Development dinner held
by Robert Heaton

Last Thursday night in Heilman hall was held a special dinner to honor the ten-year, one-hundred million dollar development program for IIT. This program was launched on May 6, 1978 by the IIT Board of Trustees. The one-hundred million dollar goal was achieved a year-and-a-half ahead of schedule.

The eight-program development program began. 101.3 million dollars have been raised. This money program enabled IIT to expand and improve the academic and physical resources of the university. A few examples include the construction of the Princeton Labs, Medical Science building, the renovation of the Paul V. Galvin Library, and the establishment of the Graduate College.

Attending the dinner were key donors and volunteers, trustees, and faculty members of IIT. Some very noteworthy donors are the Pulitzer family who donated five million dollars.

7-11 robbery foiled
by George Jawny

On Friday, January 16th an attempted robbery of the 7-11 in the Commons was thwarted by the Campus Police. The suspect, an 18-year-old male entered the store, went to the store room, and took a case of Cola. The police attempted to enter through the front door.

While the suspect was talking, however, the clerk had locked the front door. The suspect threatened to "get" the clerk if she did not open the doors and began throwing bottles of the wine cooler at the glass doors, breaking the east door. The suspect then went back to the store room and exited through the store room door. It was later found that he was living in a house that was rent to 7-11.

Program contest

Want to win some cash?Eta Kappa Nu, the electrical engineering honor society, will again be hosting a semi-annual computer contest on Saturday, February 21 in Stuart Building. The contest will be open to anyone at IIT, except for faculty and judging members of Eta Kappa Nu. Registration for the contest will begin during the first week of February in the Computer Science and Electrical/Computer Engineering Department. Cash prizes will be awarded for the top programs.

The contest will be run similar to last semester's computer contest. Successful event. The two major changes are: 1) there will be two divisions of competition; Division I is for students who have completed CS courses at or above the level of CS200; Division II is for students who have not completed CS200 or any of the higher level CS courses. 2) Teams must consist of 3 or 4 people. If you are unable to find partners, you will be sign-up sheets on the bulletin boards in the IEEE-CHI lounge. A complete list of contest rules is available with the registration materials.

The cost of registration is $5 per team.

The purpose of the contest continued on page 3.
HELP WANTED

"School newspaper (Technology News) seeks fun-loving, well-motivated students looking for a good time and (relatively) easy money. Interest in newspaper production desirable. Willingness to have a good time and earn extra money a plus. Previous experience helpful but not required. On the job training provided. Excellent opportunity for advancement. For information call ext. 3085 any Friday afternoon after 3:00 pm."

Technology News is currently seeking a production person to do to paste-up and layout work on Saturday afternoons. The position is salaried. If you are interested please contact Bob at 567-3085 or leave a message.

SERPENT GIRL II

SOMETHING IN THE SOUTHWEST...

DON'T TELL THE TOP ALREADY!

YOU ONLY LIE HERE!

AND YOU'RE?

CRASH! CRASH CRASH CRASH

CRASH CRASH CRASH CRASH CRASH

OH, I'M SORRY! OPPORTUNITY HAD RIVAL CHASE AT THE LAST HINT!

ANYWAYS, I SUPPOSE YOU COULD USE SOME DINNER. COULD I KEEP HOLDING OFF UNTIL YOU GET HERE

Announcements

Amoco Interns
Amoco Corporation is sponsoring a Summer Internship for minority and female students who will complete their junior year this year and be classified as a Senior in the Fall 1987 semester. Criteria for selection are:
1. Applicant must be a full-time undergraduate minority or female student.
2. 75% or better in College.
3. Computer Science, Electrical Engineer, M.S. or Business Management (computer science orientation) major.
4. U.S. citizenship or permanent resident status.
5. No other corporate financial aid to be received.
6. Interested students must do the following:
   - Sign up for the interview beginning Friday, Jan. 30, in the Placement Office at 3:30 PM.
   - Attend Amoco Corporation's presentation on Tuesday, Feb. 10 at 5:00 PM in Hermann Hall, Mezzanine level.
   - Complete Amoco Corporation application for employment.
   - Interviews will be held on February 13 in the Placement Office in Hermann Hall.

For further information, please call Debbie Ryan in the Placement Office at 567-3677.

Minority Scholars
Amoco Corporation is sponsoring a minority scholarship and will be recruiting in the Placement Office on February 16.

Two minority scholarships, per year, will be established. Each scholarship will cover tuition, books, living expenses (school year) and related internship expenses on an equal basis with an estimated annual fee, per student, of approximately $15,000. Actual scholarship money will vary depending upon tuition, books, living expenses, and additional internship-related expenses.

In order to be eligible for the minority scholarship, you must:
1. Be a full-time undergraduate minority student.
2. Be a Computer Science or Electrical Engineering major.
3. Have final classification of sophomore or junior.
4. Have a GPA of 3.5.
5. Have leadership abilities.
6. Have no other corporate financial aid to be received.

Interested students must complete:
1. Amoco Corporation Information for Minority Scholarship Program Application
2. One essay addressing:
   a. professional career objectives
   b. leadership achievements
   c. why college will assist you in achieving your career goals.

Sign up for interviews will be on Monday, Feb. 2 at 3:30 PM.

Call Debbie Ryan in the Placement Office for further information at 567-3677.

GM Internships
General Motors is hosting an information session TODAY, Monday, Jan. 26 in Hermann Hall, Mezzanine, for all students interested in thegm internships and majoring in Computer Science, Math or MIS. They are interested in students who will be graduating 12-88, 5-89 or 12-90.

GM is recruiting in the Placement Office on Tuesday, February 10. Students interested in interviewing must be registered with the Placement Office.

A.I.A. Meets
Attention all American Institute of Aeronautics and Astronauts members and officers (and anyone interested). We will be having our first meeting of the spring semester on Thursday, Jan. 29 at 11a.m. in Room 111. We will be updating our United Airlines Tour as well as planning our design project entry. Everyone is invited to attend.

Yearbook
Come new, come old. There will be a yearbook meeting on Tuesday, Jan. 27 at 12 noon. New members welcome.

Pi Tau Sigma
Pi Tau Sigma will be holding a general meeting on Thursday, Jan. 29 at 12 noon in room 123 E1. New members will be able to pick up their yearbook this week. The meeting will be held on semester plans discussed. All members are urged to attend.

Workshops
Seniors who will be interviewing on campus in the Placement office during the Spring Semester are expected to attend one interview workshop held in Hermann Hall, Mezzanine level on the following days.

Monday, January 26, 2:15-3:15.
Tuesday, January 27, 12:30-1:30.
Wednesday, January 28, 2:15-3:15.
Thursday, January 29, 12:30-1:30.
IIT professors win NSF award

Dr. Dimitri Gidaspow, professor of chemical engineering and Dr. Darsh Wasan, professor and chairman of the Chemical Engineering Department at IIT have been honored with a Special Creativity Award from the National Science Foundation. They have been cited for their research in the area of electrokinetic phenomena with applications to fine particle separations from non-aqueous media. Professors Gidaspow and Wasan are the first faculty members to be honored with the award. The award carries with it a prize of $120,000.

The university presented them with its highest medal for their research work on Interfacial Science and Engineering and his collaborative effort with researchers in the physical chemistry department at the University of Sofia. The work was conducted under the auspices of the U.S.-Bulgaria Science and Technology Cooperative International Program. His work has also been cited by the National Science Foundation in its annual report to President Reagan and the U.S. Congress.

IIT receives $500,000 grant

The Grainger Foundation has announced a $500,000 grant to Illinois Institute of Technology (IIT). The funds will be used to equip the electrical engineering laboratories at IIT WEST, the university's new west suburban campus located along the Illinois Research and Development Corridor.

The Grainger gift will go toward outfitting and equipping the new laboratory space at IIT WEST. These laboratories will complement a broad range of courses in electronics, digital systems and computer engineering, communications, and other areas of electrical engineering.

"At IIT, coursework in electrical and computer engineering is very laboratory-intensive. Quality education demands state-of-the-art laboratory equipment and instrumentation. We want IIT to have the highest-caliber laboratories in the country," said Dr. Vincent F. McKeown, chair of the College of Engineering.

The $500,000 grant will enable IIT to expand the range of advanced ECE courses we can offer to our students," said Dr. A. J. McKeown, chair of the College of Engineering.

The American Cancer Society

The American Cancer Society is a nationwide distributor of electrical, mechanical, and other products to industrial and commercial markets.

NAME OF SCHOOL
HKN Bridge Contest

The Annual Regional Bridge Building competition will be held Tuesday, February 17th. Details about registration will be in subsequent issues of Tech News.

Programming Jocks

The semi-annual HKN Programming contest is coming! Registration is open to everyone at Tech News. The contest will be held Tuesday, February 24th, at 12:30 pm in the HUB's T.B.A.

All HKN Members

There will be an informal social gathering for all HKN members on Tuesday, Feb. 3rd at 12:30 in the HUB's Messmacs. No, this is not a formal meeting in disguise.

HKN Initiates

Initiates of Eta Kappa Nu will soon receive invitations for membership. A meeting for initiates will be held Tuesday, Feb. 24th, at 12:30 in the HUB's T.B.A.

Intramural B-Ball

Rosters for Intramural Basketball are now available at the Keating Hall. The meeting will start on February 3rd at 10:00 am. The meeting must be completed and returned by the deadline of December 30th at 3:00 pm.

New Positions

WANTED: IIT students to do publicity for a major campus organization. AVAILABLE: Two committees, many committee positions.

QUALIFICATIONS: New or unusual publicity ideas, ability to work with others, good writing skills helpful but not essential.

REWARDS: Development of leadership skills, working with students from all facets of campus life (and possibly other schools), campus recognition.

The positions involve general promotion of a student organization with a membership of approximately three thousand students. Duties are flexible to accommodate your abilities and time schedule. If you are interested in doing something different this semester, please call 567-3047 between 11 am and 5 pm weekdays as soon as possible.

WOUI Meets

There will be a student meeting held on Tuesday, January 27th at 12:15 in the WOUI office on the 5th floor of Main. All students are required to attend, or notify Kevin or Ed (only Kevin or Ed) before the meeting. All unexcused absences will result in the loss of your spot. (Ignorance is not an excuse.)

Free Trip

Win a free trip to Northern Michigan University in Marquette Michigan. The IIT Rec Center, located in the Basemen of the HUB, is holding tournaments on Tues. Jan. 27th at 3:00 in the basement of the HUB. Pick a team, backboard, bowling, ping-pong, and more. These are ACUI-U tournaments. Winners from ACUI-U go to the regional tournaments in Marquette. Stop by the Rec Center to sign up.

Be a DJ!

Do you want to be a Disc Jockey in WOUI, the campus radio station? If so, by our meeting on Tuesday, January 27th at 12:15 in the WOUI office on the 5th floor of Main Bldg. If you can't make it, stop by any time you're free and leave your name and number in our mailbox and we will get back to you.

Hey Phiggs!

The next meeting of Phi Eta Sigma, the Freshmen Honor Society, will be Tuesday, January 27th. We will meet from 1:00 until 2:00 in the Field Room in the HUB. Please make every effort to attend.

It's The Bible!

The student-faculty biblical study-prayer group "The Bible and You Today" will continue its reflections and dialogues on the New Testaments on Tuesday, January 27th at 12:15 in room 200 of the HUB. The IIT community is welcome to share in this integrating experience.

Thank You

The "End of Semester/Holiday Break" Clothing Drive brought generous responses from IIT's students, staff, and faculty. Almost a ton of clothing was donated and most of this has already been distributed to families and individuals who can use them. Neighborhood housing, homes for the elderly, and the winter shelters received the aggregate of timely outerwear, boots, and heavy sweaters. In addition to the variety of other garments collected, it almost goes without saying that the recipients are deeply grateful for the sense of generosity of all involved.

Martin Luther King, Jr. once remarked that the true reason for someone's life being remembered was the fact that they responded to someone's need. A lot of memories have been created this year.

Techmates

A Techmate is being sent to all students who fill out Techmate Registration cards. If you do not receive one by Wednesday, Jan. 29th, please leave a note in Box 1 in the Student Life Office with your name and address. Return the surveys to the Student Life Office in box 1 upon completion.

Amorphous Exafs

No, we did not make this up. It's the subject of the physics department's colloquium. "Exafs (don't ask us) of Amorphous Binary Magnetic Alloys" will be given by Timothy Morrison at 10:00 in the Physics and Chemistry Building, room 205 on February 18th.

MERRILL LYNCH WILL BE ON CAMPUS

February 11 & February 12

At Merrill Lynch, the creative thinking of our professionals has helped us earn a legacy of innovation that's lasted more than 100 years — providing financial services to clients in individual, corporate, governmental and institutional markets.

To help us continue that legacy, we will be available to discuss career opportunities for:

Corporate Systems Program
Consumer Markets Program

Merrill Lynch
Your world should know no boundaries.
Merrill Lynch is an Equal Opportunity Employer

Forum

continued from page 4

- The Forum continues.

- Make working professionals more aware of emerging engineering career opportunities, probable changes in engineering career directions, and career uncertainties.

- Enlighten public and political leaders about emerging technological and social implications of the role of technology in society.

- Provide a forum for discussion of emerging engineering career opportunities, probable changes in engineering career directions, and career uncertainties.

- Juxtapose the educational requirements needed to enter one of the engineering professions, and to develop an aware of the resources available to them from educational resources.

- Concentrate public attention on the engineering resources of the University of Illinois and Illinois Tech.

As a highlight to the full day, the Western Society of Engineers will sponsor a special talk by Cordell Reed, Vice President for Nuclear Operations, Commonwealth Edison, entitled, "After Chernobyl - Where Do We Go From Here?". Thomas L Martin, Jr., President of Illinois Institute of Technology, will deliver the opening keynote address on "Career Opportunities in Engineering". The rest of the day will be devoted to concurrent lectures, workshops and demonstrations of:

- Electrical engineering
- Mechanical engineering
- Civil engineering
- Chemical engineering
- Industrial engineering
- Computer science
- Educational resources for teachers/counselors
- Engineering achievements
- Continuing education for working professionals

Engineers Day has been a very popular event in the past," says Edwin Stuhlen, Acting Director of IIT-WEST. "The state-of-the-art television and engineering and computer laboratories of IIT-WEST, the addition of keynote and panelists and the address of the president, will be an important part of the new excitement and participation of IROC professional societies and other educational institutions to make this event especially exciting this year."
Lonnie Brooks

What more needs to be said except be there.

Ferris Bueller's Day Off

Mathew Broderick has these views of high school that most of us don't get until we get to IIT. This movie has what most of you want besides sex and a 4.0. It has a red Ferrari.

Jan. 29 at 5:15
Jan. 31 at 7:00 and 9:30

Admission is $2.00

Feb. 7 at 7:00 and 9:30
Book Sale
The Phi Eta Sigma book sale has come to a close with pleasant results. If you have not used our service, please stop by the Field Room in the HUB with your request. You may pick up your money or books Tuesday, January 27th from 1:00 til 2:00.

Thanks again for your support!

Runaway Slaves
This year the Union of Concerned Black Students and Razer Sharp Productions would like to bring to you the musical "Runaway Slaves in Search of Freedom." January 30th, 1987 at 7:00 p.m. in Hermann Hall auditorium. Doors open at 6:45 p.m. and tickets are sold then. This will be the start of a host of different events and activities in the celebration of Black History Month in February.

NSBE's new year
The National Society of Black Engineers is having its first general meeting in Hermann Hall on Thursday, at 1:00 p.m. All are invited to attend our meeting. High School Outreach, the National Conference, Big Brother/Sister Program, Marathons, and more will be the topics of discussion. No New Year's champagne will be served at the meeting.

Talent Search
The Cultural Affairs Committee of the UCBS is in search for student talent for its upcoming Martin L. King Celebration on February 27th. We are in search for short dramatic skits, vocalists, and instrumentalists. For more information, contact Bert E. Beals at x3095 or Kim Burnham at x3294 of leave message at x8584. An informative meeting will be held Thursday, January 28th at 12:00pm in Cohen Lounge in the Residence Halls.

Interviews
Interview sign-ups for the week of January 26-30 begin at 2:30 in Fair Hall, Placement Library, Room 408. You must be registered with the Placement Office before signing up for any interviews.

The B.O.S.s
The Black Organizations of Students (UCBS, SNTA, NSBE) would like to welcome you back to school from your holiday break. We wish you the best with your classes this semester. Be aware of the major events that the B.O.S.s will bring to you this spring...Tach Expo, February 19th, the 1987 Awards Banquet in April, our Annual End of the Year Picnic, and more...so stay tuned to this column and join us this year.

Blood Drive
The semester American Red Cross Blood Drive on campus will run Monday and Tuesday, Feb. 2 and 3, in the HUB balcony from 10:00 a.m. to 5:00 p.m. The traditional competition between student organizations again will be part of the event. It has constantly achieved a significant turn out in this vital part of Chicago Health Care and the emergency life saving programs. The coordinations from the Naval ROTC and Alpha Phi Omega service fraternity will pre-register donors during the week of January 28th in the HUB entrance area.

Friends
continued from page 4
For new experiences and rather be distinctly application-minded - many times with very strict 'objective guidelines' which, when you really think of it, all come down to marketing.

Within this idea of knowing about the world and oneself, one of the most interesting comments on college experience I ever heard was about making friends. Among my undergraduate years one of my professor's was telling us what an appropriate environment a college is to make friends. Not only is one open to new concepts and ideas, but acquaintances have new ideas and also there is this humanistic atmosphere that is so personal to the college environment.

Of course there is competition among students, but it is (in most schools, at least) of a different nature. A student basically competes with himself/herself. Competition for grades is generally each individual student running against the target--image student the professors create. The target-image is an "A" and grades become lower the further one steps away from the central image. Competition in a college environment tends to be non-exclusive.

I remember that from the time I started to study for my College Board exams-a year of intense series of fully comprehensive exams. I was in Brazil, which select those who wish to attend college. It was tedious, I had the opportunity to make long-lasting friendships. Friends of a special kind.

Although one may think he doesn't have time to "make" friends, one is surrounded by people so often and so easily that friendships do not really have to be "made." They are just there, around you. Making friends becomes more a result of being yourself and interacting with other students than actually "making" anything. This makes friendship by being friends anywhere, anytime.

You make friends even by studying together. My closest friends from college years-Paula Melnitz, Jaimy Campbell- were the same people I studied the most with. We would meet to study and we would also discuss our daily impressions about school, about people, about ourselves. We got to know one another at an extent that many sentences had a different meaning, many words had a whole lot of story behind them.

You can surely make close friends anytime in your life and they are important everywhere you go. What is special about long-term close friends, the type you make in your college years, is that they grow with you. They become a set of references through which you can actually see yourself. In a way, it is as if each of one of them were another you-an extra pair of eyes to see the world from another perspective. Still another view.
Varsity swimmers win

After losing its first two meets of its dual meet season, the varsity swim team has won its last seven meets to bolster their record up to 7 wins and 2 losses.

North Central and Millikin University won over by scores of 73 to 42, and 77 to 38, respectively. IIT wins were against Michigan Tech 63-48, University of Missouri 62-49, Carthage College 103-12, Carroll College 82-21, University of Wisconsin-Oshkosh 71-42, Eureka College 113-74, and an 11-0 forfeit over Loras College of Dubuque Iowa.

Coach Matusch stated that the first goal of this year's squad has been reached: that the team will have a 500 or over winning dual meet season. With 5 dual meets remaining, the team's worst record could be 7 and 7. We've got some really tough ones coming up, but nationally ranked Lake Forest and Division I teams Loyola University and the University of Illinois Chicago. This coming Wednesday, the team took on the University of Chicago and Illinois Benedictine College in IBC; IIT is hoping to go over 500 by winning one or both of the competitions.

Leading the team in scoring has been Junior All-American Mike Messer, who has 143 points and is undefeated in his specialty, the 200 yard backstroke. Mike has already qualified in 3 individual events and is on a relay headed for the national championships in Milwaukee in early March.

Right behind Mike is the team captain Chuck Fee with 124 points. Chuck is the team's all-time high scorer and has been IIT's premier middle-distance swimmer for the last 3.5 seasons. He has been swimming well and is now concentrating on the nationals.

I.M. volleyball winners

Magic defeated Tech Mate, Tuesday's champions, to get to the finals in the I.M. Volleyball tournament. Thursday's champs, Archattack, downed S.F.T.O. to reach the finals. In the game of the championship match, Magic dominated 15-5. They started the second game like the first, but Archattack fought back only to lose 15-13.

I.M. Volleyball: A:
1st Place: Magic
2nd Place: Archattack
3rd Place: Tech Mate
4th Place: S.F.T.O.

Members of the team: Magic are: Captain Jean-Alix Perret, Monfax Gilot, Mondor Sheigh, Judy Laroch, Jean-Bernard Abraham, Patrick Herard, Mike Chouinard, and George Pansaha.

Matthew Fernandez. Matt is IIT's top breaststroker who also is called on to double in the sprint freestyle or IM race. Matt has 91 points at this time and could have a really great season.

TEAM POINT TOTALS
1. Mike Messer 143
2. Chuck Fee 124
3. Matthew Fernandez 91
4. David Hathaway 88
5. Troy Lee 72
6. Jeff Maseon 66
7. Patrick Grage 64
8. Gary Peters 48
9. James Finn 47
10. Doug Lovato 44
11. Fred Pasky 36
12. Charles Degaulle 21
13. Will Johnstone 19
14. Richard Harnish 16
15. Robert Krock 13
16. William Hanson 11

Scuba course offered

Because of the great response to last semester's Scuba course, the athletic department is sponsoring another course. The starting date for the course will be February 19th and 20th. The course will consist of 7 classroom sessions of approximately 1.5 hour duration, and 7 pool sessions of approximately 1 hour each. There will also be 2 days of open water diving with a minimum of five dives for open water certification.

The cost for the course will be $170 for non-students and $130 for IIT students and faculty. All inquiries should be made to swim coach Dennis Matusch at x2827, or come down to Echo Pool for further information and sign-up.

RENT TERM

This term, hook up to IIT from home.

Call now for our lowest semesterly rates

721-5833

One thing for sure about this term is that it will be filled with plenty to do. There will be plenty of time used for work and maybe a little time for play.

Certainly one of the most time consuming and difficult of things to get done this semester will be those long and hard computer projects that many IIT students face. IIT is talking about computer assistants, which can mean facing long uncomfortable hours in a crowded computer room. It can even mean traveling to school from home on a free day or a weekend, only to enter a few more lines of data into some terminal. These things take their toll on your school work.

Home work should be done at home, in a comfortable and relaxed environment where you can have the time and concentration that you need to do your best. Let Rent Term give you that freedom. Rent Term is offering computer terminals at low rates, especially for students who want to connect to school from home. We will install all rental equipment in your home for you and give you all necessary support to start a successful semester.

We also have listings of electronic bulletin boards and information services.
