Prowler stalks halls

Approximately one month ago several incidents of criminal trespass took place in the residence hall complex. The incidents occurred in a two-week period around September 25th when large numbers of students were home. In that particular case, a resident in Fowler Hall was assaulted by an unknown assailant.

The assault occurred at approximately 2 a.m. The victim in Fowler Hall was in her room when the assailant knocked on her door and asked for someone the student didn't recognize. When the student opened the door to see who was there, the intruder forced his way into the room. The victim struggled and the assailant struck her head on the door frame and was knocked unconscious.

When she regained consciousness, the assailant had fled. The student then immediately notified her Resident Advisor of the incident. The campus police and the Chicago Police were brought in to investigate. As a result, campus security patrols in the residence halls have been increased.

After this incident occurred, the IIT campus police discovered that a man matching the assailant's description was seen in the residence halls on at least two other occasions. The sightings were never reported to campus security. There were no reports of thefts or missing items at any time, including after the assault.

Commander Larry Gaddis, director of security at IIT, emphasized how important it is for students to report any incidents or even any suspicious activity. He stated that if someone had reported the intruder to security the first time he was seen, he may have been apprehended before being able to attack another student. As for not reporting incidents at all, Commander Gaddis said

Siegel burglary foiled

Earlier this semester, two students were apprehended while breaking into the Electrical Engineering department in Siegel Hall. They were attempting to steal various items from the building, including a personal computer, monitor, and printer. The students were arrested by the Chicago Police Department and charged with burglary. All of the items taken were recovered after the arrest. The students were released after posting bond. Although pre-trial hearings have been held, the identities of the students have not been released pending their trials.

More loan problems

WASHINGTON, D.C. (CP) — Students who go to colleges where the student loan default rate is high may be cut off from guaranteed student loans in the future. If a bill introduced in Congress last week becomes law, the Reagan administration introduced a bill that would drop colleges that don't pursue defaulters hard enough from the Guaranteed Student Loan (GSL) program.

Efforts ranging from ticketing defaulters' cars to withholding income tax refunds have not helped lower the number of defaulters from certain campuses, explained William Kristol of the U.S. Dept. of Education.

"It really is a disgrace, with schools with 60, 70, or 70 percent default rates," he said. "The department's figures show that about 3,000 of the 8,000 schools participating in the program have a default rate of more than 26 percent. More than half the students in college today, of course, get some kind of financial aid, and the GSL program is the most pervasive kind.

Without more, GSL funds, many schools - particularly private trade or vocational institutions - would have to close, as did the 3 campus Adelphi Institutes when its GSL funding was suspended earlier this fall.

The trade schools will announce recommendations for lowering the default rates by their students soon, Christopher Davis of the National Association of Trade and Technical Schools said in response to the bill's introduction Oct. 20.

"The concern is that the students who would be hurt the most are the ones who have the least access to education," said a House Education committee member.

The schools with the highest default rates include the private trade schools and community colleges and predominantly black institutions.
W.I.S.E. IS LOOKING FOR A FEW GOOD WOMEN

The Women in Science and Engineering Program is looking for women who are interested in becoming teaching assistants. WISE introduces the concepts of science and engineering to high school girls, and is looking for women science and engineering majors who would enjoy working with high school girls to encourage them to enter these fields. If you are interested please pick up an application from the WISE office, Room 127, Perlstein Hall.
A reply to ‘Two Senior M.E.s’

It would seem that some people do not have a firm grasp on the concepts behind Tech Expo and the minority organizations. It is said that this is the case since it breeds the very discrimination that these people are concerned about. I am concerned about this lack of knowledge since it seriously impacts the judgment of fellow students.

As a non-Latino LIFE member (sure, it’s my first semester as one, but I AM one) I believe that I am more informed about the action at Tech Expo than a certain pair of M.E. Students.

First of all, Tech Expo was conceived and developed by UCBS and has been around longer than most undergraduate students attending here. It was designed to represent minority students who otherwise may not be able to contact prospective employers. The fact that it is open to the general student body is more of a courtesy extended by UCBS than it is a right. Student organizations can hold any type of closed event that they wish, ranging from a New Year’s party to something like Tech Expo.

Since Tech Expo is normally run by UCBS, LIFE was quite happy to be accepted as a co-sponsor for this semester’s Tech Expo. Unity in the making! LIFE has its own views on Tech Expo and they will be aired in a different forum so I will gloss over that here.

Now that I have given a very basic background (as I see it), perhaps I can answer the “Why Didn’t I Get To Interview At Nine O’clock” question. That one is too simple to get wrong even if you don’t have all the information.

Those two students mentioned above have correctly answered the question but persist in questioning the answer. Of course the sponsoring organizations get to exercise some special privileges. I’m sure that most people would like some return on their investment of labor.

These two students go on to state that “...it is not generally understood that membership into organizations such as UCBS and LIFE is non-exclusive.” They go on to state that the titles of these organizations are the irritants. Only the foolish take titles at face value. “You can’t judge a book by its cover.” As for motivation, it is there starting at you. If you were so inclined to join an organization just to take advantage of the perks that LIFE and UCBS enjoyed at Tech Expo.

“Aha!” you shout. “Why did you join LIFE, Non-Latino?”

Simple. I have friends that span many nationalities and I believe in getting involved with their activities. Am I strange, or what?

As I wrote this, I came across another little snippet. It seems that some of the advertisements for Tech Expo weren’t quite right. The mix should have stayed at 10:00 start time instead of 9:00 am. Maybe that little ambiguity is the cause of this racket...

David Schmitt

No more Explanations

In response to the recent letters about Tech Expo and any that may come in the future:

The sponsors of Tech Expo have taken several opportunities to enlighten the IT community about the history and objectives of Tech Expo. If any more explanation is needed, interested readers may refer to the following Technology News articles, the most recent being October 14, 1985, October 27, 1986, and February 8, 1987.

If any more information is wasted, any curious person may contact the executive offices of Tech Expo’s primary sponsoring organization: the Student National Technical Association.

(NOTE: Pay attention to the letter of the organization.)

Signed,

SNTA
high-tech industries produced a trade surplus of $27 billion. That surplus dwindled to $3 billion by 1986. Estimated figures show a deficit of $26 billion. The significant increase in imports that chemically based products are a mainstay of one of the few segments of the South Korean economy to show a vigorous, positive balance of trade. The race is on in high technology. Advanced materials, biotechnology, specialty chemicals, and computer-assisted chemistry and biology are essential for the continued vitality of American industry and, consequently, for American science.

The challenge for chemists, and for the nation’s policy makers too, is to realize that chemistry, the molecular science is at the heart of this new technology thrust. Full use must be made of this powerful science to achieve a stronger nation, more healthy, longer, healthier, more productive, more gratifying lives.

Let’s talk Greek

the graffiti on the “EI” tracks, and helped chaperone a Halloween Party and Haunted House on campus.

Trapped

we feel that pledging Delta Phi Epsilon has enhanced his first semester at IT. The Greek System encourages pledges to do well in school first and foremost, and by working to fulfill the pledge requirements, the pledges learn to work together, to manage their time, deal with all types of people, and make lasting friendships that provide support and encouragement throughout their stay at IT.

Win money writing a recipe

College students can win thousands of dollars in scholarship money by creating a healthy recipe that uses Sweet ‘N Low and can be prepared without a conventional kitchen.

The “Sweet ‘N Low Grand Prize” is $5,000, $2,000 and $1,000. University college or culinary school employees who are members of The National Association of College & University Food Services are also eligible to win.

Win $5,000 in scholarship money for their schools to be used for education or training.

The recipes must be suitable for preparation in a residence hall room using only small appliances such as a toaster oven, blender, wok, compact microwave or small refrigerator. They will be judged on the basis of healthfulness, taste, originality, ease of preparation and appearance.

Posters with entry forms and job applications are sent to food service directors at more than 600 colleges that are members of The National Association of College & University Food Services. Entry forms are also available by sending a self-addressed stamped envelope to Sweet ‘N Low Grand Prize, c/o London Drugs, 4061 Southdown Road, Decem- ber 15, 1987 to Sweet ‘N Low Entry Form, P.O. Box 1901, New York, NY 10016.

The United Way

The best decision for millions of businesses, educators and home users.

Quality.

Suitable performance in our design objective. Our respected names have produced utilizing our proprietary technology. The competition must be the same now braces.

Why Tandy computers?

Because there is no better value.

Compatibility.

Our MS-DOS based computers are the best-selling PC's in the world. Tandy's OS version based business systems are OS/2 ready as well.

Technology.

Innovative design, custom circuitry and proprietary technology make our computer more than just clones. Yes, every Tandy desktop computer is designed and built by our own Tandy manufacturing facilities.

Connectivity.

Tandy PC computers can be interfaced with a wide variety of commercial and mainframe computer systems.

Longevity.

Technology has been our business for sixty-six years. Tandy will be the first company to successfully manufacture and market a personal computer.

Tandy Computers: Because there is no better value.
Rise in student voluntarism
by Mike O’Keefe

(CPS) - Few college students choose to spend their vacations in the New York’s South Bronx section. The rubble-strewn streets of one of the nation’s worst urban slums offer crime, ignorance, and a lifestyle far removed from comfort.

But a handful of Brown University students have spent their last 2 summers vacations in the South Bronx, clearing away arson-charred rubble and trash from an abandoned lot and building a community park and garden.

It’s happening elsewhere, too, more college students stereotyped earlier in the decade as the “me generation.”

University takeover attempt

ATLANTA, GA (CPS) – Playboy Magazine’s 1986 ranking of Mercer University–Southern Baptist institution – as one of the country’s best party schools last week led to a large student rally against what the students say is a struggle for control of the school.

An Atlanta businessman has tried to get the Georgia Baptist Convention to oust the school’s board of trustees because they allegedly have let the campus stay from rigid disciplinary rules.

Mercer President Raleigh Kirby Godsey called the takeover attempt “political fundamentalism.”

Still, even a Plough article and, other reports, evidence of filthy language, low photographs, heroes, student drunkennes and sexuality explicit material, businessmen and fundamentalist Baptist lawyer Lee Roberts sent out an open letter to Baptist pastors. Mercer faculty members and parents of Mercer students criticizing the campus.

Robert's charges were “simply nonsense,” Godsey said. “We have what we have here is a movement of wanting to take control of the affairs of the university in order to dictate what is taught, in order to control who teaches it, in order to control the textbooks that are used and the books that we publish.”

SWENSON, CRAWFORD, & PAINE
EXECUTIVE SEARCH DIVISION
P.O. BOX A-3629
CHICAGO, IL 60690
AIDS
Jerry Souci, PhD, will deliver a presentation entitled: "AIDS: The Scope of the Mental Health Profession" on Friday, November 13 at 2 p.m. in Life Sciences Room 240. Everyone is invited to attend.

ECE Jrs & Sr
The semi-annual 400 Level Preview is THURSDAY (not Tuesday) November 12 from 12:00-2:00 p.m. in PELLESTEIN Hall Auditorium. (Not Siegel). Current ECE 400 level courses will be discussed. All students are welcome to attend.

LIFE LINES
"Que Pasa?"
There will be a LIFE (Latinos Involved in further Education) meeting on Thursday, November 12, in Room 302 Hubb Mazzanini at 12 noon. There will be two speakers, representatives for the IIT MBA and one for the Chicago Marriott. Other topics will be discussed such as the ski trip and plans for the fundraiser event. To participate in the various activities, you must be a dues-paying LIFE member.

We're Famous
What do the Cook County Commissioner and IIT have in common? They were both in the November 9th issue of Newsweek magazine. Newsweek staffer Bill Barol, involved with a feature story on Commissioner Jerry Butler, followed Butler to IIT for an interview. The article is printed in the Entertainment section.

"ATS" Meeting
The next Student Government meeting will be November 17th in Room 302 Hoff Hall at 10:00 p.m. Nominations for Secretary, and Assistant will be taken.

Assemblymen
Applications for Assemblymen can be picked up at the next Student Government meeting on Tuesday, November 17th at 10:00 p.m. in Room 302 Hoff Hall. Call x3074 (Student Government) for details.

Yearbooks
Yearbooks will be on sale Nov. 9-13 in Hermann Hall from 12-1 on Wednesday, Thursday, and Friday, and 12-2 on Tuesday and Thursday. Everyone will be receiving yearbooks that were ordered last week.

The Winners
Congratulations to Natasha Richardson, Kurt Pearl, and Dave Overly, who were all seen wearing their WOUU buttons. We saw them and they won. Natasha won a pair of tickets to see the UB Movie. Kurt and Dave each won a limited edition WOUU tag. These are all prizes left to win. Get your WOUU button in the Bog and wear it, and win!

Encounters
A worthwhile encounter with a group of faculty and students involved in "The Bible and You Today" to consider the substantive contents of St. Paul's letter to the Romans, resumes Wednesday, November 4 at 12 noon in the Field Room of Hermann Hall (SW corner of the Hub). The IIT community is invited.

Chapel Eucharist
Sunday Chapel Service of the Word and Holy Communion is offered again on Nov. 8 in IIT Chapel at 11:00 AM. Participation in the Scripture Lessons and music is open to all. IIT Chapel stands just across the north door of the Residence Commons.

UCBS
A Thanksgiving Food Drive will be sponsored by UCBS on Nov. 16 through Nov. 20. Food for needy families may be handed in to the B.O.S.S. office in the Commons basement. Please participate.

BSAC
The Black Student Advisory Council will host its meeting on Tuesday, Nov. 10 at 12:00 noon in the Smith-Osborn Auditorium (Pellstein Auditorium). All Black students are strongly urged to attend for more information.

ACM
The Association of Computing Machinery will host its General Meeting Wednesday, Nov. 12 at 12:15 pm in Stuart Building, room 111. Our guest speaker will be Rollin Dick of the Academic Computing Center. Information about ACM will be given.

BOSS
There will be a meeting for all BOSS Members on Friday, Nov. 13, 1987. For more information, call Karen Smith or Janet Coleman at 667-5964.

HUB Events
Purchase a Bag Glass from the Bog and get free refills of pop for the Fall Semester!

UNION BOARD is having the Movie, "The Golden Child" in the HUB Auditorium at the following times: Thursday, Nov. 5, 5:15 pm and Saturday, Nov. 7, 7:00 pm and 9:00 pm.

Extrav! Extrav! Extrav! The NEWSTAND NOW HAS SLUSHED!! IN TWO EXCITING AND COLORFUL AND DELICIOUS FLAVORS!!

VHS Recordings are now available at the HUB Directors Office from 6:00 to 9:00 pm. Best Deal in Town! Contact Mike Lacy for further information at x3075.

Entertainment & Books coming to the Newstand are here! For those interested, Christian Bible Study cordially invites you to attend the group Bible study on Friday, in the HUB at 5:30 pm.

The IIT Jazz Band plays Tuesdays, 9:00 pm in the Bog.

New art will be on display in the Lobby featuring exquisite paintings by St. John Ehrp. The powerful imagery of St. John Ehrp has made him a controversial figure for over three decades, with the ability to disturb the "Inner Being" with his thought provoking visions.

For more information on any of these events and services please contact the Hermann Hall Management at 567-3075.

Audit
An audit provides the student with a summary of his or her academic status to date. The audit includes all deficiencies which must be removed before he or she is eligible to receive a degree.

All undergraduate students who have completed a total of 80 semester hours of credit (90 semester hours for architecture students) should complete an Academic Program Audit Request Form. The form is available at the Office of Educational Services, Room 202, Main Building, 567-3300.

Students pursuing a degree in the following curricula, must contact the appropriate academic department to complete the Approved Program of Study before an audit is processed: Biology, Business Administration, Computer Science, Engineering and Applied Physics, English, Philosophy, Political Science or a Bachelor of Arts degree in Chemistry, Math, Physics.

Failure to request an academic audit may result in the postponement of graduation.

Solid Eutectics
The Metallurgical and Materials Engineering Department will be sponsoring a seminar titled "Studies on Rapidly Solidified Eutectic Ni-Base SuperAlloy." It will be given by Sang-Yi Lee of IIT on Thursday, November 12, 1987 at 1:30 pm in room 202, Pellstein Hall.

An eutectic Ni-base superalloy with small additions of alloying elements, "been melt-spinning" at various wheel speeds, with the resulting microstructure resulting from the pulling wheel speed and the cooling rate of the spinning (CBMS) process was used as a basis for the study of the phases transformations of this alloy.

Software Library
ACM will be having its MS-DOS Public Domain Software Drive every Monday, Wednesday, & Friday starting Nov. 11th through Nov. 23 from 11 am-2 pm in the Lobby of Stuart Building. We're looking for anything you can spare. Prizes will be awarded to those who donate the MOST software!

Rec Specials
Starting Monday, the Rec Center will be offering nightly specials at half price on bowling, pool, and football. Prices will be cut in half during the hours of 6:00 pm to midnight on Mondays, Tuesdays, and Wednesdays through the rest of the semester.

Located in the lower level of Hermann Hall, the Rec Center also has a wide range of pinball and video games, dart, shuffleboard and ping pong balls. In addition, change sets, checkers, cards, and board games such as Risk, Scrabble, Pente, and Baggage may be checked out free of charge anytime by just leaving a valid i.d. card.

Fire A Cue
The Rec Center will be sponsoring an 8-ball tournament this Thursday at noon with the top prize being a quality two-piece pool cue. The entry fee for this tournament is $1.00, which covers the cost of the cue and table. Participation is open to students, faculty, and staff, so sign up now at the Rec Center for this chance to win your own quality pool cue and be named Pool Hall King or Queen.

Tau Beta Pi
Resume booklet committee meeting will be held Thursday, November 17 at 12:15 pm in the Rec Center. The location is Room 301 in the Crown Room (next to west). In the HUB. Please attend. Thank you. Barry W.
Constitution

What are you doing Tuesday, November 10th from 12-2 pm? You should be attending the Constitutional Meeting. Please show your comments and suggestions for student government. The Constitutional Review Committee is holding an open meeting to begin working on the new constitution. If you have any suggestions or are unable to attend, please contact Mandy Paul at x3074.

IE3, HKN, TBP

A speaker from the School of Business Administration will deliver a presentation on the future of business. The presentation will be held on November 10th. The presentation will be held at 12:30 pm in the Lecture Hall. If you have any questions, please contact Mike Paul at x3074.

Foreign Students

International students are invited for a Thanksgiving dinner with American families on Thursday, November 27th at 2:00 pm. For more information and to sign up, contact the International Office, room 103 Harr Hall, or call 567-3307.

Interviews

There will be an interview on Monday, November 8th for a position at the HUB Magazenine. The workshop will be held on Thursday, November 10th from 12-2 pm in the HUB Mezzanine. The workshop will be presented by John German.

Robert’s Rules

NSBE will continue the Parliamentary Procedure Workshop which will be held on Thursday, November 12th from 1-2 pm in the HUB Mezzanine. The workshop will be presented by John German.

Mock Interviews

The Society of Women Engineers and the national Society of Black Engineers will be hosting Mock Interviews. The interview will be held on Wednesday, November 14th from 11-2 am in the HUB Mezzanine. The interview will be held on Saturday, November 15th from 1-2 pm in the HUB Mezzanine. If you are interested in attending, please contact Paul Magas ASAP. You must turn in your resume when you sign up. Business Attire is required.

Money

The National Organization of Minority Architectural Students (NOMAS) will hold a general meeting on Tuesday, November 10th from 12-1 pm in the HUB Mezzanine. Fundraisers for various events will be discussed and committees will be formed. Your input will be appreciated. Join us!

AIChE Meeting

There will be an AIChE meeting on Tuesday, November 10th in Perlstein Auditorium at 12:00 noon. The guest speaker will be Mardi Clews from the EPA. Topic: Air Quality and Radon Gas.

Phys Students

There will be a general meeting of the Society of Physics Students this Friday, November 13th at 4:00 pm in 217SH. We have many things to talk about including Fermilab and Graduate schools. All current and potential Physics Majors are encouraged to attend.

Rock Me

WUW will broadcast Billy Joel’s new album “KOHLEPT!” meaning “Concert” on Wednesday night, November 11th at 9:00 pm. This concert is part of his worldwide “Bridge Tour,” and was recorded live in Leningrad, USSR. The concert will be broadcast on Wednesday night at 9:00 pm on November 11th for this special presentation.

Government

Nominations for the position of Secretary/Assistant Treasurer will be accepted up until the next student government meeting, November 17th. The election will take place on Nov. 23rd and 24th. Contact the Student Government at x3074 for more details.

Registration

Advance Registration for all full-time undergraduate and graduate students will be held from November 16th - December 1st. Registration packets may be picked up at the Office of Student Records and Registration. Registration fees are due on November 16th. Registration fees must be paid before December 1st. Registration fees for all eligible part-time students will be mailed.

ECE Advising

ECE Students are strongly urged to seek their academic advisor during the first week of pre-registration for the Spring Semester. There is no need for a conference with an advisor; the advisor’s list and sign-up sheets will be posted outside the ECE Department office (136SH) on November 15th.

Many ECE students will have block advising on Tuesday, November 16th. If you have any questions, please contact Paul at x3074.

NOTE: You can be advised BEFORE you receive your registration packet. Advising consists of planning your Spring 1986 courses. Your registration form can be stamped at a later date.

The ECE Department advisors will strictly adhere to the prerequisites needed to register for a course and will only approve a course sign satisfying the prerequisites listed in the IIT Bulletin.

Math Puzzle

The IIT Math Puzzle appears in Technology News in a weekly basis. All students of IIT are eligible to participate. The first student who submits the correct solution receives a prize. The student who submits the largest number of correct solutions during the semester, not necessarily the best each week, will receive a grand prize and a diploma at the end of the semester.

This puzzle is sponsored by NDT Mathematics Society under the supervision of the Mathematics Department. Solutions should be submitted to the secretary of the Mathematics Department on or before December 1st of this year.

The winner of the previous puzzle is Shavon Green. This week’s puzzle is the following: Use the given numbers to make a 2x3 table. Each column adds up to 20, and each row adds up to 25.

<table>
<thead>
<tr>
<th>A</th>
<th>B</th>
<th>C</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>4</td>
<td>5</td>
</tr>
<tr>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
</tbody>
</table>

The first student to solve this puzzle correctly will receive a prize.

The winning student is the student who submits the correct solution first. The prize consists of a $100 gift certificate to the bookstore and a personal letter of congratulations from the Math Department.

Collegiate REP Wanted

To whom it may concern: Recently I received a brief new story from the campus. In it, I contained an article about a little boy in Scotland who is terminally ill. If I would ask you if I could repeat this article in your announce section of the paper. I came from the “Make A Wish” program designed for terminally ill children. If so, I would like to know if you would be interested in this story.

Films:
You! Yes, you! Forget school! Throw those books aside! You will never survive...You will never succeed until you break down...

THE WALL!
Show Times: Thursday - 5:15 p.m.
Saturday - 7:00 p.m. and 9:00 p.m.

Now that you've dropped your classes, you can really appreciate the meat grinder!

Concerts:
Relax! Kick back and enjoy the combination of Rock and Country music which you can only call Straight Southern.

Concert Time: 9:00 p.m. in the BOG - Thursday.

Ski Trip:
Spring Break in Vail!
Union Board is hosting a ski trip to Vail, Colorado! The cost of the trip is $365 and includes round-trip train fare, 4-day lift tickets, lodging, and the best party a Vail mountaintop can offer. For more information, contact Don O'Connor at x3086.
The un-mainstream alternative

By Bernie Gleser

This is the first in what I hope to be a series of reviews about record albums that are not necessarily in the mainstream or "TOP 40." There is a lot of good music out there, and I find that much of it is not played by stations like WLS, WBBM or WCKG. On the other hand, WYTL, which I mention in my "Today" stuf that doesn't appeal to me. I wish that I had another means of finding out about albums that don't get much AOR airplay, but still contain good music. I thought that by writing this column I could provide a gap for others by reviewing records that you might not otherwise know about. Of course, these reviews are purely subjective (as most reviews are), but through the reviews, I hope to give you an idea of what is on the various albums, instead of buying them out an eclectic reel I am doing), which can be a very expensive collection process. I recently joined, incidentally, as a member of the club (you know, one of those which send you 12 "free" albums if you agree to buy 126 albums within the next thousand years at over inflated "regular" prices), so I should have enough material to write about for a while.

Some albums have a few good songs (usually the singles) and quite a few forgettable ones. Other albums have hardly any songs that are complimentary to my tastes. "Strength" by The Alarm, however, is one of those rare collections where every song in it is memorable. I bought this album on a whim, remembering only that scans of the title track which I heard on the radio a long time ago. Surprisingly, "Strength" has become one of my favorites already. I've listened to the entire album at least 2 or 3 times a week for the last month, and its spontaneity has been barely diminished.

This is a guitar-based rock album, as opposed to a synthesizer-dominated or a "heavy drum mix" (dance) type of album. When keyboards are used, however, they are used quite effectively, such as in the moving song "Walk Forever in My Shoe." The use of harmonics is reminiscent of "The Edge" by U2. There is no real guitar sound, since the guitarist opts for chords to tastefully blend in with the rhythm, rather than frantic EVH-inspired whammy bar leads, which wouldn't really fit in with some of this material. The singing is also rather confident, except in the tune "Dawn Chorus," where it's noticeably strained.

Quite a few of the songs sound like the one has to be seen to believe. However, the upbeat rhythms defy the sense of desperation in the lyrics. The song "Strength" is a good example of this. From the wailing keyboards in the opening to the rattling finish, its biting guitar and bold rhythm combine with the defiant lyrics to make this a classic song about a man searching for his identity. The whimsical opening and bright rhythm of another song, "Father To Son," belie the contrast between a son's hopes and ambitions and his father's expectations. Although times are not as "black" with me, as the lyrics proclaim, I could relate to the song; a similar disillusion is taking place in my own life, as I approach graduation and consider the possibilities which could be offered by my parents and the world, However, not having the blues, I can sympathize with the tune "Dawn Chorus," where it's noticeably strained.

Next Week: Metallica's "M.O.P.

I Go Over, Not Under

by Daryl Dubas

I'm not sure how I feel about Daryl Dubas, the man, the artist, or the music. I am, however, sure that I don't feel about Daryl. When I think Daryl, I think of his music, not of the man. I feel that the music is important, not the person behind it. Daryl is a very talented musician who has the ability to make people feel good with his music. His music is very inspirational and has a positive impact on those who listen to it.

The tone of the album is very upbeat and uplifting. The music is filled with energy and passion, which is evident in every track. Daryl's vocals are powerful and compelling, drawing the listener into the music. His voice is rich and full of emotion, making every song feel like a personal experience.

The instrumentation is also very impressive. The guitar work is sharp and focused, and the drums provide a solid foundation for the music. The overall sound is well-balanced and engaging, making it an enjoyable listening experience.

Overall, I think that Daryl Dubas is a very talented musician who has a lot to offer. His music is filled with energy, passion, and emotion, making it a joy to listen to. I highly recommend this album and look forward to hearing more from Daryl in the future.
Stock
continued from page 1
market over the last few years could be sustained," Sheahan said.

The education pension fund also boasts diverse holdings. Although it did not profit as much as some members hoped for during the stock market boom of recent years, it finds itself in good shape now. "If playing it conservative means playing it responsible, we're glad we've played it conservative," Sheahan said.

While Oberlin College endowment manager David Maxson figured a market rebound could help the school recoup its one-day stock losses of $25 million -- out of a total of $200 million it had invested -- he worried the market's ongoing uncertainty could have "a chilling effect on donations and long-term commitments by contributors."

A contributor's personal wealth went down," agreed Washington University of St. Louis treasurer Jerry Woodham, "donors may be less willing to make donations to the university."

But A&UO's Cox saw a silver lining: business and the government, he reasoned, would invest more in higher education to help pull the nation out of a recession.

"Higher education is a good investment especially during hard times," he said, "because education and retraining become even more essential." Stanford, however, is thinking of investing more in stocks, now that last week's crash has let some share prices fall low enough to become bargains, Byers said. "We have the cash. Now may be the time to use it."

Most observers say the stock market should not have an immediate impact on tuition, salaries and other education costs. "The crash will have no impact on the 1987-88 budget," said Stanford Vice President for Business and Finance William Mayes. "I don't think tuition will increase," said Washington's Woodham. But if contributions and endowments decrease and other revenue sources also suffer as the result of a faltering stock market, "adjustments will be needed."

"But," Woodham added, "right now it's just too hard to predict."

Berkeley, however, is thinking of investing more in stocks, now that last week's crash has let some share prices fall low enough to become bargains, Byers said. "We have the cash. Now may be the time to use it."

Most observers say the stock market should not have an immediate impact on tuition, salaries and other education costs. "The crash will have no impact on the 1987-88 budget," said Stanford Vice President for Business and Finance William Mayes. "I don't think tuition will increase," said Washington's Woodham. But if contributions and endowments decrease and other revenue sources also suffer as the result of a faltering stock market, "adjustments will be needed."

"But," Woodham added, "right now it's just too hard to predict."

The University of Vermont, praised in Richard Morf's "The Police Labs", had a 17 percent jump in applications.

Evergreen State College in Washington enjoyed a 23 percent jump in freshman applications after being highly publicized by Money, Time, and U.S. News.

"It was wonderful that (Money) put us in the top 10," Cal-Irvine spokeswoman Linda Grinnell recalled.

She sent reprints of the article in response to inquiries or letters to support groups, though "UCI can stand on its own merit."

Yet even the beneficiaries of the rankings are skeptical. A financial aid officer at Pomona College in California said Pomona resisted advertising a good rating because it had gotten because it doubted the study's validity.

"We were pleased, but we didn't use it," she said.

Although favorably rated by "The Insider's Guide to the Colleges," for fostering independence and creativity, New York's Sarah Lawrence College doesn't promote the distinction, admissions director Robin Mamiet said.

Tension
continued from page 2
You remember. She was always there when you were frightened. And if you got hurt, she was standing by with bandages. Wouldn't it feel good to talk to your mother again right now?

Calling over AT&T Long Distance Service probably costs less than you think, too. And if you have any questions about AT&T rates or service, a customer service representative is always standing by to talk to you. Just call 1-800-222-0300.

Sure, you'd work and your friends keep you busy. But call home and find out what she's wrapped up in.

New recruits for Scarlet Hawks

Although one of the strengths of IIT's Basketball Team will be the number of seasoned vets returning, the Hawks have added four new members to the team.

LaShuan Brooks, a point guard from highly successful Providence-St. Mel High School, is doing a great job. He was heavily recruited by many schools but opted to attend IIT. "He is even better than I thought he was when I saw him play, 10 times last year," stated Coach. He has total floor awareness, can put the ball up and a half-back guard type of player. "LA could run the team right now with very little, if any, drop-off. He understands everything we are trying to do."

Another Freshman, Mike Mikula, from Detroit is a new addition. Mikula caught the eyes of the coaches in the preseason running workouts by being totally in shape and working so hard. As a walk-on, Mike will take a little longer to digest the Hawk system, but is gaining confidence daily.

A third newcomer is Mike Howley. Howley transferred from Loras College but not before Topper tried to recruit him out of St. Laurence High School his senior year. He chose Loras instead, but contacted Coach immediately after last season.

"Mike fits into our system better than he did at Loras. He can fill it up and play the fast break, always pushing it up and the fast break, always pushing it up.

Coach has been just as important as the new players! He has a good grasp of basketball and works hard with the team. He is a full-time coach in a part-time situation," Olechka has a great coaching past and will aid the Hawks tremendously in the quest for a championship.

The Scarlet Hawk Basketball team, led by a large group of returning lettermen, began practice on October 16. The coaches and tri-captains, Senior Tom Roszak (Arch), Senior John Mahoney (Civil Eng) and Junior All Conference All District 20 Player, Ryan Kirkland (Business) have led the troops through their paces during the first 16 days of practice.

The Hoppers seem to have all the ingredients to be a fine young team: shouting, quickness, better than average size and most of all, confidence.

* denotes number of years lettered at IIT

Now that you've gotten into Illinois Tech, IBM can help you get more out of it.

The road to graduation is paved with term papers, lab reports, cramming all-nighters and, of course, exams.

To ease that journey and awaken your professors to your exceptional abilities, we suggest the newest member of the IBM Personal System/2 family: the Model 25 Collegiate.

It's a high-powered personal computer with advanced graphics capabilities, designed to fit on your desk without adding to the clutter. And it comes with a generous 640 KB memory, two 3.5" diskette drives and an aid package every student can appreciate -- a big discount, plus Microsoft Windows 1.04, Write, Paint, Cardfile, IBM DOS 3.3 and a mouse.

Pop in the load-and-go diskette and your Model 25 Collegiate is set to help you write and revise long papers and illustrate your points by combining words and graphics. So your professors will draw favorable conclusions about your work.

For more information on the Model 25 Collegiate, visit the IBM Education Product Coordinator on campus. You'll quickly learn how to get the most out of these IBM Personal System/2.

Hockey team update

The IIT Hockey Team won its home opener on Saturday, October 31st. The Hawks defeated Wheaton by a score of 8-3. The next game is on Saturday, November 7th in Park Ridge.
