Kent wins regionals

Chicago - A trio of students from IIT Chicago-Kent College of Law defeated 18 teams from 10 other law schools last weekend to win the Midwest Regional Round of the National Trial Advocacy Competition, sponsored by the American College of Trial Lawyers, the American Bar Association Section of Litigation and ABA Young Lawyers Division, includes 11 regions," Feldberg said. Twenty-two teams advance to the final each year. The competition requires lawyers to present opening statements, closing arguments, to examine witnesses, and to present evidence and present their introduction by their opponents. Successful trial advocacy requires a thorough knowledge of the facts and law of the case and of the role of evidence with great trial tactics as well as the ability to think quickly and argue persuasively.

For further information contact Associate Dean, Allen Ashman, IIT Chicago-Kent, 3000 South Michigan Avenue, Chicago, Illinois 60616; (312) 567-5410.

Fellowships given

The National Consortium for Graduate Degrees for Minority Students fellowship recipients in 1987, according to Howard G. Adams, executive director. Each GEM Fellow will receive a twelve-week internship in research and development of one of 50 sponsoring companies and governmental laboratories. The Fellowship Award is portable, and students may enroll in a graduate engineering program at one of the 50 consortium member universities.

The overall grade point average of the recipients at 3.3 was the highest in the history of the program. Adams said, in announcing the awards. They were a total of 55 colleges and universities represented among those selected. Twenty-one percent of the Fellows were from historically black colleges and universities. There were 12 universities with at least four students selected, with M.I.T. having the highest representation of eight. Southern University and Georgia Tech each had seven students selected to receive the Fellowship.

Other institutions with at least four students selected were Howard University, University of New Mexico, Berkeley, North Carolina A&T, University of Puerto Rico, Tuskegee, Stanford, University of South Carolina.

New business program

Chicago — March 6, 1987 — Students don't know what is expected of them complains Arvum Gray, chief executive officer of Allied Manufacturing Co. "They don't understand corporate culture." To help students bridge the gap between the classroom and the executive suite, the Stuart School of Business Administration has launched the Business Mentor Program, a counseling initiative, designed to help undergraduates fit in and succeed in a competitive, corporate environment.

Pamela Campbell, vice president of First National Bank of Chicago, explained that understanding corporate culture is important because "skeptical managers need their colleagues to help them sell their ideas to management. No man is an island," she said. "It will take others to accomplish your personal goals.

Under the plan, mentors will meet with students assigned to them 4 times per academic year. Students are assigned to mentors based on their career goals. The program, with 11 volunteer executives and 52 students, is believed to be the first of its kind for undergraduate business students in the Chicago area.
Announcements

ATS Meeting
The Association of Tech Students will hold their meeting on Tuesday, March 10th in the Mezzanine of Hermann Hall from 1:20 pm. Everyone is encouraged to come.

Elections!!
The Association of Tech Students, I.T. Student Government, will be having their elections in late April. Now is the time to start thinking about making the difference at I.T. Get involved in I.T. – run for office! More details will follow later. Keep watching for announcements.

Internship
The Internship is a chemical lab technician in the Quality Assurance Lab located in the Centerville area. The company will pay 100% tuition for a sophomore level student who will go to school during the week and work evenings and weekends. 3 days per week for one month and 4 days per week for the next month alternating. A copy of the student’s transcript is required. There are two positions available. Students are required to have a 3.0 GPA. Salary is $15.00 per hour. Apply 2/16 to I.T. Placement Center. Students interested should contact Toni Bernet, Placement Coordinator, Farr Hall, room 407.

Job Fair
Students registered to attend the Illinois Collegiate Job Fair, on March 13, 1987, at the College of DuPage PE and Community Recreation Building at Glen Ellyn. I. are encouraged to attend the job fair workshop, to be held on Tuesday, March 10, 1987 in Hermann Hall. Mezzanine Level, at 2:00 pm.

Bon Voyage!
International graduate students who are planning to return to their home countries before May 1988 are invited to apply for a week-long pre-departure program called Summer Crossroads. The program is designed to allow international students to focus on their educational experiences in the US and prepare for re-entry into their home cultures. Programs will be held in Los Angeles, California, and Colorado Springs, Colorado in early June 1987. Participants will live with a local family. For more information and application materials, contact the International Office, room 103.111, Hall. The deadline is April 1, 1987.

Foreign Taxes
Foreign students: questions about filing your 1986 tax returns? Have no fear, the I.T. will be holding a Tax Seminar on March 23, 1987, from 1:30 to 3:30 PM in Hermann Hall, Mezzanine room. Space is limited so call for a reservation now! Call the International Office at x3077.

Platinum
The Chemistry Department’s Colloquium, “Complexes of Platinum (II) with Simple Polymeric Thiol and Sulfoxide Chromophore”, will take place on the 19th of March. At 4:00 PM in the Chemistry Auditorium. The colloquium will be held on March 13th from 4:00 PM to 4:30 PM in the Watnick Hall lobby and the lecture will be held in room 118 WH.

Old Calcs
ASME is planning a fun event later this semester but we need your help. Please bring in any old inoperative calculators you have and drop them off at the ASME office, room 1121E. The event will be a Calculator Throwing Contest. The winner will be the one who throws it the furthest distance. The prizes and dates will be announced later, probably late March.

 Origins
A joint IIT and IITRI seminar will be held on Tuesday, March 10, 1987 from 3:00 PM. 4:00 PM in room 1121E. The topic will be “The Origins of Technology-Based Industry” given by Dr. Robert C. Dean of Verax Corporation in Naperville, New Hampshire. Dr. Dean will discuss the environment and personalities which are required to foster technology-based industry. This topic is particularly important to the city of Chicago, the State of Illinois and the Midwest. More than 70% of the new jobs formed in the US over the last 20 years have been created by companies with fewer than 10 employees. This development has helped economies to recover in regions of the US over the past 10 years. They question: is this a trend that we need to encourage? This question Dr. Dean will discuss is: Why has this activity occurred primarily on the East and West coasts, and not to a great extent in the Midwest?

Campus Events:
- Society of Physics Students - 3rd Annual Dinner - 4/14
- Science Club - 4th Annual Picnic - 4/15
- Math Club - 5th Annual Math Olympiad - 4/16
- Computer Club - 6th Annual Computer Carnival - 4/17

Math Puzzle
The math puzzle appears in Technia News on a weekly basis. All students of I.T. are eligible to participate. The first three students who submit the correct solution each week receive a prize. Students who submit the best solution during the semester, without necessarily being the first every week, will receive a grand prize and a diploma.

The weekly math puzzle is sponsored by the I.T. Placement Office. Societies under the supervision of the Mathematics Department. Solutions should be submitted to the Secretary of the Mathematical Department no later than Friday.

** This week’s prizes are three gift certificates donated by the I.T. Bookstore:
- $25 for the first winner
- $15 for the second winner
- $10 for the third winner

The winners of last week’s puzzle were:
1st place: Umer K. Jayaward
2nd place: Raghurami Gupta
3rd place: Dhananjay Ratna

This week’s puzzle is the following:
Determine how many zeros are at the end of the decimal number 10,000! (where 0! = factorial). Show your work.

Business
continued from page 1
The Louisiana Business Administration, and coordinator of the program a "value-added" benefit for IIT business students.

"Mentors will leas student know what the business climate is, what (skills) business is looking for and how they can identify," said Grey, who also serves as the director of the mentor program.

"I want to trade stocks, bonds and options, and I hope they can give me some advice on how to start out," said Grey point to the business and administrative major.

Matthew Lough, 21, a freshman at IIT, works in the options system major, said he hopes he can draw from his mentor's experience. "I figure out how I can make it up to him." But George Hovis, an IIT alumnus and executive vice president of Hovis Development Company, advises students to keep their career options flexible. "Things change as you go along," he said. "Don't think about your career in one piece.

The mentors, all of whom hold high-ranking positions at various companies, acknowledge that getting ahead is more difficult now because of the recession.

"The competitive track is a lot more difficult compared with when I was in school," said vice president, First Chicago Corp., Robert Janvier (IIT Trustee/Alumni Arm president, First Chicago) and president of the Professional Education International, et al. "I'm retired, executive vice president, Van Cott, 42, president of the Clayton C. Stone, vice president, First National Bank of Chicago, and James R. Greer, president, First Galaxy Corp.

Fellowships
continued from page 1
Texas A&I University, University of Illinois Institute of Technology, Cornell, University of California at Berkeley, and University of Tennessee-Knoxville.

- $15,000 for the recipients; a decrease from 70 percent in 1986. This is reflective of the national trend toward more female engineering majors.
- American Indian recipients increased from 2.4 percent in 1987 to 3.8 percent in 1986.
- Puerto Rican increased from 4.0 percent in 1987 to 1.4 percent in 1986.
- Black and Mexican American recipients in 1987 reported 18 and 18 percent, respectively.
- Computer science majors increased by almost 50 percent.
- Electrical engineering majors, 5 percent of the 1986 recipients, decreased to 4 percent.

continued on page 3
Summer Jobs

Students interested in summer employment with the following companies (interview date—company name—comments) should register with the Placement Office and sign up for interviews:

- Colgate Palmolive: Summer Student Program for CS, EE, ME, and CHEM majors who have completed their junior year. Position located in Jersey City, N.J. Students work on Engineering projects related to consumer products. Students must be available from June 8 through August 17. Applications, resumes and transcripts should be submitted by March 31, 1987 to: Colgate-Palmolive Central Eng. Dept., Summer Student Program, 105 Hudson Street, Jersey City, N.J. 07302.
- CLOROX Co.: General factory help. Work as packaging inspector, production worker, and packager. Applicants should have experience in packing cases and inspecting production for quality defects. For. EE, ME, Science and Business students capable of heavy work: Salary $6.50 per hour. Interviewed students may forward resumes or complete an application at their plant employment office. Mr. Bernard Swenson, The CLOROX Co.; 5063 South Merrimac Ave., Chicago, Ill. (458-0800).
- Village of Glenco: 2 to 3 summer engineering student positions. Applicants must: 1) be interested in public works and municipal government, 2) have excellent character, good appearance, and the ability to work effectively with others; 3) hold a valid license for the duration of employment; and 4) have some background in drafting, plan reading, basic principles of construction, and bookkeeping. Salary $8.00 per hour. Mail resume and a letter of interest by April 10, 1987 to: Mr. Carl F. Peter, P.E., Director of Public Works, Village Hall—Box 170, Glenco, Ill. 60022 (035-4111).

Job Workshop

Students registered to attend the Illinois Collegiate Job Fair, on March 13, 1987, at the College of DuPage PE and Community Recreation Building in Glen Ellyn, Illinois, are encouraged to attend the Job Fair Workshop. It will be held on Monday, March 10, 1987 in Hermann Hall, Mezzanine Level, at 3:00 pm.

Connections

They're Here! They're Here! Connections: the student directory, has finally arrived. The one you ordered, or buy one tycoon who has not received one yet? Have you not already done so. Have thousands of names at your fingertips! Books are available in the HUB during lunch and in the Terrace Hall Cafeteria during the entire week. The directory listing is on sale now in the Student Office in Hermann Hall. Cash prizes are being offered for the most complete directory.

Trans Man

The student government is looking for a chairman for the Department of International Affairs. The committee is responsible for developing a forum and organization for discussion of global issues. Applications are due by April 14. Aron Tai at J034 as soon as possible. Freshmen and new students are especially encouraged to apply for the position.

WOU!

WOU will hold a staff meeting on Tuesday, March 10 at 12:15 in the WOU offices located on the 5th floor of Main Building. All staff members are required to attend or notify Kevin or Bill in advance. Anyone interested in joining WOU should attend this meeting.

Software!

Informal Software will start on March 24th, at either 12:00 or 2:00 in the Library. This event will provide additional space for students to spend their free time and gain experience, developing a system for verification, and implementing distribution of the forms through the Placement Office. Any questions, contact Paul Aron or Tai at J034 as soon as possible. Freshmen and new students are especially encouraged to apply for the position.

TAM

TAM (Tomorrow's Alpha Men) is an organization affiliated with Alpha phi Alpha fraternity, that promotes the awareness of Black male issues and the achievements of the Black man. We will be sponsoring parties, bake sales, service events (like a study marathon), and many other activities in the near future. If you are interested in being a part of this group, you are encouraged to attend the TAM meeting. Wednesday, March 11, 1987, in the HUB Mezzanine from 12 pm to 1 pm. For more information contact Tony or Kevin at x5084.

Demand Your Rights!

Ask to hear WOU whenever you're in the HUB. Just go to the director's office and ask for your campus radio station, WOU, 88.9 FM.

Rock/New Wave

This announcement (which should have really been a personal, but the editor believes in equal time) is in reply to an announcement here in Tech News last week. Unlike my illustrious partner Nick of "The Bums" show on WOUI (88.9 FM), I believe our format is Rock/New Wave is an accurate description. Since Nick attends the show infrequently, he doesn't have much of an effect on the music we play (so don't listen to what he says). Thank you for your continued support of our show.

P.S. No, we do have anything better to do on Wed. nights (9-12) than write these silly announcements. Call us! (x3088)

ACC Seminar

On Tuesday, March 10, the ACC will hold a seminar about Getting Started With Time Shared Graphics (primarily for Graduate Students). Grocho now supports several graphical packages with different capabilities. DIGS - subroutines for laser printed graphs and contour plotting; PICTO-10 - high-level text, etc.; NCAR - higher-level graphics subroutines; MULAY - easy to learn plotting on the laser printer, and RS/1 - scientific plotting on screen or plotter. At the seminar a review of these and other time shared or PC graphics will be presented. A free copy of Getting Started With Graphics will be distributed.

Lent

The Eucharist-Communion will be celebrated this second Sunday in Lent March 15 at 1:30 pm in the IIT Chapel, located just outside the Student Lounge. The IIT community is welcome.

Bible Chat

The Faculty-Student Group "The Bible and You Today" continued its shared reflections on the New Testament's First Letter of Peter, Tuesday March 10 at 12:00 noon in the Field Conference Room of the HUB (southwestern corner). Open to the Public.

BOWLING

The HUB Rec Center will hold a Bowling Tournament on Tuesday, March 10 at noon. Sign up now in the HUB Rec Center.

HH News

Tuesday, March 10th, the Rec Center will host a Bowling Tournament from 12:00 noon to 1:00 pm. Stop by the Rec Center on February 11 from 4:00-1:00 pm and from 3:00-10:30 pm for some refreshments and entertainment. On Thursday, March 12th, from 12:00-2:00 pm the Rec Center will host a bowling and basketball Tournament.

Cash Prizes

Win prizes of up to $250 dollars for your essays, short stories, or poems in the humanities Department's annual writing contest. These and other prizes are open to all students in four different categories for submissions is April 3, 1987. For a copy of the rules and an entry blank see your Humanities Professor or contact the Humanities Department, room 168 (x3465). Winners will be announced April 20th.

ALChe

This is to remind everyone that the next meeting of the IIT Student Chapter of the AICHE will be held on Tuesday, March 10, 1987 from 4:00-6:00 pm in room 115 South Hall. Our guest speaker will be Dr. Randolph from Yale University. Our topic will be on the impact of new technology on the industry. AICHE member nominations will be taken at any time to replace the empty board positions. Refreshments will be served, all are welcome to attend.

How YOU LOOKING

Send In Any Black & White or Color Picture up to 8"x10" (No Negatives) and Have it Enlarged into a Giant Black & White or Full Color Poster. Comes in Mailing Tube — No Creasing. Put Your Name and Address on Back of Original for Safe Return.

Fellowships

continued from page 2

percent in 1987. The number of mechanical engineering graduate aid increased from 19 to 20 percent.

The 1987 fellowship guidelines also allow the 200 minority engineers native-high who are GEM alumni or currently enrolled in the GEM program. The goal of the program is to prepare minority engineers for leadership in the engineering field.

Plans for the 1988 Fellowship competition are now underway. Further information and application material may be obtained from the GEM Program, Box 357, Notre Dame, Indiana 46556 (219) 235-1835.
Entrepreneur search

Chicago — The search for the region's best entrepreneurs is being launched by Young, the marketing, advertising, and consulting firm, and Venture, the magazine for entrepreneurship business owners and investors.

According to Robert A. Celnik, President and Director of the Chicago Office Entrepreneurial Service Group (EOSG), the competition and recognition program is being conducted to identify the best entrepreneurs in America in a number of different categories.

"Awards will be given to entrepreneurs in this region who have demonstrated an extraordinary level of excellence and success," explained Mr. Center. "The Regional Entrepreneur of the Year Award Program is scheduled for June 4th in Chicago, Regional Winners, from throughout the United States, will be honored during their Awards Banquet in Washington, DC, October 19th and 20th, 1987. During this event, the National Entrepreneur of the Year Win-
ners will be inducted into the Institute of American Entrepreneurs Hall of Fame."

"The awards and the Institute will benefit entrepreneurs by providing recognition in our community, among their peers and throughout the nation," commented Mr. Center. "Nominations are restricted to owner/managers of closely held companies, not publicly traded companies, in addition to those mentors and investors who have made outstanding contributions to the entrepreneurial spirit. We are encouraging self-nomina-
tions."

The potential award categories include founders of companies that are five years old or less, Packet of innovators more even than five years old; founders of business more than five years old; start-ups that have added the greatest number of employees over the last three years; resources that are expanded by service organizations, founders of ventures that have been founded by women; individuals who have been consistently recognized by their peers. Nominees for the awards will be judged by an independent group of area professionals from such organizations.

Work study program abroad

Greenwich, CT — College students can have their study abroad program paid for by $15,000 under a new Work/Study program offered by the American Institute for Foreign Study of Greenwich, Connecti-
ct.

Students participating in AIFS college level programs in London, Paris and Salzburg can receive their fees by working as child care assistants while they attend school. In exchange for living with families and assisting with the child care positions, students will be paid $15-20 per hour. Students without college study in Britain and Germany.

The American Institute For Foreign Study (AIFS) has provided overseas education programs for over 300,000 participants since it was founded in 1964. The institute is a subsidiary of AIFS, Inc., a publicly owned company.

For further information and a brochure detailing Work/Study programs, contact your study abroad advisor or write: Dept. 110 102, 14 Greenwich, Connecticut 06830 or call (203) 869-5600.

Engineer for educators

Chicago — Mr. Willard L. (Gandy) Boyd and Mr. William J. Ainsworth have recently been appointed to the ITI Chicago Kent College of Law Board of Governors. Mr. Boyd is a resident of the Field Museum of Natural History. Prior to assuming his current position, Mr. Boyd was president of the University of Iowa from 1966-1983. He previously held the position of assistant professor of economics and management studies.

Mr. Ainsworth is a member of the Illinois Humanities Council and the Fund for Justice, Mr. Ainsworth is a member of the Illinois Humanities Council and the Fund for Justice. Mr. Ainsworth is a member of the Illinois Humanities Council and the Fund for Justice. Mr. Ainsworth is a member of the Illinois Humanities Council and the Fund for Justice.
IIT triathlon coming

The Polytechnian motifs that characterize our buildings and the tropical island landscape of the IIT campus have inspired the IIT Athletic Department and the Academic Computing Center to co-sponsor an IT triathlon version of Hawaii's popular "Iron Man" competition.

The event will feature three strenuous non-contact sports activities which, when combined, will test the limits of contestants' physical, mental and spiritual stamina — swimming, swimming, and table tennis (STT).

Every full-time IIT undergraduate is eligible to enter. Students will be drawn at random from the pool of entrants who qualify. Canoes (bikes) will be the prize for the only person to win an equally good shot at the title. Awards include gift cards and big prizes — including a new computer, a bike, and more. Qualifying will take place during March. The drawing will be held at the IIT Athletic Department on April 1st. Additional information and entry forms will be available in the IIT Athletic Department.

How do you qualify? First pick up an entry blank in Academic Computing Center, Room 207, and then sign up in Keating Hall, Academic Computing Center, Room 007. Entries must be turned in by April 13th to be entered in the March 14th triathlon. All entries are due to Keating Hall by April 13th. Additional information and entry forms will be available in the Academic Computing Center.

Some of us attending IIT are not science majors and in fact not math majors. We may not see from math and the sciences all of our lives. I am a perfect example. I am a computer scientist without the slightest idea why.

A number of us are middle aged (40+). We have had little exposure to computers, or if we have, it has been only through the software that comes with it.

I have an Apple IIe at home and I am beginning to learn how to use it in the past two years. The program offers an opportunity to work with other people in my lab group who has been using the computer program since birth. I would be in a bad way if, on the CS101 side, I had not been able to do this. I have had enough help, but I have not had enough time. I have to do it myself. I have not had enough time to do it.

The Pythagorean Theorem says:

a^2 + b^2 = c^2

2. The Pythagorean Theorem:

a. It is a popular food in Chicago.

b. It supports the idea that the earth is flat.

c. It is a novel by Robert Ludlum

d. A READ statement means:

a. Go back and re-read the book

b. Mic

The KEY TO MODERATION

Anheuser-Busch brews the most popular family of beers in the world. It's no coincidence. Our beers are more expensive in brewing. And so, no one achieves the flavor we do. Our great taste and quality can be fully appreciated by drinking and enjoying our beers in MODERATION.

When you eat out with family and friends enjoying our beer, do so in MODERATION. Here's something that can assist you — a key ring guide to responsible beer drinking. It will help you to "KNOW WHEN TO SAY WHEN" and when you should not attempt to drive.

Anheuser-Busch is concerned about you, our valued customers. We support research, education, and treatment aimed at combating alcoholism and alcohol abuse.

To obtain your personal key ring, send $1.50 which includes postage and handling to:

Drug testing forum

Chicago — Mark A. Rothstein, Professor and Director of the Health Law Institute, University of Houston, will be the featured speaker at a "Forum on Drug Testing and the Workplace" at 11:00 am, Tuesday, March 31, 1987, at IIT Chicago-Kent College of Law, 77 South Wacker Drive in Chicago. There is no charge and the public is invited. Forum, offered as part of the annual Kenneth M. Piper Lecture Series, will include commentary by Tia Schneider Deneberg, an arbitrator and holder of the American Arbitration Association's J. Noble Braden Chair for the Development of Labor Arbitration. Alan Pershing, former professional football player, first with the Minnesota Vikings and then with the Chicago Bears, and now a Special Assistant Attorney General for the State of Minnesota, and J. Patrick Sanders, Vice President for Industrial Relations at Commonwealth Edison.

Professor Rothstein has written numerous articles on employment and occupational safety, and is co-author of three books: Cases and Materials on Employment Law; Medical Malpractice; and Occupational Safety and Health Law. He has lectured widely on topics such as medical screening for AIDS, reproductive hazards, and OSHA.

Professor Rothstein has served as an attorney-advisor for a number of the Occupational Safety and Health Review Commission and as a consultant to the Office of Technology Assessment of the United States Congress, the National Institute for Occupational Safety and Health, and The American Medical Association.

The Kenneth M. Piper Lecture Series is funded by a gift from Mrs. Kenneth M. Piper in memory of her husband, a distinguished senior executive with Motorola, Inc. and Bauch & Lomb, Inc., who has made important contributions for more than two decades in personnel and labor relations for these companies.

For further information, contact Associate Dean Arlene Ashman, IIT Chicago-Kent College of Law, 77 South Wacker Drive, Chicago, IL 60606; (312) 467-5100.

disciplines as business, academia, and journalism.

"Arthur Young and venture teamed-up to create the awards and the institute because both of our organizations are committed to entrepreneurship," said Arthur L. Lipper III, editor-in-chief of Venture. "We understand that it is the entrepreneurial genius that provides the nation with unsurpassed economic opportunities."

There is no fee for nominations; forms may be obtained through the Chicago office of Arthur Young. The deadline for application is April 15, 1987. For more information or applications write: Ms. Sandra Wilson, Entrepreneur of the Year Program, Arthur Young, One IBM Plaza, Chicago, IL 60611 or call 312-645-3311.
Hawks receive honors

The CCA coaches meeting was held on Thursday and two Scarlet Hawk basketball players received outstanding recognition. Sophomore guard Charlie Kirkland, a product of Mendel Catholic High School, was named to the All-Conference Team. He finished third in the balloting behind Marty Blazek (Rosemary) and Dave Wiltzim (College of St. Francis). Ryan was named last year to the All-CCAC team, also.

Charlie Warnell, a freshman forward from Rich Central High School, received Honorable Mention All-Conference and was a nearly unanimous choice for the Freshman of the Year for the entire conference.

Both players had great seasons. Kirkland led the team in almost every category and placed very high in league statistics. Warnell showed impressive considering that he is only a freshman, Warnell has actually scored more points and grabbed more rebounds in his freshman year than Kirkland did when he was a freshman.

Kirkland's importance to the team was obvious. He always knew what was expected of him and he responded. They could beat your Hawks. Some teams even gave two people to him, but he responded all year to the pressure, "stated Coach Kersten.

But when he was on the Hawks they were at their best."

Topper chairs CCAC

The CCAC Basketball Coaches met on Feb. 26 and one of the items on the agenda was the appointment of a chair for their group. For the second year in a row, IIT's Basketball Coach, Bob Tooper, was chosen by the group as the chair. The CCAC consists of IIT, Roosevelt University, College of St. Francis, Olivet Nazarene University, Northwestern University, University of Chicago, Calumet College, St. Xavier College and Rosary College.

Basketball team MVPs

The basketball team met to vote upon their yearly awards of Most Valuable Player, Most Improved Player, Rookie of the Year and for next season's captain. The results are as follows:

MVP: Ryan Kirkland

Most Valuable Player: Most Improved Player: Rookie of the Year

Like all but one team in the nation, your attacking Hawks lost their last game of the season. A strong finish in the regular season schedule enabled Tech to be seeded sixth in the state, in their first year, NCAA state play-off appearance.

After knocking off third seed St. Xavier College in a thrilling game, 72-70, they had to take on number two Eureka College. Their bid to play for the opportunity to go to Kansas City fell short as Eureka outlasted Tech 84-79. Eureka deserves to be playing McKenzie for the state District crown. They kicked our ducks everywhere you can imagine. They're a line team and they are experienced. Shooting four seniors and one sophomore, "stated Coach Tooper.

Again IIT was laced in scoring by Ryan Kirkland and Charles Warnell with 17 points each. No other Hawk scored in double figures. Junior John Mahoney led on assists with six while our rebounding was topped by Warnell with seven and Kirkland and Mike Klockow with six.

THANKS FOR THE CROWD SUPPORT!

Loans

continued from page 7

probably will send borrowers to other sources of credit such as parent PLUS loans or student supplemental loans, predicts Dr. Dale Martin, director of the National Association of Student Financial Aid Consultants.

Others will consider changes in the tax laws -- which discriminate against interest on personal loans -- and take out deductible second mortgages or equity loans to pay their child's tuition.

"A number of families have always used personal loans to pay for their children's tuition," Martin notes. "But it's too soon to try to determine any patterns to this, although it's safe to say many people will need other sources of credit."

Davis brands the PLUS program, which lets parents borrow federal money for educational purposes, as "not very good. Parents have to start paying back the loan within 60 days, and the interest rate is high."

"They can take out new loans every year, so if they get one each year their child is in school, they can end up owing a healthy $12,000 or so by the time the child graduates," Davis says.

The PLUS and supplemental programs aren't perfect, Martin adds, bringing interest rates close to the market rates.

"But while these loans once were used as a last resort, now their use will be more prevalent," he predicts.

IRHA

continued from page 4

Saturday

Seriously now. Next weekend schedule were the educational (7) sessions. Some of them were really interesting like "Shape up or Ship out (you bet), I can't stand criticism (don't we all). Lay down, and take your shirt off (just to get a massage), etc. The best session was the one presented by John Cassis, communicator, motivator, and pre-game inspirational speaker for the Chicago Bears. Among this bombardment of knowledge we went back to the hotel to get ready for the banquet beforehand. At 6:30 p.m., IRHA's delegation headed to the banquet site and did enjoy the grand banquet (pigeon!).

Among other things, a lot of awards were given like the ICC of the year, the most spirited large school, the most spirited small school, etc. IIT won some awards too. Robert Morgan, IIT's RHA advisor, won the advisor of the year award; the peaceable Enrique Fabregas (RHA's dictator) won the leader of the month award for February, and Sid Chaddes won

The lab has been recently completed with the help of the CCE Department. To make the laboratory operational for the current semester, two oscilloscopes have been donated along with various AC and DC power supplies. Dan Sennett is very interested in receiving several possible equipment contributions from industry.

Chris Zajka, IEEE Treasurer, has led recent efforts to reduce costs. IITRHA has helped to coordinate the donation and calibration of the test equipment, and also devised a system to make the facility more accessible to IEEE and IRHA members. He will continue as the lab caretaker for the remainder of the semester.

IITRHA believes the expansion is a special thanks to the people who have so generously helped to complete the project: Dr. J.L. LoCiero, Mr. Joe Sydeko, Mr. Paul Brungton, Dean Gerald Saetle, and Dr. Jafar Sanie.

OFC showed up and was able to react quickly. The question I was asked was, "Do you think they're serious?"

"Yes, it's very serious." I told them that we were very much interested in the subject. If they were serious, then we would be interested in the idea. We would need to meet with them to discuss the details further.
