Audition for Busch Gardens shows

For those people who believe there is no business like show business, that big break might be just around the corner.

Talent scouts from Busch Gardens, The Old Country, in Williamsburg, Va., will hold auditions here on Saturday, Nov. 14, 1987 from 12 noon to 4 pm at The Knickerbocker Chicago Hotel, 133 E. Walton Place as part of the Europe-themed park's 19-city annual search for actors, technicians and stage managers for its numerous entertainment offerings.

Busch Entertainment Corporation's Entertainment Director Joseph G. Pezzi is sending his Williamsburg entertainment staff to look for talented and versatile singers, dancers, musicians, actors, actresses, variety artists and stage technicians and managers to fill more than 250 positions at the park during the 1988 season.

“Busch Gardens is truly a stepping-stone for the kids that perform here,” said Pezzi. “We have an established reputation as a leading ‘try-out system’ for the high-powered reached of Broadway, television, stage and motion pictures. Not a year passes without one of our former performers hitting the big time—this year it was Michael Maguire, who won a Tony for his role in the Broadway musical ‘Les Miserables.’

“Busch Gardens alumni who have built their experience to win major roles in the entertainment industry include Starr Underwood, a former ‘Hats Off to Hollywood’ and Country Show performer, who is joining the ‘L.A. Law’ cast as an entertainment lawyer this fall, and Lagena Lookabill, another former ‘Hats Off to Hollywood’ performer who went on to perform on television programs such as ‘A-Team,’ "Claye Like a Fox," and "Magnum PI."

Busch Gardens features eight mainstage productions, from a Broadway-style review to German, Italian and country-themed shows, as well as strolling street character and variety entertainment.

‘Performers should be 18 years of age or older by June 1988 and be available for full-time employment during the three, seven- or nine-month seasonal entertainment periods. Auditions are conducted on a first-come, first-served basis, with performances limited to one to one-and-half minutes. Performers should be prepared to present additional material upon request for call-back auditions, which will be held immediately following scheduled auditions. Call-backs are only required for certain shows.

Singers should prepare both an up-tempo and ballad song and have music prepared in the correct key. Some type of accompaniment is necessary for all performers—an accompanist will be available for singers who bring sheet music and a cassette player will be provided for performers who bring recorded music. No lip syncing will be permitted during auditions.

Dancers should prepare a short dance that demonstrates their most proficient style. Tap dancing talent is necessary for Busch Gardens shows, but will not be acceptable for audition purposes. A cassette player will be the only accompaniment provided for dancers.

Musicians should prepare a short piece demonstrating their best technique and sight-reading ability on one or more of the following instruments: reed doublers (sax, clarinet, flute, clarinet, trumpet, trombone, baritone, tuba, etc.)

HUB catches the wave

by George Jawny

The soda sold in Hermann Hall will soon be changed from RC cola to Coca-Cola. The changeover should occur within the next two weeks.

Russ Johnson, the director of Hermann Hall, stated that “we are always ready to increase the quality of our products. No matter how good something is, there is nothing that can’t be improved.”

He added that Coke is a more nationally recognized brand than RC and dispensing equipment is more convenient.

Bag-in-box containers eliminate the old canisters on the floor method for making a cleaner operation. A random sampling of students was given a choice between Coke, RC, and Pepsi. The majority of those asked said they would prefer Coke.

The HUB cafeteria and the BoG will offer a variety of Coca-Cola products such as Coke, Cherry Coke, Hi-C, and Minute Maid. The number of beverages available will be increased by the addition of two more dispensers.

The IIT Jazz Band rocks the Bog every Tuesday night at 9:00 P.M. Admission is free.

STUDENT GOVERNMENT AFFAIRS

Nominations

Nominations for the positions of secretary and assistant treasurer will be accepted at the next student government meeting.

Next Meeting

The next student government meeting will be held on November 2nd in rooms 301 and 302 in the Hermann Hall Mezzanine.

COLLEGE BOWL

Win $125.00!!

December 2nd, 4:00 P.M. HUB Gallery Lounge
4 or 5 players per team; $10.00 registration fee or register yourself ($2.00) and we'll find you a team.
Pick up registration forms and rules in the student life or ATS office.
Registration deadline November 13, 5:00 P.M.
Needed: timers, scorekeepers, judges, moderators.
The winning All-Star team will match wits with the faculty on Thursday, December 3rd at noon.

THE BIG NEWS:
IIT will be hosting the College Bowl Regional championship tournament February 26-28, 1988!

For more information, call Ed Federmeyer at x3074
The president explains

Dear Ms. Richardson,

I would be dishonest if I did not tell you that after reading your letter, I decided not to continue reading the letters in the October 26 issue of Technology News. I was, perhaps, overly critical when I judged both Ms. Rubins and myself as inaccurate and my assumptions represented such an invasion of privacy, however, I thought any response to single letter was unnecessary.

The fact that other students were concerned with the same concerns, leads me to believe that some of the questions Mr. Milsky raised, has caused me to reconsider. Four major concerns arise because all three in letters: communication; communication; budgeting; particularly the allocation of tuition, campus safety and maintenance; and academic activities. The issues that these letters raise prove that communication on this campus is inadequate. I have learned in five months as president that if we are to capitalize on our individual abilities, we must also function as a team. We students, faculty, and staff must freely and openly share our concerns and ideas with each other. It is in our mutual interests to raise the other’s strength. If we don’t, we will stifle our university’s growth.

We need to do more than write letters back and forth, because student input is essential. Meetings with students will not solve our communication problems, lack of faith in formal avenues such as the commissitees on student life and campus security provide evidence of our concerns. But sometimes there is a breakdown in communication which results in lack of faith in formal avenues such as the commissitees on student life and campus security provide evidence of our concerns. But sometimes there is a breakdown in communication which results in lack of faith in formal avenues such as the commissitees on student life and campus security provide evidence of our concerns. But sometimes there is a breakdown in communication which results in lack of faith in formal avenues such as the commissitees on student life and campus security provide evidence of our concerns. But sometimes there is a breakdown in communication which results in lack of faith in formal avenues such as the commissitees on student life and campus security provide evidence of our concerns.

The quality of IIT's academic programs in Number 1 priority. Tuition and other nonrestricted have been cut out of the budget. There is no way to make up for the loss of money so that IIT can continue to attract the very best students and faculty.

As an attempt to bring back some students and faculty to make up for the loss of money so that IIT can continue to attract the very best students and faculty.

Now that it appears to be too late for the student government to be helpful in the name student government

The official name of student government is the Academic Technology Students (ATS). I prefer to call student government just Student Government. I would have preferred a new name for student government. I would have also changed the name of ATS to SGA, please understand that the new student government is NOT SGA

Second, some of you might not realize that a direct link between the Pledge and the administration exists. That link is student government (which I will refer to as SG from now on). SG has responsibility to make sure that the administration needs student input, go, as it should, to SG. SG provides a student voice to the university and the administration. The input from the students comes from the discussions at Student Government meetings. SG's proposals are not at those meetings, but are reviewed when your opinions and concerns are not voiced.

As an attempt to bring back some students and faculty to make up for the loss of money so that IIT can continue to attract the very best students and faculty.

Student Body President

James Kiriazes

Comments on Tech Expo

Tech Expo has always been an excellent method for IIT students to explore new technologies. This year, Tech Expo will be full for time, summer, and co-op employment. In the past, the students have always been very successful in achieving this goal. This year’s Tech Expo is no different. The students have been very successful in achieving this goal. This year’s Tech Expo is no different. The students have been very successful in achieving this goal. This year’s Tech Expo is no different. The students have been very successful in achieving this goal.
HELP WANTED

STUDENT WAITERS, WAITRESSES, AND COUNTER CLERKS FOR NOON AND DINNER MEALS.

EXPERIENCE HELPFUL . . .

BUT NOT NECESSARY

APPLY: Hermann Hall
SEE: Eric Sampson
INFO: Call 3059 or 3075
ThermoChem
The Chemistry colloquium, titled "High-Temperature Thermochimistry of Refractory Transition Metal Compounds," will be given by Dr. O.J. Keppa of the University of Chicago on Wednesday, Nov. 4, 1987, at 11:30 Wniosk County Hall. All interested students will receive a copy of data on the crystal structures of compounds formed between two transition metals. Information on their thermodynamic properties is scarce. Frequently even the phase diagram is missing. The reasons for this relate to the fact that many of these compounds are very refractory and cannot be studied by traditional methods.

Recently, a new method was developed, "high-temperature mass spectrometry," which has proved very promising in thermochimical studies of very refractory materials such as borides, aluminides and intermetallic compounds. Some applications will be discussed with emphasis on recent work on equilibrating intermetallic compounds formed between early and late transition metals. Refreshments will be served at 3:00 p.m. in the Wniosk County Hall Lobby.

IEEE/HKN/TBP
A speaker from the business Administration will deliver a presentation to all members of Elta Kappa Nu, IEEE, and Tau Beta Pi at 12:30 p.m. Thursday, Nov. 12 at the Auditorium. Refreshments will be served.

ECE Jrs & Srs
The semi-annual 400 Level Preview will be held Tuesday, Nov. 10 from 12:30-1:30p.m. in Siegel Auditorium. Instructions for next semester's 400 Level ECE courses will describe what their classes are about. Everyone is welcome to attend. Remember-pre-registration begins the same week.

Get Out
Applications for graduation are currently being accepted from students who intend to complete their degree requirements in May, 1988.

Undergraduate students may file an "Application for Graduation" card in the Office of Educational Services, Room 202, Main Building.

For the convenience of those undergraduate students already working on graduation, application for graduation cards may be obtained through the mail by calling the Office of Educational Services at 587-3800.

Graduates will sign up for "Application for Graduation" card in the Graduate Records Office, Room 201, Main Building. Deadlines are Friday, Dec. 13, 8:30 a.m. to 4:30 p.m., or in their respective departments.

The deadline for filing applications is Friday, Jan. 26, 1989. Applications received after this date may be considered as applications for an August, 1988 diploma.

Blood
Did you miss the first blood drive of the semester? Well, here is your second chance to donate! Navy and Air Force ROTC will be sponsoring a blood drive on Monday, November 9 in the HUB Ballroom from 10 AM to 5 PM. Sign up for donation times will be held on November 3 and 4 in the downtown Ballroom and on November 3 and 4 in the HUB.

The Gift of Life
The Fall 1987 campus-wide Blood Drive at 11:30 AM on Monday, Nov. 9 from 10 AM to 5 PM in Henneman Hall Ballroom.

The gift of life is a precious gift. As a member of the HUB community, you have an opportunity to save lives.

The Good Word
A worthwhile encounter with a group of faculty and students involved in "The Bible and You Today" to consider the substantive content of St. Paul's letter to the Romans. Register Monday November 9 at 12 noon in the window of the Office of Room of Herrmann Hall (SW corner of the HUB). The IIT community is invited.

Chapel Eucharist
Sunday Chapel Service of the Word and Holy Communion is offered again on Nov. 11 at IIT Chapel at 11:30 AM. All IIT students, faculty, and staff are invited to share spiritually and appreciatively, in and through the Eucharist, the presence of God. Oct. 11-17, 1987, IIT Chapel.

Get it Write
If writing answers to essay questions is a problem, if there's more in your head than gets on the paper, the Writing Clinic can help. How to answer essay questions successfully. If you are an IIT student, the Clinic offers one-to-one tutoring sessions to help you study for tests, understand reading assignments, and write exams and papers. Sign up at 11 AM on Monday, Nov. 9 for an appointment, or call x348 to make one. Students whose native language is English should sign up with Dr. Freel, room 200, Main Building, and students whose second language is English should sign up with Ms. Susan Sherman, office in 165 J.

Mock Interviews
The Society of Women Engineers and the National Society of Black Engineers will be holding Mock Interviews on November 11, 1987, in the HUB Ballroom.

UCBS
Core share your ideas at the UCBS general meeting, Thursday at noon in the HUB Mezzanine.

TechMate
This week's Chat-N-Chew is with the deans of IIT. You must register to attend. It is your chance to meet the Dean of your College and have lunch with him. Also, make sure you sign up for the trip to the Museum of Science and Industry's Mecatix Theater with dinner afterwards.

Porsche
Peter W. Schutz, the IIT ME graduate of '52 who is now president of Porsche AG in West Germany, will receive the Henry T. Heald award on November 18. In honor of the occasion, 20 Porsches will be on display in the HUB on November 17-19. Schutz will deliver an informative talk for all IIT students on careers in the automotive industry and a question-answer session. This talk will take place at 5 PM on November 17. Students can sign up for the event on Thursday, November 9 and Thursday, November 15 at 11 AM and 1 PM in the HUB. Schutz will speak at 11 AM on November 17 and 1 PM on November 18. Sign up for one of the events. Porsche posters will be given to the first 200 people who sign up.

TechMate

The Black Student Advisory Council will be meeting next week on Tues., Nov. 10 at 12:15 pm to discuss current issues and concerns of the student body and how these student concerns are met. All black students are strongly urged to attend to voice your opinions and suggestions on black student enrollment at IIT, financial Aid, Campus Life and black students involvement, black student retention, and more. Contact Janis or Kevin S. for more information at x3804.

ACM Data
The Association of Computing Machinery will host its next meeting on Nov. 10, 12:15 in Stuart Building room 111. What are we doing for you today? Would you believe: 1) Getting a reading/study room for Computer Science students with past and current manuals, 2) Developing a software library for members, 3) Mid-semester evaluations of CS Courses, 4) A newsletter of current IT/Computer Science Dept., issues, 5) Guest speakers on current CS topics. 6) A tutorial system for most CS courses.

BSAC
Hey, since I'm running out of space (and ink), just come to the next "ACM Meets" and find out more. Just look for the "Goodies with a class!"

piano/synthesizer, bass, electric and acoustic guitar, keyboards, cornet, cello, banjo, classical violin and country fiddle, traps, marching bass drum and cymbals, sousaphone, accordion, and hammer dulcimer.

Students should prepare a one-minute comic monologue only. Ethel Galewitz are especially sought, with an accent. "Spanish, English, Cockney," French, German, Italian and Slavic. Ability in the art of tennis, track and field, and creative movement are also needed.

Variety artists, such as mime, juggler and puppeteers should prepare a routine demonstrating their versatility and most proficient skills. Magicians proficient in close-up and comedy magic are also encouraged. A selected group of 15 to 20 students will be chosen from the 250 who auditioned. Additional information will be sent to those selected.

Travel and expenses will be covered by the company. Please call or write for additional information.

November 2, 1987

We are also actively seeking a way to recognize and reward faculty who make students' first priority, bill by teaching at the front of a classroom, reorganizing the curriculum, or creating new opportunities for students to participate in research.

All matters that affect life at IIT's campus are recognized as my responsibility, issues relating to campus housing, security, and physical plant, for example, will be addressed by the staff directors who oversee those areas. The other members of the administration team will address areas under their purview.

No university president can lead by fiat or know in detail everything that happens on campuses with 9,000 students, 600 faculty, and 500 staff members. But on issues of critical concern, I want to strengthen our ability to listen and take decisive action.

There is a lot of good at IIT came here because of a demonstrated intellectual ability among students, faculty, alumni and all the others associated with the university, I want us to move forward together in a positive fashion, and look forward to your input and participation in shaping not only this institution's future but equally important, its today.

Yours sincerely,
Kerry Feldberg

and, bulletins. These costs increase each year. In 1986, for example, the university's insurance premiums rose 50 percent. And particularly at a technology-intensive university like ours, laboratory equipment must be updated and new labs created all the time. You should have the information about where your tuition dollars are allocated. I look to the Student Life Committee to assist me in determining how to best communicate information.

Research grants and restricted gifts are university income that must be used for the purposes designated by the donor. For the inauguration, for the library renovation, and for the sculpture "Man on a Bench" fall into this category. In the case of the sculpture, IIT received a $150,000 grant from the Ferguson Fund of the Art Institute to commission the sculpture. Gifts from Banner Contracting Company and from the United States embassy-at-large for cultural affairs, the Honorable Daniel J. Terra, made the installation possible. The foundation guidelines stipulated that the $150,000 gift must be made directly to the university. Then, the university issued the checks to the sculptor. It is easy to understand why, with partial information, conclusions are incorrectly drawn.

Campus safety is 61 paramount importance to me. Everyone in the university is concerned about issues of security. Unless this campus is safe throughout the day and night, it is clear that IIT will not retain the highest caliber of students and faculty. Since my arrival, we have hired a new security director. We have increased the budget for security by 22 percent. Five new additional security officers have joined the campus police force. Improved lighting around the campus is a priority. New lights are scheduled to be installed by the west side residence hall dining area, and we are seeking bonding authority to raise funds to install lights on Wabash Avenue from 31st to 34th Streets.

My goals for this university, on both sides of the aisle, can be stated quite simply. I want to make IIT a university known for its intellectual climate. I want to you to be exposed to the best possible educational programs and to the university's best minds. I want your education to inspire you to become a leader in the years to come. I want you to make a contribution to the society around you.

A strong core program and increased concern for student welfare are those issues I wish my administration to be known for. Programs like Project Hawk, designed to bring students into closer contact with faculty in their major area, are important new initiatives. Additionally, I am committed to strengthening programs and job placement opportunities for upperclassmen.

Making sure that you have enough computers of the right kind is another challenge we are addressing. Since I became president June 1, we have added ED PDP, 20 printers and plotters, 20 AT&T 7300s, and 5 Macintoshes to our computer resources as well as spending $400,000 on the university's first computer and $200,000 for a new Prime computer.

Yours sincerely,
Kerry Feldberg
Tau Beta Pi convention held

The Tau Beta Pi National Convention 1987 was held in Louisville, Kentucky from October 25-28. Tau Beta Pi is the National Engineering Honor Society. Each year it holds a convention which is attended by officials from all of the collegiate and alumnum chapters. Official convention delegates have voting rights on behalf of their chapters. Other officers and members of Tau Beta Pi from various chapters also attend the conventions.

Our own IIT chapter, Tau Beta Pi-Illinois Beta, was represented by its president, Irfan A. Essa, Dr. Thomas Corke, the chief faculty advisor of the chapter also attended the convention. On their return they were very satisfied with the success of their trip to Louisville.

The convention was very well organized, helpful and entertaining for all who attended. Committees were formed to discuss and make proposals on issues that were discussed in advance. Each official delegate was assigned to one of these committees. The committees included a petitions committee to deal with the petition of Tau Beta Sigma, the engineering honor society of the University of Pacific California, to become a Chapter of Tau Beta Pi. The site selection committee dealt with the official delegate finances for the convention. The resolutions committee worked on the convention resolutions and the awards committee debated over the criteria for awards such as the most outstanding and most improved chapters. The constitution and bylaws committee discussed the amendments in the constitution and bylaws of the association.

All of the committees made recommendations or motions on the convention floor. The convention was run according to Robert’s rules of parliamentary procedure. All of the above was heavily debated and discussed at the business meeting. The motion to accept University of California as a new chapter was accepted unanimously. The site selection and constitution amendments were heavily debated but New Mexico was selected for the site of the 1988 convention.

Secretary commendations were awarded to chapters that had completed all paperwork and met all of the deadlines. Outstanding chapter awards were also given and the three Tau Beta Pi Laureates were honored. The most outstanding and most improved chapter awards were also presented.

In addition to the official business chapter operation seminars were held. Delegates were assigned to a group with chapters having similar sizes and other features so they could discuss problems and share ideas. Leadership seminars were also held.

IIT is in District 8 which includes Wisconsin, Illinois and Indiana. A decision was made to hold the spring district B conference in Madison Wisconsin on April 16, 1988 during the convention.

Overall the convention was a great experience for all those who attended. Many are looking forward to the next convention which will be held in Ames, Iowa.

Messler wins a pineapple

Senior Mike Messler won the swimming Pineapple Meet for the 4th year in a row last Thursday with a perfect score of 25 points. Mike won his specialties, the 100 and 200 backstroke and the 50 yard freestyle. Mike also showed his versatility by winning the 100 yard butterfly and the 200 yard breaststroke. Mike is now the only varsity swimmer to ever win the Pineapple four years running.

In second place with 19 points and 2 first places was sophomore standout Troy Leaf. Troy had victories in the 100 and 200 yard freestyle events as well as second places in the 100 fly, 200 individual medley, and the 500 yard freestyle. Leaf's time of 1:54.5 in the 200 free win was especially fast for this early in the season exclaimed Coach Marutch.

Tied for third place was Junior David Hathaway, with victories in the 500 and 1000 yard freestyle, and Freshman Kenneth Zuber who won the 200 yard individual medley and 200 yard butterfly.

Other first places went to Kit Koenig, a freshman who swam both diving events, who was fifth in the total standings. The other only first place winner was Matt Fernandez who won the 100 yard breaststroke.

This coming Saturday the Pinapple Meet will be held in New Mexico.

Now that you’ve gotten into Illinois Tech, IBM can help you get more out of it.

The road to graduation is paved with term papers, lab reports, cramming, all-nighters and, of course, exams. To ease that journey and awaken your professors to your exceptional abilities, we suggest the newest member of the IBM® Personal System/2® family: the Model 25 Collegiate.

It’s a high-powered personal computer with advanced graphics capabilities, designed to fit on your desk without adding to the clutter. And it comes with a generous 640 KB memory, two 8.5" diskette drives and an aid package every student can appreciate—a big discount, plus Windows? 1.04, Write, Paint, Cardfile, IBM DOS 3.3 and a mouse.

Pop in the boost-and-go diskette and your Model 25 Collegiate is set to help you write and revise long papers and illustrate your points by creating maps, charts and graphs. So your professors will draw favorable conclusions about your work.

For more information on the Model 25 Collegiate, visit the IBM Education Product Coordinator on campus. You’ll quickly learn how to get the most out of the IBM Personal System/2®.

Volleyball playoffs approach

The IIT Scarlet Hawks Volleyball team finished in second place in the Chicago Collegiate Athletic Conference Tournament, losing to College of Saint Francis in the championship game.

The Hawks defeated the National College of Education’s University Kuta, Megan Regan, Kim Whalen, and Tracy Leonard were named to the conference team. IIT’s record is now 50 wins and 10 losses, and the Hawks are seeded third in the NAI-A District 20 playoffs. The opening round of the district playoffs are at Tuesday, Nov. 3rd, 7:30 at Keating Hall. Be there to cheer for the Hawks!

Volleyball players of the week

The Volleyball Players of the Week are Captain Cathy O’Reardon and Freshman Margaret Purcell. Cathy has contributed greatly to the success of the Hawks with consistent play as an outside hitter and backcourt specialist. Margaret, a left-handed hitter, has shown great improvement in recent matches and has several spikes from the front and back row.

I.M. Football

On Tuesday, October 27th, the “Black and Blue Crew” champs of the AFC Conference defeated the winners of the NFC Conference in the Super Heteronteries’ 12-12 to capture the I.I.T. I.M. Football Super Bowl championship. This was a battle of the unbeaten and marked an end to the I.M. football season. Congratulations “Black and Blue Crew”!
