Scholarship Luncheon

"Tuition only covers two-thirds of a student's total expenses," stated IIT President Thomas L. Martin, Jr. "Scholarships help take care of the rest."

Dr. Martin addressed approximately 65 students, parents, scholarship sponsors, and staff who gathered in the HUB ballroom last Monday afternoon for the second annual Scholarship Donor Recognition Luncheon.

The luncheon gave some IIT students who received scholarships last year an opportunity to personally thank their benefactors. It also gave the donors a chance to meet their recipients and learn about their academic achievements and career goals.

"I am pleased to tell you that this year our donors' generosity enabled us to award over $1 million in scholarships to over 300 students," IIT Foundation President Dr. and Mrs. Martin, who also sponsor the Helen H. Martin Scholarship Fund, said. "I am grateful to the donors and the students, and I wish you all success in your future endeavors."

"Little does one know the extent of their impact, the importance they have on the lives of students," DesPaul, Mr. James Flood, Mr. and Mrs. Leonard A. Tidmore, and Miss Elsie Derrheim were able to attend, and sent their assistant, Mr. Tom Jones, to meet with the students.

"I am pleased to announce that one in every three IIT alumni within 20 years after graduation attains the rank of president, vice president, chief executive officer, or partner," he remarked.

"I hope that 20 years from now you will be back hosting your own scholarship recipients," he added.

"I hope that you will all have a chance to learn about the people who provide my financial aid."

"I want to thank the many endowed scholarships funds and scores of sponsored scholarships available, IIT offers many students who are unable to completely afford the cost of a college education a chance to graduate and pursue their goals in technology-related fields."

Return of the Yearbook

By George Jansky

Orders are currently being taken for the 1985-86 IIT yearbook, "Unified." The idea to have a yearbook here at IIT was developed by Robert Masters, a student in the Institute of Design. Mr. Masters was assistant editor of his high school yearbook and thought every student should have one. In addition to the work done by Masters, the yearbook would not be possible without the help of assistant editor Marlene Loeb.

"The cost for the yearbook is $19 in advance orders, $25 if purchased later. It will be about 150-200 pages long and have a color cover. Plans now are for about 8 color pages. Advance sales will be ending in about a week.

"The yearbook will consist mainly of pictures taken around campus at parties, events, and around the campus in general. Coverage will be given to sports teams, clubs, fraternities, and sororities."

Junior year Exchange Program

This year, as in every year since 1983, IIT is looking for qualified students to take part in its exchange program with INSA (National Institute of Applied Sciences) in Lyons, France. The program is open to students who will be juniors in the Fall of 1987 and are enrolled in the engineering, mathematics, computer science, physics, biology or chemistry programs.

The exchange students will be chosen before the end of the fall semester and will undergo a semester long preparatory language training program in the form of free private lessons at IIT that are custom tailored to the level of knowledge of French of the individuals. They begin their stay in France in early July by spending two weeks in a student summer sport camp of their choice. They proceed subsequently to the campus of INSA where they take an intensive French language course prior to the beginning of the fall semester. After this exposure and formal training in French, the students are ready to begin their junior year at INSA.

The IIT students' program is carefully planned within the framework of the INSA curriculum to match the degree program they are pursuing at IIT. All grades are counted on a pass/no credit basis. In this way, full credit is given by IIT for the students\' junior year without affecting their GPA's. Of course this applies only to courses with passing grades.

The cost of the exchange program to the student is the same as the charge normally made by IIT for the same period.

Selection of the participants is based primarily on academic record and motivation.

Those who have participated in the program have found it to be a worthwhile and enriching experience. This year there is one IIT student at INSA, Christopher Comley. Last year's participants, Charles Temple and Matthew Rindlstein-MS Dept., Jim Triago-MECMath and William Saylor-EE Dept., will be happy to discuss their experience with prospective candidates.

Letters were sent to eligible students, however some eligible students may have inadvertently been overlooked.

I encourage students in the 3rd or 4th semester with a 3.0 GPA or better to apply.

Application forms can be obtained from Mrs. Dorothy Howard, 252-E1 and completed forms should be returned to her prior to December 12th. Selection of this year's participants will be made before the beginning of the Spring semester.

Interested students desiring additional information should make an appointment through Mrs. Howard with..."
This holiday season, get the "Write Stuff" at the right price.

Now you can get the competitive edge when classes begin in January. With a Macintosh® personal computer and all the extras...We call it the Macintosh "Write Stuff" bundle. You'll call it a great deal! Because when you buy a Macintosh "Write Stuff" bundle before January 9, 1986, you'll receive a bundle of extras— and save $500. Not only will you get your choice of a Macintosh Apple IIc, Apple IIe or a Macintosh Plus, you also get an Apple IIc "Write Stuff" bundle, the perfect solution for producing near-letter-quality term papers or reports, complete with graphics, charts, and illustrations.

Plus, you'll get MacWrite, the premier spelling checker containing an 80,000 word dictionary with options for...theuses, medical or legal dictionaries. Together with your favorite Macintosh word processing software, you can turn your notes into the cleanest, most letter perfect paper you ever turned out. And turned in on time.

What's more, there's a Macintosh support kit filled with valuable accessories and computer care products from 3M. Complete with all the things you need to keep your Macintosh running long after you're graduated.

Let us show you how you can get through college better, faster and smarter. Stop in and see us for more information.

Academic Computing
PC Classroom 2
Stuart Building

---

Radio Shack Computer Center of Oak Lawn with the sponsorship of the Engineering Graphics Department would like to invite all faculty and student body to a

**Campus Presentation**

Our show case will be held in the Crown Room in Hermann Hall (HUB) on Tuesday, November 18, 1986 from 9:00 am to 4:00 pm.

We will be displaying the latest in computer technology.

Come test your software on Tandy's new high speed PC's. The Tandy 3000, 3000 and 1000 line.

Don't miss this opportunity to pick up material on our complete hardware and software product offerings, including LOCAL support and services, and SPECIAL 20% OFF PRICING FOR ILLINOIS INSTITUTE OF TECHNOLOGY FACULTY AND STUDENTS.

Advice will be available on which TANDY computers will best fit your needs.

Orders will be taken for our Christmas Bonus System: the Tandy 1000EX and SX, with FREE COLOR MONITOR for as low as $799.00.

*** SPECIAL BONUS ***

All in attendance who bring along a blank disk will receive a FREE copy of enhanced POPCORN DESKTOP™ - RAM resident "POP-UP" software with a calculator, note pad, ASCII conversion chart, calendar and it's new 19,000 word dictionary.

For more information on this event or on Tandy Computers please contact Rich Gardner at the Radio Shack Computer Center 4815 West 95th Street in Oak Lawn, Illinois (312) 425-9130. Or contact Larry Latman, Business Manager 3000 S. Federal (312) 567-3330.

1986 FALL FINAL EXAM SCHEDULE DEC. 15-19, 1986

---

IIT Illinois Institute of Technology

---
Clothes Drive

The Annual "Thanksgiving-End of Semester" clothing drive will open Thursday, November 19, and will continue through Friday, November 27. The proceeds from this drive will be used to buy some much-needed necessities for near-southside residents and has proven an effective outreach in this IIT neighborhood. Suggestions are invited for distribution through social agency channels. Contact Anise Maldonado, Student Life Office, x3086.

HUBba HUBba

HUB Announcements:
The Union Board is presenting in the HUB Auditorium "Running Scared" Thursday, 6:15 p.m. and Saturday, 7:30 & 9:00 p.m. Also Union Board is sponsoring the "Stalking Lizards" in the Bog Thursday, November 29, 1984.

For an interesting & UNUSUAL art exhibit in the Gallery Lounge this week:

College Book 66 is back next week for two days. Come and end cheer for your favorite jazz band "JAZZBAND" is playing again in the Bog Tuesday at 9:00; no cover.

Red Cross Blood Drive is coming next week Thursday 12:00 - 5:30.

WordBusters!

It's close to finals and those papers are due...who you gonna call? WORDBUSTERS! WordBusters is an independent typing service that will type your papers for you. It's ON CALL 24/7, ON SERVICE from Monday, December 1st to Friday, December 5th. Forget the hassle of typing your papers yourself and use the EXTRA TIME to make that paper and grade. You must call the Programming Office to make an appointment for getting your paper typed, as only a certain number of pages can be typed each day. Call x6879 now, and relax later.

Encounter

The Student-Faculty study-prayer group "The Bible and You Today" resumes reflections on the New Testament Letter to the Hebrews, Tuesday, November 18 at 12 noon in room 306 of the HUB Mezzanine. The IT community is invited.

Communion

The Prayer Service of the Word with Holy Eucharist-Communion is celebrated Sunday at 4:30 p.m. in IIT chapel, adjacent to the Residence Hall Lounge. The public is invited.

Pictures

We are looking for photographs that you have taken around school (i.e., parties, clubs, events, etc.). They may be color or black & white. If you feel that you can't give up the print, leave your negatives and we will reproduce them. The negatives will be returned. Just drop them off in box 76 in the Student Life Office.

Photographers

Yearbook needs photographers. If you are interested stop by our meetings in the HUB Mezzanine on Mondays at noon. If you cannot attend drop a note off in box 76 of the Student Life Office.

Cool Down

The American Society of Mechanical Engineers is sponsoring a lecture by Dave Blaine of the American Railroads entitled "Stopping the Hot Ones" on Wednesday, November 19 at 12:00 in 213 E. All those interested are invited.

Hear, Hear

Are you a commuter? Do you spend most, if not all of your time in the HUB? Now, you too can listen to WNOJ. Do you want to sample what Wild Blue sounds like? WNOJ will be playing their album throughout the day on the "WNOJ Listening Room" located in the Hermann Lounge (southeast corner of the HUB; the room with the fireplace). WNOJ is on the air from noon until midnight; Monday through Saturday. If WNOJ is not on when you go into the lounge, go to the HUB Director's Office and kindly ask them to turn it on. To request Wild Blue, or anything else you want to hear, call x3088.

AT&T Stuff

The Student Government electors are being held on November 25 & 26. Students wishing to run for the offices of Vice-President, Secretary, and Treasurer may be allowed to offer you the opportunity to put these skills to use. The Leadership Transcript Committee is in the process of setting up a Leadership Transcript or an academic transcript for interested students. Committee members would work on setting up the format of the transcript. Any interested students can find out additional information by calling or signing up at the AT&T office which is located in the HUB Programming Office, x3074.

Funding

The Physics Department Colloquium, "How to be Creative When Data are Missing," by James R. Norris, Department of Chemistry, Argonne National Laboratory and of Chicago will be at 4 p.m. in 217 SH. There will be a social in 202 SH at 3:30.

HUBba HUBba

WNOJ: The Union Board is presenting in the HUB Auditorium "Running Scared" Thursday, 6:15 p.m. and Saturday, 7:30 & 9:00 p.m. Also Union Board is sponsoring the "Stalking Lizards" in the Bog Thursday, November 29, 1984.

The seminar will be on the ethics in the area of reproduction, birth control and sexually transmitted diseases. Questions regarding AIDS will also be answered. The speaker is from Planned Parenthood.

First We Sleep

The Counseling Center Workshop, "how to set Priorities," on Friday, Nov. 21st. in the HUB Mezzanine, from 12:15-1:00 p.m. is interesting.

Entrepreneurs

Yes! Yes! Yes! There will be a meeting next week in the HUB's Field Room (southeast corner), 11-12 p.m. Remember to come and have fun. All Welcome.

UCBS

The Union of Concerned Black Students is sponsoring a "Career Day" on Nov. 18th in the East Ballroom in Hermann Hall 12 noon-2 p.m. Recent graduates will speak on various aspects of their job-related experiences, related coursework and a question and answer session will follow. Represented are the following majors: EE, CS, CEE, MIS. Everyone encouraged to attend.

The Cultural Affairs Committee is organizing the first food drive for those who aren't as fortunate as we are. The food drive is in coordination with the St. James Pantry. Donations are being accepted in the Pit, the Donor's Society is located in the Comm. Building no later than November 26. For more information contact Kim Bumahn at x6554.

UCBS members need more participation from the members of UCBS: cultural affairs, public relations, social relations and alumni relations.

Yerkes Trip

The Society of Physics Students will be sponsoring a trip to Yerkes Observatory on Saturday, November 22. For more information and sign-up procedures, contact one of the club's officers or visit the Physics Department before Thursday, November 20.

Yearbook

continued from page 1

COVER: Students will also bring a group to a "shoo-your-group" photo. There will also be informal portraits of the faculty and the 1987 graduating class. If demand is great enough, a professional photographer will probably be called in for a formal session. Delivery will be sometime in October of 1987. Copies will be mailed to non-returning students. Returning students can pick their up. The times for taking portraits have not yet been worked out.

Students who wish to may submit photos or negatives to be put in the yearbook. Professional Masters can be reached through box 76 in the Student Life Office. Students interested in taking pictures, writing or doing layout work are welcome. More information will be available at noon in room 306 in the HUB Mezzanine.

Exchange

continued from page 2

Professor Pejer, the IIT Program Director, is in Aberdeen, Scotland.

In addition to INSA, Electrical Engineering students can participate in an exchange program with the Robert Gordon's Institute of Technology of Aberdeen, Aberdeen, Scotland.

Please contact Professor LoCorriere in Electrical Engineering for details about this program.
Camras speaks to IEEE

by Ed Powers, IEEE Chairman

Dr. Marvin Camras, one of IT's most renowned inventors, was the special guest speaker at the IEEE meeting held Thursday, November 13 in the Illegel auditorium. Camras, holder of over 500 patents and best known for his invention of magnetic recording, discussed B-PAC, creativity in engineering, and the history of magnetic recording.

Dr. Camras attended the IEEE Student Professional Awareness Conference in March, 1986, on October 2, and wished to offer a different perspective on the engineering profession. He believed that the emphasis of the conference was placed too much in favor of upper management and prepared to discuss the benefits of engineering from a "work's eye" view as a research and development engineer. He disagreed with the requirements imposed by many corporations to sign off on the rights of any inventions to corporate use, and he also warned students of the dangers of dealing with unethical corporations.

Dr. Camras also talked about creativity and how it relates to the process of invention. In order for engineers to be innovative, Camras believes that engineers must be dissatisfied with the way things are. To seek a simple solution to an existing problem, and work in the real world, dealing with concrete ideals, rather than pure theory. He said that creativity in engineering is like creativity in art; ideas can't be planned, they are completely spontaneous, and a great deal of effort is required to convert ideas into reality. He also pointed out that breakthroughs occur when engineers notice similar relationships between phenomena, then work backwards to develop theory and mathematics to describe what was discovered.

Camras then described the history of magnetic recording. A cousin of Dr. Camras liked how his voice sounded in the shower and asked Dr. Camras if there was a way to record and replay his voice in an erase-able and reusable format. At the time, recorders used the way telephone signals occur when engineers notice similar relationships between phenomena, then work backwards to develop theory and mathematics to describe what was discovered. The disk was not reusable, and bad recordings were simply discarded. Camras improved on this idea of another inventor to polarize a moving iron in a magnetic field by designing an electromagnetic which completely surrounded the wire and converted the magnetic flux at only one point. The result was a greatly improved recording that was also erasable by the same process. Camras, then a senior electrical engineering student at the Armour Institute of Technology in 1939, submitted his invention and won a student paper contest against Northwestern and the University of Illinois.

Camras then traced the developments of magnetic recording through his work at Bell Labs. In 1942, Camras oversaw the production of more than 2,000 wire recorders for military uses in World War II, and the first consumer wire recorders were available through Sears Roebuck right after the war. These recorders were produced until 1952 when they were replaced by another ITI invention -- magnetic tape recorders. Since then, there have been many improvements in electronics and electronics, but the basic ideas created by Camras and others at ITI have never changed.

IEEE would like to thank Dr. Camras for his interesting talk and look back to the origin of a revolutionary invention.

Ron, if you are looking for your cookies, we saw them in Railan's. Some are on the wall next to the door and a lot of them are in the upstairs urinals.

Thanks S. M. for everything. Sincerely, Dave W.

Oohh, I like to go swimming with bow-legged women and swim between their legs! Swin between their legs!

"Killing is my business...and business has been good!" Anon.

T. L., I am crazy about you. Ski. What is F?..WHAT?

Perry Sipolin. I just wanted to see my name in Tech News. Maybe now I'll get a date.

Prof. Dassach, my puzzles may be stupid, but more people read them than get anything out of your classes. Henk Primov.

SWF, 20, arch, student seeks Tech Hard with HP 15-C for long nights of integration. Suzie Q. (Quite derase) English as a second language 101 should be a required course for ITI professors.

You know you've done it right when once is enough.

Dear Jennifer B., your friends have told me all about you. We've got to meet. Love, Dr. J.

I WANT TO BE APPRECIATED!

Minibus shuttle service suggestions

How do you feel about the new minibus service? For those of you who are unfamiliar with both the minibus service and its new schedule, here are the facts: the minibus is a shuttle service travelling between the main campus, the Kent college of Law, and Union and Northwestern train stations.

SNTA Food

The Student National Technical Association (SNTA) is sponsoring an Alan-I Student Banquet which will be held on November 20, 1986 at 7:30 p.m. in the IIT Residence Hall Cafeteria. Come and be better informed on topics ranging from your major to future career trends. For more information contact Karyn L. Stanfield at 842-9004, x3392 or Elizabeth Stampely at 842-8970, x3584.

Foreign Stuff

Students who would like to work as trainees outside the United States during the summer vacation period are encouraged to apply for an on-the-job training program sponsored by the Association for International Practical Training. More information and application forms are available at the International Office, room 103 Hall Annex. The application deadline is December 10, 1986. International students who are unable to participate in the four-day host family program during the Thanksgiving weekend are invited to have Thanksgiving dinner with Americans in room 107, November 27, 1986. For more information and to sign up, come to the International Office, room 103 Hall Annex, or call 567-3507.

LAST WEEK

The schedule of classes for the last two weeks of the semester has been approved as follows:

The classes normally held on Mondays will meet on Monday, December 8, 1986 (to replace Labor Day).

The classes normally held on Thursday will meet on Thursday, December 8, 1986 (to replace Thanksgiving Day).

The classes normally held on Friday will meet on Wednesday, December 10, 1986 (to replace Thanksgiving Friday).

No classes will be held, whether day or evening on December 11, or 12, 1986 (Study Days).

Firsts will be held from December 15 through 19 as scheduled by the Office of Student Records and Registration for undergraduate day classes, or at the normal class meeting time for all graduate, evening or Saturday classes.

The Abbot 5000 Computer

Features: 32 bit CPU with clock speed of 35.3 MHz.

4 Meg RAM standard, expandable to 10 Meg.

2 Meg ROM with 10,000 instructions in its set.

480 Meg hard drive w/tape backup standard.

Speaker with 1 Meg dedicated RAM - Full High Resolution Capability.

Keyboard - Non-Linear Total Voice Activation Mode.

Compatible with IBM-PC, Apple II, UNIX and VMS microcomputers.

Price: $999.95

An ABC production

Ethics & Science

Leon Lederman will be the speaker for the first lecture in a series of three presentations celebrating the 150th Anniversary of the Center for the Study of Ethics in the Professions. The event is sponsored by the Fermi National Accelerator Laboratory and an internationally known specialist in the field, Dr. Robert J. Lifson, will be the moderator.

His title is "Science: The Promise and the Threat." The lecture will take place on Thursday, November 20 at 1:00 p.m. in Stuart 115. Dr. Lederman will talk about the rewards of working in science and the peril science faces. The lecture will be broadcast over the Internet at 11:14.

Acts Wanted

Union Board's Focus On The Arts program is looking for talented students who are interested in performing for the Focus On The Arts program next semester. Comedians, dancers, musicians, magicians, etc. are all wanted so come out and be a part of the Force Of Light!

Interested students should contact Janis Coleman in the student programming office at x3888 as soon as possible. Feel the Force of UL.

SWE Meeting

The Society of Women Engineers will be having a general meeting on Wednesday, Nov. 18th from 12:00-1:00 in room 118 E1. Our speaker will be Rosemarie Chidichimo. She is a corporate law graduate student from Kent College. Everyone is welcome to attend. Refreshments will be available.

MAE Degree

Dr. Hassan Alibeg, Chairman of the Mechanical and Aerospace Engineering Department will be speaking at the AIAA meeting on Thursday, Nov. 20 at 12:00 in room 121 E1. He will be speaking about the new MAE degree and answering any questions about the program and future course offerings. There will be a poster available for requesting courses currently not listed for Spring 87 including, "Introduction to Space Flight." "Theory of Combustion and Applications I and II," and "Principles of Turbomachinery." Everyone is invited to attend and all MAE's, MAE's and MA's are encouraged to attend.

AIAA

Work schedules for the two entries in the aerospace design competition will be discussed. Anyone who has signed up for the competition, as well as anyone else who is interested, should attend the meeting (see AIAA Degree Announcement). All new AIAA logo designs are accepted into the meeting, and arrangements for the United Airlines tour will be made. Everyone is invited.

Dec. Grad

A mailing pertaining to attendance on the December 20, 1986 Commencement has been sent to all candidates. If you have not received this material, please contact us at 567-3103, the Office of Student Records and Registration, room 104 FSB prior to November 21, 1986.

Running Scared

Gregory Hines and Billy Crystal star as two Chicago cops Running Scared in this high-speed comedy. Hines and Crystal are a pair of fast-talking crime-fighters who thrive on chasing bad guys and dodging bullets on Chicago's mean streets. A vacation in Florida opens their eyes to a life far different from the dangerous one they must return to. They are determined to retire early - if only they can survive! Running Scared combines thrills as intense as the ones in The French Connection with tongue-in-cheek humor that’s reminiscent of Beverly Hills Cop. This film's slam-bang action, highlighted by a screeching car chase down Chicago's elevated tracks, is spectacular. Don’t miss your chance to join two of Chicago’s finest as they blast their way through the city's streets!

Thursday, Nov. 20 at 5:15
Saturday, Nov. 22 at 7:00 and 9:30
Admission is $2.00

P.S. there isn't any UB event on Thanksgiving.
IIT to host Tourney

IIT will be the host site for the Public League H.S. Thanksgiving Basketball Tourney. We are proud to have been chosen over other colleges to host this fine tourney,” stated Assistant Athletic Director Topper.

The tourney will be held on November 24 and 25 starting at 1:30 until 9:30 p.m. and on November 26 from noon until 10 p.m. The teams will return on November 28, 29, and 30 with games starting at 8:00 daily.

Swimmers selected by NAIA

On November 9, two IIT student athletes, Doug Lovato and Greg Pastorek were selected by the National Association of Intercollegiate Athletics (NAIA) for the 1985-86 All Scholaristic Team. This year’s honorary team was chosen from the fifteen NAIA sanctioned universities in the state of Illinois and consists of only ten students.

Doug Lovato is a senior business major with a 3.4 GPA and is a very important member of IIT’s swimming team. His accomplishments include All-American status in both 1-meter and 3-meter board events in the NCAA Division II as well as the NAIA Conference. Doug has competed in two National Championships thus far and is currently competing in his final season as a Scarlet Hawk.

Greg Pastorek, sailing from St. Rita High School, is a finance major in his third year and maintains an excellent 3.96 GPA. As a member of the IIT Varsity Baseball Team, Greg was the starting left fielder for the past two years. Last season, he was instrumental in the baseball team’s successful 19-15 season as well as in their bid to the 1986 NAIA state playoffs.

When is the Right Time to Call Your Grandparents?

a) Five minutes into “The Lawrence Welk Show.”

b) About a week before your birthday.

c) When you just want to tell them you miss them, and that you ate the last of Grandma’s chocolate-chip cookies this morning.

Varsity Basketball

The Varsity Basketball Team has been hard at work since October 13 when practices started. So far there seems to be spirited competition among the team members for playing time.

“We are much deeper this year than last year and good players have been left off the team, so we are playing as well as we can.”

The young Hawks, who potentially have the makings of a nice team, learned an early and valuable lesson as they played in the pre-season classic sponsored by Aurora University. Aurora dominated the Hawks totally, which Coach said was good for the Hawks. “Now, since we are back down to earth we can get our concentration into the regular season and the realization of our potential.”

Sailing

Sailing continued from page 8

Sailing season for the IIT Sailing Team is fast approaching. Steve Long, a senior, has signed up for the team and is excited about the upcoming season. He plans to sail in the upcoming Timme Angsten Regatta, which is being held on Lake Michigan. Long is looking forward to the challenge and the opportunity to improve his sailing skills.

The last match saw the Hawks start well in each game, but the game was regained control by way of 15-11, 15-11, 15-13 scores.

“Although we are very disappointed that we didn’t win the district, I am very proud of the way we played at the district meet. Everyone involved with the volleyball program should be happy about our performance this season,” said coach Chris Meyer.

"Don't wear white flannels and a peaked cap when sailing a 14-foot dinghy. Don't wear white flannels and a peaked cap when sailing a 40-foot ocean race. Don't wear white flannels and a peaked cap." —Peter Heston, Sailing, 1949

"Sailing and cow tipping don't mix well." —Gina Santilles, The Pros and Cons of Cow tipping in North Dakota, 1986

At the past Area C Eliminations on Saturday, November 8, the IIT Sailing Team came in a strong third to qualify for the prestigious Timme Angsten Regatta, the unofficial Fall National Sailing Championship. The IIT Sailing Team could become nationally ranked if the team does well in the Timme Angsten Regatta, which will be held November 28 through November 31 at Belmont Harbor of the Chicago Yacht Club with participation of over 20 schools from around the nation.

For the second consecutive regatta, Team Captain Steve Long and crew Marianne Haake dominated the A fleet. In the seven race regatta, Marianne and Steve had a total of 19 points to easily win their division. Steve outdistanced the tough competition with his helmanship while Marianne as crew fed him all the right moves in turning in still another remarkable performance.

In the B fleet, the re-emergence of Aaron Proctor as skipper proved pivotal in helping IIT come in third place. Aaron skillfully made his way around the buoys while Gina Santilles, a native of North Dakota (pop. 500), expertly crewed for Aaron.

Throughout the regatta, IIT was closely challenged by University of Wisconsin at Madison, Northwestern University and University of Iowa. IIT came up short against Wisconsin and Northwestern but convincingly defeated Iowa for the coveted third berth in the Timme Angsten Regatta. The final results of the Area C Eliminations were as follows:

1. U. of Wis. (Madison) 32
2. Northwestern University 38
3. Illinois of Technology 42
4. University of Iowa 51
5. U. of Ill. (Champaign) 69
6. U. of Wis. (Green Bay) 71
7. Marquette University 87

The regatta was sailed in gorgeous 20-degree weather and in the usual slugging Belmont Harbor winds. Many people made this regatta a very enjoyable and spirited event. The without-who-it-would-not-be-possible list goes like this: Dave Williams, our great faculty advisor who manned the crashboat; chef extraordinaire Will Johnstone, for his barbeque cooking and his all-inclusive on page 7.

Women's V-ball in second

The Women's Volleyball Team competed in the NAIA District 20 playoffs at St. Francis and finished in second place. The Hawks played very well throughout the tournament, especially on Friday night when they defeated Greenville College and College of St. Francis. On Saturday, IIT beat St. Xavier in the semi-finals only to lose to St. Francis in the finals.

In the Greenville match, the Hawks were in control of the entire match, beating their downstate foe by scores of 16-7, 15-10. IIT put together one of their top efforts of the season to defeat St. Francis 17-15, 15-9.

Jennifer Glisk had 29 assists, many of them to Joan Bonas on quick sets and to Janice Kuta in the back row. It was clearly a team effort as Kim Murphy had some key blocks and Megan Regan and Kim Whalen spiked well from their outside hitter positions.

IIT was up and down against St. Xavier, winning game one 15-10, losing game two 2-15, and winning game three 15-10, 15-13, and 15-12, and winning game three 15-10, 15-13, and 15-12, and winning game three 15-10, 15-13, and 15-12.
