IIIT design students capture top award

The most time you hear that premier-class design comes only from Europe, Japan, or one of the coasts, remember that this year, in the world's most competitive and prestigious open international design competition, a group of young designers from an established Chicago institution - and not from a professional design firm - took the Grand Prize for the second time in three such competitions.

The Japan Design Foundation in Osaka has announced that it will award the Grand Prize of 10 million yen (about $67,000 U.S.) in the Third International Design Competition for Professional Designers and Students at Illinois Institute of Technology. In 1982, the Institute won the Special Award for "Aquaflex" - a system of floating agricultural, manufacturing, transportation, and energy facilities designed in response to the theme of the competition, 'Food, Water, the source of life,' is deeply related to every aspect of mankind: existence, daily life, industry, culture, environment.

This year, the 1983 competition was held in Osaka. The Institute submitted four projects, and the judges selected the one in "Water, the source of life," as the best. The projects include: "Aquaflex," a system of floating agricultural, manufacturing, transportation, and energy facilities designed in response to the theme of the competition, 'Food, Water, the source of life,' is deeply related to every aspect of mankind: existence, daily life, industry, culture, environment. The system is designed to provide a long-term solution for water-related problems, such as pollution, overuse, and lack of access to clean water.

Working in teams, four graduate students in the Department of Materials Engineering and the Department of Civil Engineering submitted the project. The team consisted of Jay Hsu, Tony Tang, and George Chen, who worked together to design and build the system. The project was sponsored by the Illinois Institute of Technology and was funded by a grant from the National Science Foundation.

The project was presented at the annual meeting of the American Society of Civil Engineers in New Orleans in 1983. The team was awarded the Best Paper Award for their presentation.

The team also received the Best Paper Award at the 1984 International Conference on Water Resource Engineering in Tokyo, Japan. The team was recognized for their innovative approach to solving water-related problems and for the potential applications of their system.

Bio dept. welcomes new students

The Biology Department welcomes all new and returning students to IIT. Anyone interested in having a tour of the biotechnology lab facilities or the electron microscope can contact Dr. Robert Roth at x4860 or Dr. Benjamin Stark at x4888.

A series of open public seminars will be held every Monday this semester. The first seminar will feature Dr. Irene Peeples, who will present a videotape about a parrot that was taught to verbally communicate. Each seminar will begin at 4 PM in Room 111 of the Life Sciences Building. Refreshments will be served prior to each meeting.

Future seminars are: "Herring Eyes and Brain Drain" by Dr. B. J. Trapper, "Hormonal Regulation of Calcium Metabolism in Bone" by Dr. Nancy Krieger, "Epidemiological Growth Factor Gene: Structure and Expression" by Dr. Grazia Belli, and "Biochemical Modulation of Tumor Cell Drug Resistance" by Dr. Jerry Selden.

There are several new programs for undergraduates in the Biology Department. Several students are already involved in the new biotechnology, microbiology, and biochemistry concentration.

New Ethics head

Acting Director Vivian Wells has been appointed director of the Center for the Study of Ethics in the Professions (CSEP) and associate professor of ethics at Illinois Institute of Technology (IIIT).

Well's academic experience includes service as senior research associate of the ethics center and as a faculty member in the Humanities Department. She received her bachelor's and master's degrees from the University of Chicago and her doctorate from the University of Illinois at Chicago in 1973. Professor Wells is considered an authority on ethics in engineering, science, and business.

In a continuing effort to meet the educational needs of working professionals and junior college students in Chicago's western suburbs, the Illinois Institute of Technology's Stuart School of Business Administration will begin offering a Bachelor of Business Administration Degree Program this Fall at IIT WEST, 600 South Lambert Road, Building M, Glen Ellyn, Illinois.

Starting Monday, August 24th, the Stuart School will offer junior and senior courses in the evenings and on Saturdays to allow working professionals and other students to complete their baccalaureate degree requirements.

Students eager, await and await and await to register for the new academic year.

Dr. Robert Roth

Dr. Robert Roth has been appointed director of the Center for the Study of Ethics in the Professions (CSEP) and associate professor of ethics at Illinois Institute of Technology (IIIT). His appointment was announced by Dean Dean of the Lewis College of Science and Letters. He is a graduate of the Lewis College and has taught at the University.

"Dr. Wells is well known for her many publications on ethics in the professions, ethics research, and her teaching. Her administrative abilities and her commitment to excellence in this area makes her a good choice for permanent director. Wells's academic experience includes service as senior research associate of the ethics center and as a faculty member in the Humanities Department. She received her bachelor's and master's degrees from the University of Chicago and her doctorate from the University of Illinois at Chicago in 1973. Professor Wells is considered an authority on ethics in engineering, science, and business.

IIT's Center for the Study of Ethics in the Professions established in 1976, is the nation's first university center to focus on social and moral issues that arise within the professions. It is nationally recognized for innovative research and teaching on ethical issues in engineering, science, and business.

In the continuing effort to meet the educational needs of working professionals and junior college students in Chicago's western suburbs, the Illinois Institute of Technology's Stuart School of Business Administration will begin offering a Bachelor of Business Administration Degree Program this Fall at IIT WEST, 600 South Lambert Road, Building M, Glen Ellyn, Illinois.

Starting Monday, August 24th, the Stuart School will offer junior and senior courses in the evenings and on Saturdays to allow working professionals and other students to complete their baccalaureate degree requirements.

Students eager, await and await and await to register for the new academic year.
HELP WANTED

Technology News needs a Distribution Manager for the 1987-88 school year. Position requires approximately 1 hour per week on Monday afternoons. Position involves delivering copies of Technology News to 8 campus locations. A car is a good idea unless you have a powerful body. This position is salaried (it actually pays pretty well considering that you only work for about an hour a week). For more information please call 567-3085 or stop by the Technology News office 5th floor Main building.

Located in the Lower Level of Hermann Hall - The HUB

Hours
Monday — Friday
11:30 - 2:00
4:00 - Midnight
Saturday
11:30 - Midnight
Closed Sunday

Phone: 567-3059

Beer and Wine available after 4:00 pm.
announcements
Help is Here
FREE tutoring in all 200 and 300 level ECE courses will be offered this semester by Eta Kappa Nu. The electrical engineering honor society. Details about the times, location, and dates will be announced soon.

Baseball Tryouts
Anybody interested in trying out for the Baseball Team should attend a meeting Thursday, August 5 at 2:00 at Keating Hall.

HKN Meeting
There will be a general meeting for all Eta Kappa Nu members on Thursday, August 27 at 12:00 PM in the Hub Mezzanine Room 304. Come, meet the new officers and find out about the new semester's activities. There will be a meeting for the current HKN members to meet the new initiatives on Thursday, September 3rd at 12:30 PM in the Hub Mezzanine Room 304.

EARN $10/HOUR
Do you have a car? Can you drive it? For a mere hour per week, you can earn $150 this semester. Technology News is looking for a dedicated, reliable worker to deliver Technology News to 7 campus buildings on Monday mornings. If you or someone you know are interested in this job, contact Technology News, Shaffer Main Building (x3205).

Soccer
Eger Soccer players are invited to try out for ITT's Soccer Team the week of August 24th to 28th at the following times:
Mon: Wed, Fri 3:00 PM - 5:30 PM
Tues: Thurs Noon - 2:00 PM
at the field west of Stuart Building.

Julius Caesar
The National Shakespeare Company is returning to IIT with its performance of Julius Caesar on Sunday, October 18, 1987. Julius Caesar represents Shakespeare's explosion of power, politics, and personal conscience. A working committee of students, faculty, and staff is now forming. If you are interested in volunteering and serving on this committee contact Russ Johnson, Director of Drama in Hall.

Che Pig Out
All chemical engineering students and faculty are invited to attend the AICHE barbeque on Thursday, August 27 at noon by the tennis courts. See old friends and meet new ones.

Women's Tennis
Women's Tennis meeting on August 25th at 12:30PM, Schommer Room at Keating Hall. Any female interested in being on the tennis team should attend in call Coach Topper as soon as you read this announcement at x3299 or x3296. Tennis experience is helpful.

Basketball Meeting
Basketball Meeting on September 17th at 12:30PM, Schommer Room at Keating Hall. Any male interested in trying out for the basketball team should attend. Fast basketball experience needed. Call Coach Topper at x3299 or x3296.

Tennis Courts
The tennis courts will be in use for classes and varsity tennis team at the following times and dates and therefore close for open play:
Mon - Thurs 11:30-1, 2-4, 7-9
Fri - Sat 11:30-1, 2-4, 7-9
Sun 11:30-1, 2-4, 7-9
Two special practices on Sat, Sept 5 and Mon, Sept 7 will also be held from 10 AM to 1 PM and therefore the courts are closed for open play.

Keating Hall Hours
Keating Hall will be open:
Weekdays 9:00 AM to 9:00 PM
Saturdays 11:00 AM to 3:00 PM
Sundays 11:00 AM to 5:00 PM
Reservations for various athletic facilities may be made by calling Coach Topper at x3299.

Be an Officer
Applications are now being accepted for the positions of Technical Manager, News Director, Promotions Director, and Music Director. These offices offer excellent experience in music and management. Job descriptions can be read and applications can be picked up in the WOU office located on the 2nd floor of Main Building. Completed applications must be returned by August 31st.

WOU MEETS
WOU will meet on Tuesday, August 25th at 12:15 PM in the WOU offices located on the 1st floor of Main Building. All current staff members are expected to attend or call Tim or Steve. New members are always welcome. Program slots will be assigned at the meeting.

Win Money
The Eta Kappa Nu semi-annual computer programming contest is coming September 19th! Don't miss out on this chance to win BIG BUCKS! You do not have to be a computer expert to enter! Registration details will be announced soon.

Oil
"World Oil - An Essay on its Spectacular 120-Year Rise (1859-1979)". Recent Decline on the Horizon Future and Uncertainty will be the topic of a lecture by Henry R. Linden, Frank W. Gansalas Distinguished Professor of Chemical Engineering. The lecture will be held on Wednesday, September 22nd from 3:00 - 4:00 PM in the East Ballroom of Herrman Hall.

Summer Schedule
Fall classes will meet on the following dates:
Monday, September 7 - Labor Day Holiday
Tuesday, September 29 - Classes are canceled for Professor Feidberg's inauguration. This includes all day, evening, extension, and ITV courses.
Thursday, Friday, Saturday, December 26-27-28 - Thanksgiving Holiday
The week of December 7-11 will consist of three class days, Monday, Tuesday, and Thursday in order to equalize the number of class meetings, these days will be used to compensate for class time missed earlier in the semester.
Monday, December 7 - Regularly scheduled Monday classes will meet. This day will compensate for Labor Day.
Tuesday, December 8 - Regularly scheduled Tuesday classes will meet. This day will compensate for classes canceled due to the inauguration.
Wednesday, December 9 - Classes scheduled for Wednesday will not meet. Regularly scheduled Monday classes will meet on this date. This will compensate for classes missed due to the Thanksgiving Holiday.
Class time of the Friday and Saturday after Thanksgiving Day will not be made up.
Thursday-Friday, December 10-11 - Study Days
Final Exam Week - December 14-18

Yearbook
First Meeting: September 8, Herrmann Hall Mezzanine Room 306
Wanted: Photographers, Writers, Section Editors, Treasurer, Typist, People who just want to help out. No experience necessary.

Student Loans
Those individuals with either institutional loans or Perkins loans may endorse their awards on August 24 and August 26 in Herrman Hall. The student loan representatives will be situated outside of the auditorium from 8:30 to 5:00. Therefore, loans may be endorsed at the Student Loan Office located in the Main Building.

S G Meeting
The IIT Student Government needs your help. Come find out how you can make a difference on Tuesday, September 22, 1987, at 12:30 PM in the Crowne Room of Herrman Hall. Several committee chairperson positions are available. For more information, stop by the student government office located inside the Herrman Hall Programming Office or call x3074.

Seminar
"Interspecies Communication: Evidence for Cognitive Abilities in the African Grey Parrot" will be the subject of a seminar to be held on Monday, August 31 beginning at 4:00 PM in the Life Sciences Building Room 111. The speaker will be Dr. Irene Pepperberg, Department of Anthropology, Northwestern University.

FORMULATE YOUR POTENTIAL
Air Force Officer Training School is an excellent start to a challenging career as an Air Force Officer. We offer starting pay, medical care, 30 days of vacation with pay each year, and management opportunities. Contact on Air Force recruiter. Find out what Officer Training School can mean for you. Call
Sgt Wendell Gerig (312) 567-9561

Design
continued from page 1
specific theme every two years, and prizes are awarded to outstanding design. It is the competition, for the purpose of deepening understanding of and interest in design on the part of industry and society as a whole by a public exhibition and publication of various works.

It's Institute of Design, the design descendant of Gender's Bauhaus, the most celebrated art and design school of this century, approaches design education as a continuous experiment to find new ways to apply evolving information technologies to solve serious concerns in the social, economic, or physical environment. Its program connects the general ideas of diverse fields to the design and production of specific products and communications and seeks to develop skills and knowledge useful in diverse disciplines such as marketing, product and communications planning, environmental design, and education.

Business
continued from page 1
Keith Beck rests dean at the business school and director of undergraduate programs.
"It's an especially valuable opportunity for community college transfer students with limited business experience to study alongside men and women who are active in the business world," Beck said.
IIT WEST business students can also participate in IIT's Engineering Business Mentor Program.
They will be assigned to volunteer, executive mentors who are professionally active in specific areas of career interest. The program, which began last year, is believed to be the first of its kind for undergraduate business students in the Chicago area.
"By adding the BBA program to IIT's WEST's already extensive offerings of engineering and computer science classes, we are helping to fulfill our responsibility to provide a total educational and research resource dedicated to the needs of businesses and industry along the Illinois Research and Development Corridor," Keith says.

New professorship

An innovative endowed professorship honoring Dr. Donald Toddrick, Founder of the Midwest College of Engineering, has been established at IIT WEST. Toddrick is the director of the Technology's west suburban campus in Glen Ellyn, Illinois. The endowed professorship was announced on June 19 at commencement ceremonies of Midwest College of Engineering at Star Island Resort. Bloomington, Illinois. IIT acquired Midwest College of Engineering and opened IIT WEST last year to extend the resources of the university to professional schools, and corporations, on the Illinois Research and Development Board (IRDB) campus. The professorship will enable IIT to offer a full-time teaching position at IIT WEST to a practicing engineer who will take a year's leave of absence from his or her company. Dr. Donald Toddrick, who is an electrical engineer and professor at IIT, founded Midwest College of Engineering in 1967 in Lombard. It was the nation's first engineering college to have a faculty composed entirely of practicing professionals.

The professorship will be open to engineers who have a vital role in engineering education, said Dr. Weaver. "We believe that engineers bring a unique perspective to our engineering students that is not found in textbooks. The Toddrick professorship will enable us to employ working professionals to teach at IIT and be based on our current practice and future needs," said Dr. Weaver.

Rostker elected to IACAC post

Illinois Institute of Technology's Associate Director of Admissions, John J. Rostker has been elected to a second term as president of the Illinois Association of College Admissions Counselors (IACAC).

As president-elect, Rostker succeeds Regina Marley, co-founder and consultant of the college counseling firm of Nagle and Marley, in 1980. The whole outfield is returning from last year. Sophomore Hiro Nagasawa and senior Brian Brancato return from the outfield. Senior Greg Floris will play right field, after a successful season last year. Utility infielder Tom Walsh returns to add depth to the team. Sophomore catcher Angel Oviedo will be batting for the starting catcher spot after playing backup last year.

New Alumnus advances

Elizabeth A. Byrns, a resident of Upper Montclair, New Jersey, has been promoted to vice president in manufacturing Hanover Trust Company, in the fields of Technology, Facilities, and Support Services Division. She serves as corporate resource for all matters relating to artificial intelligence technology, in charge of the bank's Strategic Technology Review.

Volleyball

Behind the plate, Jim Schottel batted .330 and Greg Pastorek .305. The team broke seven school records last year. Cacciopea had a career hit record with 164. He still has one year left to improve this number. The team also broke the club record for doubles, 46. Dennis Piche had 43 home runs, and 176 RBIs. The team also broke the club record for stolen bases, 73. Bob Flyley led the team in home runs with 8 and had 30 RBIs, as he led the team to victory.

Introducing Feedback

By Kevin Smith

When you get right down to the basics without the fluff for the most part never get a chance to read what we really want to talk about. Sure we know the latest scoop from the TechTalks or the increase on the IT’s tuition. But we seldom get a chance to choose our own topic of discussion. With the help of Tech News, I am now offering all students, faculty, and staff the chance to talk and read about what we consider noteworthy news. This opportunity will come through FEEDBACK, the “To the Point” column where the readers take an active part in what they read in our IT community newspaper.

Now how does the average reader get to take exclusive advantage of voicing their opinions and answering their questions? That’s the easy part. There are two ways in which a reader can get their FEEDBACK reply across. The first way will be when I go out and investigate subjects and interview the IT community. The second way is even easier. Simply write down your questions and replies challenged in the Feedback column and send it to Tech News. The process is short, timeless, and that simple.

The impact of FEEDBACK is simple. We all have opinions and advice that we can share with each other. Showing your experience and thoughts can sometimes be beneficial to others who may be facing some dilemma. FEEDBACK isn’t an advisory column like “Dear Abby”, but if it helps you to understand the logic behind it, you can consider it “similar” to one.

Consider my part in the column as the coordinator of campus curiosity! I’m willing to cover topics ranging from the wild: campus parking lots, the residence halls, and nudes skirtings up, Keating Hall; the controversial, inter-racial relationships, on God and Religion really helps you, hidden racism on campus, comparison of engineering departments on other campuses, the humanistic: close friendships destroyed, having unexpected children while still in college, new horizons as freshman in college, and the death of a relative and how to cope with the pain. I’ve the largest staff working with me, the IT community. With this, the column can never be boring because it’s always of interest to us since we said it! So remember, you the reader are the writers of this column. Whether your opinions or questions are positive or negative, send them to Tech News FEEDBACK/attm. Kevin Smith. When sending in your comments, please write short replies (max 3-4 sentences). To start things up, next week’s question will be up to you. The question is...

Information.
Keep watching this space for further updates.
Concerts:
So you think it's all over, huh? They started classes and now there's nothing good to do. Wrong! Your local Union Board is having a free concert ... Yes, it's hard to believe ... a free concert in front of the HUB on Thursday, August 27 at 9:00 PM. The concert features the great music of Studebaker John and the Hawks and the Bog will be open to serve your refreshment needs. Presentation of Studebaker John and the Hawks is being co-sponsored by IFC and Techmate.

Films:
Molly Ringwold and her friends are having a bad time. She may suffer but she'll always look ... Pretty in Pink

Times: Thursday, August 27 at 5:15 PM
Saturday, August 29 at 7:00 and 9:30 PM

Place: HUB Auditorium

Next Week: Blind Date

If you want to join Union Board or just want to talk to some good folks, stop by the Programming Office or call us at 567-3086
There are a few cuts (like the children's sing-song of 'Starfish and Coffee') - a weak reprise of Around the World in A Day's psychedelia, but overall, Prince fans should take this album as a good sign.

**Sentimental Hygiene** - Warren Zevon on Virgin Records

In "Detox Mansion," Warren Zevon sings satirically about how he was freed of alcohol dependency. On this album, he has rescued himself from reliance on his usual line-up of L.A. session musicians - and, with a band from the members of R.E.M., has released the best album of his career.

A large part of Zevon's oeuvre has been mid-tempo rockers that tend to thin melodies and ponderous rhythms; of the three on this album, the title track and "Booming Boom Malfunction" are plotters (the R.E.M.'s Peter Buck). But apart from these exceptions - and the uninitiated, uninteresting (albeit competent) funk of Leave My Monkey Alone -- this LP is a winner. "Reconsider Me" and "The Heartache" are two of Zevon's most affecting ballads. "Bad Karma" is an infectious pop-rocker - perhaps the only un-serious sitar part in rock history. Add to this the full-throttle exuberance of "The Factory" and the Stones-style rockabilly rave-up of "Even a Dog Can Shake Hands" (co-written by R.E.M.) and you'll find that Sentimental Hygiene is good clean fun.

And speaking of R.E.M. . . .

**Dead Letter Office** - R.E.M. on IRS Records

This LP is characterized on the jacket as "a Compendium of Oddities Collected and B-sides compiled." Guitarist Peter Buck's liner notes say, "It's not a record to be taken too seriously. Listening to this album should be like browsing through a junkshop.

Fair descriptions, both - but, remember, the band in question is R.E.M. Although recorded "live to two track," their renditions of the Velvet Underground classics "There She Goes Again," "Femme Fatale," and "Pale Blue Eyes" are artful and noteworthy. They may have "just got tired of "Burning Down" and "Agas of You," but these early songs certainly deserve to be heard (ditto for "Window"). The surprisingly faithful remake of Aerosmith's "Toys In The Attic" is a reminder that, as Buck says, "If you grew up in the seventies you liked Aerosmith."

Brothers' with um, well, extemporaneous lyrical tunes, the "generic surf" music of a "generic surf" music of White Tornado," and an "alcohol soaked" medley of a commercial for Walters Bar-B-O and Roger Miller's "King of the Road." Dead Letter Office may, on the whole, be strictly for R.E.M. aficionados -- but then, there's no excuse for not being one.
Spikers looking good

The IIT Scarlet Hawk Women's Volleyball Team is looking forward to another successful season in 1987. Six players return from the 1986 team that finished with a 36-4 record, and will be joined by six talented freshmen.

"The key to our success will be blending our experienced players with our newcomers," said coach Chris Melancon. "We are working on trying to develop a strong unit.

Senior Co-captain Jannette Kuts will be at setter in the Hawk lineup. She has been a starter for the Hawks since her freshman year and will be called upon to provide team leadership. Cathy O'Riordan, also a senior Co-captain, is a two-year recipient of the Schomer-Wilson Award for Excellence in Athletics and Science.

Sophomore Mandy Cerny and senior Linda Hand are outside hitters who have enjoyed successful freshman seasons. Cerny was named the conference Rookie of the Year and both players were named to the all-conference team.

Sophomore setter Toni Worley was the 1986 Most Improved Player for the Hawks. She will challenge for a starting position and can also be counted on as a strong server and passer. Diane Bonner is a sophomore defensive specialist and outside hitter who has shown a great deal of improvement during the season and will be called upon to provide strong passing for the Hawks.

Six freshmen join the Hawk roster this season. At the middle hitter position, the Hawks will be counting on Liz Claboudt, Tracey Leonard, and Sarah Verduin. Claboudt is from Effingham, Illinois and was a member of the All-Conference team for three high school seasons. She also has two years experience playing for the Twin City Volleyball Club. Leonard was the Most Valuable Player at Leamont High School in 1986 and was a member of the All-Conference and Southtown Section All-Area teams. Verduin was the Most Valuable Player at Flint Central High School in Michigan last season and was also chosen for All-City and All-Region honors.

Beatrice Stevenson is an outstanding hitter from Carpentersville, Illinois, and was the Most Improved Player at Dundee-Crown High School. Margaret Pursell is a left-handed outside hitter from Mokena, Illinois, and was on the All-Conference team at Providence High School. She also played for the Spikers Volleyball Club for three years. Ruth Slaworski was a member of the volleyball team at Wheeling High School and was chosen to the All-Conference and All-Area teams. An outside hitter and setter, Ruth also received the

The 1987 IIT baseball team completed last year with one of the best seasons in school history, breaking seven school records on the way to a 26-11 record. This was enough to receive an NCAA District 20 tournament bid where the Hawks were rolled 3-2.

The Hawks also took 2nd place in the Chicagoland Collegiate Athletic Conference with a record of 7-3. They lost the championship game to St. Xavier 9-1. St. Francis College finished third, followed by Olivet Nazarene, Lewis University, and Northeastern Illinois University.

Four players were named to both the All-CCAC and All-District 20 team, which covers the state of Illinois. Centerfielder Jack Cacciolopa, Shortstop Chris Konecki, firstbaseman Chris Malczewski, and pitcher Paul Nykaza received these honors. Cacciolopa broke the school hit record in only his third season with 164. He led the team in hits (51), runs (30), RBIs (31), doubles (9), walks (21), stolen bases (9), batting average (.432), slugging percentage (.635), and fielding percent (.993). Konecki finished the season batting .329 and did a good job moving from third base to shortstop last year. He had the team's longest hitting streak, hitting safely in 12 straight games. Malczewski batted .381 and was very strong defensively at first base. He led the team with 6 game winning RBIs, tied for the team lead with 9.

The 1988 IIT baseball preview is beginning to prepare for another exciting season. The team is returning all but three players from last year and has six good recruits to improve on last year's excellent season. The Hawks lost the services of catcher Bob Rieley, pitcher Kevin Hynes, and pitcher Chris Lindley to graduation. Returning from last year are all district award winners Jack Cacciolopa in center field, Chris Konecki at shortstop, Chris Malczewski at first base, and Paul Nykaza on the mound. All are seniors this

87 IIT baseball season preview

Before you choose a long distance service, take a close look.

You may be thinking about choosing one of the newer carriers over AT&T in order to save money.

Think again.

Since January 1987, AT&T's rates have dropped more than 15% for direct-dialed out-of-state calls. So they're lower than you probably realize. For information on specific rates, you can call us at 1 800 222-0400.

And AT&T offers clear long distance connections, operator assistance, 24-hour customer service, and immediate credit for wrong numbers. Plus, you can use AT&T to call from anywhere to anywhere, all over the United States and to over 250 countries.

You might be surprised at how good a value AT&T really is. So before you choose a long distance company, pick up the phone.
