the week of November 7-14 in order to be considered for the pre-selection process. If you are selected for an interview, the fee for participating is $10. The number of interviews you are selected for, if you are not pre-selected, is 4. For further information about the Chicago Job Fair, please see Debbie Ryan in the Placement Office or call 567-3637.
Blood and Chocolate

by Mark Pundurs

Blood and Chocolate—Elvis Costello on Columbia Records.

On the back cover of Elvis Costello's latest album, Blood and Chocolate, the caption under his picture identifies him as "Napoleon D'Averso," Costello's alter ego who acts as master of ceremonies on his current concert tour. Further, all but one of the songs on this album are credited to Declan McManus, Costello's given name, as were all the originals on his previous album. Despite the increasing fragmentation of Costello's public persona, this LP can be seen as a partial synthesis of the diverse musical styles he has adopted.

Nick Lowe, who produced several of Costello's earlier albums, has been reinstated on Blood and Chocolate. Not coincidentally, a number of songs recall the snappy pop-rock of Get Happy!—most notably "Blue Chew." "Next Time Round," and "I Hope You're Happy Now!" (credited to Costello rather than Declan McManus), "Tokyo Storm Warning" has the melodic quirksness, just this side of dissonance, that characterized Taking Liberties and much of Trust. When he released Imagination, Costello expressed the desire to hear Frank Sinatra do his songs. "Poor Napoleon" and the wonderfully titled "Home Is Anywhere You Hang Your Head" hearken back, in structure if not in orchestration, to that album's lush pop—"as does the crooned chorus of the lovely "Crimes in Paris." In contrast, "Battered Old Bird" and the bitter Zen parable "I Want You" are as instrumentally sparse as anything on Costello's last album, King of America.

As Costello consolidates his critical accomplishments, his lyrics remain as intelligent as ever: from clever wordplay—"When you're over me/then's no-one above you to incite observation—"he's contemplating murder again/it must be love." This is a top-notch album by today's brightest, most creative pop musician—Blood and Chocolate, both sustaining and sweet.

Magician at IIT

by David Lu

"How did he do that?" "I don't believe it!!!" "I'm still confused over it!" These were typical comments heard in the HUB and resident hall cafeteria on Wednesday, Oct. 29. That is where Union Board brought magician Barry Garner to perform his feats in front of a number of small groups. When I say "in front of," I mean right at his audience's table. Even though spectators were able to get a close look at his magic, all his efforts to figure out how the tricks were done were to no avail. Most definitely, his hand was much quicker than the eye.

His rapport with the crowds was excellent and his witty humor kept the laughs going. Also, by involving the students in many of his tricks, one knew that his magic was not "set up" or "rigged" beforehand. Quite often, he would use unsuspecting students to select imaginary cards, hold coins' that would disappear, and in general, give the opportunity to really screw an awful trick. As far as this writer knows, Mr. Garner was always able to overcome this random factor.

Although his tricks were short and mostly involved cards and coins, just telling you all of his acts would not do his performance justice. His combination of humor, showmanship, and, of course, magic, mixed extremely well into one of the best performances of the year.

Conference

continued from page 1

Group

12:00 noon—Luncheon

ARSE EPY "Using Information Effectively in High Tech Marketing," Robert E. Stringer, General Manager-Central Area, Hewlett-Packard Company

2:30 PM—"Consultative and

Team Selling—Partnerships with Customers," Glenn R. Groch, Sales Vice President, Major Accounts, AT&T Information Systems.

Organizers of the event are Robert M. Janowski and Martin E. Ginn, Director of the Executive Program. For more information or to make reservations contact Mable Issacs, Executive Program at 567-6974.

QUOTATION OF THE YEAR

A complimentary (mind you!) comment from a PPG officer (glass manufacturing company) during a short lecture about the new post-modern-neo-gothic-cinderella-glass-jewelry-box headquarters, on Philip Johnson (the project's architect) and why the building complex has some of its features:

"He is such a great salesman!"

Contemporary Architecture Place, October 16th, 1986

The Architecture Department had its annual Student Field Trip this Fall. The chartered bus left Crown Hall Wednesday October 15th at 8:00 p.m. and was back by 6:00 p.m. Monday October 20th. Although only five days had gone by, the schedule was so intensive that we felt the trip has lasted for over a week. After sleeping (?) in the bus during the 470 miles and seven hour that connect Chicago the Pittsburgh, we initiated our times of lots to see and little time to sleep.

It was the fifth year such a trip is organized by a group of students with full cooperation of the Architecture Department. This year, thanks to financial support handled by Dean George Schiporeit, it was possible to reduce the participant's contribution to $110.00, including transportation, hotels and some of the meals.

A very positive and learning aspect of the trip was the help we had from former IIT students Hugh Hachmeister and Max Willig. As active professionals (in Pittsburgh/ Buffalo) they were able to provide us updated maps and plans of the sites to be visited and they personally took the whole group to some of the buildings. Actually Max was in charge of organizing the very first trip, in 1980.

During the five days of intensive living we went to Pittsburgh (old/changing downtown, Chatham Village, PPG Place - then extended to Fallingwater), Buffalo (Renaissance Center, Lafayette Park - extended to Cranbrook Academy), Ann Arbor (Law Library of the University of Michigan), Herman Miller Industries and - neither last nor least - Toronto, Canada.

In Toronto we were by ourselves (people are thinking of taking an IIT graduate into moving there), trying to get a grasp of that attractively foreign city with a distinct European flavor. We were there for thirty-six hours, long enough to take a close look at the downtown buildings and establish some sort of IIT's FarNorth Campus somewhere in the Copa dancing floor (too bad that shuttle bus doesn't take us there free of charge.)

It should be registered the personal effort of Jennifer Dini to make the trip possible and the contributions of the faculty members who accompanied the group: Dean Utsuromiya, Bernie Ibers and our Master of Ceremony Professor Peter Roesch (who lighted up moods with his everpresent sense of humor).

It seems that everyone profited a great deal from the trip. I personally loved it (thank you, Jennifer, for smuggling me into Canada). As an architect getting an MS degree from the Computer Science department, I was missing this nice feeling of being among lively and creative architecture students.
We're sending you back to the future

Back to the Future

Starring: Michael J. Fox
Producer: Steven Spielberg

This was one of the best shows out last year. It received four Academy Award Nominations. This is a film that you can see three or four times and still enjoy it. You could take a date to the show and then out to eat, or out to eat and then to the show, have it your way.

Dude says, "Tchh, Dude, I'll be there there my man."

Thursday, November 6 at 5:15
Saturday, November 8 at 7:00
and 9:30.
All three showings are in the HUB auditorium
Next week . . .
Karate Kid Part I

Straight Southern
The sounds of modern country/rock will fill the large Bog stage. Come to the Bog and see what those hot Southern Belles are crazy about. I hear they bring their own "Belles".

Thursday, November 8 at 9:00
Admission $2.00

Shudd’-Up-N-Drive. You read it right so just shudd’-up-n-drive.
Next week at the Bog.

I would like to thank everyone who has been going to the Bog and making everything a great success. It is one of the better semesters we have had.
NSBE sponsors conference

The Illinois Institute of Technology and the Northwestern chapters of the National Society of Black Engineers recently sponsored the NSBE Region IV conference, which was held at the McCormick Center Hotel. According to the NSBE members at the conference, which had the theme “Entre-Action,” proved to be interesting, beneficial and very helpful in aiding students to increase their professional awareness.

Marva Boyd, president of the NSBE chapter at IIT, stated that “the conference was a major success in many ways. One, in that it allowed the other NSBE chapters in Region IV to interact with one another, to find out what other chapters are doing, and possibly discover what other activities, events and problems that other chapters are facing. Also, as a result of the conference, we were able to discuss the problems the region is facing. Lastly, the conference increased the awareness of the NSBE chapter members to discover the scope of NSBE, its mission, its benefits and some of its history.”

“Of the region’s goals were to increase the active participation of all NSBE chapters, and in my opinion, this conference did that.”

Looking back at last year’s Regional Conference, which was held in Flint, Michigan, the conference showed the result of old and new chapters coming together to present an example that illustrated how chapters are growing stronger. For example, at last year’s NSBE Region Conference, the University of Akron, which is in Ohio, brought their two chapters to the conference. At this year’s conference, all of the new members participated in the conference.

Statistician in demand

Statisticians and professionals in one field who have taken several basic courses in statistics are in increasing demand according to Graduate Professor Harry Roberts of the University of Chicago. Roberts, who will be the keynote speaker at a Career Week sponsored by the Chicago and Northern Illinois Chapters of the American Statistical Association (ASA), says that the field of data is pouring ever more into new and powerful systems. "Computer applications in businesses is useless to managers unless someone is there to apply the proper techniques to it." "The breadth of use of statistics is tremendous, which is underscored by the participants in this year's Career Week," Roberts added. "Although the future of careers and educators will be at Loyola University's Marquette Center for Computing and Information Control, the current demand for the skills of statisticians and computer science is great. With this increase in demand, the graduates of Statisticians, who is to say every other year, is free to any interested student. One concept that has been found is that those students who attend the career week in past years are the Forum is only intended for those who are planning to be career statisticians." "Not so," says Roberts who points out that the growing field of management and technology to statisticians, "is the fact that the education level of the statistician is being raised in a variety of ways.

Higher Education Act signed

WASHINGTON, D.C. (CNS) - President Reagan's version of the Higher Education Act was signed by President Reagan last week, tying the Higher Education Act of 1965 and the 1974 amendments together. The new version of the Higher Education Act is a comprehensive reauthorization of the Higher Education Act of 1965.

The all-important act sets major funding, covering a wide range of programs for the next five years. College trustees, who sat with the President at the signing, have given the President and the Reagan administration a strong endorsement of the act's work fundamental changes in National Science Foundation.
HUB Stuff
The Union Board is presenting the movie Back to the Future next Thursday and Saturday, November 8 & 10 in the HUB Auditorium. Also, Thursday, November 8, Union Board presents "Straight Southern" in the Bog at 9:00 p.m. Chitchat coffeehouse is open on Wednesday, 11:45-13:00 & 17:00-21:30 in Hermann Lounge of the HUB (FREE Entertainment, coffee and punch).

Foreign Stuff
Students who would like to work as trainees outside the United States during the summer vacation period are encouraged to apply to an on-the-job training program sponsored by the Association for International Education. More information and application forms are available at the International Office, room 103 Fara Hall. The application deadline is December 10, 1986.

Reflections
The New Testament Letter to the Hebrews continues as the biblical text for reflection with "The Bible and You Today." Students study the letter on Monday, November 11 and 18, and Thursday evening, November 14 and 21. Many are also invited to have Thanksgiving dinner with Americans on Thursday, November 28, 1986. Information and details can be obtained at the International Office, room 103 Fara Hall, or call 567-3307.

Communion
The Celebration of Eucharist Holy Communion is held Sunday at 4:30 p.m. in IT Chapel. Relevant forms of music and dialogue reflection on Scripture readings help illuminate our current experiences and values. The Chapel is directly north of the student Residence Lounge.

Go Team IIT!
If you are interested in showing school spirit and would like to join the cheerleading squad, please contact Kelly Cox at 842-0771 (x5051) or Jill Heyser at 842-9191 (x3201).

Early Regist.
Advance Registration for all full-time undergraduate and graduate students will be held from November 13-30. Registration packets may be picked up in the Office of Student Records and Registration (104 Main) according to the following schedule: A valid ID is required.

Wednesday, November 12, 9:00 a.m.-4:30 p.m.
Thursday, November 13, 9:00 a.m.-1:30 p.m.
Friday, November 14, 9:00 a.m.-4:30 p.m.

Unclaimed packets will be placed in box 517 on November 13 at 3:30 p.m.

Advance registration for all part-time students will be held from November 17-December 12. All part-time packets will be mailed.

Stop Crime
The Residence Hall Association and Campus Police are sponsoring a Crime Prevention Presentation on November 2 at 8:00 PM in Cohen Lounge at the south end of the residence halls. All are welcome.

Coherent Pulses
This week's Physics Department colloquium is entitled "Control of Photochemical Reactions via Design of Coherent Pulse Sequences" and will be given by David Tannor of IIT's department of Chemistry at 3:00 PM in 277 SH. It will be preceded by a social at 3:30 in room 202 SH.

Tours!
The Committee on Education and the Volunteer Lecture Corps of Lycée Opera has invited IIT students to a Backstage Tour of the Opera House. The tour dates are:

- Friday, December 12, 1986
- Friday, January 18, 1987 (Student Life sponsored date)
- Wednesday, January 21, 1987
- Friday, January 23, 1987
- Monday, January 26, 1987
- Thursday, January 29, 1987

The tours take about an hour, and tours will be scheduled at six-minute intervals all day on each of the tour dates. The first tour will begin at 10:00 a.m. and the final tour will start at 2:00 p.m. Each tour will visit dressing rooms, the wardrobe department, the armory, the sixth floor catwalk, the orchestra pit, hydraulic lifts under the stage, and other points of interest backstage. A scheduled stop on the itinerary will be the dressers and answer questions. A registration fee of $1.50 per person will be required. The IIT minibus tours stop at Kent and one block from the Opera House. Students wishing to attend the OSUL sponsored tour need to sign up and pay the fee by November 1, 1986 in the Student Life Office. Students interested in the other dates should contact J. Denson at x3080.

UCBS
The Union of Concerned Black Students' general meeting will be held Thursday, November 6 in the HUB Mezzanine. Guest speaker: Silas Parnell.

GLAMOUR Mag
IT students are invited to participate in GLAMOUR Magazine's 1987 Top Ten College Winter Competition. Your winter tricks, colleges and universities throughout the country will compete in GLAMOUR's search for ten outstanding students. A panel of nine judges will select the winners based upon their solid records of achievement in academic studies and/or extracurricular activities on campus or in the community.

The Top Ten College Women will be featured in GLAMOUR Magazine's August issue. During May, June, or July, the ten winners will receive an all-expense-paid trip to New York City and will participate in meeting with professionals in their area of interest.

Anyone who is interested in entering the search should contact Janice Dawson, Assistant Dean of Student Life, x3080. Deadline for submitting an application to GLAMOUR is December 19, 1986.

WOUIC Meeting
The next WOUIC meeting will be held on Tuesday, November 5th at 12:30 p.m. in the WOUIC office located on the 5th floor of Main Building. Anyone interested in joining the WOUIC should attend this meeting. All present staff members are required to attend or notify Kevin Ed. in advance, with a damn good reason why they can't be there.

ATS Tutoring
The tutoring center will be open from 9:00 AM to 5:00 PM on Monday and Tuesday, 2:00 PM to 5:00 PM on Wednesday and Thursday, and 2:00 PM to 4:00 PM on Friday. The center is located in the Union Building.

DATABASE WIZARD WANTED

A programmer with substantial database experience and strong leadership skills is sought for a position at University of Chicago central administration.

- Minimum of three years experience with applications programming, database management systems, and systems design required.

- Experience with Model 204 Database Management System or the Pick operating system is desirable.

- B.A. required with some academic training in computer programming and database design preferred.

- Knowledge of registrar systems plus the ability to work as a team are also important.

Basketball team profile

The Hawk Basketball Team is quite young with only 5 of 15 players being juniors or seniors (previous articles). Five players represent the sophomore class alone and they are Ryan Kirkland, Mike Kloak, Jim Janus, Tom Beaton, and Scott Tyler.

Kirkland is a 6’0” guard and a graduate of Mendel Catholic High School. He is majoring in Business. He led the Hawks in scoring and assists as a freshman. He was named to the Florida Tech All Tournament Team, one of only two freshmen named to the CCAC All Conference team, the Hawks Rookie of the Year and MVP as well as the Rookie of the Year for the entire Atlantic Program. “Ryan should have a great year, even better last than he is, he is a senior by the better college by all talent. Kirkland and Mahoney should be about the best guard combo in the entire CCAC.”

Mike Kloak, a 6’7” forward, hails from Quincy South High School. He was slowed early on last season due to chronological issues but came on strong in January and February. Even at that, he averaged 6.1 points while starting 17 games. “His progress has been steady and he could be a force in our conference.” The Hawk will be looking for more consistency this season from the Management Information Systems major.

The third highly recruited sophomore is Jim Janus. He is a 6’5” guard from T.F. North High School in Calumet City and is majoring in Accounting. Janus can really shoot and probably will lead the Hawks in three- point field goals this year. “Jim has improved and shot to awesome. We feel his greatest improvement has been his passing and defense. He has been moved from a forward position to guard and he has steadily improved while facing the basket.”

Tom Beaton, a transfer from Eureka College seems to be a steady and steady performer. He is 6’5”, a forward and majoring in Engineering. Tom graduated from the whole Central High School where he was coached by Bob Basich, one of the best in the area. Beaton will play, when he becomes eligible. He isn’t flashy but he works hard and does so many things correctly and consistently.

The final sophomore is Scott Tyler. Scott is a slasher 6’4” jumping jack that played on Kloak’s team two years ago at Quincy South. He did not play for the Hawks last season although he was a student at FIT, majoring in Engineering. “Right now the year off has hurt Scott since he did not have much time to hone his skills during that time. He can really jump and is very quick. He will contribute in our pressing situations with that quickness.”

So, you think you’re smart?

Since I’m having a little trouble dealing with life right now, I have no great desire to fill this space normally. Hence the large type. As for last week’s puzzle, we did get a few answers, all of them correct. Their names will appear with due credit for solving it so soon next week. Also, here is the clue I promised last week: Not all the numbers are base ten (decimal). Ask your friendly CS or Math major for clarification. You still have until Thursday at noon to turn in a correct answer. Good luck.

Questions to the IIT community: 1) How much do we spend per year in buying muck? 2) Why do they lock the women’s bathroom on 5th floor Main on Saturdays? 3) Since the parking gate was malfunctioning, are we going to get a percentage refund on our parking fees? Pssst, too bad about that exit sign. Maybe next time. By the way, how’s that wart? Is anybody going to vote on election day? Does anyone care?

Bob, she should have received the Bear’s tickets for alcohol awareness week activities. Gerry, thanks for the beer. It got me through yet another bad weekend. I appreciate it.

Food tip of the week: Nachos with chilli and cheese at the 7-11 are great. You heard it here first.
Sailing places fourth
by Enrique Fabregas

"Believe, my young friend, there is nothing—absolutely nothing—half so much worth doing as simply messing about in boats."—Kentucke Grumman, "The Wind in the Willows" (1908)

"This is unbelievable."—Will Johnstone

During the weekend of Oct. 24-25, the IIT Sailing Team came in fourth place in the annual Michigan State Regatta in Ann Arbor. The team consisted of six members and they competed against Taking the first team in the A fleet was a crew from Michigan State University. The Michigan State team consisted of six members as well. The regatta was held in Ann Arbor, Michigan, and was organized by the Michigan State Sailing Club. The regatta was a four-day event that included various activities such as team building, sailing races, and social events. The IIT Sailing Team performed well throughout the regatta, finishing in fourth place among the 10 participating teams.

IIIT Athletics of the Week

SOCCEER
Jean Abraham, who played an outstanding defensive game for the Hawks, received his second year as a member of the University of Chicago soccer team. He was a key player for the team and was named to the All-Conference team.

SAFING
Steve Long, a senior in Architecture, was selected as the IIT Sailing Team's leader for the upcoming season. He has been working hard to improve the team's performance and train new members.

Pledge football
The IIT Sailing Team is currently competing in the Pledge football competition. They are currently ranked 3rd in the standings.

Women bowlers lose
IIT lost to WIU by a score of 54-26 on Saturday. The match was a close one, with the final score indicating the University of Wisconsin's victory. The team that lost the match is currently working on improving their skills for the upcoming season.
Men's bowling in 1st

By defeating Western Illinois University on Saturday, October 20 the Men's Bowling Team moved into first place in the Central Illinois Bowling Conference (CIBC). The Hawks are .519 percentage points ahead of Northern Illinois University and .043 percentage points ahead of the University of Illinois - Chicago. With four matches remaining (two home, two road) the men can control their own destiny if they continue to perform at the intensity level they have been.

Women's V-ball in 1st

The IIT Women's Volleyball Team finished in first place in the Rockford Invitational on Saturday, October 19, and returned home on Tuesday, October 20 to defeat Chicago State University.

Only Löwenbräu is brewed in the world's great beer drinking countries. Brewed in Munich, in England, Sweden, Canada Japan, and here in America. Only Löwenbräu, by license and authority, must use Bavarian Hallertau hops and be checked for flavor and quality by the brewmasters of Löwenbräu, Munich. Only Löwenbräu gives you 800 years of Bavarian heritage in one smooth American beer.

THIS WORLD CALLS FOR Löwenbräu.

Soccer season ends

The '86 Soccer season ended on Wednesday the 29th with a tough loss to U of C by a 3-1 score. The Hawks led at halftime 1-0 on a goal by David Benjamin. The first half belonged to the Hawks but they were not able to contain a tough U of C team in the second half. Graduating seniors Hector Gilot, Juan Aparanio and Trino Romero will be missed greatly. But the nucleus of next year's squad is preparing to play an indoor schedule to be ready when fall comes around. Of course new players are always welcome. Any eligible players should think about trying out next season. Some scholarships are still available.
