Sorority Receives Award

Delta Phi Epsilon received the 1988 Service Club Award from the Cystic Fibrosis Foundation.

During the foundation's Annual Volunteer Awards Luncheon on Feb. 5, Victoria King, Mary Kris, and Kathy Sousa, of IIT accepted the award on behalf of the sorority. The award was shared with DPE of U of I and NIU. The award is given to the service club which shows concern for cystic fibrosis through time, energy and donations. The IIT sorority raised more than $800 during a bake-a-thon last May.

Cystic Fibrosis is the nation's #1 genetic killer of children. The Cystic Fibrosis Foundation raises money to support programs of research, care and education. For more information on volunteering, call 1-800-824-5064.

Magnetic Conference

Improved production methods of magnetic materials, such as electrical steels, and new methods of non-destructive testing, using magnetic methods, are among the topics which will be addressed at the Annual Conference on Properties and Applications of Magnetic Materials, hosted by IIT on May 15-16, 1989. This is the 8th year IIT has sponsored this highly successful meeting of magnetic materials users and suppliers, providing research managers, engineers, and scientists a unique opportunity to meet and discuss their future needs. The conference features both workshop discussions and the presentation of seminar papers.

Along with IIT, the conference is co-sponsored by the IEEE Magnetics Society and by the Small Motor Manufacturers Association.

For additional information about the conference, please contact Dr. Henry P. Mezenger, Department of Electrical and Computer Engineering, ECT Center, Chicago, IL 60616, 312-595-3400.

ASME Regional Conference

The American Society of Mechanical Engineers (ASME) will be hosting the 1989 Regional Student Conference (RSC) at the Holiday Inn Crown Plaza in Lisle, IL on April 6th through 8th.

The conference will be attended by ASME student sections from over 26 universities throughout the Midwest. IIT is located in Region VI, which is made up of IUC, Kentuck, Iowa, Wisconsin, and upper Michigan.

American Society of Mechanical Engineers (ASME) student sections have the opportunity to exchange information with other sections, participate in various workshops and compete in technical presentations for cash awards and national recognition. Another highlight of the conference will be a tour of Fermilab in Batavia.

IIT's ASME student section is presently working with the Fox Valley senior section in the planning of the conference. With an estimated attendance of 150 students and faculty advisors anticipated, ASME is asking all its members if you know who you are to help out. ASME meets every other Tuesday 12:30 in IIB 101. If you can't make it that time, stop by any time, or call at X3895.

Shuttle Bus Scheduling

The Security Sub-Committee has proposed that a shuttle bus be provided to students and from the North-South "BL" train and the Dan-Ryan "EL" train. The shuttle bus will be scheduled to run every 5 or 10 minutes for one - two hours in the morning and one - two hours in the late afternoon. This was suggested so that students will feel safer and less apprehensive going to school.

Given enough student support, the administration may put this plan into effect as soon as possible. Therefore, we need your input as to what times the shuttle bus should be in service and how long they should be in service.

Thank you, The students of the Security Sub-Committee

Should the shuttle bus be in service for:
- 1/2 hour
- 1 hour
- 1 1/2 hour
- 2 hours

Should it take students to and from the "EL" every:
- 5 minutes
- 10 minutes

At what time should the shuttle bus be in service:
- Morning
- Late Afternoon

Please return this to the Dean of Students Office (Box #4 or 5).

ETC Community Outreach

The Educational Technology Center (ETC) has been conducting computer workshops for grade school students from the Stephen Douglas School, 3200 S. Calumet in the "GAP," which is part of IIT's community outreach program. Students were selected to participate in these workshops by their Computer instructor, Mrs. Donaz Lamberti.

For two hours on three consecutive Fridays in Feb, 30 fifth through seventh graders participated in a kind of "Mini-Hawk" workshop aimed at introducing them to the basics of PCs-based wordprocessing and database creation, as well as to composing on the Macintosh. For the first two Fridays, the students used the multipurpose software PFS: First Choice (the same software used in Project Hawk courses) to compose and merge letters requesting tourism information from Tourist Bureau addresses of their choice. For the third workshop, students used Macintosh computers to write about famous men and women from Black History. In addition, students toured the ACC computing facilities and ETC, as well as participating in an exciting search expedition for trolls in the tunnel connecting Stuart and Life Sciences Building.

Beginning March 3rd, approximately 30 eighth graders from the Douglas School will participate in a similar workshop. Instead of writing letters requesting tourist information, however, they will compose letters to state and federal legislators asking for additional funding for education. For the final week, they will use the Macintosh computers to create a mini-newsletter.

These workshops not only provide the Douglas students with an opportunity to expand their knowledge of computers, but also allow them to become acquainted with IIT as a friendly and accessible part of their community. Student review workshops appear to be quite favorable as evidenced by the response given as they prepared to depart IIT on the final afternoon of the workshop. Asked whether they had enjoyed their visit to IIT, the students responded in unison with a resounding "Yeah!"

Peter Johnson, Dean of Undergraduate Affairs and Director of ETC was responsible for making the arrangements between IIT and the Douglas School, Cheryl Caplan (ETC manager) and Chris Morrell (ETC assistant manager) have been conducting the workshops. They have been invaluable ally ETC and Project Hawk staff members, Felix Arias, Bangalore K Konthikumar, Diana Maldonado, Dan McNerney, Joe Mantle, and Chuck Stewart, serving as computer workshop assistants. John Dygdon, Director of Academic and Educational Services, reserved the PC labs on the 4th floor of the Main Building and Bill Dit, Director of ACC reserved one of the Mac labs for the students' use. Bryan Sager assisted in the preparations of the Mac labs. TA salaries and materials for the students, such as diskettes, stamps and envelopes, are paid for by the Office of External Affairs, headed by Clyde Watkins. Larry Gaddis, Manager of Campus Security, has arranged for transportation of the students between the Douglas School and IIT.
THE UNKNOWN REVIEWERS

THE DUDE ON THE RIGHT

Hello again, from the Unknown Reviewers, and to this week's review of the band Jak Makrel. It was a very fun time in the Bog with probably the largest crowd yet this semester. The band did a very good job in keeping the crowd singing and dancing throughout the entire evening.

The show consisted mostly of, for no better way that I can think to say it, new wave dance music. The first set highlighted music by REM, (Radio Free Europe, Orange Crush), The Cure (Hot Hot Hot), Violent Femmes (Blister in the Sun) and Billy Idol (the perennial party song - Rebel Yell). The second set spotlighted more Billy Idol, REM, and The Cure. The final set, highlighted, as one Bog-goer noted, a couple of extra band members, Mr 52K and 64K (in reference to the programmed music) in songs like "Everyday is Halloween", and "Mama." Jak Makrel also played a few of their own songs throughout the evening, well received by the crowd, and with a sound similar to the rest of the music of the evening.

The band seemed to have their act together, and from the other times they played in the Bog, they knew what the crowd wanted to hear, as evident by including in the show songs like "Ballroom Blitz", "White Wedding," and "Sunday, Monday, Tuesday." They played most of the music well, and showed that even though some of the songs were pre-programmed, the members of the band had a lot of musical talent. Jak Makrel seems to be one of those bands that has the talent, and with a little more experience, has the potential to make it big someday.

I give the band, Jak Makrel, and the double thumbs up. The band had a lot of energy and a lot of talent. They played what the crowd wanted to hear, and what they seemed to know would make the crowd have a good time, as well as have a good time themselves.

Don't ye know, if you didn't get to see Jak Makrel the first this semester, they are scheduled to be back as the final band of the semester. Next weeks review will be on the bands, "Snap Shot," "Decades," and the II! band "The Naturals." This week in the Bog will be the band "Crack'd Actor." And, as always, "LET'S PACK THE BOG TO THE WALL MMM!"

THE DUDE ON THE LEFT:

Well, here we are again to tell you all about last Thursdays' show. This week in the Bog things were even better than usual. The band Jak Makrel filled up the Bog early Thursday night, and the crowd seemed ready to party. I can say a lot about the music the band played, my musical consultant, and photographer had given me the names of most of the songs and groups. The one song that I didn't seem to find in the crowd seemed to like what the band was playing.

Right from the first set, people were dancing to the sound of REM, U2, and The Talking Heads. They even rocked a bit with songs like, Walk This Way by Aerosmith, and Rebel Yell. We also heard songs from The Cure, Ministry, and The Violent Femmes (Whoever they are).

The second set contained a similar mix of REM, The Cure, and New Order. They threw a few original songs which showcased some of the band's musical talent. The set ended with a classic dance song, Billy Idol's Dancin' With Myself, with a few quick riffs of Terrible Ted Nugent's Cat Scratch Fever thrown in for good measure.

The last set contained a few more contemporary dance songs from the likes of The Police, and The Romantics. They also played a good version of the classic Ball Room Blitz, and though it was pre-programmed, Mama was a real treat to hear.

Even though I can't say many of the songs they played I have to give Jak Makrel the double thumbs up. They had a lot of musical talent, and they played a good selection of music for people to dance to, and to rock to.

Next week we are going to review a new band Snap Shot, and we will also be reviewing II! own, The Naturals, and Double Exposure. See you next Thursday in the Bog when the band will be Crack'd Actor.

FROM THE NEWS DESK

by John Abbott

Our word for today is "weenie." Before you react, let me explain what the definition of a "weenie" is.

At the beginning of this week, I found myself asking the same question that I do every week before working on the paper.

"Is student apathy as bad as it seems?"

I've asked myself this question time and time again, without a satisfactory answer. Until recently. It was explained to me in a way that only ATs, Union Board, and a few other organizations on campus who have tried to motivate students, can appreciate.

There are two rules at II! as far as events and social life are concerned.

RULE #1: Never plan anything. It's against the II! code to be caught planning a social event. Fraternities are exempt from this code, because they usually don't admit that they are part of II!

RULE #2: When an event happens, complain. It doesn't matter how insignificant the detail is, as long as you've found an imperfection. "The lighting was bad," and "They didn't serve beer," are always reliable standby arguments.

A person who lives by these rules, I commonly refer to as a "Weenie." A "Weenie" is not to be confused with a geek, nerd, or dork. It's possible (in my definition) for a person to be a geek or a nerd without necessarily having the negative charisma that is needed to be a weenie. The weenie finds bad in everything. He is a "dork," the power of 10.

Whereas the nerd just acts goofy, the weenie insists that everyone should have as bad of a time as he's having. Because, as we all know, wenies don't know how to have fun.

SUPER-SIXTEEN TEEN BEAT PRESENTS...

WIN A DREAM DATE WITH JOHN

Yes Ladies, Now you can win the date of your wildest fantasies! and all that you have to do to be eligible is...NOTHING!

THAT'S RIGHT! DON'T DO ANYTHING!

Whatever you do, don't turn in an article to this paper. You see, John would never date anyone that he works with, it's part of his personal code of chivalry. So if you want to be with him, by no means should you work for TECH NEWS. They're looking for writers, you know. -But don't do it, for goodness sake! -or you'll never win this dream date with John.

(I know what you're thinking, "Hey, didn't we see this stupid ad last week?) Well, yeah. You did. -But we still haven't had any response in our quest for writers. Besides, the picture was misplaced last week and it never ran. We heard that the photograph had been stolen by the same people who wanted to censor the "Satanic Verses." Anyway; the picture is here, and he still looks like a dork.)
LAST WEEKS QUESTION:

WHAT FORMER FACULTY MEMBER
(AT THE ARMOUR INSTITUTE) IS
KNOWN AS "THE FATHER OF RADIO"?

ANSWER

Lee De Forest was known as the "father of radio" for his 1906 invention of the three-electrode vacuum tube, the basic device in television, radar, and the electronics industry. He was presented the Edison medal by the American Institute of Electrical Engineers in 1947, at which time he was ranked with Faraday, Edison, Morse, and Bell for inventions in the field of electricity.

De Forest conducted some of his earliest decisive experiments at the Armour Institute. In a 1936 letter to the Armour Engineer and Alumnus, he wrote that "my connection with [Armour Institute of Technology] enabled me to launch my career in wireless to an ultimate success which might never have been attained otherwise." It was in the old "Armour Flats" that De Forest conceived the idea that a radically new type of sensitive wireless detector could be developed on the principle of using incandescent gases as the transmitting medium. He assisted the late Professor Clarence Freeman, EE 1897, of the Electrical Department in laboratory class work in exchange for the use of the laboratories. At this time he was also teaching mathematics at the Lewis Institute for the "magnificent salary of $5.00 a week."

De Forest remembered that: "I carried on this work at the Institute from September or October, 1900, to July, 1901. During this period I so far perfected the electrolytic detector to a point where I could actually receive telegraphic code signals over 'distances'...I was quite pleased when I was able to receive signals from my spark coil practically the entire length of the upper hall in the Institute [Main Building]. My first long-distance experiments were made on the roof of the Lathrop Hotel about a half mile from the Institute. I shall never forgot the thrill I experienced when I first heard dots and dashes transmitted by Smythe, who was at the key of the coil at the Institute. My next attempt was to the tower of the Auditorium [Theater Building on Congress Street]. This was also a success."

De Forest went on to make four fortunes and lose three. He invented the "Kinescope" and "Arifone," for a time, the long bread-plate in all the world! A 1942 article in the Saturday Evening Post stated that "Each year a fresh crop of uses for the vacuum tube, until it looks like the greatest invention of the century, a par in ultimate significance with the steam engine or the electric lamp. Already about $6 billion in industries and more than 1 million jobs have grown out of De Forest's audion. Yet, as if De Forest's worldly possessions were turned into cash, the proceeds would barely buy the smallest of the nearly 900 radio stations in the country."

LAST WEEKS WINNER: JEFF KITCHEOS, EE '88

$ 10 FIRST PRIZE!!

QUESTION OF THE WEEK:

WHAT MAJOR CONTRIBUTION DID THE INSTITUTE'S RESEARCH FOUNDATION MAKE TOWARDS ADMIRAL RICHARD BYRD'S ANTARCTIC EXPLORATION?

IIT CAMPUS ROOTS QUIZ RULES:

1. ANY CURRENTLY ENROLLED IIT STUDENT CAN COMPETE.
2. NUMBER OF ENTRIES ARE LIMITED TO ONE PER PERSON PER WEEK.
3. ALL ANSWERS MUST BE IN WRITING. USE THE TEAR-OFF PORTION BELOW.
4. IF MORE THAN ONE CORRECT ANSWER IS RECEIVED, THEN THE WINNER WILL BE RANDOMLY DRAWN.
5. IF NO CORRECT ANSWER IS RECEIVED, THEN THE PRIZE MONEY WILL BE ADDRESSED TO THE NEXT WEEK'S AMOUNT.
6. THE DECISION OF THE JUDGES IS ALWAYS FINAL.
7. JUDGES, CENTENNIAL RESEARCHERS, LIBRARY STAFF AND THE TECH NEWS STAFF ARE INELIGIBLE TO PARTICIPATE.
8. WINNERS COLLECT PRIZE AT PH122 UPON ANNOUNCEMENT.

A BRIEF ANSWER (DUE WED. 10 A.M.)

SEND OR BRING TO:

IIT CENTENNIAL OFFICE, #222 PELSTERN HALL

Technology News
March 6, 1989

TECH NEWS DEADLINE

THE DEADLINE FOR ANY INFORMATION TO BE PUT INTO TECH NEWS IS THURSDAY AT 12:00 NOON. ANY INFORMATION RECEIVED AFTER THIS TIME WILL NOT BE ENTERED IN THE NEXT ISSUE. IT WILL BE HELD FOR THE FOLLOWING WEEK.

ATTENTION IIT FRESHMEN!

IIT and Chicago Medical School (CMS) are initiating an honors program in which students may earn the BS from IIT and the MD from CMS in a seven-year period of study. Students will spend 3.5 years at IIT and 3.5 years at CMS. Only students presently in their first year at IIT and working towards a BS in electrical engineering, mechanical engineering, or computer science are eligible to apply for this program.

Interested students should contact Prof. Robert Jager (Pritzker Inst. Med. Eng.) ext. 5324 or Dr. William Black (Admissions) ext. 3625. The application deadline is Friday, March 17th at 4:30 pm.

GENERAL MOTORS SCHOLARSHIPS FOR M.F.S.

General Motors is offering two scholarships to Mechanical Engineering majors. The award includes tuition, fees and book allowance, and a two summer internships at a division of GM. Candidates must be juniors in the fall semester of 1989 with a minimum GPA of 3.2/4.0, and must be U.S. citizens or permanent residents. Anyone interested can obtain more information and application materials from Prof. Medley or Lisa White, MAS Office, Room 243 E1. Completed applications are due in the MAS Office by March 17th.

PLACEMENT

NASA Lewis Research Center of Cleveland, Ohio is interviewing on Campus in mid-March. U.S. EE, ME, and Aerospace students who have completed their sophomore year and have a 3.4 GPA may sign up. This is a co-op position and students must have a current Co-op application on file.

Inquire in the Co-op Office, Room 443 - Farr Hall, 567-3699.

GOOD NEWS

A recent poll by our Placement Office found that 91% of the 1988 ITT graduates found jobs in their interest within 4 months after graduation.

Nationally, college and universities are experiencing a decline in applications for the Fall semester. But we are proud to say IIT’s number of undergraduate applications is up again this year. We have the Student Admission Committee to thank for much of our success with recruitment.

ITV PROCTORS NEEDED IMMEDIATELY

Senior or Graduate Students preferred. Must have car and insurance. Due to government/company regulations, Proctors cannot be from the People’s Republic of China. Various days and hours available. Call 567-3480 or visit Room 226 Stuart Building.

WHISTLE STOP PROGRAM

Operation WhistleStop is an action safety program designed to provide citizens with an effective and practical method of combating crime on the street. WhistleStop is a community signal system to alert police and others to trouble on the street. Following is a brief description of how the program works:

You are confronted on the street:
1. COOPERATE. It’s safer for you.
2. Blow your whistle when physically safe.
3. Call Campus Police, 3333 and/or the Chicago Police, 911, as soon as possible.

You fear trouble on the street:
1. Run toward the middle of the street.
2. Blow your whistle.
3. Call Campus Police, 3333 and/or the Chicago Police, 911.

You observe trouble on the street:
1. Call the Campus Police, 3333 and/or the Chicago Police, 911. State clearly the address, location and description of the incident you observed.
2. Open your window and blow your whistle.
3. Go outside, move toward the first whistle and keep blowing—keep at a safe distance.
4. Assist victim if possible and stay until the police arrive.

Whistle can be obtained from the Campus Police Department, 100 W.

33rd Street, Machinery Hall, Room 100. Remember, Crime Prevention—It’s worth your time.

ETC INFO

This semester, non-interactive quizzing is offered in Phys 103, Math 110 and Math 151. Interactive quizzing is offered for CS 103. Math and physics quizzing is available during all open hours; CS quizzes are available on a limited basis.

ETC will be open M-Th: 9:00-7:00, F: 9:00-5:00, and Sat: 10:00-12:00. The last non-interactive quiz will be given 45 minutes before closing. There is no quizzing on Saturday.

FREE TUTORING!!

Tau Beta Pi is now offering free tutoring for students having trouble with any of their courses. To get a tutor of your own, write your name, phone number, and course of concern on a piece of paper, and drop it off in the envelope hanging on the door of room 112 E1. You will soon be contacted by your tutor.

STUDENT PAPER CONTEST

The Institute of Electrical and Electronic Engineers is sponsoring a student paper contest in April for March of this year. We are looking for contestants to participate in this competition which will be a regional contest hosted at IIT West. Awards will be given and the top three papers in the region will be published in the "IEEE Student Papers".

Student papers are eligible even if they have been submitted for class credit. To dig up your old projects and enter them to win cash prizes and recognition. Topics should cover technical, engineering, management, or societal aspects of subjects reasonably within or related to the areas with which IEEE is concerned. Since IEEE is so diversified, almost any engineering related topics are acceptable.

For more information contact John Barnett, Student Branch Chairman at 456-0507.

MONDAY

NO ANNOUNCEMENTS

TUESDAY

ASME

On Tuesday, March 7th, ASME’s guest speaker will be Dr. Subir Kumar, director of the Railroad Engineering Lab. For place and time, look for notice on ASME office door (Room 118, E1) or check the signs on bulletin boards throughout campus. Everyone is welcome to attend.

TAU BETA PI GENERAL MEETING

There will be a general meeting for all Tau Beta Pi members on March 7, 1989 in 123 E2. At this meeting you will get a chance to meet and talk with the new electees for this semester.

TECHMATE MONOPOLY TOURNAMENT

The 2nd annual monopoly tournament sponsored by TechMate will be held on March 7 and 9. There is no entrance fee. Cash Prizes will be awarded.
First: $50.00
Second: $25.00
Third: $10.00/each

If you have any questions, please call 567-3080 and ask for Janet Plec or Donna Morgan.

A.I.A.S

The IIT chapter of the American Institute of Architecture Students is pleased to present a lecture by Diane Legge of Skidmore, Owings, & Merrill on Tuesday, March 7 at 7:15 pm, in the lower core of S.R. Crown Hall. Ms. Legge is the second lecturer of the AIA/IIT 1989 spring lecture series.

MEN’S TENNIS TEAM

The men’s tennis team will have an organizational meeting on Tuesday, March 7 in the Schummer Room in Rocking. All interested please attend. If you are interested but unable to attend, please call coach Chris Meyer at 5389.

AIA/S SPRING LECTURE SERIES

Tue. March 7 at 6:15 p.m. Diane Legge in Crown Hall from Skidmore, Owings, and Merrill

Tue. March 14 at 6:15 p.m. Burton Samuels in Crown Hall First Year Studio Professor Slides of his travels abroad

Tue. April 4 at 6:15 p.m. Stanley Tigerman in Crown Hall From Tigerman McCoy/U.I.C.

Fri. April 14 at 6:15 p.m. Thomas Beeby
from Hammond, Beeby, Bahka/Yale

in Crown Hall

David Sharpe
Graduate Professor
Slides/Lecture sheet ancient cultures and architecture of Central and South America

**NEXT WEEK**

**S.A.E.**

The Society of Automotive Engineers will hold a general meeting on Tuesday, March 14, at 2:30 p.m. in Room 119 E1. Topics for discussion will be an update on Mini-Baja, final plans for SAE Student Night, and new design projects. We are currently in the process of organizing groups to begin the design for a new Mini-Baja vehicle, a formula car, and a radio controlled cargo aircraft. Anyone interested in helping with any one of these projects is welcome to attend this meeting.

**IN FIVE WEEKS**

**MODEL VEHICLE CONTEST**

Student teams of no more than five members each are invited to build and race a model vehicle from a standard kit for prizes of $150, $75, and $30. The competition, set for the HUB's Gallery Lounge at noon on Tuesday, April 11, will test both power and speed. Entry forms are available at the HUB Director's Office; the $25 entry fee is fully refunded upon participation in the contest. Questions? Contact Professor Charles Bauer, Contest Coordinator, at x5145 or by Vax mail username CSBAUER. Sponsored by the IIT Centennial.

**WEDNESDAY**

**SWE**

Attention! Due to a mistake in the "Thriving At IIT" book, this is the new meeting schedule! All meetings will be at noon on the following Wednesdays:

- March 15
- April 5
- April 19
- May 3

Speakers this semester will discuss such topics as becoming a P. E., Engineering in industry, and why an M.B.A. could be useful. Other projects this semester include a St. Patrick's Day bake sale and a "Dress for Success" seminar. New members always welcome.

**CHEMISTRY COLLOQUIUM**

Dr. David Green of Allied Signal Engineered Materials Research Center will be speaking on "Design and Synthesis of Organic Polymers for Electro-Optical Applications" on Wednesday, March 8, in room 118 Wishnick Hall at 4:00 p.m. Coffee will be served at 3:30 p.m. in the Wishnick Hall Lobby.

**PHYSICS COLLOQUIUM**

Prof. U. Fano of the Department of Physics at the University of Chicago will discuss "Fragmentation of Atoms and Molecules" on Wednesday, March 8, in Siegel Hall room 206 at 4:00 p.m. Refreshments will be served at 3:30 p.m. in room 202.

**NEXT WEEK**

**PHYSICS COLLOQUIUM**

Prof. L. Brown of the Department of Physics at Northwestern University will discuss "Fundamental Theories of Nuclear Forces in the 1930s" on Wednesday, March 15, in Siegel Hall room 206 at 4:00 p.m. Refreshments will be served at 3:30 p.m. in room 202.

**THURSDAY**

**THE PERSONAL COMPUTER USERS CLUB**

P.C.U.C. will be holding a general meeting on Thursday March 9th at 12 noon in room 304 HUB Mezzanine. All students and faculty are encouraged to come.

**CONTINUING ENCOUNTERS**

The student and faculty prayer and study program, "The Bible and You Today" meets Thursday, March 9 to resume a series of theme reflections in the Firestone Lounge of Herman Hall (SE corner of the HUB) at 12 noon. The group's focus will be on the personal and psychological impact of the faith.

**FRIDAY**

**VANDERCOOK COLLEGE OF MUSIC**

The scheduled concert series for the Spring 1989 semester is as follows:

- March 31: Whitney Young High School Choir
- April 7: Josette Behrend and Margaret Nichols, Piano
- April 14: Roger Roce, Euphonium
- April 28: VanderCook Brass Choir, Roger Roce, Conductor

May 12: Hubbard High School Choir

All concert series are held on Friday, begin at 1:00 p.m., are free of charge and open to the public.

**SATURDAY**

**HERMANN HALL EVENTS**

U.B. Movie "Rattle and Hum" Saturday at 7:00 and 9:30 p.m. in the HUB Auditorium. Admission is $2.00.

**SUNDAY**

**HERMANN HALL EVENTS**

Hermann Hall is now open on Sundays from 12:00 noon to 10:00 p.m. The Rec Center is open from 5:00 - 10:00 p.m.

**CHAPEL HOLY COMMUNION/LENT**

Sunday celebration of Prayer and Eucharist-Communion will be held in IIT Chapel on March 12, the fourth Sunday in Lent, - the six week orientation for Easter observance. Beginning at 11:45 a.m., the service will involve those present in the Scripture Readings and Prayer Intercessions. The IIT community is warmly welcome. experiences in Christ as the manifestation of divine revelation, and its vital consequences in life and witness. This opportunity to deepen personal insight in a Christian perspective of life purpose and the self is open to the IIT community.

**HERMANN HALL EVENTS**

U.B. Movie "Rattle and Hum" Thursday Night at 5:15 p.m. and Saturday at 7:00 and 9:30 p.m. in the HUB Auditorium. Admission is $2.00.

U.B. Concert "Crack'D Actor" Thursday Night in The BOG at 9:00 p.m. Admission is $2.00.

**TECHMATE MONOPOLY TOURNAMENT**

The 2nd annual monopoly tournament sponsored by TechMate will be held on March 7 and 9. No entrance fee is required. Cash prizes will be awarded:

- First: $50.00
- Second: $25.00
- Third: $10.00 each

**IN FOUR WEEKS**

Briefing on the Armenia Earthquake of December 7, 1988 will be held in Crawford Auditorium (E1-215) on Thursday, March 30, 1989, from 4:00 to 7:00 p.m. The briefings are co-organized by the National Center for Earthquake Engineering Research, Buffalo, New York, Great Lakes Regional Chapter of Earthquake Engineering Research Institute (SEERI) and Illinois Institute of Technology. There will be four speakers detailing on seismology, life-line systems, structures, and search and rescue operations. The briefings are open to faculty and students and all are encouraged to attend.

**IN FIVE WEEKS**

**3RD IIT TRIATHLON SET**

Students will receive information soon describing the prizes for IIT's third annual "academic" triathlon competition. The Triathlon is scheduled for noon on Thursday, April 13, in the HUB. This year's Triathlon tests the abilities of IIT students in: 1) Programming an electronic spreadsheet 2) Building and flying a rubber-band powered airplane and 3) Double elimination Table tennis.

Last year our sponsors donated prizes totaling about $4000 in merchandise. A new feature of this year's contest is designating some prizes (especially PCs, terminals or modems) for a team competition category. This will add to our housing units in meeting their needs for better access to Academic Computing.
All films are displayed for your viewing pleasure in the HUB Auditorium every Thursday at 5:15 pm and Saturday at 7:00 and 9:30 pm. Admission is $2.00 or use your UB pass.
CRACK'D ACTOR

As heard on Jonathon Brandmeier

CRACK'D ACTOR

An all-ages, $2.00, more fun than death show will take place Thursday at 9:00 pm in the Bog.

ATTENTION FOREIGN GRADUATE STUDENTS: PART-TIME CONSULTANTS FOR INTERNATIONAL FIRMS

Large multinational client companies currently seek qualified individuals with foreign language facility and area expertise for competitive consulting opportunities in selected European, Asian, African, and Latin American markets. Foreign students in advanced degree programs welcomed. Experience in scientific, economic, and international relations fields a definite plus. Part-time assignments available during school year including opportunities for J-1 and F-1 visa students.

Salaries based upon qualifications. All positions are fee-paid, no cost to applicants.

For prompt consideration, please send a resume or letter describing your qualifications with daytime telephone number to:

Pick-up and delivery service available
$99 roundtrip airfares on Northwest Airlines. A special offer for students, only for American Express Cardmembers.

If you want to go places, it's time for the American Express® Card. Because now you can take advantage of new travel privileges on Northwest Airlines only for full-time students who carry the American Express Card. Travel privileges that offer:

- Two $99 roundtrip tickets——fly to any of the more than 80 cities served by Northwest in the contiguous 48 United States. Only one ticket may be used per six-month period.
- Special Quarterly Northwest Destination Discounts throughout 1989——up to 25% off the lowest available fare.
- 5,000 bonus miles in Northwest's WORLDPASS® free travel program——where only 30,000 miles get you a free roundtrip ticket to anywhere Northwest flies in the contiguous 48 United States or Canada.

And, of course, you'll enjoy all the exceptional benefits and personal service you would expect from American Express.

The only requirements for privileged travel: you must be a Cardmember, you must be a full-time student, and you must charge your Northwest Airlines tickets with the Card.*

Getting the Card is easier than ever because now you can apply by phone. Just call 1-800-942-AMEX. We'll take your application and begin to process it right away. What's more, with our Automatic Approval offers, you can qualify now while you're still in school. Apply now. Fly later—for less.

Apply Now: 1-800-942-AMEX

*Some restrictions may apply for complete offer details; call 1-800-942-AMEX. Current студент Cardmembers automatically receive two $99 vouchers in the mail.

Condom Controversy

(CPS)—Condoms became a hot, political issue at another campus Feb. 21. A senior state senator who helped shape the state law regulating condom use was among the panelists at the State University of New York at Albany last week on a "cure of the problem of condoms." The senator said that condom use is not as widespread as some people think it is. He also said that condoms are not as effective as they are made out to be.

A month earlier, some college administrators at Know College in Illinois decided to delay the delivery of condoms to students because they were afraid of the condoms being used by students who were not interested in them. The administrators were not sure if the condoms were free or if they were being sold for profit. They also said that the condoms would not be available to students who were not interested in them.

Newsdesk

I know that this may seem quite trivial to some, and very annoy the others. But it is important that you know the difference. You see, a weenie has no guts. A weenie will never stand up for anything. At ITT, it's important that you stand up for what you believe in. I guess that's all that I'm trying to say. If you want to change something that you're not happy with, get up and change it. But don't just sit back and complain. Please, don't be a 'weenie.'
ATTENTION IIT FRESHMEN!

IIT and Chicago Medical School (CMS) are initiating an honors program in which students may earn the BS from IIT and the MD from CMS in a seven year period of study. Students will spend 3.5 years at IIT and 3.5 years at CMS. Only students presently in their first year at IIT and working towards a BS in electrical engineering, mechanical engineering, or computer science are eligible to apply for this program.

Interested students should contact Prof. Robert Jaeger (Pritzker Inst. Med. Eng.) ext. 5324 or Dr. William Black (Admissions) ext. 3025. The application deadline is Friday, March 17th at 4:30 pm.

Northwestern University Summer Session '89
Think or swim.

3033 Sheridan Road Evanston, Illinois 60201 312-462-3650

Save me a seat, send me a copy of the Summer Session '89 catalog with financial aid and exploration information available mid-March.

Please send this catalog to: ☐ my home. ☐ my school.

In summer, more is less.
Save 20 percent on two courses, 25 percent on three or four.

This coupon, or call 1-800-560-3530 in Illinois, (312) 414-1114.
How to get through college with money to spare:

1. Buy a Macintosh.

2. Add a peripheral.

3. Get a nice, fat check.

Now through March 31, when you buy selected Macintosh® SE or Macintosh II computers, you'll get a rebate for up to half the suggested retail price of the Apple® peripherals you add on—so you'll save up to $900. Ask for details today where computers are sold on campus.
