Family communications study underway in the psych dept.

By Robert Huston

For the past year and a half, an important communications study has been underway at IIT. The study, headed by Dr. Frank J. Floyd, a clinical psychologist and assistant professor of psychology, discusses on how married couples and families interact when faced with a problem.

For the past year and a half, about twenty couples and twenty families have volunteered for the study. Two methods are employed to study how couples and families attempt to resolve a problem.

The first method is for the volunteers to keep a daily diary of the problems they are encountering and how they attempted to solve them. This diary is given to the volunteers in the form of a checklist which instructs them to mark off items applicable to them. Once this checklist is completed, it is to be sent back to Dr. Floyd and his students. A functional analysis is done on the volunteers' responses, and by extrapolating trends, an attempt is made to find causality is made.

A second method is for voices tapes to discuss a relevant issue while being videotaped. For fifteen minutes the Amoco research psychologist will discuss issues that need to be problematic, namely money, household chores, and free time activities.

In analyzing the videotape Dr. Floyd and his students study both the verbal and nonverbal communication of their subjects. Whatever communication leads to positive or negative outcomes will be noted.

Successful, constructive communication between couples is vital to the happiness and even the existence of a relationship. It is common knowledge that a married couple's lack of successful communication strategy is a prominent reason for the staggering divorce rate.

If lack of successful strategies for solving problems doesn't lead to divorce, it still is responsible to a high degree for marital unhappiness and family distress. The results of Dr. Floyd's research may be concrete understanding of what communication strategies work best amongst couples and families.

SWE sponsors job search help

What does it take to get a job? The SWE's Most IIT students would give 4 basic answers - a good resume, prior knowledge, company, proper attire, and appearance, and most importantly making the right impression during the interview. The first two can be obtained through basic research and resume writing workshops. The latter half can be obtained through SWE. The Society of Women Engineers will be sponsoring two major events before the height of the recruiting season starts.

The first event, "Dress For Success" by Hart Schaffner and Marx, will be held on Tuesday, September 30 in the HUB Mezzanine from 12-2. Dress For Success will consist of a film presentation and an open discussion afterwards. This presentation will not only assist you in selecting the proper attire for an interview but will also give you helpful hints from various companies on identifying quality workmanship and more.

The other event, "Mock Interview" with Amoco Corporation will be a joint venture between SWE and NSBE (National Society of Black Engineers). This event will be held on Thursday, October 8 from 11:00 a.m. to 3 p.m. in the HUB Main. Two requirements are needed from students who will sign up for this event: a Technical Paper and the proper attire and have a resume available. Keep in mind the students and interviewers will treat you in a professional manner. All will be 30 minute slots available to sign-up starting at 11:30 until 2:00 p.m. The interview will start at 11 a.m. with a brief presentation by Amoco. Five Amoco employees from various departments will be available for students to interview with. Call 339-7888 for more information.

Honey money

MINNEAPOLIS, Sept. 11 - On Sept. 7, Honeywell will launch its fifth annual Futurism Awards competition, an essay contest that asks students to predict technology advancements 25 years from now. The contest will offer 10 winners $1,000 each and the chance to work for Honeywell next summer.

ATS holds first meeting

The ATS held its first meeting of the semester last Tuesday, in the HUB Mezzanine. The meeting's goal was to explain the functions of various committees that ATS oversees, and to encourage involvement in them. "The committees are vehicles for getting what you want out of your experience at IIT," ATS President Preet Sah added.

The standing committees include: College Bowl (academic competition), Leadership Transcript (to create a record of extracurricular accomplishments), Publicity (of ATS), Security (student Input), Teacher Evaluation (to aid registration), Tutoring and Cultural (to assist a local 7th grade school), and University Relations (to publicize student accomplishments).

Once the committees were explained, President Sah opened the floor for nominations for vacant office positions. Secretary, Marcia Williams, Denise Morgan, and Bob Grant were all nominated, but only Marcia accepted the nomination.

Overseeing the special election, which is being held on Tuesday and Wednesday of this week is Richard Dominick, the newly appointed Elections Commissioner. On Tuesday, you can vote from 12:00 P.M. to 2:00 P.M. at the Hub or Commons, and from 6:00 P.M. to 6:00 P.M. at the Hub and the Residence Halls. On Wednesday, the voting will be from 12:00 P.M. to 1:00 P.M. at the Hub or Commons, and from 5:00 P.M. to 6:00 P.M.
Two ways to leave the pack behind.

Apple® has two ways to put you ahead of the competition. And keep you there. Just take part in a free five minute demonstration of the Macintosh® personal computer.

You'll see how Macintosh can help you work better, faster and smarter. You'll also qualify to win a Trek® 12-speed touring bike. And you'll walk away with a free bicycle cap. Macintosh and a Trek bike. Both will do more than help you get ahead. Both will take you anywhere you want to go.

Join NSBE

The National Society of Black Engineers will be holding its annual Fall Recruitment Drive. The event will be held on September 17th and running through two full weeks. The NSBE welcomes all new and returning students, ENGINEERING and NON-ENGINEERING majors to join us in serving as mentors. All attendees enjoy all the privileges that NSBE offers, including Tech Expo, workshops, and study marathons. To find out about the National Society of Black Engineers, and become a member of one of the most active professional societies, please come on by! For more info, contact Terri Jones in the PREP office located in the basement of the Commons. Registration tables will be located in the HUB and in the residence halls. All NSBE activities will be held on Tuesday, September 17th, from 12:00-2:00 and Thursday, September 19th, from 5:00-7:00. The annual meeting and elections will be held on Thursday, September 19th, at 7:00. A social will be held following the meeting.

Fake Lattices

The Physics Department has invited John Ketterson from the Department of Physics at Northwestern University, who will give a colloquium on “Superconducting, Magnetic and Transport Properties of Artificial Metallic Superlattices” on Wednesday, September 17th at 7:00 PM in the HUB. You are welcome to attend our next general meeting on Sept. 17th. For more information contact Cathy Robinson from the Co-op Education Department.

D PHIL E

Congratulations to Delta Phi Epsilon’s newest pledges: Cathy, Rachel, Christine, Chris, L, Barb, Lidi, and Brenda. We wish you all the best in your future endeavors. Psych, psych, psych...

Hey DIE

Welcome to Siblinghood! Gianna Zelazny. Also, congrats Maria Crotolo on your candy. We love you both.

Resume, Resume

The National Society of Black Engineers is once again producing a Resume Book which will be included in the Tech Expo Package which is distributed to all companies attending Tech Expo. If you can't attend, you can mail your resume to the NSBE office at [address] by September 19th. NSBE reserves the right to edit resumes. The workshop is geared toward the professional and the resume is used by employers to find you. If you are interested in attending, please sign up in the NSBE office. The workshop will be held on Thursday, September 19th, at 4:00 PM. Resume books will be distributed to organizations at the Tech Expo.

Proper Dress

On Tuesday, September 30, 1986 Baskin's, a Hart, Schaffner & Marx company, will be on campus from Noon to 2:00 PM presenting a film and lecture on proper areas for the interview and developing a wardrobe for the working career. The presentation will begin at 12:00 PM and end at 1:00 PM. The presentation will be held in the DGS office at 3:00 PM. This is an event that no one, especially seniors should miss.

Membership Drive

The Union of Concerned Black Students is having its 1986/87 membership drive for two full weeks, starting Sept. 15, 1986. This gives all students more time to sign up to be an Active Member in the UCBS. Joining the UCBS will give you a different view of our Ethnic Culture. Members enjoy cultural events, field trips, and parties! All students are invited to sign up by visiting the UCBS office and bringing in your student ID. Join the UCBS FAMILY, and you will learn about various organizations on campus and the importance of being involved in campus life!

S-PAC Meeting

The S-PAC committee will have a meeting at 11:00 a.m. on Thursday, September 16th in the HUB. This meeting is for all members and candidates.

S—PAC Tickets

Tickets for the S-PAC will be on sale at the following times & places: 11:45 a.m. in the HUB cafeteria, in the Commons and in the Residence Halls cafeteria. Tickets are on sale during the weeks of Sept. 15 and Sept. 22 through June 26, Monday and Wednesday only. Tickets are $1 for members, $2 for non-members and $4 for free for people who join IEEE. Don't miss your chance to attend IT's biggest event this fall.

Basketball

There will be a team meeting for all returnees, recruits and anyone interested in trying-out for the Varsity Basketball Team on Oct. 8 at 1:00 p.m. in Keating Hall. Practice begins on October 10, Monday at 4:00 PM.

ATS Election

The Association of Tech Students (ATS) is holding a special election for the Office of the Secretary. Times are: Tuesday, September 16th at 7:00 PM in the Residence Halls Dining Room; Wednesday, September 17th at 12:00-2:00 in the HUB and Residence Hall Dining room. All full-year, graduate and undergraduate students are urged to vote. A valid ID is required for voting.

The duties of the Secretary include keeping and preparing minutes of all meetings, including correspondence meetings, as well as attending technical committee meetings. The Secretary is responsible for keeping records of all student members and their activities, and for notifying members of important meetings. The Secretary is also responsible for keeping the membership list of the Association of Tech Students. For more information, contact Patrick Doherty in the PREP Office at 3:00 PM.

We're Back

WOUI, 88.9 FM, is back on the air for the first time since August 1st. If you need to hear some great music, commercial free, tune in on FM 88.9. We're usually on Mon. through Sat. from 8:00 PM to 11:00 PM. But there will probably be holes in the schedule for the first week. Look for our schedule in Tech News for the next few weeks. And remember, requests are always welcome at 567-2008.

Bible and You

The Bible and You Today study/prayer group meets again on Tuesday, Sept. 16 at 12 noon in room 306 of the HUB. The meeting continues with the New Testament letters to the Hebrews.

Chapel

Sunday Chapel Service of the Eucharist and Holy Communion is held at 4:30 PM. The Chapel is located just outside the Residence Hall Lounge.

Phi Eta Sigma

Phi Eta Sigma honor society will hold its first meeting of the year on Tuesday, September 16, from 1:00 to 2:00 PM in the Trustee Dining Room in the south basement of Hermann Hall. New members are urged to attend to plan the autumn program and initiation.

Technology News

The announcement column is for announcements of meetings or events your organization will be holding. To get your announcement printed, simply write it down (LEGIBLY, or, if you can't, please use a word processor or a typewriter), sign it and turn it in to either the Tech News office or the 4th Floor of Main Building. We must receive the announcement by noon, the Thursday preceding the publication of the following issue. If it is not received by noon, it will be turned down. We cannot and will not take any announcement over the phone. The deadline for next week’s publication is 5:00 PM.

Student Loans

Any student who has been awarded a National Direct Student Loan should notify the Student Loan Office to endorse the fall semester’s award. The student loan office is located in Main Building on the 5th floor.

Scholarship

Sponsors interested in applying for the Rhodes Scholarship to study at Oxford University in Great Britain should contact Dean Vicz at 587-8860. Students interested in applying for the Rhodes Scholarship must be enrolled as full-time students at the University of Missouri by the deadline for the application.

Entrepreneurs

Tech Entrepreneurs will hold its 3rd meeting of the semester this Wednesday at 11:00 AM in the Field room in Hermann Hall (southwest corner). All Welcome.

Register your Organization

The Student Organization Registration Form must be renewed each fall and spring semester. The form is available in the Office of the Registrar. A directory will be prepared and available, listing all officers of organizations by mid-October.

S-PAC to benefit all students

Students should get involved

If you're one of the over-whelmed-IIT students, you probably don't need to read this. But if you haven't taken the time to do something at IIT outside of your classes, well, why not?

Scratching isn't just academics; it's also made up of challenges, responsibilities, pride, and interpersonal, leadership, and taking risks, all words, experience. There's no way to gain experience except to dive in and do something. It doesn't have to be great and wonderful. It doesn't have to be new, exciting, or innovative. Any contribution of time, energy, or talent you give practice in life. It's a chance to make a difference in the lives of students with new ideas, who might not be quite sure how to get them rolling. Bring ideas to the organization set up for this purpose. ATS serves all the students. Undergraduate, Graduate, Fraternity, Sorority, Resident, Commuter. You. The important thing about ATS is that it is students serving other students. Students have lots of talents - academics, home, friends, work. A few individual students can't make a student government work to its fullest potential, no matter how hard they try. One person won't have two hands on a project, but ten people might have an hour, or twenty people a half hour, etc. Get the idea? It's easy to get involved with our organization. At a meeting, spend an hour helping to sell the student government and to expand, develop, and accomplish even more than last year. It is a year for the students with gripes to bring them forward instead of just sitting back and complaining. It is a year for students with new ideas, who might not be quite sure how to get them rolling. Bring ideas to the organization set up for this purpose. ATS serves all the students. Undergraduate, Graduate, Fraternity, Sorority, Resident, Commuter. You.

It is especially important to have students involved on the campus with the many things coming up. The committees have been set up to deal with concerns that students have had in the past, such as Security and Teacher Evaluations. Last year we reached out to the community with the Tutoring and Cultural Programs. We keep up yearly traditions like College Bowl and Connections, in addition to our Fall Leadership and Spring Career week. We provide services to students with the

S-PAC is coming on Tuesday, October 2. It will be your chance to gain important experiences in the professional world and the skills required to be successful. Four excellent students will be available for a discount on admission to the conference. Attend S-PAC and you'll be kept informed, and IEEE guarantees that your time will be well spent.

The Electrical and Computer Engineering Department, we hope to make the equipment available for use by faculty members as soon as possible. In addition to the donations, Delta Chapter of Eta Kappa Nu would also like to announce an exclusive seminar on each campus, which is open to all electrical and computer engineering students. The seminar will be held by Dr. Krall, who will give an overview of the industry...
So, you think you're Smart?

Well, I finally found a puzzle that stumped most of you. I came up to the office expecting the usual blizzard of correct answers, when, wonder of wonders, there was only ONE! Granted, I did make it harder than usual by leaving out how to do it. The one clue I did provide just added to the confusion according to those I talked to. Sorry about that.

In any case, here's the clue I promised last week for puzzle two:

The reference to CS100 had to do with program 7 (I think) they wrote last semester. It gave a phone number and they had to write a program to substitute all combinations of letters found on the phone dial for the corresponding numbers. In other words, the number 2 could be either A, B, or C, the number 3 either D, E, or F, and so on. Get the idea now? In addition to the letters found on the phone dial, 1 stood for the letters Q or Z, and 0 (zero) was a space. Have at it. You still have until Thursday, September 18 at noon.

And, of course, as promised, the name of the only person to solve the puzzle last week:

Sean Linnane

One final hint on all puzzles I put in, past or present: It helps to ask the right person the right question.

Credit: credit is due. Thank you, James F. Florax (even thoug you are dead) for Games For the Superintelligent. Credit also goes to the various editors of Games magazine for puzzles that will eventually appear in this space. Thanks also to those who make Friday's evening party (and the party downstream) a success. And finally, thank you to a former News Editor for the support. I just might make it yet.

Even today, there are still a few students who don't have an HP calculator.

Burning the midnight oil may be necessary.

Especially when an HP calculator can get the answers you want — in time to get a good night's sleep.

That's because there are better than 2500 software packages available for them — more than for any other calculator.

There's even a special plug-in software package (the Advantage Module) that's designed to handle the specific problems an engineering student has to solve in his, or her, course work.

No wonder professionals in engineering and the physical sciences widely regard HP calculators as the best you can get.

So check one out. Then, when your mother calls to ask, if you're getting enough sleep, you won't have to lie.

By the way, if you want more information, just give us a call at 800-FOR-HPPC. Ask for Dept. 658C.
Yearbook

Interested in working on yearbook? Needed: photographers, typists, artists, and others who just want to help out. Come to the first meeting on Monday, September 15, 12 noon-1 p.m., in room 306 in Hermann Hall. If you are interested, but unable to attend, please drop a message in Box 36 in the Student Life Office.

Late Specials

Starting at 6:00 PM Monday through Thursday, the Rec Center prices drop dramatically. Bowling is only 50¢ per game, and pool and football is $1.00 per hour. Watch for additional specials like our annual play-all-the-video-games-for-only $2.00 for-the-night, candlelight bowling, and early morning discos.

Library Hours

Regular hours begin August 25, 1986 — December 19, 1986: Monday - Thursday, 9:30 AM - 10:00 PM; Friday: 8:30 AM - 8:30 PM; Saturday: 9:30 AM - 5:00 PM; Sunday: 2:00 PM - 10:00 PM. On the last day of the period, Friday (Dec. 19), the library will close at 5:00 PM and will remain closed until Monday (January 5).

Interviews

Sign-ups for the week of September 15-19 begin at 3:45 p.m. in Farr Hall, Placement Library. Room 406 as follows.

Monday, September 15, 1986: Hughes Aircraft Company

Tuesday, September 16, 1986: Boeing

Wednesday, September 17, 1986: Northern Illinois Gas Company

Friday, September 19, 1986: Columbia Gas Transmission; Seniors who are interested in interviewing with these companies must register with the Placement Office before signing up for any interviews.

Interview Classes

Seniors who will be interviewing on campus in the Placement Office during the fall semester are expected to attend one interview workshop held in Hermann Hall, mezzanine level on the following days:

Monday, September 15 — 3:15-4 p.m.
Wednesday, September 17 — 3:15-4 p.m.

ASCE Officers

The following ASCE members were elected recently to the following offices: President — George Tapio; Vice-President — Raymond Delacruz; Secretary — Michael Quevedo; Treasurer — Carl Bolander. Congratulations and good luck in the upcoming year.

Scuba Diving Class to be Held

The athletic department will be sponsoring a Scuba Diving class to be held in Keating Hall, with a proposed starting date on or about October 12th. The course will consist of 7 classroom sessions of 2-1/2 hours duration, and 7 pool sessions of 2-1/2 hours duration. There will also be 2 days of open water diving with a minimum of 5 dives for open water certification. Right now it looks like the course will be taught in evening sessions, on Monday, Tuesday, or Thursday.

The course will be run by P.A.D.I. instructors and assistants, who are all qualified and licensed. All instructors and assistants are recertified, qualified in C.P.R., lifesaving and advanced first aid techniques.

Students must provide fins, mask, and snorkel by second week and also towel and swim wear and note taking material. All other needed equipment such as tanks, regulators, yank harnesses, and weight belts will be provided by P.A.D.I.

The cost of the course will be $130.00 for I.T.A. students and $35.00 for non-I.T.A. students. The course will serve for 1/2 semester of physical education credit. Anyone interested in enrollment in the scuba course should drop a card with their name, address, and telephone number to I.T.A. swimming coach, Dennis Matuch, in Keating Hall. Esky Pool as soon as possible.

Price Cut

TERMINAL/TELEPHONE

It's a hands-free 2-line speakerphone, computer terminal and a 65 key standard teleprinter keyboard... and MORE!

GETX TERMINAL/TELEPHONE

Built-in 1200bps modem!

For computing terminals with a built-in hands-free telephone. It looks and acts like a standard telephone, but it's not. It has all the features of a standard telephone, plus features that are specifically designed for use with personal computers. It's user-friendly, it's versatile, and it's reliable. It's the only telephone designed specifically for use with personal computers.

For executive use. Don't subscribe service. Hands-free speakerphone and 2 button speed dialing (up to 10 numbers) on great features for busy executives.

If not home, where???

by: Sean Washak

Stanley stepped off the train and stood. He let his eyes take in the scenery. Camp were the Basketball courts, and barracks of his memory. Squatting on the corner across the street from the train stop like some Callutian beggar was an old friend. The Venetian Hot-dog stand where he bought his first cup of coffee. Its tire facade now chipped and peeling. The owner named Jimmy, a Pug little man who always had a smile on his face. He sat near the corner booth by the window with a look on his face like a rubber coin. Business and Jimmy looked sad.

The old busy street of the place was practically vacant. Most of the store windows were boarded up and the local landmarks removed and dumped somewhere. The old clock tower had burned leaving a skeleton that haunted the landscape. The statue of Sargento was gone, off to fight in other wars in other neighborhoods. Crossing the street, a street he had crossed a thousand times before, now seemed cold and vast. Traffic was sparse and the lone bus that Stanley had seen on his way in, was now turning around and heading back towards the mall. Stanley wondered to himself "Where's all the boys who worked the Steel joint?"
The place had simply become a corporate tax loss. According to a giant mogul this was just a page in the "Hard Times" novel of life. Not remembered were the 1000 jobs of men making a living, paying bills and sending their children off to Catholic school. The endless lines of outdoor markets that made the trip seem inhabited by a life force all of its own had outgrown its usefulness. The only remaining structures were a maze of Viaducts, Railroad tracks, overpasses and industrial buildings. Beirut of our world.

The large Greek community was displaced by the neglect. Sent to other parts of the city by contempt to live in better rat infested housing. Taking with them the restaurants that served roast lamb from the window. The bustling farmers market has been boarded up and the remains of fruit and vegetable crates still litter the alleys. Long piles of trash and other assorted lumps of oily-rubbish.

What remained were the deteriorating buildings and broken streets. The people that lingered were people on the run. The world of the old neighborhood like a cancer. What now stood before his eyes was a combined sadness. Stanley had never counted on change. To Stanley the past would always remain, even if the present tried dying. Like youth, he thought it would last forever.

Stanley loved the old neighborhood that had taught him so many lessons. Lessons that he'd never learn in school. He remembered the Yellow Cabs as they sailed along those treecless streets hawking the old ladies and driving endlessly up and down, back and forth.

Court Theatre to open 1986-87 season with world premiere of Oresteia.

Anschluss' tragedy opens Thursday, Oct. 2 and runs through Sunday, Nov. 2 at the theatre, 5335 S. Ellis Ave.

Court commissioned the translation from north University of Chicago professors, David Greene and Wendy O'Flaherty, who have successfully captured the elemental, compelling human passion... the play and the nuggety grandeur of its poetry.

Set against the backdrop of the Trojan War, Oresteia is the family - the royal House of Atreus. A decades-old cycle of murder and corruption that has spawned three generations of tragedy, and one that is fated to continue when Oresteia kills his mother, Clytemnestra, and is himself murdered by his own father, Agamemnon, seven years earlier. The cycle is finally broken by the priestess of the goddess Athena, who establishes a system of human justice based on understanding and forgiveness.

Scholars Greene and O'Flaherty translated Court's acclaimed 1983 version of Sophocles' Antigone. The Chicago Tribune said of that production: "David Greene and Wendy O'Flaherty have created a suave, eloquent translation that is a valuable contribution to the literature, and the court ensemble of actors has gone through with a committed, controlled performance of dignity and depth."

Rudall, Artistic Director at Court, will stage the production in collaboration with associate Director Nick Faust. An ensemble of fifteen actors will portray the nearly forty roles called for in the text. Linda Buchman will design the scenery and costumes, Rita Petrizek will design the lighting.

The ensemble features John Rennhousen, last seen in Chicago in the national tour of Noises Off, and Deana Dunagan, acclaimed as Gertrude in the Wisdom Bridge Harriet. It also included Ingrid McKeigh, Terry Phillips-Kiyo, Mark Robbins, Ned Schmidtke, Kenneth Northcott, and Michael Trela.

Performance times are Wednesday through Saturday at 8:00 PM and Sunday at 7:30 and 7:30 PM. Special Saturday matinee is scheduled for 2:30 PM November 1.

Preview performances are slated for September, Sept. 27 and Oct. 2. For information, call 753-4472. See page 10 for subscriptions information, call 753-4472. Individual tickets range from $8 to $15 and are available by calling the Court Theatre box office at 753-4472, Visi-Mastercard, and American Express are accepted. Student, senior citizen, and group discounts are available.
Tech Students,

Don't let school bum you out. Get involved with campus activities. Another exciting thing to do is going to Union Board Events. They are only $2.00. That's half price off the regular theatre price to you and me. So, support your school and feel the force of stuff to do at IIT.

Don O'Connor

1984

Larry Vigilante says "This movie is doubleplusgood."

If you are doubleplusunstupid you will unwalk speedwise to the HUB for the showing of this movie. 1984 is plurysensual and plurysviolentful. Watch as Winston and Julia perform their duty to the party. If you thought Chemistry 101 was bad, come and see what is in Room 101 in the Ministry of Love. The HUB is a place where freedom is being able to say that $2.00 + $2.00 = $2.00 admission.

Thursday 9/18 at 5:15
Saturday 9/20 at 7:00 and 9:30
Admission still $2.00

Next Week's Great film is Cocoon

RHYNGG

The Bog will start rocking with this band. Eddy Clearwater will be forgotten after this. The Man on the Bench has even asked if he could get in free.

"This music you can definitely dance to," proclaimed Brett "Bloom" Bonthron.

Thursday 9/18 at 9:00.
Admission still $2.00

The Union Board is still taking applications for Special Projects Director.

The first in the Focus on the Arts series is September 24. Esprea will appear in the HUB.

ATS IS HOLDING ELECTIONS TUE. AND WED. 9/16 AND 9/17. SEE BULLETIN BOARD FOR FURTHER INFO.

The founding of PUHPS

by: Greg Emile

The founding meeting of the Pot-Bound Un-Blind and HousePlant Protection Society (PUHPS) was held on the campus of IIT last Thursday night, at S.R. Crown hall. Flora Reitz, the Society’s first president, explained that her group is "houseplants." In explaining the group’s purpose, Flora said we’re dedicated to ending all plant suffering, but especially the heartache of pot-bound houseplant suffering! Freedom to Ficus!!

The meeting, attended by Flora and her pet pterisnema, "Two Lips," along with a "huge number of like-minded, but more absent" supporters, was marked by stirring rhetoric. As the otherwise-quieted charter members cheered their silent support, Flora leveled a blistering attack on the "fascist enslavers" of the "Neglected Nine" (a reference to the nine houseplants which decorate the S.R. Crown hall entranceway).

"All these fascist design people do is make 'Less is More' and walk by the Enslaved Nine without as much as a "hi" or "how are you?" They certainly don’t have millions of dollars to give a damn. They have nothing but their empty sacks of soil."

The next meeting of PUHPS will be on Arbor Day next spring. In the meantime, Flora urges all those busy people who couldn’t come last night, and who probably will be busy next time ("People are just afraid about being committed") to write their congressional representative, and start a "grrreenshoots campaign" ("Irrite that cutie!"") for legislative action.

Lake Michigan can see soft twinkling lights of ships and islets, and the moonlight reflecting off placid waters. Traveling northbound on Lake Shore Drive, Lake Michigan, the lights from cars, buildings, and streets become weaker. You don’t lose because just as the sun goes down.

Chicago has the well-known reputation of the "Windy City." I enjoy tackling the wind like a foot ball player eager making his way through his opponents to score a touchdown.

After many visits to Chicago, I have finally gotten to see a fantastic skyscrapers and into the huge department stores and fashion shops. The Victorians in Chicago are like books in a library. There are so many different types to provide something for everyone. The Party in Wonderland, I have seen everything that I would ever need to look and feel good in fashion. The mannequins and models in the store windows seem to say "Buy me. Take me home."

I can see a variety of backgrounds in Chicagoans’ faces and eyes. Visiting Chicago is like going to Eastern Europe, England, Asia, Africa, and South America all in one day. The different costumes and customs are blended together to form Chicago’s fascinating cultural mixture.

I can feel the energy of Chicago. It comes from the people. Everybody moves with little languidness and, if I am not careful, I could wind up in the whirlwind of flurry.

Chicago is a wonderful place to be, and I feel like taking off my hat, tossing it up as far as I can, and twirling around and around forever.

Stanley continued from page 7

and the value of a HARD EARNED buck.

It was all gone now. Progress had stopped in and wiped the state clean. A new start with new characters, new faces and a new set of ideas had taken over.

This book took time from his old street and up to the front of the house where he was born and raised. He then patted the bottom part of his younger days growing wild and carefree. Standing there naked in a heart burning regret, letting his eyes eat up the old place, taking in the name that still sat etched in the concrete sidewalks.

STANLEY WERE HERE. STANLEY WOULD ALWAYS BE HERE.

It made him smile. A middle aged man came to the door and stared at Stanley for a long minute. He finally asked the boy if he could help him and Stanley smiled sheepishly and mumbled that he was only looking around.

The man in the sports car passed Stanley, and he started to walk to the bus stop. The bus came and took him.
Extracurricular students do better

(CPS) — Students who took part in a lot of extracurricular activities in high school make the best college students, a new study by the Educational Testing Service (ETS) asserts.

The study, prepared for ETS by research psychologist Warren Willingham and called "Success in College," tracked the college careers of the Class of 1983 at nine college campuses.

Willingham found that, while high school class rank and Scholastic Aptitude Test (SAT) scores are still the best measures of students' academic potential, extracurricular activities are the next best indicators for all-around college success.

But it is students who dedicate themselves to one or two activities — not those who may daily in a smattering of activities — who go on to do the best in college, Willingham found.

In essence, the study reveals to students "work hard, do well academically and, if you want an edge, pick one or two extracurricular activity and do them well," says David Perham, dean of admissions at Colgate and head of the committee for nine colleges that participated in the study.

Although the study focused on extracurricular activities, its findings "don’t take away from the importance of class rank and SAT score in evaluating students' potential,"Perham maintains.

"Class rank and SAT scores will always be number one in importance to admissions officers,"Perham says, "but this study suggests admissions counselors give a serious look to extracurricular activities."

While Perham says Colgate always has stressed the importance of such activities, the study’s findings have prompted him to "pay a lot more attention to the stick-to-it-iveness kid rather than the spread-yourself-thin kid."

In announcing the study’s findings earlier this month, College Board President Harford said the results "put to rest some longstanding myths about the admissions process."

For example, work experience, attendance at a private secondary school, and the subject of the applicant’s essay actually indicate little about a student’s potential, Willingham found.

In particular, the study minimized the importance of the college interview as a "tool that says anything about future success," Perham adds.

"It’s our experience that the interview is really an exchange of information, and not something that holds the key to the student’s potential," Perham says. Other study participants concurred.

In addition to Colgate, Bucknell, Ohio Wesleyan, Occidental, Williams, Kenyon, Kalamazoo, Hartwick and the University of Richmond joined the study.

To qualify for the project, schools had to have a 1983 class of 500 or more and used the common application form.

Women

continued from page 11

"Girls are socialized to be more 'feminine' and micromanage and politi," Secor explains. "Girls are socialized to be not as realistic about their potential."

Women scored higher in Murray’s classes than men and had a higher degree of confidence, he says, "is much wider in upperclassmen."

The study shows that middle school girls do not disagree with many of Murray’s findings, Secor adds, "The real difference is felt in college when both get out in the real work world."

Women do better in school, grade-wise than men, and then don’t do as well in the real world," he contends. "Men will achieve more there."

When he started, Murray hoped to find the characteristics that separated women who did well in college from those who didn’t.

"My original focus was to make only incidental reference to sex differences," Murray says, "but it began to appear that this was the most significant finding. There is a sex difference on almost every variable."

For example, the study shows the sons of working mothers scored lower than boys whose mothers didn’t work outside the home.

But women with working mothers scored higher on Murray’s tests than women whose mothers stayed home. Secor believes women emulate working mothers and learn that "It’s okay to succeed if you work."

Murray’s tests also indicate middle-income families produce high-scoring children, be they male or female. Yet male students from lower-income families achieved the lowest scores of all.

"Well, they have it made in the shade," Secor says, laughing. "If you were single, white, rich, and gorgeous, would you work?"

Among other findings:

"Off-campus women do better academically than those who live in dorms or at home."

But male living in dorms do better academically than males who live off campus.

Male students who don’t have jobs do better in school than men who work part-time.

Involvement

continued from page 4

University Relations and Leadership Cadet committees. We appoint the representatives from IIT to two statewide committees. We investigate any matters brought to our attention. We are here to work together to serve students in any way possible.

Of course, nothing can be done without students to do it. Don’t put it off; don’t wait until next semester. Call ATS at x3074 or stop by the Programming Office. If you have any questions about any of the committees or would like to be a committee chairman, contact Cathy Pau or any other Executive Board member.

Opportunity is knocking; the door has been opened. Will you step through?
Topper optimistic

CHICAGO — September 11, 1986 — Coach Bob Topper is very optimistic about the 1986-87 Scarlet Hawk Basketball Team. "We will be quicker than any recent Illinois Institute of Technology (IIT) basketball team," says Coach Topper about his current squad.

The Hawks will be a very young team, with center Jim Lenkas the only senior. Topper welcomes the return of the 1986-87 Most Valuable Players Ryan Kirkland and Al Feeney to the Conference selection in his freshman season. Junior John Matheny and Tom Roszak will be providing leadership as co-captains. Other important players are sophomores Mike Klaas and Jim Janacek.

Newcomers to the Hawk roster include Charles Warnell, Mark Jenner, and John Lorenc. Warnell was the second leading scorer for the Rich Central High School team that finished in second place in the 1986-87 season. Jenner, a transfer from Michigan Tech, led the Chicago Catholic League in scoring as a senior at St. Laurence High School. Lorenc is a freshman center from St. Joseph High School.

"Our competitiveness will be based on our quickness," says Coach Topper, "our goals include a winning season and a bid to the NAIA District 20 Tournament."

IIT sponsors men's and women's varsity sports and competes in the Chicago Collegiate Conference and the National Association of Intercollegiate Athletics. A private university of over 8,900 students, IIT is dedicated to the education of leaders in professional practice through programs that emphasize advanced technology.

Swimmers seek diver

The varsity swimming team does not start its practice season until October 1st, but Coach Dennis Matych wishes he had more time before the season starts because he's still looking for a diver. "We have an outstanding team this year, without the exception of a second senior. Doug Lovato has been an excellent choice." Matych says.

But, without a second diver, "we will still be able to get ahead in our diving, coach in the spring." The diving events, as compared to a second diver," said Matych.

This will be crucial against teams with strong swimming but weak diving such as Loyola University, North Central College, and Millikin University.

Women's tennis

The women's tennis team has two away matches this week. The first is against Aurora College on September 26th at 3:00 P.M. and the second on September 27th is against North Central College at 3:00 P.M.

This year's team has a total of nine athletes who will compete in both singles and doubles matches. Team captain and a junior, Kristyn Lyon, is already in a doubles position for the Hawks in both singles and doubles play.

Sophomore Shane Dougherty is the #2 position for singles and teams with Kristyn Lyon for the #1 doubles spot. Gina Fantecchi (Freshman) is #3 in singles and #2 in doubles.

LOUDONVILLE, NY (CPS) — Women get higher grades than men, but probably do better in college because they mature faster, says a study by a sociology professor at St. Joseph's University in upstate New York.

"Women students consistently did better at college than did the men students," says Professor Paul Murray. "During their four years at school, women seem to improve their study habits. The men don't."

"This says that sometimes the academic end of college becomes a secondary priority," Murray says, "in trying to figure out why some students get the grade they do, and others examined students' academic and family backgrounds, living arrangements, extracurricular activities and study habits.

Women do better in college

before noticing that gender seemed to influence their grades most of all.

No one is sure why college get better grades than men, but Dr. Cynthia Schoen, director of Higher Education Resources Mid America, hypothesizes they may have something to do with the way people become socialized.

Volleyball

continued from page 12

Lori Manno won both games by 16-4 scores. Megan Reagan continued to spike well from her outside hitter position as she did Kim Whalen. Megan finished with 10 kills. Kim with 7.

The powerful attack of the Hawks continued against Purdue-Calumet. It was after the middle hitters' turn to lead in kills as Joan Benes posted 12.

Women's tennis

Gina's doubles partner, Pam Stewart is a freshman and holds the matches with Shirley Kwinn (Senior) and Adina Green (Freshman) are matched for the #3 spot to spot. Ryan and Adina are #4 and #5 respectively in singles play. Other members of this year's squad include Dorothy Iwakami (Senior), Rachel Thielman (Freshman) and Tereza Warner (Senior).

The next home match will take place on October 22nd at 3:00 P.M., as the Hawks will host the netters from Northwestern University.

The tennis courts are located next to the Commons Building. Students and fans of all ages are encouraged to attend and support their team.

Kim Murphy's setting leaders were Jennifer Gross, 16 assists, Janice Kuta, 14 assists. IIT was in control throughout the match, winning 15-6, 15-7, 15-11.

The Hawks travel to North Park Tuesday for a triangular meet and with North Park and Judson, starting at 7 P.M. The return to Keating Hall on Saturday, September 20th to defend their championship in the Scarlet Hawk Invitational, an eight team tournament starting at 9 A.M.

This is your captain, we'll be cruising this morning at 27,000 or 40,000 feet on our flight to Des Moines, Atlanta or Washhach, depending on whether our sale, merger, leveraged buyout or reorganization plan is approved. Thank you for flying on either first class or slipstream airlines.
Hawks win home opener

The IIT soccer team began its 1986 home season in spectacular fashion, defeating North Park College on Wednesday, September 10th by a score of 3-1. In the first half of this game, the Hawks were at a disadvantage due to a strong opposing wind. However, the Hawks were able to hold North Park scoreless until halftime. With the wind at their back, IIT came to life in the second half scoring three unanswered goals within a matter of ten minutes. Martin Brandt scored first for the Hawks, with a shot which found a home in the upper corner of the goal. The next two goals came off the foot of Juan Aparicio. The first of Juan’s goals came from a beautiful counter kick play set up by Ryuzi Matsumoto. Late in the game, North Park avoided the shutout, scoring on an indirect kick from 20 yards.

The Hawks played very well against a tough Judson College on Saturday, September 6th, but came up on the wrong end of a 3-2 final score. At the end of regulation time, IIT and Judson were deadlocked at two goals apiece. However, Judson was able to score in overtime and survive for the victory. Scoring for the Hawks were Martin Brandt and Ryuzi Matsumoto.

The next home game for IIT will take place on Saturday, September 20th at 2:00 P.M. when the Hawks will try to kick St. Francis College out of town. The game will be played on IIT’s new soccer field located next to the Stuart Building.

Volleyball team wins again

The IIT women’s volleyball team is off to a great start in their 1986 season. The Hawks opened their season with a win at Loyola University and then returned home to post victories over Valparaiso and Purdue-Calumet.

In the Loyola match, IIT gained an early lead of 8-4 in game one. The Ramblers came back to tie the game, but the Hawks pulled away to win 15-9. In game two, IIT held a big lead and held off a Loyola charge to win 15-12. Game three was all IIT, with a score of 15-5. Megan

WHAT FOOTBALL FANS LOVE TACKLING.

by: Pieter DeVaal

Interfraternity football started off another year last week. The favorites this year were the Pi Kappas, last year’s champions. The Sig Eta, Delta, and Alpha Epsilon Phi also were leading contenders for the title. Many of last year’s leading players returned.

The first day of football involved three cakewalks. The Aces, behind quarterback Doug Muller, smashed the TEPs 34-6. Triangle was overwhelmed by the Delta 36-0.

A new innovation was started Tuesday, the second day of games. Flag football replaced touch football in IFC sports. This was approved by a unanimous vote of the house sports chairman. A tougher measure was passed against those caught fighting - a two game suspension.

Pi Kappas Phi, behind quarterback Clint Smith, rolled past the Alpha Sigs 22-0. Showing once again that they are the front runners for the football title. In the other game, the Phi Kappas were matched against one of the front runners Sigma Phi Epsilon. The Phi Kappas put up a gallant fight, only to succumb to a "flag Mary" play in the final minute and lose 24-20.

These Xi knocked off the favored Aces 14-8 in overtime as quarterback Rich Tagland ran for the score with 3 seconds left. TX could surprise quite a few people this year. The Delta beat the Eta 24-14.

The standings after the first week of games are Delta Tau, Delta 3-0, Theta Xi 2-0, Pi Kappa Phi 1-0, Sigma Phi Epsilon 1-0, Alpha Epsilon Phi 1-0, Triangle 0-1, Alpha Sigma Phi 0-1, Pi Kappa Sigma 0-1, and Tau Epsilon Phi 0-2.

FOR GREAT TASTE, THERE’S ONLY ONE LITE BEER. MILLER LITE.

Friends don’t let friends drive drunk.
