Technology News Goes High Tech

As many of you know, last year we announced that the American Law Association selected Technology News for its annual fundraising drive. They, along with a little help from the student committee, were able to raise over $15,000 towards the purchase of new equipment for the paper.

Ralph D. Davis wins top prize

Chicago, August 22, 1988 — The American Business Law Association (ABLA) has presented the Holmes/ Cardozo Award, its top prize for an original research paper, to Ralph D. Davis, lecturer in Marketing at Illinois Institute of Technology School of Business Administration and director of the institute's Executive MBA Program and J.D.MBA Program. The Holmes/Cardozo Award, named for two distinguished U.S. Supreme Court Justices, carries a $1,000 prize and is given annually. This year more than 200 refereed papers took part in the competition.

Davis's paper — "Different Treatment of Marketing and Design Defects in Pure Risk-Utility Balancing: Who's the Villain?" — argues that courts should use the same legal standards for product warning and instructions as they use for product liability cases involving defective design. The ABLA's American Business Law Journal will publish Davis's paper. Davis, who holds both an A.B. and an M.B.A. from the University of Chicago and a J.D. from Northwestern University School of Law, has had his work appear in The Journal of Products Liability.

Pritzker researchers receive grant

CHICAGO — Researchers at Illinois Institute of Technology's Pritzker Institute of Medical Engineering have received a grant of more than $400,000 from the National Institutes of Health to continue a study of protective materials for electronic components placed within the human body.

The study, begun earlier with the help of a grant from the National Science Foundation, is thought to be unique in that the IIT engineers are working on techniques to package the miniaturized electronics entirely in plastic — primarily silicone compounds. Protective devices currently in use, such as those for the heart pacemaker, usually take the form of hermetically sealed metallic containers. According to Professor Philip Troyk, the project's director, the NSF and NIH grants, along with help from the Ford Motor Company, have made it possible for IIT researchers to conduct a thorough study of the properties of many different types of coating materials to determine which ones will be best for what he calls the "next generation" of extremely small implantable devices. The result of the study, he says, will not be one "universal encapsulant," but a variety of materials adapted for varying needs.

Troyk and his colleagues at the Pritzker Institute, as well as researchers elsewhere, are developing tiny electronic components — hair-like sensors and chips no more than a millimeter in diameter — that can be adapted to perform an amazing variety of functions when implanted inside the body. The possibilities range from stimulation of paralyzed muscles to new varieties of artificial organs.

But for these super-sensitive devices to do the job they're meant to do, they have to be protected from the basically hostile environment of the human body. That means enclosing them some way, in a material that will provide the necessary protection without impeding their operational capacity or increasing their size.

The silicone compounds being investigated at IIT seem to provide at least one satisfactory answer to that problem. They are easily modified to whatever shape is needed and can be created in any desired rigidity from hard-rubber rigidity to an almost liquid gelatin-like substance. Most important, simulated aging studies conducted on these materials indicate that their protective properties will hold up at least until the components they're meant to protect are to be replaced because of obsolescence.

Although the IIT work is in the field of medical engineering, researchers at Ford have taken an interest because they are faced with a similar problem — protecting tiny electronic components from deterioration in another unfriendly environment; the inside of an automobile engine. The automaker's participation in the project has included not only a monetary grant, but highly valuable cooperative research.

From the scientists' point of view, the two environments — human and automotive — are, as Troyk puts it, "remarkably similar in terms of the things you're worried about." That means primarily moisture. Even the most minute traces of water, seeping into electronic components, can cause corrosion, deterioration and malfunctioning; thus the development of genuinely effective coating materials needs to be a matter of the highest priority.

The IIT-Ford cooperation recently paid off in a patent to provide the ability of coating materials to protect a surface from water. It was granted jointly to IIT's Troyk and two members of the Ford research team.

Automation Seminar

Chicago, August 20, 1988 — A seminar on "Scandinavian Factory Automation — The High Tech/High Skill Approach to Functionality and Productivity" will be held Tuesday afternoon, September 27, on the campus of Illinois Institute of Technology. The seminar is sponsored by the Scandinavian Swedish Trade Council. IIT is hosting the event which will be held at Hermann Hall, 40 West 33rd Street, Chicago.

The seminar will focus on the ways the Swedish have linked factory automation with human resource development. Swedish manufacturing profitability, along with their competitiveness in world markets, is based on the fact that attention they have paid to the problems associated with implementing advances in technology on the factory floor.

A $30-per-person registration fee includes cocktails and a Swedish smorgasbord buffet.

For additional information, please phone the Swedish Trade Council at (312) 844-3599.

Ludwig Hilserheimer Symposium

Chicago, June 30, 1988 — Ludwig Hilserheimer Symposium: The Human Environment, Celebration and Prosperity has been organized as a commemorative symposium on the enduring legacy of the IIT architect, critic, and city and regional planner. Professor Alfred Caldwell will deliver the symposium's opening address at a reception Thursday, September 15, at 5:30 p.m. at the Arts Club, 109 East Ontario Street, Chicago.

For Friday and Saturday, September 16 and 17, activities move to the Graham Foundation, 4 West Burton Place, where three lectures, along with panel discussions, are scheduled for each day. The programs begin at 9 a.m. both Friday and Saturday and conclude at 5 p.m. Guest speakers include Prof. Gerd Albers from Munich, Prof. Ernst Gaydon from Western Washington University, Prof. Shigeru Ishii from Tokyo, Dr. Christine Mergen from Paris, Prof. Thomas Sieverts from Dartmouth, Federal Republic of Germany, and Prof. L.R. Vagela from Bangalore, India.

The symposium was organized by the Hilserheimer 100-Plus Committee, a group on continued page 10.

Mr. Thomas Jacobius of IT's Research Institute will be speaking on THE SBC PHYSICS EXPERIMENTS on Wednesday, Sept. 7, 1968 in Spiegel Hall in room 206 at 4:00 pm. There will be a Pre-Colloquium social in Conference Room 202 at 3:00 pm.

BAXTER INTERNATIONAL CHAIRMAN TO SPEAK AT ILLINOIS CPA SOCIETY BREAKFAST

The Illinois CPA Society will host a breakfast featuring William B. Graham, Senior Chairman, Baxter International, on October 11, at the Marriott O'Hare in Chicago. Graham will focus on the effects that changes in U.S. healthcare economics are having on the industry and medicine, and how industry is adapting to those changes through mergers and acquisitions.

The breakfast, which is open to members and nonmembers alike, begins at 8 a.m., with registration at 7:30 a.m. The cost is $25.

For more information regarding registration, please call the Illinois CPA Society at 993-0393 or 800/572-9850.

The Illinois CPA Society/Foundation is the professional organization serving more than 22,000 certified public accountants.

PEP BAND

Auditions are being held for people interested in playing in the IIT Pep Band. Yes, you too can have fun playing at Volleyball and Basketball games with the fabulous! Keep your eye on the ball! Call Jeff Callaway at Vandercook College of Music @ 225-6288 for information.

HKN

A mandatory meeting for all officers of Etta Kappa Nu will be held on Thursday, September 8th at 10:30. Meet at the HKN/IEEE lounge. If you are unable to attend, contact Rich Frankovic at 951-7941 or on campus.

THE SCHOOL OF THE ART INSTITUTE OF CHICAGO

The School of the Art Institute of Chicago (SAIC) Gallery 2, located at 1046 W. Huron, opens its fall schedule on September 9 with an exhibition of sculpture works by Laurie Palmer and John Poff. A reception, which is free and open to the public, will be held September 9 from 6 to 8 p.m. in the gallery. This exhibition continues through the SCHOOL OF THE ART INSTITUTE OF CHICAGO

Each year, the School of the Art Institute of Chicago's (SAIC) Columbus Drive Gallery hosts an exhibition of work by its faculty returning from sabbatical. This year’s exhibition runs September 16 through October 8, and features the work of Frank D'Essoh, associate professor of design and communication, Michael A. Stetson, associate professor of painting and drawing, and Joyce Neimany, photography professor. A reception, which is free and open to the public, will be held from 5:30 to 7 p.m. in the gallery located at Columbus Drive and Jackson Boulevard.

FRESHMEN COMMITTERS

The Techmate program is a service of the Student Life Office for first-year commuter students. The purpose of the Techmate program is to get the new commuter student into the mainstream of campus life. This is a one-year program that is provided at no charge to you. If you are interested, fill out this form each week, and attendance is voluntary. For more information, please stop by the Student Life Office. The first event is the Orientation Luncheon.

BROOKFIELD ZOO

Brookfield, IL—Brookfield Zoo is currently accepting applications for its docent program. A docent is a volunteer educator trained by zoo staff to inform visitors about the park’s animals, exhibits, and wildlife conservation efforts. Docents become involved in a variety of zoo activities from conducting tours for school groups and the general public to presenting programs to children and adults.

Docent training includes a 20-week college-level course of zoological topics and communication techniques which will begin in September. There is a $65 fee for course materials.

Upon completion of the course, docents may begin their work with zoo programs. Docents are scheduled once a week through Friday, or every other Saturday or Sunday.

The zoo will hold orientation sessions on Saturday, August 27, and Wednesday, September 7, for individuals who are interested in learning more about the docent program.

For information call the Brookfield Zoo Education Department at 485-2063, ext. 363 or send for an application.

AIM HIGH

WE ALWAYS NEED LEADERS

The Air Force is looking for pilots… navigators… mission… managers and… more! Our positions are important. You can get one through Air Force ROTC.

As an Air Force ROTC cadet, you'll be trained in leadership and management practices. You may also apply for our scholarship program that helps pay college expenses, plus $100 per academic month, tax free.

After graduation, you'll have all the prestige and responsibility of an Air Force officer. You'll discover a new world where you'll be challenged to excel and rewarded for your success. Let us give you the details today.

NEW TECHNOLOGY NEWS DEADLINE

The deadline for all articles and announcements to be submitted to Technology News is Wednesday at 5 p.m. If you or your organization has any stories or announcements, send them to Technology News on the Fifth Floor of Main Building before the deadline.

SPORTS

Anyone interested in playing golf for the varsity team, contact Coach Wozniak at x3296. We need golfers.

COUNSELING CENTER

The IIT Counseling Center is located in Room 105 of Farr Hall, at the Southwest corner of 33rd and Michigan. Counseling is free for all IIT students. We do three kinds of counseling:

1) Educational. We can help you in such areas as time management, reading a textbook, taking notes in class, memorization and concentration, and how to take tests.

2) Career/Vocational. We give interest tests to students who are not sure of their major.

3) Personal. Counselors are available to talk with you about any personal problems you might have.

The Counseling Center is open from 8:30 to 5:00 Monday thru Friday. It is best if you call and make an appointment so one of our counselors will be available to see you when you arrive. Our phone number is 967-3503. All counseling is confidential.

STUDY SKILLS VIDEOS

The Study Skills Series is a collection of coordinated videotapes and handouts designed to help students improve their study skills. The five-part series, assembled and presented by Dr. Terry Shapiro and Dr. Linda Wright, covers the topics of time management, note taking, textbook reading, memorization and concentration, and taking tests.

1. TIME MANAGEMENT. A structured approach to organization and scheduling. It is filled with helpful hints, encouraging comments, and a troubleshooting guide.

2. NOTE TAKING. Information on essential outlining techniques, and bad note taking.

3. TEXTBOOK READING. A four-stage method of reading and retaining material found in textbooks—preparation, preview, reading, and review.

4. MEMORIZATION and CONCENTRATION. Explains how memory works, how to capitalize on the memory process, and how to maximize concentration while memorizing distractions.

5. TESTS: A collection of test taking tips regarding testing situations in general, and problem-solving, essay, and multiple-choice tests in particular.

The videotapes and accompanying handouts are available for use at the IIT Counseling Center, the Educational Technology Center, the Counseling Center's Kent office, and at IIT West.

LIBRARY SCHEDULE OF HOURS

FALL SEMESTER 1988
Regular hours August 29, 1988 - December 20, 1988
Monday - Thursday 8:30 a.m. - 10:00 p.m.
Friday 8:30 a.m. - 9:00 p.m.
Saturday 8:30 a.m. - 3:00 p.m.
Sunday 2:00 p.m. - 10:00 p.m.
LABOR DAY HOLIDAY (September 5)

Library closed Saturday thru Monday, September 3 - September 5. Regular hours resume Tuesday, September 6.

THANKSGIVING HOLIDAY (November 24)
Library will close on Wednesday, November 23 at 5:00 p.m. and will remain closed Thursday thru Saturday, November 24 - 26. Regular hours resume on Sunday, November 27.

SEMESTER END
On the last day of the period, Tuesday, December 20, the library will close at 5:00 p.m.
December 21 - 22 8:30 a.m. - 5:00 p.m.
December 24 - January 2 CLOSED
INTERSESSION HOURS (January 2 - 16)
Monday - Friday 8:30 a.m. - 5:00 p.m.
Saturday - Sunday CLOSED
Regular Spring semester hours begin Tuesday, January 17.

IIT JAZZ BAND

If you are interested in Big Band Jazz, play an instrument used in Big Bands, and can read music, call Neil Dunlap at 779-5692. IIT has two jazz bands that meet on Tuesdays.

The bands play at various high schools, colleges and churches, but also play for Maynard Ferguson, the Wentworth Club, the Jazz Showcase and Benckley's.

The next scheduled concert is in the Bog, Tuesday August 23rd at 9:00 p.m.

RADIO

There will be a general staff meeting for all current WOU members and for anyone interested in an on-the-air or management position on Tuesday, August 30th at noon on the fifth floor of Main Building. Be sure to tune in to WOUL 88.9 on your FM dial. Remember, WOU is your station.

VARSITY BASEBALL TRYOUTS

There will be a meeting for all those interested in trying out for the mens baseball team on
Thursday, September 1, 1988 at 12:30 in Keating Hall. For further information contact Coach Darrah at ext. 3299.

IT'S STUDENT INSURANCE POLICY

All full-time students will have the premium for the basic student insurance program added to the tuition and fees billing statement. If you do not, by September 30, 1988, submit a valid declination of this insurance based on already having at least comparable protection, billing for this insurance will remain a part of your regular billing for the semester. The declination form must be completed fully and mailed to G.I. Underwriters Agency, Inc. before September 30, 1988. Once a declination has been accepted you need not submit another for the year. Notice of valid declination will be sent to you. Should you have any questions, please contact Bob Morgan, Assistant Dean of Student Life before September 30, 1988.

TELEPHONE NUMBER

The phone number for the telephone service is 3299. For after hours service, please dial ext. 3290.

ALPHA EPSILON PI

ALPHA EPSILON PI wishes to congratulate the following men on their acceptance to pledge the fraternity: Don Arnsmith, Dave Detore, Hans Hansen, Mark Johnson, Ray Koziel, Derek Lacy, Tyler Reid, Ignacio Rojas, Shaun Ryan, Keith Sals, Dave Siddles, Tim Standish, and Corey Zussman. Congratulations and the best of luck on your new endeavor.

The Brothers of Alpha Epsilon Pi

WELCOME CHEM E'SS

The IIT Chapter of the American Institute of Chemical Engineers (AIChE) extends a warm welcome back to all returning "Chem E's" students, graduate and undergraduate, as well as incoming freshmen. For information regarding the AIChE fall activities or membership, contact Mike Danti through the Chemical Engineering Department office (105PH).

AIDS BROCHURE

For a free pamphlet about AIDS entitled "Let's Talk About AIDS", send a self-addressed stamped business-size envelope to the American Society of Internal Medicine: P.O. Box 96005 Washington, DC 20090-6005

The pamphlet outlines clearly what patients should discuss regarding low and high risk sexual behaviors, whether or not to be tested, confidentiality of information and prevention of the disease.

ACS AT IIT, OK?

The IIT Student Affiliate of the American Chemical Society will hold an organizational meeting on Tuesday, September 6th at 1:00pm in room 224 of Wishnick Hall. Anybody interested in Chemistry is encouraged to attend. Anybody who would like to be involved but cannot attend should leave a note in the Student Affiliate mailbox in Wishnick Hall outside of room 205.

1988 CHICAGO INTERNATIONAL ANTIQUES SHOW

For the fifth year, the finest antiques dealers will gather to present museum quality antiques to the public at the 1988 Chicago International Antiques Show to be held on Chicago's Navy Pier from October 12 to 16.

On Wednesday, October 12, The Antiquarian and Old Masters Societies of The Art Institute of Chicago will open the Antiques Show with a Gala Preview Evening. The Chicago International Antiques Show will be open to the public on Thursday, Friday and Saturday, October 13 through 15 from noon until 8 p.m., and on Sunday, October 16 from noon until 6 p.m. Admission tickets are $6 for adults, and $5 for senior citizens, students and groups of 20 or more. A four-day pass is available for $20. Tickets can be purchased at the Navy Pier box office by calling the Lakeside Group at (312) 787-6658.

DELTAS

The Brothers of Delta Tau Delta would like to recognize the following men who have accepted the invitation to pledge with their fraternity: Todd Ashcroft, Chad Attlesey, Jonathan Barbato, Tim Baughman, Jeff Bican, John Brasile, Raymond Carly, Glenn Ciaccio, David Dart, Daniel Dudzinski, Jim Eastman, Paul Gaffney, Mike Gomberg, Jonathan Kost, Clandro Perez, Mark Pham, Peter Poczynok, Gautham Ramm, Tulio Ruscelti, and Richard Sagio. Congratulations to these fine young men!

for your parents,
for yourself.
may win a Sony Discman.

You may win a Sony Discman by participating in the Macintosh Giveaway. Here's how:

1. Visit any of the four participating booths:
   - Touch Football, Home Run Derby, Mixed Doubles Tennis, Co-Ed Volleyball, Co-Ed Softball. Sign up in Keating Hall. For more information, contact Coach Wosniak at x3296.

THIS WEEK’S FILM:

“ABSOLUTELY WONDERFUL ...
A FILM I MAY NEVER FORGET.”

“A stunning surprise — hilarious and touching at the same
time. If you miss Stand By Me, you'll be cheating yourself
of one of the most satisfying evenings of the summer.”
— Michael Medved, SNEAK PREVIEWS

“I loved it!!...makes you smile, laugh and cry. I'm urging
you to see it.
— Susan Granger, WMCA-RADIO

STAND BY ME

Show times are:
Thursday at 5:15 p.m.
Saturday at 7:00 and 9:30 p.m.
Admission is $2.00 or use your U.B. Pass

THIS WEEK AT THE BOG:

PREMONITION

The concert starts at 9:00 p.m.
Admission is $2.00 or use your U.B. Pass
You might have seen this guy on the Tonight Show or on Oprah Winfrey's show but I bet you haven't seen him live. Well...here's your chance of a lifetime. Come to the Bog this Friday night and you just might be able to see the "Funniest Person In Illinois," one of the founding fathers of the Chicago Hysterical Society, Ed Fiala.

So be there.

Friday (Sept 9)

Bog

8:00 p.m.

Got it? Ok, now pay attention because unless you are a (NERD) you'll get confused...

Admission is $2.00 in advance (at the Directors office and Residence Hall Cafeteria at dinner)

$3.00 at the door

$3.00 for both the band in the Bog Thursday and the comedy show (yes, you must purchase your tickets at the Bog on Thursday night)

...or use your U.B. Semester Pass

Any questions?
Techmate makes it easy

- Is there a place to meet with other students outside of class?

- How can I get to know some of the upperclassmen in Techmate?

- I feel uneasy about joining an organization, is there an easy way to be introduced?

These are questions that you, as a new student coming to Techmate, are probably thinking. "If only I'd been shown," can be heard by upperclassmen who after much struggle and trial and error have fit themselves to the Techmate culture and achieved success at it.

"Someone should have told me about this," is another oft-heard quoted phase. But YOU may not need to quote these worn-out phrases. If you become involved in the Techmate program, you'll find your place. If you make the adjustment to IT, it will be a successful experience.

The purpose of the Techmate program is to help create a sense of community and friendship among the commuter student population; to provide the new commuting student in becoming active in campus life; to inform the commuter student about the available Techmate services; and to provide a mechanism for returning students to get to know and form relationships with new students.

There are five different roles in the Techmate pro-

gram. The Mate is a new student, freshman or transfer, who participates on a voluntary basis. The Firstmate is a returning student who serves as a leader and an assigned group of Mates. He maintains contact with a group and advises the Program Coordinators. The Program Coordinators are student leaders and former participants of the program. They organize the weekly sporting and social events. The Senior Coordinator is an upperclassman who is a student leader and the official representative of Techmate. He oversees the program, recruits new members and works closely with the other coordinators in the organization of the events. He is also responsible for inter and intra communications of Techmate. The Advisor offers guidance and to the coordinators and all Techmate participants in order to promote their individual success as new commuter students at IIT.

There are various types of events offered in Techmate. The "Catch 'em Chewy" is a monthly luncheon program that introduces new members to the organization and to upperclassmen and student leaders to Techmate members. The sports events are non-competitive sports-oriented activities.

Special Events provides opportunities to participate in sporting, cultural and education activities, on or off campus. The luncheon club is a small group activity in which Techmate members share informal conversation and activities over lunch. TechTalks are small group outings organized by the Firstmate. Techmate is open to all first-year students at IIT that commute to and from school. These students are offered refreshments or transfers. This group of students is referred to as Freshmen who are also referred to as Freshmen or transfer students. This group of students is referred to as Freshmen. Techmate also recruits commuter students who are upper-classmen for the leadership positions of Firstmate and Coordinators.

Graduating students interested in continuing the next event which is a softball game at Morton Park on Tuesday, September 8, 1988 from 12:00 noon to 2:00pm. Come out and have some fun. Techmate is a free service for returning year commuter students.

Chicagoland Bears tailgate party

Cheer the Chicago Bears on to victory at the 49th Annual Tailgate Party sponsored by the Chicago Heartland of the American Heart Association of Metropolitan Chicago. The party will be held on Friday, September 9th from 5 to 6:30pm at Tropicana Field, a hot new nightlife at 901 W. Ontario.

The party will feature appearances by Chicago Bears players and live music by Sal Fortunato and his Fabulous Stingers. Grey Brown of O11, will entertain the festivities including a raffle of Chicago Bears memorabilia, a fur fashion show by Andrea's Furs, and competi-
derational hors d'oeuvres all night and complimentary beer and wine from 5 to 6 p.m. A $15 donation will support Heart Association research, education and community programs. Come to Tropicana Field and share some of the fun! For more information, call 346-4675.

Hilberserim

Hilberserim continued from page 1 of his former students and his later students was made possible by the support provided by the Art Institute of Chicago, the Bauhaus Ar-

Hilberserim (1855-1967), who served as master of housing and city planning at the Bauhaus from 1929 until its closing in 1933, followed his friend and colleague Ludwig Mies van der Rohe to the United States and to the then Armour Institute, where his teaching career spanned almost thirty years. His students, colle-

agues, and friends in Chi-

cago, along with five colleges and schools of architecture from around the country, have organized the three-day event.

Additional information can be obtained by calling IIT's Department of City and Regional Planning, 312/567.

TECH NEWS OPEN POSITIONS

The following paid positions are currently open for anyone who is interested in joining TECH NEWS:

Editor in Chief
National Business Manager
Photo Editor
News Editor

If you are interested in one of these positions, please call 567-3085 and leave a message with your name, the time you called, and where and when we can reach you (phone #).

Due to the large amount of responses, if you are not contacted within 2 weeks of your call, please call back.

Volleyball opener

The IIT Scarlet Hawk Volleyball Team opens its 1988 season at 7:30 p.m. on Tuesday, September 6 at home. The hawks will face district rival Chicago State University. Last season IIT defeated the CSU Cougars 15-10, 15-0, 15-9.

On Thursday, September 8, 7:30 at Keating Hall, IIT will play the University of Montevallo, Alabama. Montevallo is perennially ranked near the top of the NAIA, and last season finished in ninth place in the national tournament. Members of the 1988 IIT Volleyball Team are: Juniors-Lori Marino, Megan Reagan, Kim Whalen, and Dianne Bannon; Sophomores-Tracy Leonardo, Liz Cieslowski, Merle Purcell, and Becky Stevenson; and Freshmen-Lisa Eppes, Beth Buckley, Tina Malinowski, and Monica Bader.

Plan to attend the volleyball matches this week!

Learning to Scuba

On September 22nd IIT’s fall SCUBA class begins. This PADI Open Water Certification course is open to anyone who is comfortable in the water. Everyone has always gazed into the water and wondered what is down there. Jacques Cousteau has shown us some of what there is, but nothing can equal the enjoyment you will have when you see it for yourself. Like Alice and her looking glass, once you learn to dive, you too can enter a wonderful world.

PADI certification is, unlike other SCUBA courses offered in the area, an internationally accepted organization. PADI’s certification carries no expiration date and, as mentioned above, is honored worldwide.

SCUBA classes will be held on Tuesday, September 22 at 6:00 PM. The course will run one night a week for eight consecutive weeks and will train you in all Open Water SCUBA skills. (This is not a Basic SCUBA course.) The classes are approximately 3 hours long with 1 1/2 hours in classroom and 1 1/2 hours in pool. All training materials and pool equipment provided other than paper and pencil (needed first week), mask, fins and snorkel (needed second week). You are not obligated to purchase any equipment as rentals can be arranged. The course is held on campus in Keating Hall.

Classroom sessions are in the Schommer Meeting Room and pool sessions are at Echo Pool.

Sailing Club Meeting

The IIT Sailing Club will hold its first meeting of the season on Tuesday Sept. 29th at 12:00 in the Hermann Hall Mezzanine room 306. The Sailing team competes against many midwest colleges and universities. We will also be holding club activities at Belmont Harbor.

This fall instruction will be available in Flying Junior sailboats to anyone who is interested in learning to be the captain of your own boat. All students, faculty, and staff are invited to attend this meeting.

If you have any questions call, Jeff Graves @ 254-3842 or Dr. David Williams @ x3192.

Volleyball

Anyone interested in participating on the Women’s Tennis Team please contact Coach Ed McQuillan at Keating Hall immediately.

Tennis matches start on September 6th. Practice must start today.

Hockey

There will be a Hockey meeting on Tuesday, September 13 at 12:00 noon in Keating Hall. Anyone interested in joining the Hockey team is invited. If you have any questions, call Bob Apter at 842-0290.

I don’t want a lot of hype. I just want something I can count on.

Intramural sports

Intramural sports this fall beginning in September will be:

Touch Football, Home Run Derby, Mixed Doubles Tennis, Co-Ed Volleyball, Co-Ed Softball.

Sign up in Keating Hall. For more information contact coach Wesniak at x3296.

Greg Riley—University of North Carolina—Class of 1989

The right choice.
