Campus security

Some of the topics discussed Wednesday at the Campus Security Committee meeting were the campus minibus schedule, the incident report summary form, the incident report for August, and the student security force. Last semester, the committee met with the administration to revise the campus minibus schedule. This was prompted by complaints from students that the minibuses were leaving on the hour, which is the same time students on campus typically get out of class. The new schedule would allow time for students to get to the departure locations. However, the new schedule was not implemented because it was not included in the Transportation IIT calendar and guidebook. The new schedule was implemented early this week and is included in this issue of Technology News.

The format of the Campus Police incident report summary form was also brought up. Dohn Meihlenerbach, Director of Physical Resources, outlined how the form works and requested suggestions from the Committee on how to improve it. It was felt that the form was basically a statistical tool and that it doesn’t necessarily convey the information it could. He also presented the incident report for the month of August 1986. There was a 17% decline in incidents compared with the same month last year. This is attributed to the increase in staff of Campus Police officers and better coverage of the area by the Chicago Police Department.

The prospect of a student security force was also discussed. Last semester, a proposal for beginning a student security force was presented. This would be in effect at the University of Illinois at Chicago and an IIT student would be part of it. IIT plans to discuss it in their meetings.

Finally, it was stressed by members of the Committee that the best prevention for avoiding most incidents is strictly common sense. Leaving book bags and backpacks unattended only invites theft and the fraternities are reminded to be sure their houses are adequately locked up at night.

Appointments made

Two major appointments have been made to the School of Advanced Studies. Dr. Donald K. Jasper of the Biology Department was appointed to the position of Associate Dean of Graduate Studies. Also, Mamie Oberton became the new manager of graduate admissions.

The former associate dean, Dr. Harold W. Breitz of the Biology Department, voluntarily retired after many years of service. Dr. Jasper, in his new position of Associate Dean, will now be administering the school’s regulations. From the time graduate students matriculate until graduation, Dr. Jasper will handle their records. Also, the program of study a graduate student proposes must be approved by Dr. Jasper.

Other new appointee, Mamie Oberton, came from continued on page 2.

Power fails on campus

Many dormitory residents were in for a rude awakening this past Friday. That’s because many of them were late to their morning classes due to a power failure that affected nearly two-thirds of IIT’s campus.

The failure occurred very early Friday morning and knocked out power to the Commons, Keating Hall, the dormitories, and several other buildings. Workmen said the failure was caused by a short circuit in some underground high voltage cables located near the dormitories building.

Aid from housing department

The IIT Student Housing Office in cooperation with the Department of Finance and Financial Aid, began a program this semester to award $1500 aid packages to students in an effort to increase on-campus student numbers. Consideration for such awards is strictly on a “needs” basis, as established by Financial Aid.

The awards are only to cover room and board, and not board. Dr. Stueben, of the Finance Department, said IIT is faced with the dilemma of falling numbers on-campus students. “We feel this program is a way to expand a students’ aid package while attracting more to campus housing.”

Awards aren’t only for the dorm student, but also for those who seek fraternity life. A student who is awarded the $1500 in aid has the choice of applying it towards the dorm or the frat.

So far, 23 students have accepted the awards with 12 now in the dorms and 11 in the fraternities,” Stueben claimed. He stated that any increase of on-campus numbers will only make IIT a more attractive place to attend.
We knew you'd be back.

We knew you couldn't stay away.

That you spent all summer thinking about organic chemistry and Kafka.

That's why we stocked up with a full selection of all members of the Apple Macintosh personal computer family.

Because whatever you're going to be doing in school this year, there's a Macintosh that can help you do it better.

From the enhanced Macintosh 120 to the Macintosh Plus, students everywhere have learned that working smarter and doing better in school can be an easy as pointing and clicking.

And one of our people will be happy to show you the Macintosh system that's best suited to your needs and budget.

So welcome back. It's been a long, lonely summer.
Entrepeneurs

Tech Entrepreneurs will meet this Thursday at 12:15 in the Student Organization Office located on the Westside of the HUB. All are invited to attend.

Rock Notes

Get your daily dose of Rock Notes on WOWI, 88.9 FM, every Monday through Friday at 11:30, 12:15, and 10:15. Also, coming soon the WOWI "World's Smallest Bumpersticker". WOWI is IIT radio.

S.W.E Meeting

The Society of Women Engineers will be having their second general meeting on Wednesday, September 24. It will be held in room 116 E from 7:15 p.m. The speaker will be Tariq Nasir of IIT ECE Department. Please come out to learn about success and mock interviews will be available. Refreshments will also be served. Everyone is invited!

Alternate Realities

Alternate Realities, IIT's one and only official gaming club, will be having yet another meeting at approximately 12:00 pm (yest 12:03) on Wednesday, September 24. All are highly encouraged to attend, including anyone interested in playing the game "Kingmaker" (a medieval politics-military simulation).

How to Read

"How to Read a Textbook" Workshops will be held on Friday, 17 11-1-00 in the U.I.B. Mezzanine.

Interview Sign-ups

Sign-ups for the week of September 22-26 begin at 3:45 pm in Farr Hall, Placement Library, Room 408 as follows:

Monday, September 21, 12:00-1:00 p.m. Electronic Coatings, IIT Electronics, Division of Zenith Electronics; Factory Mutual Engineering; Navy Engineering; US Air Force.

Wednesday, September 23, 12:00-1:30 p.m. General Dynamics; R.R. Donnelly & Sons, AEC, Inc.; General Electric Company; Rockwell International.

Consult your by-major list for individual company requests.

Innovation Exhibit

IIT students, faculty, and staff are invited to an exhibition of the 100 most significant new products of the past year as selected by R&D Magazine. The exhibit will open on Tuesday, September 23, 12:30 p.m. in room 125 E. Soft drinks and snacks will be served. Current students will receive a free ticket but remember, no ticket, no entry. For those interested in potential jobs, potential employers please come to find out more about our society. There will also be discussion of plans for the semester.

ACS/Students

All Chemistry majors, Chemical engineers, and any undergraduates interested in ACS are invited to attend the first all-IIT meeting of the American Chemical Society/Student Affiliate Chapter on Thursday, September 25, at 1 p.m. in 305 Winnick. Important issues will be discussed including nomination of officers, tricyclic race, and ACS plans. If you are unable to attend but are interested in joining ACS, contact Gerry Kral at 305 Winnick (x3401) or leave a note in her mailbox on the 2nd floor of Winnick. We’re looking forward to seeing you there!

Reserve Your Table

The programming in Herrmann Hall has meeting tables and desk space available to student organizations. The meeting chairs must be present while the room is reserved. To reserve a room please call 305 Winnick (x3401). Table numbers in the HUB are reserved (check with the Director’s Office first). The table may be reserved in advance by calling the Programming Office at 305 Winnick (x3401) to reserve a table available for your meeting. Outside the office door is a calendar of activities of interest to the students. Organizations whose events do not appear in Thriving should call the event form available in the Programming Office, as early as possible.

Finally, a bulletin board for announcements of on and off campus events is located just inside the office door. Students are encouraged to post their flyers and any off campus news they may have on the boards. Please use these boards and refrain from posting flyers outside the board next to the activities calendar, as the office needs this space.

If you have any questions about Programming Office Service, please call 3887 between 11 a.m. and 5 p.m. (pt) on Tuesday and Wednesday. Watch these announcements for info on new services as they become available.

So, like, when does the paper come out?

TECHNOLOGY CLASSIFIEDS

Wanted students interested in selling vacation trip packages for 1990 "Spring Break Travel" to Florinda Beach and Ft. Lauderdale, Florida and South Florida, Texas. Guanabana great trips, good company, and a chance to earn money. For more information call "The Run Stop Tour" at (312) 890-2500. Previous experience plus. Student Affairs, Friederichs welcome to participate.

$900 PER HUNDRED PAID FOR returning letters from Mexico! Send self-addressed, stamped envelope for information. Cyndi and Fred, Box 206-A, Rockford, IL 61104.

ARE YOU STRUGGLING WITH BULIMIA? THERE IS HELP.

The Eating Disorders Research and Treatment Program of IIT Health Services is offering a ten week group treatment program beginning in October. For more information, call us at 791-3866. Because we want to talk to someone who knows what you are going through.

NOTETAKER: Take class notes for handicapped student for Fall 1989 course. Pay is $25.00 per week. Meet Wednesdays, 6:20 – 9:10 p.m. $3.50/hr. Contact Terry Shapiro, 607-5903.
Hoffa found!!

by: Greg Emil

( AFP) Chicago, Ill. Sculptor George Segal murdered Jimmy Hoffa, for the Mafia, and then staged Hoffa's body in a publicly-displayed work of sculpture, court records and police sources said today. The body of Hoffa was found at a press conference here today. Segal, known for his life-size portraits of common people in everyday situations, said to have drugged Hoffa with a "narcotics compound" that turns living beings into solid stone, Uwahat claimed. Segal then worked with the basic sitting position Hoffa was in to fashion the famous "Man on a Horse" sculpture which is located at the campus of the Illinois Institute of Technology (IIT) in Chicago.

This startling revelation about the Detroit Teamster official, long believed to have been killed by the mafia, came about after the mystic Uwahat insisted he was "contacted" by the spirit of the gruesomely murdered Hoffa. Uwahat uncovered the "conclusive" evidence during a visit to IIT last Thursday night when he was scheduled to deliver his current lecture entitled "Nobody Dies, So Don't Bury Them". When attendance to that lecture was "wiped out" by what Uwahat termed a "tortured spirit", he went outside the campus student center to the moonlit courtyard to further investigate the spirit. There, says Uwahat, the white sculpture's "ghost-like appearance snapped my head straight up", and an "empty forlorn cry came over the afterlife airwaves". Uwahat then went to the sculpture, ascended over the course of the next several hours, Hoffa told this story to the mystic.

It turns out that George Segal with formerly a research chemist with Niegewosam Chemicals, where he stumbled upon the terrible compound while researchizing air spray. One night, he was working alone when the lab mascot, an orphaned kitten adopted by the chemists, knocked over a beaker and began lapping up the contents. When the cat immediately turned to stone, Segal knew he had discovered a horror concept.

Shattered by the implications of his secret, Segal left chemist with Niegewosam Chemicals, where he stumbled upon the terrible compound while researchizing air spray. One night, he was working alone when the lab mascot, an orphaned kitten adopted by the chemists, knocked over a beaker and began lapping up the contents. When the cat immediately turned to stone, Segal knew he had discovered a horror concept.

When the cat immediately turned to stone, Segal collapsed in recognition of the horror he had committed. Just then, the bill collector's backup, a Mafia thug who is now a leading figure in the underworld, entered the apartment, and

Your basic problem:

Physics
Genetics
Statistics
Calculus
Complex Numbers
Analytical Geometry
Stress Analysis
Organic Chemistry
Probability
Gaussian Transformations
Differential Equations
Titration
Electromagnetics
Thermodynamics
Fluid Mechanics
Etc., etc., etc....

Your basic solution:

Now there's a programmable scientific calculator that solves even the most complex math, engineering and science problems in a BASIC way - the TI-74 BASIC.

Unlike most other programmable calculators that require you to learn a new, complicated system of keystroke commands - in effect, a new programming language - the TI-74 BASIC allows you to use the BASIC language programming you already know. But don't let the BASIC's ease of operation fool you. It also has more calculating power than comparably-priced programmables. And a variety of options, like software cartridges, are available that make it even more powerful and convenient.

Your basic campus demonstration:

Texas Instruments will be conducting a free hands-on demonstration of the new TI-74 BASIC.

Check with IIT Bookstore for dates and times.
Basketball
There will be a team meeting for all returnees, recruits, and anyone interested in trying-out for the Varsity Basketball Team on Oct. 9 at 1:00 p.m. in Keating Hall. Practice begins on Oct. 13, Monday, 4 p.m.

Theater
A theater production entitled "Cloud Gate," a Tai Pei contemporary dance theater, is scheduled for Sunday, September 28, 1986 at 7:30 p.m. at the Center East Theater. The theater is located at 7701 Lincoln Avenue inokie. You can contact Sandy Stith at 673-6300 for more information.

The Pit
The newest addition to IIT's ASCE BBQ pit. Construction will begin shortly. All interested students stop by the ASCE office in 108 Alumni Memorial.

CE Tutoring
Chi Epsilon will be sponsoring a free tutoring service for students that need help in CE. Tutoring will be from 12:30 till 2:00 in the CE Department Library in the Alumni Memorial Building.

Culture
ESPREE - A flute and harp duo. Come out and enjoy an hour of relaxing entertainment. Wednesday, September 28, 1986 in the HUB Gallery Lounge from 12 noon-1 p.m. Feel the force of ESPREE. Next month: Bob Gammer - Magician.

NSBE Siblings!
Have you met your NSBE Big Brother or Sister yet? If not you may be matched with a sibling at NSBE's Thursday 1:00 meeting. September 29th in room 113 Stuart Building. Our first NSBE' family activity will be the bowling party at Keating Hall Friday night. September 29th at 6:00 p.m. Our monthly meeting will be followed by a Pizza Outing. Don't miss out on the fun. We look forward to seeing you Thursday afternoon and Friday night.

Time To Study
The National Society of Black Engineers and The Men of Alpha Phi Alpha, Inc. are co-sponsoring a Study Marathon every Wednesday night in Hermann Hall. Check the HUB's daily activities listing for the room assignment that week. Our Study Marathon is from 6:00 p.m. to Midnight. Help is available in a variety of subjects including Chemistry, Calculus, and Computer Science. Join our Society Members in the HUB on Wednesday nights. NSBE, find out about us!

**Wanted**
Creative people needed for the Union of Concerned Black Students committee (Cultural Affairs, Public Relations, Social Activities, and Alumni Relations). You would help to organize social and career oriented activities. For further information call s5854 and leave a message for Kim Burman or Kevin Smith. This week our Membership Drive (co-sponsored with NSBE) is still going on. But there isn't anything wrong with a little extra strength, membership strength! Join the Union and become an active member! Information is available upon request. The membership drive is still active this week so stop by the Prep Office this week and sign up! Our next General Meeting is next Thursday in the HUB at 12 noon.

S-PAC Tickets
Tickets will be on sale for the Student-Professional Awareness Conference Monday through Friday, (Sept. 22-26) in the HUB Cafeteria and the Commons from 11:45-1 p.m. and in the Residence Halls Cafeteria from 11:45-1 p.m. and 5-6 p.m.

New Campus Minibus Schedule

Proper Dress
On Tuesday, September 30, 1986 Baskin's, a Heli, Schaffner & Marx company, will be an campus from Noon to 2 p.m. presenting a film and lecture on proper dress for the Interview and developing a wardrobe for the working career professional. The workshop is geared primarily to the male but most of the information is applicable to the female new professional. Last year, Baskin's distributed to the audience a discount coupon which was good toward the purchase of a suit. The program will be in the mazzanine of Hermann Hall and is being presented by the Society of Women Engineers. For more information call the DOS office at 3080. This is an event that no one (especially seniors) should miss.

Announcements
September 22, 1986

Electro-Technology News
The Association of Tech Students wishes to announce the winners of Tuesday's and Wednesday's election for secretary of ATS. Marsha Williams is the winner and will assume the office of Secretary. Other ballots were cast for Ray Duda, Cliff Yahnke, Rod Salazar, Crystal Gary and Mark Sattas. ATS wishes to thank all those who took the time to vote.

Drama
continued from page 4
advance to full length three-act production.

Students with serious acting aspirations have many avenues of opportunities in park productions, said Rebbinding, a veteran park drama instructor with 24 years of experience.

There are at least two dozen theater groups performing on a regular basis throughout the year. Each group performs all fall and winter seasons. And we also have Theater on the Lake productions each summer.

For more information, call the Park District Public Information Office at 384-2493.

Housing
continued from page 1
school to potential students.

One of our program's goals is to attract more "Non-Chicago" based students to check out the facilities of IIT. "We will have to wait and see whether or not our program is a success or not," Mr. Stuben said.

Design
continued from page 1
four schools was so poor that many options were dropped. It was felt that the remaining work was not up to the quality of the four winners.

Next year the competition will be limited to the four winners from the past, four years being allowed to participate.

Appointments
continued from page 1
appointments to the graduate department. The graduate department has about 2,000 students in its four colleges. Currently, the School of Advanced Studies has no plans to make any major revisions in its policies and regulations.

The Graduate Board, of which the chair is Dean Higgins, meets from time to time to discuss any possible revisions.

Dear Lazy Students,
Due to the lack of entries for the past contest, everyone whose form I received will be winners. A partial list is at the bottom of this page. The winners should stop by the Union Board meeting Tuesday at 12:15 pm to pick up their free pass. If not, contact a Union Board member to get your pass. To all the rest of you spineless bowls of jello out there, tough luck. All you had to do was enter, and you can’t win if you don’t enter. There will be other contests, but these might not be as easy to win.

Don O’Connor

Safari

They were chosen the best new band in 1984-85, Safari was also on TV series “Lady Blue”. I suggest that you do see this band. For those of you who like Reggae you’ll love watching Safari. For the few of you out there that don’t like reggae, you’ll love watching the people that do. It is a great time to meet people and have a great time. John Stevens told me, “I wouldn’t miss this Reggae concert for all the tea in China, Don!”

Thursday, September 25 at 9:00
Admission is a mere $2.00.

Cocoon

It is a basic story about some aliens that come to Earth with the secret of life. No, Dick Clark is not in this movie. It deals with problems of aging, which Dick Clark doesn’t worry about. It is directed by everyone’s favorite, Richie Cunningham, so you know it has to be good. Kathy Gallagher, who saw the movie before, said, “With all the old people and people from outer space, it is kinda like ‘E.T. on Golden Pond’.”

Thursday, September 25 at 5:15 pm
Saturday, September 27 at 7:00 and 9:30 pm
Admission is a mere $2.00

Next Week at IIT
Movie: P/F
Band: Studebaker John and the Hawks
Same bat time, same bat channel.

Contest Entries/Winners
Michael J. Mazur
Geoffrey S. Elazar

Remember, you can’t win if you don’t enter.

P.S. For those of you who either weren’t at the Bog or were there, but were too wasted to notice, the Man on the Bench was there. Since he is so shy he sat in the corner behind the ROTO’s and didn’t made much noise.
Sailing places fifth in first regatta

by Enrique Fabregas

What would you do if you were a sailor and your boat was capsized? Would you give up and go home or would you try to save your boat? The answer to this question is evident in the story of Lou Holtz, second-year team member of the Fighting Irish, who was caught in a storm on the first day of the regatta. According to Holtz, the wind was so strong that it was impossible to control the boat. Despite this, Holtz managed to save the boat and return to the harbor. This story highlights the determination and persistence of the Fighting Irish team, which is evident in their performance throughout the regatta.

IF YOUR BOOKSTORE DOESN'T CARRY SHARP CALCULATORS, CALL AND COMPLAIN.

Sharp calculators are designed to be first in their class. Our EL-533 financial calculator, for example, has twenty memories associated to just five for the competition. So it lets you do complex calculations like discounted cash flow analysis. If you like lab coats on pinstripes, there’s our EL-506A scientific calculator. With its 10-digit display and direct formula entry, it makes the most difficult calculations easy as pie. And because it’s sleek, slim and lightweight, it’s never out of hand thanks to its always-standby feature. The fact is, Sharp makes all kinds of ingenious little calculators that can help get you through college. And help you pay for it. Because unlike college... they're surprisingly affordable.

Soccer

continued from page 8... exciting and high-scoring game. Our team played hard and we should have won. Unfortunately, we lost 2-1, the second defeat from the jaws of victory. The Hawks next home game is on Wednesday, September 26th at 4:00 pm when they will face Chicago State University at 8:30. The soccer field is located next to the University of Chicago. With the addition of the new field, the Clearview field is a temporary field. The city is also planning to build a new field next to the Clearview field. The soccer field will be used for the 2017-2018 season.

Park district sponsors woodworking

The Chicago Park District invites everyone to participate in woodworking at one of its craft centers throughout the city.

The district's centers are equipped with machinery and tools for creating jewelry. The centers are open to the public on the evenings and weekends. The district is also planning to build a new field next to the Clearview field. The soccer field will be used for the 2017-2018 season.

Yoga classes

Registration is open for Yoga classes at Chicago Park District locations throughout the city. The fee is $10 for two classes per week for 16 weeks.

For more information regarding dates and times, contact your local park.
Women's volleyball 5-0

The IT Women's Volleyball team improved its record to 5 wins and 3 losses this week with wins against Judson College and North Park College. In the Judson match, the Hawks started slowly, allowing Judson to stay even throughout the game. At 14-14, IIT scored two quick points to finish the game. Game two was much easier for the Hawks, as they won by a 15-4 score, with Diane Bannor serving the last 4 points. Kim Murphy had 3 solo blocks, and Joann Bene was the leader in spiking kills with 7.

The Hawks completely dominated North Park, building leads of 10-0 in each game. The final scores were 15-3, 15-7. Jennifer Glikk contributed 6 assists in game 1 and Janice Kuta was the kill leader with 8.

Although we had some difficulty concentrating against Judson, I feel that we have had a great start,” said Coach Chris Meyer. “We will need to maintain our intensity because we have some important matches coming up.”

The Hawks will play their first conference match Tuesday at 7:30 against National College of Education. The match will be held at Evanston High School Beardsey Gym. On Friday and Saturday September 29 and 30, IIT will compete in the Purdue-Calumet Invitational, which will feature some of the top NAIA teams from Illinois, Indiana, and Wisconsin.

Hawks lose in overtime

A paltry two minutes, a mere 120 ticks of the clock, separated the IIT soccer team from the extreme of a 5-4 victory and a 7-5 defeat. The Hawks fought off Moody Bible Institute and its home crowd for eighty-eight minutes of the match and were leading 5-4 when disaster struck. Moody Bible Institute, aided by forces above and beyond their 11 man team, was granted a very controversial penalty kick which was converted and brought the game to a 5-5 standstill. With no winner declared at the end of the ninety minute regulation period, overtime ensued.

Scoring the equalizer in the last couple minutes of the overtime, M.B.I. the momentum necessary to score two goals in overtime and past a 7-5 victory over the Hawks. Scoring for IIT in the game were Ryujil Matsumoto with 2 goals, Martin Brandt with a pair and Juan Aparicio with one more. Rich Fay, the coach of the soccer team, stated after the game: “Both teams played well in this overtime.”

IFC football season continues

by Peter DeVal

The past week in IFC football saw some new developments and place changes. There are a few surprising teams and some disappointing teams.

The Alpha Sigs pulled off the first major upset of the year as they beat the Sig Eps 12-8. The Alpha Sigs utilized a strong running game to help pull off this upset. The Alpha Sigs are turning into a major contender this year.

Pi Kappa Phi continued their march toward repeating as they thrashed Triangle 27-0. They are continuing to roll without Clinton Smith, their quarterback, whom I erroneously reported as playing last week.

Sigma Phi Epsilon, although upset by the Alpha Sigs, still is very much in the race. The Big Eps beat Tau Epsilon Phi and the Apes.

The Apes are one of the disappointing teams this year after finishing third last year and being one of the favorites in the early season. They are 1-3 with defeats to the Sig Eps, Phi Kappas, and Theta XI.

Triangle and the Taus are in rebuilding years but they are giving tight competition and putting up a good fight.

The Delta Phi and Theta XI are playing excellent football. They are surprising some people and playing good, consistent football.

The new fighting rule seems to have settled down the episodes of violence. The new flags seem to have evened the teams on the grid.

At the end of the week, the standings are: Delta Tau Delta, 2-0; Phi Kappa Phi, 2-0; Alpha Sigma Phi, 3-1; Sigma Phi Epsilon, 3-1; Phi Kappa Sigma, 2-1; Theta Xi, 1-1; Alpha Epsilon Pi, 1-3; Triangle, 0-3; and Tau Epsilon Phi, 0-4.
