Student Government and the Dean of Students Office are sponsoring the IIT Student Leadership Retreat during the weekend of September 15, 16 and 17. The retreat will be held at George Williams College, in late Geneva, Wisconsin. The goals of the retreat are to help students develop individual and organizational leadership skills, to let students get to know each other, and to have fun.

Leadership skills will be developed through a series of activities and workshop meetings. Topics to be covered in the workshops include time/stress management, improvement of communication and organizational skills, marketing, motivational skills, marketing your organization, community development, and budget preparation. To attend the retreat, students must complete an application available at Student Government meetings and the Dean of Students Office. The retreat is open to all students, whether they are affiliated with an organization or not. The application deadline is Friday, September 8. The retreat is open to 55 students, so apply while space is still available.

The cost of the retreat is $10. The cost includes all meals, lodging, transportation from IIT to and from the retreat, workshop materials, and some recreation. Students attending the retreat will leave on Friday, September 15 at 6:30 pm and return to IIT at 4:00 pm on Sunday, September 17. Student Government members (x3074), and go to the Office of Students (x3080).

A Letter From the Student Government

Hi and welcome back from a short summer. My name is Michelle Kochan, and I am President of Student Government this year. I'd like to take this opportunity to introduce you to Student Government, and to tell you about some of the issues we will need your help in addressing this fall.

First, let me give you some general information about Student Government. The purpose of Student Government is to convey the attitudes and needs of the students to the administration and faculty, and to work with these groups to fulfill the needs. Full-time students are members of Student Government. Student Government meets every Wednesday at noon in the HUB. All students are welcome to attend. To vote at student government meetings you must be a representative of an organization registered at the Dean of Students Office, or you must indicate your desire to be a voting member, signed by 35 full-time students. Our office is located in the Student Activities Office on the second floor of the HUB. Our phone number is x3074.

The other Student Government Executive Board Officers are Scott Yi, Vice President; Brad Burke, Treasurer; Judd Tani, Assistant Treasurer, and Tariq Tariq, Secretary. You will have the opportunity to meet them in person at the Student Government Meetings and some of our organization meetings.

We need your input on important issues. The administration has already approached us for student opinion on the selection of the new president of IIT. I hope you will participate in this process. The look forward to listening to your opinions on these issues at the Student Government meetings this fall.

The first two events Student Government will be involved in this year are a leadership retreat and a university-wide job fair. Student Government is sponsoring a Leadership Retreat on September 15, 16 and 17. For more details on the retreat, see the article about the retreat in this Tech News. Student Government is also co-sponsoring a university-wide job fair, to be held Monday, October 2. More information on these events will be available in Tech News and at Student Government meetings.

Finally, I'd like to invite all of you to the first Student Government meeting this year on Wednesday, September 6 at noon in the HUB. The first meeting will be an informal get-together. Lunch will be provided. Copies of the constitution and by-laws will be available, as well as copies of the new and improved Student Handbook. We look forward to hearing from you this semester. Thank you.
