Crime On Campus...

By John Abbott

It’s undeniable that any University of more than 100 students is going to have crime. As we all know, however, IIT’s unique location presents a few unique problems.

Larry Gaddis, the manager of IIT’s security for the past 15 months, has tried to change a few of the procedures that are used to keep track of crimes in order to identify the area that needs the most attention. One of the ways that he has accomplished this is by re-organizing the way that crimes are reported. For instance, before the system was set up by Dr. Feldberg, if some of the crimes that occurred on campus to visitors were never tallied into the statistics. Moreover, crimes were lumped together into large groups, with some categories of crime left unrepresented.

Larry Gaddis solution to this problem was to break the crimes down into individual categories, each represented by a number. As an example, consider the difference between a theft and a robbery by legal definition. In a theft, a person “assumes control of an item.” In a robbery, a person “assumes control of an item with force or threat of force.” This new way of managing the statistics involved with IIT’s crime may leave people with the impression that crime is increasing at IIT, when the truth is that more crime is being reported by IIT’s security.

Student response to last week’s report on IIT’s crime ranged from ambivalence, to anger over the surveillance technologies. “I wish that they would take a tougher stand on some of the people wandering across the campus,” one student commented.

Other students expressed fear at having to face strangers who were obviously not IIT students, inside of the buildings. Brian, a student who uses the Stuart building on weekends, wishes that security around that building would be improved. “I was there a couple of times and there were people from the project there, and I just split.” One dorm resident who had a drink, saying that there was a body in the building that was not student related. “If they don’t have any business on campus, then they shouldn’t be there.”

IIT has certain problems with the student reaction to the crime rate. There is a certain level of fear that IIT has not been able to control.

Student Leadership Committee

by Nick Palumbo

Last Wednesday, I went to the Leadership Committee meeting of the 88-89 school year. You may or may not remember that this is the committee set up by Dr. Feldberg to try and link the students with the faculty and administration. The Committee was set up so that the student community could communicate to the faculty and administration what the student wants. President Feldberg was there and he said that this was what happened.

The first item up was the question of Dr. Feldberg’s replacement. A search committee will be formed consisting of 3 faculty, 3 students, and 1 administrator. The student ... student... maybe. Hmmmm... what’s wrong with that picture? Does the word “underrepresentation” come to mind? You can’t really blame any faculty or administration for that - the Board of Trustees directs the whole thing. What the committee goes, period. Who knows, maybe they won’t even have a student rep. Fine by me, but I’ll be graduated before I’m coming back, I would make sure there’s at least equal representation on the Committee that represents me, themselves. I think we have as much to do with the new president as the faculty, administration, or the trustees, if not more.

So who will be the lucky student (if there is one)? I’m not sure, I know it will have to be someone who can really communicate what type of person the students would like to see as the new president. Can’t really blame any faculty or administration for that - the Board of Trustees directs the whole thing. What the Committee goes, period. Who knows, maybe they won’t even have a student rep. Fine by me, but I’ll be graduated before I’m coming back, I would make sure there’s at least equal representation on the Committee that represents me, themselves. I think we have as much to do with the new president as the faculty, administration, or the trustees, if not more.

New IITRI Life Sciences Director Appointed

James D. Fenters, 52, has been appointed director of the life science department at IITRI. Fenters succeeds Richard Ehrlich, who has joined the IITRI corporate staff as senior technical advisor.

In making the announcement, IITRI President David L. Morrison said that Fenters will direct the efforts of the department’s 100-member research staff which, generated more than $8 million in research revenue last year.

"Since Jim joined IITRI in 1967, he has been successful both as a scientist and a manager," said Morrison. "I am confident that these skills will serve him well in his role directing IITRI’s life sciences efforts and in building on the department’s diverse capabilities."

Fenters received his bachelor’s degree from Purdue University and his master’s and doctoral degrees in bacteriology from the State University of New York. He served as assistant professor of microbiology at Iowa State University. He is a member of the American Society for Microbiology, the American Society for Toxicology, the New York Academy of Sciences, Society for Toxicology, the Midwest Institute for Education, and the Midwest Institute for Education.

IITRI employs more than 1700 scientists and support personnel in 19 locations around the country. Together, IITRI personnel annually perform approximately 575 projects in the life, physical, chemical, and computer sciences, and electronics and annually generate about $100 million in research revenues.
This suit gets you an interview. This suit gets you a job.

There comes a time in every young man’s life when he must leave the protected, ivy-covered walls of academia, face the cold, cruel world and look for a job. But first he must buy a suit.

Irv's Men's Store carries the same quality of exquisitely tailored suits, sport coats and top coats as the fanciest of department or specialty stores. But at 35%-50% less than they charge.

So just by going a little out of your way, you can save hundreds of dollars. And when you go to your job interviews, you'll have a beautiful suit that shows off your good looks, your good taste and (if they could actually tell where you bought your suit) your good sense.

Irv's Men's Store.

Inconveniently located (but there's nothing inconvenient about saving money).

2841 N. Laramie, Chicago 286-7293. 610 Milwaukee, Prospect Heights 459-8060. 7511 Lemont Road, Darien 910-1333.
LAST WEEKS QUESTION:
WHAT CURRENT IIT FACULTY MEMBER AND ALUMNUS INVENTED MAGNETIC TAPE RECORDING?

ANSWER

Marvin Camras, EE 40, Research Professor of Electrical and Computer Engineering at IIT, invented a process of magnetized recording upon which entire industries, and much of modern technological society, is now based. Among the many awards which have been bestowed upon him for his work, the 1954 John Scott Award for Scientific Achievement — which was also presented to Thomas Edison, Orville Wright, and Madame Curie — honored him for his “discoveries and subsequent improvements in magnetic recording that helped skyrocket this field into a multi-million [now multi-billion] dollar annual industry.” Dr. Camras’ pioneering work in magnetic stereophonic sound contributed to the development of sound tracks for CinemaScope and Cinemascope, and it was his work that laid the foundation for the contemporary array of audio, video, and computer tapes and discs.

The story of his world-changing discovery began in 1938, when he was still a junior at the Armour Institute. Camras became interested in the technical problems of recording — specifically, recording the voice of his cousin who was studying music. He built the first practical, working model of the “wire recorder,” which reproduced sound on wire, from a maze of piano wire, coils, and tubes. Upon graduation, he carried on his work at the Armour Research Foundation (later the IIT Research Institute). The U.S. Army utilized his discovery during the Second World War by broadcasting sounds to confuse the enemy at battlefield sites; and, after the war, wire recorders were marketed to the American public by Sears & Roebuck, among others. It was, however, with Camras’ invention of magnetic tape recording, motion picture sound tracks, and video cassette recording technology that his work changed the face of contemporary life.

DR. MARVIN CAMRAS WITH HIS FAMOUS “SHOW-AND-TELL” FOR his EE class. Throughout his career, this prolific inventor has continued to teach undergraduates at IIT.

LAST WEEKS WINNER: Sue Han, METM ’90

CHICAGO DAY DRAWS OVER 500 TO IIT CAMPUS

April 23 Event Features Popcorn, Balloons and Jazz.

The sun was bright as CTA buses unloaded scores of visitors to IIT on Sunday afternoon, April 23, for the first annual Chicago Day Open House. Sponsored by Chicago’s cultural, educational, and social service institutions celebrating Centennials within the next five years, Chicago Day featured a free “Centennials Bus” and special events at each location. These included the Chicago Historical Society, Art Institute, Chicago Symphony Orchestra, Auditorium Theater, Field Museum, Hull House, IIT; and the University of Chicago. A shouted question by bus riders to IIT visitors waiting to reboard was answered emphatically: “Is it worth getting off?” “Absolutely; it’s the best stop!”

DR. ROBERT IRVING, WITH HIS ARM FAMILIARLY ACROSS THE SHOULDERS OF THE “MAN ON THE BENCH”, introduces a group of Chicago Day visitors to the IIT campus.

THE BUST OF FRANK GUNSALLUS, ARMOUR INSTITUTE’S FIRST PRESIDENT, highlights this photograph of the Centennial Exhibit in the Galva Library’s Kemper Room. The room is open for viewing during Library hours throughout the year.

LEAD SINGER DONNA MOSTOVOY BELTS OUT A NUMBER WITH THE IIT JAZZ BAND IN FRONT OF CROWN HALL. Guests were impressed with the music of the jazz ensemble, which specializes in big-band music and plays every Tuesday evening in the BOG. Donna is IIT’s Assistant Dean of Student Activities during the work week.
From The News Desk...

By John Abbott

Is this it? Is this the last paper of the semester? Wow, I can’t believe it. Well, I have some thank-you cards to give out, so you’ll hear me with a second.

* To the four people who sent me hate mail after I wrote that piece on the International Fest: Thank-You. You remind me that people can never become uptight about something as trivial as food. While there are wars occurring over religion, politics, and sociology, you chose to defend food. That takes real guts.

* To the two people who helped me write the article on the EMM labs’ breakthrough in holography, Gopalkrishna Blat and Rathna Mandhavili: You guys were incredibly patient with me while I tried to translate your months of research into a 500 word article. Thank you.

* To the guys from WOUL across the hall from us: Thanks for dropping by the paper now and then, and thanks for playing my requests.

* To Marvin Camras, the man who invented magnetic tape: I have found an incredible amount of respect for you through everything that I have learned about you in the last semester. Your knowledge and inventions have gained you an incredible amount of respect in the community of IIT, and I can’t seem to go anywhere without your name being bought up. You are an inspiration to me. I thank you.

* To Rich Dominick, Michelle Kochan, and all of the other friends that I made in a great little week called Winterfest. No one will ever know how much work was going on behind the scenes despite the ungrateful and the unwilling. I thank you both for your help and dedication.

* To Terry Shapiro: Anyone who does not know this man, will you please stand-up and go meet him? We are talking about the most comfortable person to be around in this world. Mr. Shapiro...Dr. Shapiro, don’t change my man. Please don’t ever change.

* To Mr. Schauf: A true gentleman and a man of ideas.

Keep the ball rolling Bill. I know that sometimes it seems like all of the forces of the earth are trying to stop it, but keep the ball rolling.

And finally, to the first lady of IIT in my book, Mrs. Donna Mostovoy: assistant dean, back stage manager, jazz singer. This lady does more to keep the student body of IIT busy than a student of IIT could ever do. She is a true lady. I salute her, and thank her for all of her help and kindness.

I’ll see all of you, sometime soon.

What Is WOUL!!

"What is WOUL?," SOME people still ask, however most people know that WOUL is the campus radio station. The question which might be better asked is "Who is WOUL?" I mean seriously folks, how many of you have even thought of the people who do all the work to keep the station working and try to make improvements so that we can better serve you? Some of you out there could name some of the DJs but could any of you name the Station Managers, or for that matter the programming of Technical Directors?

before we learn the answers to these questions it might help to understand how that station is run. The first administrative body that has control over WOUL is the FCC which determines the rules and regulations that the station must broadcast by. Next in line is the group which supervises the station on the university basis. This group is known as the Governing Board and is composed of the following people: the Station Managers, a WOUL student government representative, the Assistant Dean of Student Life, the chief engineer of IIT, two faculty advisors, and a trustee. After the Governing Board is the next group is the one which administrates from the station level itself. This is the Executive Board. This group consists of the Station Managers, a Technical Director.

Hypercard And MUG

Object oriented programming is one of the hottest new ideas in programming for both IBM and the Macintosh. Join the IIT Macintosh Users Group (ITM MUG) in a hands on demonstration of Hypercard at their next meeting on Wednesday, May 6:00 P.M. in room 102 of Stuart Building. The demonstration will last approximately on hour with time afterwards to "play" with the programs and equipment. If you have any questions at all, please call Bob Keeley at 225-6911. People who wish to order from the public domain library are welcome to attend as well as people who do not use the Macintosh computer.

"I don’t want a lot of hype. I just want something I can count on."

Some long distance companies promise you the moon, but if you really want dependable, high quality service, that’s just what you’ll get when you choose ATT Long Distance Service, at only a cost that’s a lot less than you think. You can expect low long distance rates, 24-hour operator assistance, clear connections and immediate credit for wrong numbers. And the assurance that virtually all of your calls will go through the first time. That’s the genius of the ATT® Worldwide Intelligent Network.

When it’s time to choose, forget the gimmicks and make the intelligent choice—ATT.

If you’d like to know more about our products or services, like International Calling or the ATT® Card, call us at 1 800 222-9200.

Thanks For The Blood

In spite of the short notice and other problems impeding the Red Cross-Life Source Blood Drive held on Tuesday, April 25, the spontaneous response of students, faculty, Vandercook, ICO, and police personnel was impressive. Squeezing 30-45 minutes into an already full schedule, particularly late in the semester, reflected generosity and courage on the part of the donors some of whom bore substantial anxiety in the process. Also noteworthy were the volunteers from the Residence Halls and the fraternities who stepped forward to help with the administration of the drives.

To be more specific would suggest invidious comparisons; those who took part prefer to shun further recognition, all involved should have more highlighted the richness of human concern in the IIT community and by their example of a collaborative effort among various cultures and racial heritages, they affirm the common bond of life blood which binds all persons in the human family.

Institute Chaplain

Greg Riley: University of North Carolina Class of 1989
The End...

by Nick Palumbo

Ahhhh yeesas, it's all over folks. The 88-89 school year has been swallowed up by that rat, father time. Finals, graduation, and then arrggghhh - REALITY. That word should make all of you graduating students squirm with fear. Just what the hell do I do now? Get a job? Yeah, easier said than done pal.

Let's re-cap the school year, shall we? August - registration... and May - graduation. Wasn't that fun. Thirty-three weeks gone by in 6 milliseconds. So much for Einstein's theory. I guess it went so fast because there was always so much going on. A recommendation to anyone who's not involved with anything but studies - There's a hell of a lot to do at IIT. You just have to go do what you like.

There's 72 student organizations, one of which is bound to be of interest to you. Some of them even pay you to participate, like Tech News. Being editor of the paper wasn't too bad. I met a lot of people and boosted myself politically - so far, in fact, that I will be the next president of IIT. All Jaguar rides are a bank.

I owe a lot of people a lot of thanks for their help with Tech News - I couldn't have done anything without them.

To the Tech News staff: Is there a better staff anywhere in the world? Yeah, but who cares. Thanks for putting up with all my BS.

To John Abbott: Thanks for being so controversial. You really drew a crowd. The paper really needed a guy like you. Come back next year or we'll hunt you down.

To DDDDona Mostovoy and Dr. Bill Schaefer: Thanx a million-billion for helping us out. You guys should be given sainthood for dealing with us. I would have lynched my bike by now if I were you. Thank you for everything.

And finally to the IIT student population: Thanx for reading. I know you actually read because I received lots of hate mail and death threats when the paper went down.

Thank you.

So now I say goodbye. I had a pretty good time here at IIT. I learned a lot, worked a lot, got involved with a lot, and spent a damned fortune. I guess the old cliche that you have to spend money to make money is true. Therefore, I am hereby donating $10 million to IIT. So through me a party and if I don't pay up, well hey, IIT is used to it.

Watch out, I'll be back.

SPARC Fundraiser

Last Thursday in the HUB Ballroom, the student fundraising group S.P.A.R.C. raised over $1,100 for IIT's radio station, WOU1. The winning raffle ticket was drawn by Bob Gummey, as member of the Parents Association, to be claimed by student Liz Claymont. The price, worth $1,200 consisted of a complimentary dinner for two at the Piazza Due via Globe Limousine Service and a weekend trip for two to Port Lauderdale, Florida with air fare provided by Caravelle Travel, and hotel provided by Marriot.

"The party turned out to be a huge success! With all the trouble we had getting the tickets and publicity, we thought we'd be lucky if we got 100 people to show up," said Mike Strahn, S.P.A.R.C. chairman and WOU1 station manager. Old Stylessponsored the band Jak Makral and the beer garden at the party which drew at least 300 people, probably a record for an IIT event. S.P.A.R.C. plans on possibly doing a similar event next year, but with more prizes of greater value, maybe even more than one trip.

"It just goes to show that people at IIT really do know how to party and have a lot of fun," exclaimed Mike Strahn, "and it won't be long before IIT has as much school spirit and student participation as any other major school. All the students and faculty who participated really ought to be proud." Mike would also like to give a special thanks to Bob Marovich, Donna Mostovoy, the Parents Association, DAKA, HUB staff, Union Board, the Evan family, and all those who helped out for their support and guidance.

College Graduates Make No Down Payment and Defer Your First Payment for 90 Days.

You worked hard to earn your college degree. But now it's time to join the real world. Pound the pavement. Get that first job.

A new car could come in handy. So as a reward for those countless essays and all-nighters, your Chicagoland/Northwestern Indiana Pontiac Dealers have made it easier than ever to own a new Pontiac.

Buy your new Pontiac under GMAC's College Graduate Finance Plan and we'll make your down payment equal to 5% of the agreed upon selling price. * You can also get up to $1000 cash back, or 2.9% GMAC financing, depending on the model you choose.** See your dealer for details. The Graduate Finance Plan. Proof positive of the value of an education.

We've made it easier for you to get your foot in the door.

Chicagoland/Northwestern Indiana Pontiac Dealers

*Available for credit worthy applicants at a 4.0 cumulative average or equivalent graduate school or graduate program. See your dealer for details. **Down payment equal to 5% of the agreed upon selling price. Not available on previously purchased GM vehicles. **For cash back or 2.9% GMAC financing you must take delivery from dealer stock by June 30, 1989. Length of finance contract is limited.
GENERAL ANNOUNCEMENTS

TECH NEWS DEADLINE

THE DEADLINE FOR ANY INFORMATION TO BE PUT INTO TECH NEWS IS THURSDAY AT 11:30 A.M. ANY INFORMATION RECEIVED AFTER THIS TIME WILL NOT BE ENTERED IN THE NEXT ISSUE. IT WILL BE HELD FOR THE FOLLOWING WEEK.

TIRED OF COMMUTING?

Residence Hall applications for the 1989-90 academic year are available in the Housing Office. If you are planning to live on campus you are encouraged to apply early.

ORIENTATION AIDE

Anyone interested in being an Orientation Aide for Fall, 89, should pick up an application form at the Counseling Center (105 Farr Hall).

ECE ADVISING

ECE students are strongly urged to see their academic advisor during the pre-registration for the Fall Semester 1989, that is, from April 17 to April 28, 1989. Advisor-advisee lists and sign-up sheets will be posted outside the ECE Department office (346 SH) on April 14.

Many ECE advisors will be block advising on Tuesday, April 18, from 12:20-2:00 p.m. in their individual offices. No appointments necessary - first come, first served. Alternately, students may sign up for an appointment with their advisor.

NOTE: YOU CAN BE ADVISED BEFORE YOU RECEIVE YOUR REGISTRATION PACKET. Advising consists of planning your Fall 1989 courses. Your registration form can be stamped at a later date.

The ECE Department advisors will strictly adhere to the prerequisites needed to register for a course and will only approve a course plan satisfying the prerequisites listed in the IIT Bulletin.

EXTENDED LIBRARY HOURS

The Library is now open until 11:00 p.m., Sunday through Thursday, every week until the end of the semester.

SUMMER JOBS

The university is making available to our students summer jobs in our Building and Grounds units. The jobs will pay $4.40 per hour for work schedules of up to 40 hours. The work will involve clean-up assignments inside the buildings and on the campus.

If interested, please contact Paula Graves in the Office of Financial Aid, Room 212 in the Main Building.

GOOD NEWS

A recent poll by our Placement Office found that 91% of the 1988 IIT graduates found jobs in their interest within 6 months after graduation.

Nation-wide colleges and universities are experiencing a decline in applications for the Fall semester. But we are proud to say IIT's number of undergraduate applications is up again this year. We have the Student Admission Team thank for much of our success with recruitment.

WHISTLE STOP PROGRAM

Operation WhistleStop is an action safety program designed to provide citizens with an effective and practical method of combating crime on the street. WhistleStop is a community signal system to alert police and others to trouble on the street. Following is a brief description of how the program works:

You are confronted on the street:
1. COOPERATE. It's safer for you.
2. Blow your whistle when physically safe.
3. Call Campus Police, 3333 and/or the Chicago Police, 911, as soon as possible.

You fear trouble on the street:
1. Run toward the middle of the street.
2. Blow your whistle.
3. Call Campus Police, 3333 and/or the Chicago Police, 911.

You observe trouble on the street:
1. Call the Campus Police, fast, 3333 and/or the Chicago Police, 911. State clearly the address/location and description of the incident you observed.
2. Open your window and blow your whistle.
3. Groundside, move toward the first whistle and keep blowing - keep a safe distance.
4. Assist victim if possible and stay until the police arrive.

You hear a whistle:
1. Call the Campus Police, 3333 and/or the Chicago Police, 911. Report the trouble and the location.
2. Blow your whistle.
3. Move toward the first whistle and keep blowing.

Whistles can be obtained from the Campus Police Department, 100 W. 33rd Street, Machinery Hall, Room 100. Remember, Crime Prevention - it's worth your time.

ETC INFO

This semester, non-interactive quizzing is offered in Phys 103, Math 110 and Math 151. Interactive quizzing is offered for CS 105, Math and physics quizzes are available during all open hours; CS tutors are available on a limited basis.

ETC will be open M-Th: 9:00-7:00, F: 9:00-5:00, and Sat: 10:00-12:00. The last non-interactive quiz will be given 45 minutes before closing. There is no quizzing on Saturday.

FREE TUTORING!!

Tau Beta Pi is now offering private tutoring for students having trouble with any of their courses. To get a tutor of your own, write your name, phone number, and course of concern on a piece of paper, and drop it off in the envelope hanging on the door of room 112 E1. You will soon be contacted by your tutor.

CHICAGO ADVANCED SEMINAR ON RELIGION IN AN AGE OF SCIENCE

The Chicago Advanced Seminar on Religion in an Age of Science will present a series of dialogues on recent work in the Life Sciences and its impact on society. Dr. Patricia Churchland will chair a panel addressing the themes "Neurophysiology and Philosophy: Toward a Unified Science of the Mind-Brain." Discussants include Professors Rodney Holmes (Neurophysiology, University of Chicago), Robert Gluckman (Psychology, Lake Forest College), and James Ashbrook (Psychology of Religion, Northwestern University).

The sessions will be held at the University of Chicago Theology Cluster, The Lutheran School of Theology, 5540 and University. For further information call Anselm Amadio, student life office, Ext. 3088.

SUMMER JOBS

The university is making available to our students summer jobs in our Physical Resources Department. The jobs will pay a competitive rate for work schedules of up to 40 hours. The work will involve clean-up assignments inside the buildings and on campus. Interested, please contact Paula Graves, Manager, Student Employment, Office of Financial Aid, Main Building, Room 212, Ext. 3305.

PHI ETA SIGMA

Members, please pick up your keys and certificates at the Dean of Student Life Office.

PASSOVER

The cultural and religious community of IIT extends very best wishes to those celebrating the Passover.

TECHNATE

Tech Mate Coordinator and First Mate positions are available for the 1989-90 school year. Please leave a note for Gus Menounakis in Box 12 in the Dean of Student Life Office in Hermann Hall.

MONDAY

VIDEO EXERCISE!!

Every Monday, Wednesday, and Friday different exercise videos will be shown in Reating Sports Center. Bring your friends and get in shape for the swim suit season by working out with popular videos. Times are from 12:15 to 12:45. For more info call Coach Wozniak at 33296.

TUESDAY

FORUM ON GLOBAL CHANGE AND OUR COMMON FUTURE

Live satellite broadcast from the Smithsonian Institution with on-line contact for questions from the IIT audience. Presented by the National Academy of Sciences, the American Association for the Advancement of Science, The Smithsonian Institution and Sigma Xi.

The conference will take place on May 2 and 3 from 6 to 9 p.m. in Stuart Building, Room 258.

On May 2, William Ruckelshaus, from Brownings-Perkins Industries, will speak on "Society's Stake in Global Change." Then Mme. Gro Hartvig, Frudtalnd, Prime Minister of Norway will speak on "Global Change and Our Common Future."

On May 3, a Summary Panel with international scientific experts will be presented. Admission is free. Call 33540 for reservations.
CMAA  

The Construction Management Association of America (CMAA) will hold its final meeting of the semester on May 2 at 12:00 in Room 222 Alumni Hall. Elections will be held as well as a recap of this year’s events. All interested members are welcome to attend.

WEDNESDAY  

VIDEO EXERCISE!!  

Every Monday, Wednesday, and Friday different exercise videos will be shown in Keating Sports Center. Bring your friends and get in shape for the swim suit season by working out with popular videos. Times are from 12:15 to 12:45. For more info call Coach Woźniak at x3296.

FORUM ON GLOBAL CHANGE AND OUR COMMON FUTURE.  

Live satellite broadcast from the Smithsonian Institution with on-line contact for questions from the IIT audience. Presented by the National Academy of Sciences, the American Association for the Advancement of Science, The Smithsonian Institution and Sigma Xi. The conference will take place on May 2 and 3 from 6 to 9 p.m. in Stuart Building, Room 322.  

On May 2, William Ruckelshaus, from Browning-Perris Industries, will speak on “State’s Stake in Global Change.” Then Mr. Gro Yvonh Brundtland, Prime Minister of Norway will speak on “Global Change and Our Common Future.” On May 3, a Summary Panel with international scientific experts will be presented. Admission is free. Call x3540 for reservations.

PHYSICS COLLOQUIUM  

Dr. Marleigh Sheff is the University of Wisconsin, Madison, will speak on “Recent Results From The Fermilab Collider” on Wednesday, May 3, 1989 at 4:00 PM in room 226 in Siegel Hall. Refreshments at 3:30 PM in room 202.

FREE BAND IN THE BOG  

Reggae, Reggae, Reggae  

Wednesday, 9:00 PM (x3296)  

In the BOG!!

NATURAL FORCES  

Free Admission

JIT YEARBOOK  

Yes, IIT does have a yearbook and it’s currently working on its third volume. We need photographers, writers, designers, artists and sales people. Iyou are interested in joining, the IIT Yearbook meets every Wednesday at noon in the HUB Mezzanine, room 306. If you would like to get more information, just call our office at 667-3561. COME ON! YOU KNOW YOU WANT TO JOIN!!!!!!!!!!!!

THURSDAY  

ET KAPPA NU  

The last meeting will be held on Thursday, May 4 at 12:30 p.m. in the Crowe Room of the HUB. This meeting is mandatory for initiates. We will talk about the initiation ceremony and the banquet to be held on this day. There will also be the election of officers for fall ’89.

ASC - AMERICAN SOCIETY OF CIVIL ENGINEERS  

The American Society of Civil Engineers (ASCE) will hold its final meeting of the semester on Thursday May 4th at 12:30 in room 222 Alumni Hall. All members must attend. Elections will be held, as well as plans for the final weeks of the semester. All interested non-members are welcome to attend.

MORE CLOSE ENCOUNTERS  

The student and faculty prayer and study program, “The Bible and You Today”, has revised its meeting schedule. Thursday, May 4, continues a weekly series in the Field Conference Room of Hermann Hall (SW corner of the HUB) at 12 noon. This Thursday’s program will focus on the inter-dynamic of faith and human reason as reflected by the texts of New Testament scriptures. This opportunity to deepen insights into personal values, life purpose and the self in a Christian perspective is open to the IIT community.

HERMANN HALL EVENTS  

U.B. Movie - “Young Guns” showtimes are on Thursday at 5:15 PM and Saturday at 7:00 and 9:30 PM. Admission is $2.00 or use U.B. Pass. U.B. Concert - “The Rave” Thursday night at 9:00 in the BOG. Admission is $2 or use U.B. Pass.

Friday, May 5th, the Second City Comedy Troupe will give a live perfor-

formance in the HUB auditorium. Tickets are available now in the HUB Director’s office for $5.00. Great America tickets are now available in the Hermann Hall Directors office for $14.75.

GOLF  

There will be a golf meeting on Thursday, May 4 at 12:30. Anyone interested in playing on the varsity golf team for the next school year should come to the meeting in Keating Sport Center. For more information contact Coach Woźniak (ext. 3296).

FRIDAY  

THE SOCIETY OF PHYSICS STUDENTS  

The IIT chapter of the Society of Physics Students will hold officer elections for the 1989-1990 term at the spring meeting on Friday May 5, 1989 at 5:00 pm in room 202 SH. A guest faculty speaker will talk about the new cold fusion process after the voting. All physics majors are invited to attend.

The IIT chapter of the Society of Physics Students will play the physics faculty/graduate student/alumni in a game of softball on the first study day, Tuesday May 9, 1989 at 3:30 pm in the Stuart Building field. Refreshments will be served at the game. All undergraduate physics majors are invited to play, and any faculty/graduate/alumni that thinks they can win is, as usual, mistaken.

VIDEO EXERCISE!!  

Every Monday, Wednesday, and Friday different exercise videos will be shown in Keating Sports Center. Bring your friends and get in shape for the swim suit season by working out with popular videos. Times are from 12:15 to 12:45. For more info call Coach Woźniak at x3296.

VANDERCOOK COLLEGE OF MUSIC  

The scheduled concert series for the Spring 1989 semester is as follows:

May 12  

Hubbard High School Choir  

All concert series are held on Friday, begin at 1:00 p.m., are free of charge and open to the public.

SATURDAY  

HERMANN HALL EVENTS  

U.B. Movie - “Young Guns” showtimes are on Thursday at 5:15 PM and Saturday at 7:00 and 9:30 PM. Admission is $2.00 or use U.B. Pass. U.B. Concert - “The Rave” Thursday night at 9:00 in the BOG. Admission is $2 or use U.B. Pass.

Friday, May 5th, the Second City Comedy Troupe will give a live perfor-

performance in the HUB auditorium. Tickets are available now in the HUB Director’s office for $5.00. Great America tickets are now available in the Hermann Hall Directors office for $14.75.

SUNDAY  

HERMANN HALL EVENTS  

Hermann Hall is now open on Sundays from 12:00 noon to 10:00 pm. The Rec Center is open from 5:00 - 10:00 pm.

CHAPEL HOLY COMMUNION  

Sunday celebration of Prayer and Eucharist communion takes place in IIT chapel, May 7, the sixth Sunday after Easter. The Service beginning at 11:45 a.m. will involve those present in the Scripture Readings and prayer Intercessions. The IIT community is warmly welcome.

Manufacturing &Marketing  

Manufacturing logistics in the global marketplace, licensed manufacturing, and transnational marketing and strategic alliances are among the topics that will be discussed at a three-day conference, May 15-17, sponsored by ITRI Manufacturing Productivity Center and presented in conjunction with Illinois World Trade Month.

The conference, to be held at the Howard Johnson's O'Farrell, 10249 W. Irving Park Road in Schailler Park, Ill., will provide the opportunity for technology, manufacturing, and trade specialists to address the general theme of manufacturing technology's growing importance in international trade.

For reservations or additional information, please call ITRI Manufacturing Productivity Center at 667-4080.
The rip-roaring comedy show that will knock you out of your seat!

### SUMMER JOBS
The university is making available to our students summer jobs in our Physical Resources Department. The jobs will pay a competitive rate for work schedules of up to 40 hours. The work will involve clean-up assignments inside the buildings and on campus. If interested, please contact: Paula Graves, Manager of Student Employment. Office of Financial Aid, Main Building, Room 212.

### SUMMER HOUSING
at Alpha Epsilon Pi
3350 S. Michigan Ave.

**DOUBLE:** $175.00/person
**SINGLE:** $375.00

Air conditioning (not supplied): $50.00
- 24 hour kitchen
- washer/dryer
- television
- good security

Call David at 842-8766 or 225-3335
The current Program Director of the station is Art Anderson. Art is also currently functioning as the station's Public Service Director, some of Art's responsibilities are to obtain DJ's for the station, get announcements which go over the air, and obtain public service announcements. Art is also responsible for the station's format - in other words he tries to ensure that, on a given day people will be able to listen to a certain type of music rather than say jumping from classic rock to progressive to rap to oldies, etc.

Currently, the station has two Music Directors. They are Carl Merril and Miko Gondek. There are the people who procure new and current music for the station, keep the station abreast of the latest music news and combine the DJ's music logs into playlists. The station also has a position for an Assistant Music Director. This position would entail the person to send in the station's playlists to the College Music Journal and keep aware of new and upcoming music. Currently, Carl has incorporated this as part of his job.

The station also has a position for a News Director. This slot is currently unoccupied. The responsibilities of this person would include the broadcasting of news and important announcements (for both the campus and the local community), and the obtaining of public service announcements. If you might be interested to this position please contact the station.

Last but not least is the station's Public Relations Director. This role is currently filled by Jack Pines. It is Jack's responsibility to promote the station to the campus and local community. This may be done through give-aways, the station participating in on campus and getting the backing of local businesses. Jack is the main person involved with trying to increase the audience size that listens to the station.

There you have it folks, a detailed account of how your campus radio station is run, the people who run it, and their various responsibilities. If you are interested in any of these positions and think you have what it takes to help run a radio station give us a call at ext. 3087. We are always interested in getting new people involved and with people graduating some of these positions open up on a regular basis.

All Executive Board Officers will be open next semester, to apply, obtain an application from the WOUI office or studio. Applications must be turned in by May 5, interviews will be held on May 9.

School's out for summer, School's out forever.
-Alice Cooper

Zenith's 286 LP 20Mb with the amber or white monochrome monitor (1490 FTM color monitor pictured here). New, lower pricing on all 286 LP systems. Now available in dual drive, 20Mb or 40Mb versions. Also there's two new options: 8MHz or 12MHz, both at zero wait states. MS-DOS, Microsoft Word and Logitech mouse included. Microsoft EXCEL and WORD are only $100. Before school's out, get what's in for less.

To buy your 286 LP, contact:
The biggest crime at IIT is theft. Just last week, 3 cases of it were bought to my attention by the students around the campus. However, unlike most crimes, there are ways to guard against being a victim of theft. Larry Gaddis provided these "common sense" suggestions:

- Avoid carrying around large amounts of cash.
- Secure personal items (including your purse, backpack, and books).
- Don't leave your work area unattended.
- Report defective locking devices to campus security.
- Keep accurate records of any items of value that you have (including serial numbers).
- Leave identifying marks on items of value.
- Don't leave books at study carrels.
- Always report incidents as soon as possible, especially with stolen books and other items that may be resold.

Also, if you are going across the campus, don't forget that IIT has a personal security service. For more information, call 3333.

SIX REASONS WHY THE WEST WAS WILD.

Young Guns

The exciting young talents that set the screen ablaze in hit films like La Bamba, Wall Street, Bright Lights, Big City, and Stakeout come together for this thrilling action-adventure based on the true story of a rebel who lived over 100 years ago. In a lawless and violent time, six young outcasts take the law into their own hands when their employer is murdered in an ambush. They declare war on his killers and embark on a bloody reign of terror and revenge that makes them the object of the biggest manhunt in the history of the West. As their fame grows, so does the legend of their leader—Billy the Kid. Featuring electrifying performances by the best of Hollywood's new breed—Emilio Estevez, Charlie Sheen, Lou Diamond Phillips, and Kiefer Sutherland—Young Guns is a new and entirely different kind of Western based on the intriguing story of one of the most colorful and dangerous figures in the Old West.

Natural Forces
Women's Softball

Tuesday, April 18, proved itself uneventful to IIT Women's Softball Club because rain caused their Mundelein game to be cancelled. Thursday, April 20th, however, brought an exciting rival match between IIT and the "She-Mules" of Kennedy King College.

The game started off a little slowly but picked up speed as IIT's first baseman, Tracy Leonard, was plowed down by a Kennedy King player. As Tracy was being taken care of, tempers flared and words were exchanged among many players who proved they would do just anything to win. New pitcher Tina Malanowski and Ruth Olenski who proved to add some excitement to IIT's lineup.

The game had stolen bases, incredible catches, throws and enthusiasm that made every play exciting. When the game was over, however, Kennedy King was the winner defeating IIT (9-8). Players swore as they walked off the field, but on Tuesday, April 25, when the two teams were to meet again, IIT would get even and prove to Kennedy King who was the better team.

Unfortunately, Tuesday's match-up didn't provide any better weather and the "She-Mules" out numbered Hawks. Even with all of the tremendous efforts by the team members, IIT fell short of victory by a score of 9-1.

The game took place in front of a record breaking crowd ever at Stuart Field. Team's manager, Tracy Leonard, fractured nose and all, took the field. Exciting plays of the game were when Ruth Ogden was hit by a Kennedy King throw and when Sharon Prichett was "attacked" at home plate by a Kennedy King baseman. IIT players felt that, "Everyone played well but due to lack of ruck-book and efficient officiating, we were robbed of the win."

The Softball Club would like to thank BJ & Associates, our usual fans, our numerous base coaches and Rich (our umpire) for making our season on exciting one. Any

Election Fiasco

I was the right before the election and through the halls, not a member was campaigning, not even the president. Adams, of course, they did. When they left, their right hand (besides the right wing) would not announce the event. The posters clearly indicated that an election was unannounced. The slogan "RHA positions available" really said it all. So compelling was that poster, that even the IIT student might have premeditated a vote. If only they had suggested a time and place.

This pretext for an election was not only a great injustice to the IIT student, but it was also unconstitutional under the ratified RHA constitution. Violations:

1. There was a violation of Article IX, Section 1, Part C pertaining to the election of members. It states that on the 3rd week of April a hall-wide election will be held to fill the office of President and Treasurer. April 24 is clearly the 4th week of April, and the election was held on the 1st (one evening actually) after. Also, only one member of the IIT student was appointed by the President and Treasurer.

2. There was a violation of Article IX, Section 1, Part C. The Secretary shall be appointed by the President and shall be approved by a simple majority of the council present and voting. Therefore the Secretary cannot be elected in a hall-wide election.

3. There was a violation of Article IX, Section 1, Part B: "Upon the receipt of fifty signatures of hall residents, the election of a President will be held and the election of a President. A hall resident's name will be placed on the election ballot.

4. On the election ballot, there were spots for "write-in" candidates, clearly, a write-in candidate does not have 50 signatures.

5. Do the candidates themselves have 50 signatures?

6. Who was the Election Chair-person? Can the President appoint himself even though he was a candidate. On the sign it says registration available from John Hines, 314 South, X5089 which indicates that he himself is the election chair-person.

7. If there was an Election Chair-person, was he appointed by the President and approved by the council by April 1st or violation of Article IX, Section 1, Part A.

Why not? This is Chicago! The renowned nationwide

Forum On Global Change

Sigma Xi and the Science and Technology Studies group will present a satellite transmission, of the international "Forum on Global Change and Our Common Future" from the Smithsonian Institution via IITV, Tuesday and Wednesday, May 2-3, beginning at 6 pm each evening, in 238 Stuart Building.

On May 2, a tape-delayed address by William Ruckelshaus, "Society's Stake in Global Change" will open the forum, followed by the live, keynote address by Mme. Gro Harlem Brundtland, prime minister of Norway.

On May 3, an international panel of experts will examine the environmental and public policy issues associated with such problems as climatic warming and tropical deforestation, and provide a scientific perspective.

IITV is providing on-line contact with the forum's participants for questions from the IIT audience. Space is limited. Interested persons need to pre-register for this video conference by calling 567-3540.
JOIN TECH NEWS

Anyone interested in running for a position at Technology News next semester:

1) Write a short statement on why you feel you’re the best candidate for the position.
2) Attend the Interview Meeting on Friday, May 5 at 12:30 in Room 306 of the HUB (RSVP by Thursday, May 4 before 12:00 noon at ext. 3060).
