For example, 40% continue working for their Co-op employer after graduation. Another 40% find employment in fields directly related to their Co-op assignments. However, their experience, Co-op graduatesusually command a higher starting salary than their counterparts from traditional programs. And they move more rapidly up the career ladder, receiving merit raises and promotions more frequently than their non-Co-op associates.

Co-op graduates also remain with their employers longer than others, based no doubt on clear-minded decisions at the outset.

Indeed, for employers, participation in cooperative education has grown to highly advantageous in terms of both human and cost-effec-
tives.

One of the more compelling reasons for employer participation is the opportunity it provides to effectively screen, select, and recruit students for permanent positions. It represents a non-threatening environment in which to make a match or prevent a mismatch. Students have the chance to look over career possibilities and employers have a chance to work with students without making any long-term commitment.

The BOG, the restaurant in the basement of Hermann Hall, has been expanded. The west wall was removed to provide more space and additional seating for about 30 people.

The lights and panels have arrived but have not yet been installed. Work on the expansion is expected to be completed by the end of September.

'Bog expansion nearly complete'

by George Jawry

The BOG, the restaurant in the basement of Hermann Hall, has been expanded. The west wall was removed to provide more space and additional seating for about 30 people.

The BOG, the restaurant in the basement of Hermann Hall, has been expanded. The west wall was removed to provide more space and additional seating for about 30 people.

Workers will also allow more room to move about more easily, since there will be more space between tables. Work on the expansion, which began the first week of June, is not quite completed. Although the space is already open, additional lighting and paneling are yet to be added.

A new department was recently created for our IT community. It is called Campus Safety, which is headed by Sgt. Schmidt, a member of the Campus Police force and holder of a Bachelor’s Degree in Chemistry from IIT.

The new department will perform such duties as handling of workman’s compensation claims by IIT employees and student workers. The department will be in charge of campus hazardous wastes and insurance inspections.

The split went into effect as of June 1st. The new department will free the police force to patrol the campus more. So the next time you drop one of those Mercury thermometers in lab, think, Campus Safety.
How five minutes can change the way you move through college.

In five minutes you could change the course of History. And any other subject you may be studying. Just take part in a demonstration of the Macintosh® personal computer from Apple®. You'll see how Macintosh can help you work better, faster and, perhaps best of all, smarter.

You'll also qualify to win a Trek® 12-speed touring bike. And you'll walk away with a free bicycle cap. Macintosh and a Trek bike. Both will do more than help you get ahead. Both will take you anywhere you want to go.

ENTER AUGUST 25 - OCTOBER 2
ACADEMIC COMPUTING P.C. CLASSROOM 2
STUART BUILDING

HELP WANTED
"School newspaper (Technology News) seeks fun loving, well motivated students looking for a good time and (relatively) easy money. Interest in newspaper reporting and production desirable. Willingness to have a good time and earn extra money a plus. Previous experience helpful but not required. On the job training provided. Excellent opportunity for advancement. For information call ext. 3085 any Friday afternoon during the regular semester."

SCHOLARSHIPS AVAILABLE
Attention all undergraduates who speak and read Polish.

There will be a test for the Plocieniak Scholarship in two weeks. Anyone interested should contact the Financial Aid office. The scholarship awards are not based on financial need.

TECHNOLOGY NEWS
Attention all current staff members and students interested in joining the staff. Please note that the Technology News staff meetings will now be held on Thursdays at room at the Technology News office located on the 5th floor of Main Building. We still need a need for writers and photographers. If you are interested please stop by for the staff meeting or stop by on Friday afternoon for more information.
Tech Entreps.
Tech Entrepreneurs is an organization devoted to encouraging and supporting entrepreneurial activities. Currently, we are organizing a small summer business, promoting business in our community. Whether you dream of having your own business someday or not, or if you currently operate your own business, Tech Entrepreneurs offers you an opportunity to learn how to start a business, participate in our business, or discuss your business' problems. All are invited to our next meeting Wednesday, September 10th at 10:00 a.m. in the Crow room, located in the southeast corner of Hermann Hall.

Student Loans
Any student who has been awarded a National Direct Student Loan or an institutional loan must go to the Student Loan Office to endorse the Federalaid award. The student loan office is located in the basement of the Theatre, on the 5th floor. Our hours are: Monday-Friday, 8:30-12:00.

GM Plant Tour
ASME is sponsoring a tour of the Fisher Body Plant in Willow Springs on Thursday, September 11th. Those interested should meet at 11:00 at 12:00.

Scriptures
The Biblical message of the New Testament Letter To The Hebrews is the subject of the Fall semester study-prayer group among IIT students and faculty. The first meeting will be at 6:00 p.m. on Tuesday, September 11th. Further information can be obtained by calling the IIT Chapel at 720-2415.

Sunday Chapel
Sunday Chapel worship service with Eucharist or Holy Communion is celebrated at 5:00 p.m. in the IIT Chapel, directly behind the Residence Hall Lounge. The gathering of students, faculty and staff participates in the plan of prayer, scripture readings and music concluding with the traditional Holy Communion. The participation provides personal meaning for Christians in their individual and communal dimensions of life in faith.

Cheerleaders
If anyone, man or woman, is interested in joining or trying out for the cheerleading squad, please contact: Kelly Cox-842-6771 or x5081, Jill Heyser-842-9119 or x3281

Scholarship
Seniors interested in applying for the Rhodes Scholarship to study at Oxford University in Great Britain should contact Dean Veit at the Student Life Office (567-2560) in Hermann Hall. Rhodes Scholarships are awarded on the basis of outstanding academic credentials and leadership qualities and are generally considered the most prestigious of all scholarships available to those who have received their Bachelor's Degree.

NSBE Family
NSBE, the National Society of Black Engineers, is having its first general meeting of the 1986 Fall semester on Thursday, September 11th, in Stewart Building, room 302 at 12:00 noon. ALL MEMBERS are urged to come. We encourage all members to bring a friend or two and all NON-MEMBERS and NON-ENGINEERING majors are welcome to come as well. We will have an exciting program for all, we hope, and we will be meeting and socializing with the Society-NSBE. Also look forward to our Resume Writing Workshop to be held at the following general meeting Thursday, September 25, 1986.

SWE
The Society of Women Engineers cordially invites you to their first meeting of the semester on Wednesday, September 10 from 12:00 noon to 1:00 p.m. at 11856. Our speaker will be Ann Callahan, our industry advisor. She will talk of her experiences as an engineer working her way up at Amoco. Please come and join us for this very informative meeting. Ice Cream and other refreshments will be served.

Alternate Realities
Alternate Realities, IIT's gaming club, will be holding its next meeting Wednesday, September 10th at noon in the HUB mezzanine room 306. All are invited to come (Don't worry-there are no limits of registration fees). For more information, call Dave Orsett at 842-9277.

WOUl
WOUl will hold its first staff meeting on Tuesday, September 9th, at 12:30 p.m. The meeting will be held in the WOUl office on the 5th floor of main building. Anyone interested in joining the staff should attend this meeting. Current staff members are required to attend or notify Kevin or Ed.

Yearbook
Interested in working on yearbook? Needed: photographers, typists, designers, proofreaders, people who just like to help out. Come to the first meeting on Monday, September 15, 12 noon-1:00 p.m. in room 306 in Hermann Hall. If you are interested, but unable to attend, please drop a message in Box 36 in the Student Life Office.
Students encouraged to register

All December and May 1987 graduates are encouraged to register with the Placement Register, located in Main Hall, Fourth Floor. The following materials must be completed in order to register:

1) Resume - 30 copies to open a file
2) CPC form - typed and duplicated 30 times and attached on top of each resume
3) Transcript release form - must be signed on order release transcripts to prospective employers

The CPC form and Transcript release forms are available in the Placement Office, Main Hall Room 404.

Students who will be interviewing on-campus in the Placement Office during the fall semester are also expected to attend one Resume and one Interview workshop held in Main Hall Room 404 on the following days:

Resume - Monday, Sept. 8: 3:15 - 4:00
Interview - Tuesday, Sept. 9: 12:30 - 1:30
Resume - Wednesday, Sept. 10: 3:15 - 4:00
Interview - Thursday, Sept. 11: 12:30 - 1:30
Resume - Friday, Sept. 12: 3:15 - 4:00
Interview - Monday, Sept. 15: 3:15 - 4:00

Interview sign-ups for companies recruiting on campus will be held 3:30 - 4:30 on Mondays, Wednesdays, Fridays two weeks before the interview date. Sign-up days are as follows:

Monday - all interviews held on Monday and Thursday
Wednesday - all interviews held on Wednesday and Friday
Saturday - all interviews held on Saturday

Students must be registered with the placement office before signing up for any interview!!

The first week of sign-ups for the Fall semester will begin on Monday, September 15, 1986.

The Fall Recruiting season will begin on Monday, September 29, 1986 and will run through November 21, 1986.

By-Major lists will be posted in the Placement Library, Main Hall Room 404.

These lists are organized according to each individual major and include all companies interviewing on campus with any specific requirements. Copies of these lists are available from the Placement Secretary.

Business School of Illinois continued to exist. Herrin Perlestein was made a Life Trustee of IIT in 1971 when he retired as chairman.
Even today, there are still a few students who don't have an HP calculator.

Burning the midnight oil may be necessary.
Burning the 2:00 or 3:00 o'clock oil is absurd.
Especially when an HP calculator can get the answers you want – in time to get a good night’s sleep.

For instance, our HP-41C Professional Scientific Calculator has more built-in advanced math and statistical power than any other calculator. Our HP-41 Advanced Scientific Calculators have even more potential.

That's because there are better than 2500 software packages available for them – more than for any other calculator.

There's even a special plug-in software package (we call it the Advantage Module) that's designed to handle the specific problems an engineering student has to solve in his, or her, course work.

No wonder professionals in engineering and the physical sciences widely regard HP calculators as the best you can get.

So check one out. Then, when your mother calls to ask if you're getting enough sleep, you won't have to lie.

By the way, if you want more information, just give us a call at 800-FOR-HPCC. Ask for Dept. 658C.

@1984 United Feature Syndicate
The tale of Hortence

by Steve Cap

A student was struggling next to ITT’s Central Park tower with the having the day job. He wasn’t even close. For all practical purposes, he had fallen asleep, and his body was just slumped in one corner. Walking while a coma is not an easy thing to do. No indeed, many students do it quite well during finals. Not knowing exactly what he was doing, or where he was going, he would wake up. Suddenly, as if we shall call him Hortence, bubbled into the HUB cafe with Root and somehow managed to get teeth, drink and say for some of the finest cuisine this side of Stateway Gardens.

As you can see, a coma is a rather difficult task. For one thing, the face has a tendency to meet the food in the plate. On the whole, it is not a cordial meeting. The potatoes, meat and vegetables were extremely upset to have Hortence’s face intrude into their small, circular space. On the other hand, the food decided to arrange itself on Hortence in a particularly uncomfortable manner. One could hardly eat if, when disturbed, food becomes quite noisy. A campus coffee shop is not normally quiet. One can be quite easily, roughly pushed, the face and generally plucked the peas from Hortence’s hair and ears and daintily placed the peas in the small holes of the potato salad.

The campus commons Hortence from the HUB out into the finagle. Hortence stumbled to the recital of the red Bridgeport (having a built-in sense of safety not to wander north, south or east). Soon he came upon a fire hydrant with several dogs sniffing at it. Naturally, the hydrant asked that the dogs be chased away and Hortence, being the gallant fellow he is, complied. The hydrant offered itself as a seat and Hortence sat on it. After which appeared to be a rather distorted look crossed his face, Hortence decided to stand — with legs slightly apart.

An interesting fact is that one paw from the coffee table was still on Hortence’s head — vigorously pressing that it should be removed. Hortence still fulfilled its purpose on this earth, if you have never seen an upset paw, it is a rather horrible sight. Rolling around, jumping up and down, yelling curses — not many people can watch a sight and quickly forget it.

The hydrant, well aware of the fact that Hortence is not going to fire it to Hortence: “I kindly thank you for your rescue, sir, but could you please not let the angry paw fall on me to fall?” To which Hortence replied, “But I would never do such a thing. No noble hydrant, at least not in public.” The hydrant thought and considered Hortence’s reasoning, it was more Venn diagram closer to Hortence’s foreground.

“But, O gentleness of gentlemen,” thought Hortence, “anger is unusual to descend upon me from your most obliging company.”

Oblivious to reality due to his coma and occasional use of recreational drugs, Hortence continued on. Suddenly, at the sight of the fire hydrants, you are surely continued on page

The Painter

“I don’t know what’s with this place, but I’m sure as hell gonna try to find it.”

Thomas spun around on his heels, scratching his face, searching the door. As he burst through, he found the secretary engaged in a heated conversation with an elderly gentleman.

“Will we, yes, sir?”

Then, a certain air of annoyance in a useless interruption and the look of the lost, insect.

She gave him the look of a mother who had, for the first time, lost her smallest baby curse, then the composure returned, “How do you mean, sir?”

“What I mean, is somebody in this church has screwed something up, and that’s your man and I want to know who’s been screwing around with our stuff.”

If you will just calm down and tell me what’s been tampered with, perhaps I can help. Sure.

Sure. Somebody poured paint all over one of my worker’s stuff.”

Again she gave him the displeased mother response, while the man she had been talking with shifted his weight.

“And then my cigarettes were gone too.”

“I told you that you shouldn’t have been smoking.”

“What? You did it, didn’t you? You’ve got that smell on you with our sort ‘cause you didn’t like us!”

Sar, that is not true. However, I must tell you that our parishioners do not take well to signs of disrespect.

“And you?”

“You turned that lady into a monster, you poured that paint all over the bag ‘cause you didn’t like shilling some on that porch.”

“I don’t know who you are, sir, but I do not like your behavior at all. And I must admit that I did not like the behavior of your assistant; however, I must ask you, if I had poured the paint, would I not have had the smallest ofan, paint of any sort on my face? My suit, while perhaps a few years too new, has been kept in recondition, would you not agree?” he volleyed back the ball into Thomas cough.

“Look, I don’t know what sort of church this is but I’ll tell you one thing, I’m as much as one see of you or your parishioners around my truck, I’ll forget this place is supposed to be holy and be the crap out of you!” he pointed at the still uncomprehending man.

“Sir, I don’t.”

and his lucid lead guitar.

All of the band’s selections were well received, but especially roof-raising were (of course) “Sweet Home Chicago” and “Magic”. The latter was a dedication to Sue Sound-System-Muddled-Last Name, who celebrated a birthday and her engagement at the benefit. Although the enthusiastic presence of the Grab-Bogi, even Bog staff were able to get in on the fun, as they linked “Grab-Bogi Blues” to the “grab a little leg-kickin’ and singin’ in my ‘Girl’.”

Will the fearsome Grab-Bogi come out to the Dog every Thursday? Probably, as long as the band is hot and the beer cool. Will the HUB administration ever ask this? Probably not. As long as the damage is not and the heads are cool. Besides, this is football season in Chicago.

Grabowski meets the Blues

by Greg Emil

It was during that oh-so-sweet season last year, somewhere in the parking lot around Soldier’s Field, that the mythical Grabowski football fan made his mark. It was of a certain, though indiscrinate, ethnic heritage, worked callously into its hands during the week. While I was watching the Bears with foaming mouth, they went in and swept through Sunday.

Last Thursday night, during Bog Band Night with Eddie Clearwater on the stage, the mythical Grab-Bogi was sighted for the first time this year. Down where there the ratio of beer pitchers to humans exceeds 1:1, hack beyond the Fuzzy Head-Butters, just around the corner from the Ceiling-Holding Table-Dancers, there it was: the beast that works calculus into its head during the week.

On what a beast! Able to eat birthday cake and drink beer in the same mouthful. Able to dance and bellow where there’s barely room to bend elbows! Able to chant “Edie, Edie, Edie” over and over, without stopping for breath! Able to clean out entire popcorn machines in one slurp of the tongue! Unable to read “Maximum Occupancy 80.”

What lives this beast out of hiding, it seems, is the hard-working blues of the Eddie Clearwater Band. And rightly so. Eddie’s band plays the blues like they mean it, full steam ahead, and true to their roots. Backed by drums, bass, rhythm guitar and saxophone, Eddie Clearwater wails away alternately on the microphone,

maybe he went inside.”

“Maybe he fell over in the bushes.”

“Yeah, he asks me, ‘Will I see you again.’”

The men separated to their appointed tasks. Jake Thomas was to watch the yards anyway, however, when he heard another shout.

Jake Thomas was now simply standing back near the wall, apparently looking at the wall, that the hell’s wrong with you?”

“Then he saw the plaque. There was a new entry on the steel plaque.

“What the hell?” Jake Thomas stood in disbelief.

“How the hell can he be dead? This is sick.” He stepped away from the plaque in horror. His left foot nudged something, the
Apple Computer, Inc. has developed two ways of moving college students into the future for the first time.

Apple promotes Macintosh

One way is with a high-performance Macintosh personal computer. The other is with a high-performance 12-speed Trek Models D10 sport bicycle. The promotion, “Two Ways Apple Moves You Into the Fast Lane,” began August 21st at IT, with the first 500 entrants receiving an Apple bicycle carried.

Apple begins a six-week promotion designed to introduce students to the educational and practical benefits of the Macintosh computer. One bike will be awarded to a winning student at each participating campus.

All registered students can quality for the grand prize by visiting the Macintosh computer display at Academic Computing - PC Classroom 2 and taking a five-minute demo program. The self-instructional, highly-animinated demo disk showcases the Macintosh computer’s easy-to-use word processing, vibrant graphics, and applications in social sciences, business, statistics and other fields.

The promotion is being coordinated by Gary M. Reynolds & Associates of Milwaukee.

Our EL-533 financial calculator for example, has twenty memories compared to just five for the competition. So let's you do complex calculations like discounted cash flow analysis.

For those who prefer lab coats to pinstripes, there's our EL-508A scientific calculator. With its 10-digit display, direct formula entry and 93 scientific functions, it makes performing even the most difficult calculations easy as pie. And because it's sleek, slim and stylish, you'll never look out of step as science marches on.

The fact is, Sharp makes all kinds of ingenious little calculators that can help get you through college. And help you pay for it.

Because unlike college... they're surprisingly affordable.

Call and complain.

If your bookstore doesn't carry Sharp calculators... call and complain.

September 8, 1986

Apple Computer, Inc. has completed mapping Wisconsin in the standard (7.5 minutes of longitude and latitude) quadrangle format. These U.S. Geological Survey products are available for a nominal fee to the public.

The five color maps show the location and shape of hills, valleys, and plains; the network of lakes, rivers and streams plus the principle works of man. The maps can be used to compare the topography at a glance.

The color maps are available for a nominal fee to the public.

Hortence, thinking this a very silly statement, stated: "O honey, I'm the one that you be afraid that no such thing will happen, no pea shall stream from my body to tortured you. You would sooner sit through an upper level math class than have the sight of me so tortured to the class a very cold chill up and down Hortence's spine."

At this time the pea, driven by its desire — bred into it over centuries — to torture and possibly kill the fire hydrant, leaped from Hortence's nose, made a perfect landing on its nose, rolled to the tip of his nose, and was perfect seen by the fire hydrant. The fire hydrant watched all of this with a tear in its eye, hearing the scream, felt insulted. The second the pea left his body, Hortence turned and left the fire hydrant. Hortence never saw the pool of liquid left by the broken hydrant. Nor did he see the rust spot.

Co-op

continued from page 1

Co-op has profound effect on your future academic advancement. It is interactive and reinforcing. You start to make sense of what you have learned in college because either in principle or practice you are putting it to the test in a real job. The added ingredient is experience. And whatever the experience, Co-op is highly regarded as a valuable educational enterprise.

Students participating in the Cooperative Education Program alternate semesters of full-time classes with periods of full-time employment in a business related to their field of study. Students are eligible to participate after successful completion of their freshman year and can apply until their mid-junior year. Transfer students must complete at least one full-time semester at IT. This is a 3 to 6 work periods ranging from 13 to 30 months and completion of a degree in 4 to 5 1/2 years. A minimum of three work periods are required and all students must maintain a 2.0 G.P.A. to remain in the program. If you do not wish to miss out on the benefits that the Co-op program offers, come and pick up an application from the Office of Cooperative Education in Fark Hall, Room 403. Ask for Cathy Robinson.

UGSPO catalog available

The United States Government Printing Office has just released the latest version of the Catalog of Publications of the National Bureau of Standards. This 17th edition of technical publications is a handy reference tool for students, technicians, and professional engineers.

The catalog may be ordered from:

Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

The stock number of the catalog is 003-003-02777-5 and the price is $16.00. Be sure to include a check payable to the Superintendent of Documents.
What's Happening.
If you don't have an answer for that question, you probably haven't been reading this page of the newspaper lately. You will find information on what's happening, when, and where right here. In an effort to bring more of what you want to see and hear we are asking everyone to return the form on this page. Drop the form off in the student's organization office which is located on the west side of the HUB. A drawing for two tickets to any UB event will be held for the serious suggestions.

Don O'Connor

Silverado

"The best western of the year," says Dave Hathaway. A comedy and western all in one. You will love the horses in this movie.

Thursday 9/11 at 5:15
Saturday 9/13 at 7:00 and 9:30
Admission only $2.00

Mr. Myers,
and their Caribbean Style Rock, will be in the Bog this week. This five man band performs a wide variety of music. Their song list includes hits from the Temptations, Beatles, Bob Marley, and Sting. Mr. Myers has played at ChicagoFest and every major college in Illinois. Come and enjoy a band, burger and beer in the Bog.

Thursday 9/11 at 9:00
Admission only $2.00

The Union Board is looking for two people. Raj Dutt and someone who would like to be the Special Projects Director. Apply at the student's organization office.

Coming to the HUB ones again, Focus on the Arts. The Cultural Experience Expo will be here September 14.
Late specials

Announcements

Starts at 9:30 pm Monday through Thursday, the Rec Center prices drop dramatically. Bowling is only $0.50 per game, pool and foosball is $1.00 per hour. Watch for additional specials like our "Bowl for the Night" special for only $2.00 for the night, candlelight bowling, and early morning discounts.

Tours, tours, tours!

Become acquainted with services and facilities at Paul V. Galvin Library. Reference Librarians will be leading tours of the Library on Tuesdays at 11:00 am and 2:00 pm Monday through Friday and 12:00 Noon on Saturday. Tours will be approximately 45 minutes and commence at the Reference Desk on Second Floor.

Library hours

Monday - Thursday 8:30 am - 11:00 pm
Friday 8:30 am - 8:00 pm
Saturday 8:30 am - 5:00 pm
Sunday 2:00 pm - 10:00 pm

On the last day of the period, Friday (December 19) the library will close at 5:00 pm and will remain closed until Monday (January 5).

Return your forms

ATTENTION NEW FRESHMEN:
If you have not yet turned in your completed Freshman Registration Form, please do so immediately. This is your only opportunity to register for classes, to purchase parking permits, and to take advantage of the various services offered by the Office of the Registrar. Failure to submit your form by the deadline will result in the loss of your registration rights.

Program direction

Janice Dawson will be directing services for the program.

The National Space Club will award a $7,500 scholarship

The National Space Club will award a $7,500 scholarship to a student who is a member of the National Space Club and who meets the following criteria:

1. The applicant must be a U.S. citizen and a full-time student.
2. The applicant must be enrolled in a degree-granting institution.
3. The applicant must be pursuing a degree in aerospace engineering or a related field.
4. The applicant must have a minimum GPA of 3.0 on a 4.0 scale.
5. The applicant must have demonstrated leadership and commitment to the aerospace industry.
6. The applicant must be a member of the National Space Club.

The scholarship will be awarded annually and will cover tuition costs for the next academic year.

Arson attacks on fraternities

BOULDER, CO (CPS) - Three fraternities were attacked during the night of September 17, 1986. The fire, which is being investigated by the Boulder Fire Department, caused $5,000 in damage. The cause of the fire is under investigation. The fraternities are Sigma Chi, Alpha Phi Alpha, and Phi Delta Theta.

If you suspect arson or have any information regarding this incident, please contact the Boulder Fire Department at 303-441-3171.
Welcome back! For those of you who waited patiently for this column to make a reappearance, your faith has been rewarded. For those of you who hoped this would never come back, eat my shorts. My thanks to a patient editor who let me do this once again (and coincidentally, needed a page of space filled).

The rules are simple. Just solve the three puzzles on the right. Since you are all technical students to some degree, these shouldn’t be too hard. Fill in the answer blank at the bottom of the page (or a reasonable facsimile), and turn it in at our office on the fifth floor of Main Building by noon, Thursday, September 18.

As for the prizes for correct answers, we have something that everyone desperately wants and needs. That, of course, is the nearly overwhelming thrill of seeing your name in print in this very space for everyone to see. Names will be printed in roughly the order we get your answers.

GOOD LUCK!

Puzzle #1

Here’s one to warm up on. Replace each letter with a digit so that the equation is true. Each given letter always represents the same digit:

SEND
+MORE
---
MONEY

Puzzle #2

Here’s one that may be somewhat harder. Of course, once you get a clue on how to do it, it gets a little easier. Next week, that clue will appear in this paper. For now, you’ll just have to figure it out.

71827464084302472530470776252463304676742530288
094280363704676774253063260460628436284270843034
77807832608377350860276770843028526842022774302
7072780630487022746020266056842807768330480927046
7677425303670207832608377350860276770269844646068
24053770843028526842

Well, maybe one hint: those who took CS100 last semester may have an idea on how to do it.

Puzzle #3

One last puzzle:

Andy dislikes the catcher. Ed’s sister is engaged to the second baseman. The center fielder is taller than the right fielder. Harry and the third baseman live in the same building. Paul and Allen each won $20 from the pitcher at pinocle. Ed and the outfielders play poker during their free time. The pitcher’s wife is the third baseman’s sister. The pitcher, catcher, and infielders except Allen, Harry, and Andy, are shorter than Sam. Paul, Andy and the shortstop lost $50 each at the racetrack. Paul, Harry, Bill, and the catcher took a trouncing from the second baseman at pool. Sam is involved in a divorce suit. The catcher and the third baseman each have two children. Ed, Paul, Jerry, the right fielder, and the center fielder are bachelors. The others are married. The shortstop, the third baseman, and Bill each cleaned up $100 betting on the fight. One of the outfielders is either Mike or Andy. Jerry is taller than Bill. Mike is shorter than Bill. Each of them is heavier than the third baseman.

Using these facts, determine the names of the men playing the various positions on the baseball team.
WHAT EXACTLY IS AT&T'S "REACH OUT" AMERICA?"

a) A long distance calling plan that lets you make an hour's worth of calls to any other state in America for just $10.15 a month.

b) A 90-minute special starring "Up With People!"

c) A great deal, because the second hour costs even less.

d) If you'd read the chapter on Manifest Destiny, you'd know.

e) Too good to pass up, because it lets you save 15% off AT&T's already discounted evening rates.

If you can guess the answers to this quiz, you could save on your long distance phone bill with AT&T's "Reach Out America" long distance calling plan. If you live off campus, it lets you make a full hour's worth of calls to any other state in America— including Alaska, Hawaii, Puerto Rico and the US Virgin Islands—for just $10.15 a month.

All you have to do is call weekdays, 11pm Friday until 6pm Sunday, and every night from 11pm to 6am. Save off our already discounted evening rates by calling between 3pm and 11pm Sunday through Friday. The money you could save will be easy to get used to.

To find out more about "Reach Out America", or to order the service, call toll free today at 1 800 CALL AT&T; that is 1 800 225 5288.
Sailing is cool

by Enrique Fabregas

The Poetry of motion that is Sailing or Sailing is Cool

—by Enrique Fabregas

Ah, Sailing. Better yet.
Sailing in Lake Michigan along the shoreline enjoying the view of the imposing Chicago skyline, or sailing competitively against schools in the neighboring states of Indiana and Wisconsin. The IIT Sailing Club offers you these appealing opportunities.

Sailing is a pleasurable and relaxing sport. In the IIT Sailing Club, you can either sail the boat around the harbor, go out into the lake, without saying any attention to time or speed, just plain relaxing, or sail competitively against other boats around a predetermined course.

The IIT Sailing Team consists of club members who like to race against other boats and, thus, against other schools. The team is a member of the Midwest Sailing Collegiate Association (MCSA), which consists of over twenty-seven schools around the Midwest such as Notre Dame, U. of Michigan, U. of Illinois, U. of Iowa, Indiana University, Ohio State University, etc. Regattas, that is sailing races, are held at different universities around the Midwest. For example, our sailing team traveled to the University of Iowa for a regatta this past spring. Also during this past spring, IIT won its annual spring regatta held at the Chicago Yacht Club at Belmont Harbor beating such perennial sailing powerhouses as Northwestern U. and University of Iowa.

Women's Tennis to open

The women's tennis team's home opener is on Monday, September 8th at 3:00 p.m. at the tennis courts behind the Commons. They will raise their raquets against the netters of Trinity Deerfield College. This year's team has only two returning players from last season. These two are Kristyn Lyons, who is a junior and captain of the team, and Chris Kostner, a sophomore. The team will be joined by the newcomers who will face a total of seven matches this season. Their schedule:

Sept. 8 - Trinity Deerfield (Home) 3:00
Sept. 9 - Aurora College (Away) 3:00
Sept. 17 - North Central College (Away) 3:00
Sept. 22 - Northwestern Ill. Univ. (Home) 3:00
Sept. 29 - Concordia College (Home) 3:00
Oct. 4 - Lake Forest (Away) 3:00
Oct. 6 - Wheaton College (Away) 3:00

Volleyball team looking for another successful season

Illinois Institute of Technology (IIT) Women's volleyball team is looking for another successful season in 1986. Five players return from the 1985 team that finished with a 33-7 record, and will be joined by five talented freshmen.

"The key to our success will be blending our experienced players with our newcomers," said Coach Chris Meyer. "We are going to depend on our skill, quickness, and teamwork."
