United In The Crusade

The 1989 IIT United Way Crusade of Mercy campaign got under way officially on October 23 with a kickoff party in Hermann Hall. About 100 faculty and staff attended the party, enjoyed the music of the IIT Jazz Combo, consisting of Greg Mostowy, Wes Hudson and Wally Tuchert, and watched a brief film about the United Way featuring Chuck Norris and Mike Single

ary.

President Henry Linden, honorary chairman, an

ounced that IIT had already raised through advance pledges almost $424,900 to-

wards its 1989 goal of $500,000. "IIT has done well in the past," Linden said. "But we can do much better.

The United Way/Crusade of Mercy supports about 400 human service agencies in the Chicago area. Linden stressed the fact that the Crusade aids the homeless, the hungry, the elderly, the disabled and the victims of drug and alcohol abuse. "Almost 90 cents of every dollar contributed goes directly to these service providing agencies," Linden said. "That is why the Crusade is the most effective way of meeting the vast social needs of our community.

David Zemser, this year's campaign chairman, called for IIT faculty and staff to give generously. "We especially want to increase the number of fair share contributors," Zemser said. "But all contributions are welcome." Zemser asked for volunteers to serve as solicitors of contributions from their colleagues and fellow workers.

The Campaign will continue until mid-November. Mark Angelini is associate chairman of the 1989 campaign at IIT.

The theme of this year's campaign is "It brings out the best in all of us."

"Chemists Are The Human Element"

IIT will present a program of presentations, demonstrations, and workshops titled "Chemists Are the Human Element" on Saturday, No

vember 4 as part of its celebration of National Chemistry Week (October 28-November 4). The events include:

"Chemical Microscopy," a lecture by Dr. Walter McCrone, including a discussion of how he used chemical microscopes to establish the date of origin of the Shroud of Turin. 9:00 am in Wishnick Hall.

"Viruses and Holograms," an exhibit of three-dimensional holographic images created through a patented computer process developed by Ellen Sander of ArtUn Laboratory. During the day in Peregrine Hall.

All events are free and open to the public.

Prepare For An Earthquake

by Krishna Reddy, Research Assistant, CE Dept.

I have attended a course offered by Federal Emergency Management Agency (FEMA) on Earthquake Hazard Reduction. The objective of this article is to share some of the information I received during the course. Earthquakes can occur anywhere in Illinois at any time, however, most are likely to do little serious damage. It is very important for us to realize the existence of damage that could occur during earthquakes and also prepare ourselves for an earthquake. Earthquakes can be disastrous primarily because of the damage that they do to the physical aspects of our society. Damaged or destroyed buildings, roadways, pipelines, electricity utility lines, etc. can kill or injure people and result in the loss of millions of dollars in property over an affected area.

People can mitigate or lessen the severity of earthquake damage by identifying hazards that exist in their homes, offices, schools, or places of business and then systematically removing or correcting each hazard.

Some common hazards include:

- Free standing water heaters, stoves, and other gas or electric appliances which may fall and cause damage or leak gas.
- Bookshelves or filing cabinets which are free standing or bookshelves with objects stored above head level. These could be fastened together or to a wall or increase their stability and objects above head level should be removed.
- Water or gas pipes which are not fastened well to walls or ceilings. Increasing the number of fasteners or supports can prevent fracture and leakage.
- Large panes of glass which could fracture and fly apart. Such panes could be replaced by smaller panes or safety glass which would not fly apart as easily.

Some other things that people can do to make their homes more earthquake ready include:

- Keeping a few days supply of food and water available.
- Being sure each home has fire extinguisher and smoke alarm.
- Maintaining a properly equipped first aid kit complete with any necessary prescription drugs stored.

The purpose of the free period poll is to determine how important such a period would be to freshman, since the free period would most noticeably affect freshman class scheduling. A free period during the day would provide time for students to participate in extracurricular activities. The free period will accommodate the commuter students who are usually on campus only during the day. It is hoped that such a period would encourage more students to become involved in activities on campus.

If this is passed and that this free period would conflict with freshman "block" classes, and force these classes to be scheduled at night or earlier in the day. The freshman enrolled in Hawk sections will be asked to fill out this survey this week. Student Government will compile, publish, and present the results of this poll to the curriculum committee.

This semester the following classes are scheduled either during 12-3 or on Tuesdays or during lunch: ARCH 117, ARCH 415, BIOL 431, CHE 202, CS 331 (3 sections), EE 415, ENG 653, ENGR 374, PHIL 245, ID 117, PHYS 415, and PHYS 511.

The purpose of the second poll is to determine student opinion regarding changing the graduating with "honors" system to the Latin version, i.e. cum laude, summa cum laude, and magna cum laude. Any one interested in participating in this poll may do so by the HUB at the northeast entrance all week. Opinions will also be collected in the dorms and on the Quad during meal times. The results of this poll will be presented to the curriculum committees.

Campuses Brace For Halloween Parties

(CPS) From California to Florida, campus and city officials are warning they will be better prepared this year for what has probably become the unofficial National Student Holiday, Halloween.

As with spring break, the other nationwide collegiate festival, many schools are promising crackdowns and rule changes to try to prevent some of the worst excesses and even injuries that have plagued campus Halloween celebrations in recent years.

"This will not be a pleasant place to be on Halloween," said Jack Dyer, director of university relations at Southern Illinois University at Carbondale, which 18 years ago was one of the first schools to give itself over to huge Halloween street parties.

But SIU's much-copied Halloween bash has grown to...
College Seniors Don't Know Basic Facts

(CPS) — Students don't know certain basic facts about our own history and literature, a Gallup Poll of 606 college seniors released October 8 suggested.

The poll, commissioned by the National Endowment for the Humanities (NEH), found that almost one out of four seniors could not name the century in which Christopher Columbus landed in the Western Hemisphere.

Fifty-eight percent of the seniors didn't know that Shakespeare wrote "The Tempest," and 55 percent could not identify the Magna Carta.

What's more, 33 percent attributed Karl Marx's phrase, "From each according to his ability, to each according to his need," to the U.S. Constitution.

If they'd been graded on the survey, more than half—59 percent—would have flunked, and another 20 percent would have gotten a "D," NEH Chairwoman Lynne Cheney said.

The survey results prove that colleges need to revise their curricula so that undergraduates can read and understand what they are reading, she said.

Cheney, who then released a NEH report calling for schools to require all students to take 50 credit hours of humanities courses to graduate.

Others, while acknowledging students should know basic facts, didn't think the survey results are an indictment of higher education.

"Although we can do a better job, let's not throw our hands up and say we're hopeless," said James Kilroy, dean of the English department at Tulane University in Louisiana. "To be able to read "The Tempest," that's what's important."

"The test itself is circumstantial," claims Thomas Goldstein, executive director of the American Association of University Students, a Philadelphia-based group that represents college student governments.

"Do I have to know these things to be a good citizen?"

---

Mixed Reviews For "The Education President"

by Amy Hudson (CPS) — If preliminary observations are any indication, President Bush's long-awaited "education summit" won't mean much for higher education, especially in the near future.

Convened at the University of Virginia September 27-28, with Bush and 49 governors (minus Minnesota Gov. Rudy Perpich)—said they would set definitive performance goals for schools by early next year, and they agreed to hold up to the states as how to meet the goals.

The only good thing to do with higher education was that college should be more accessible, especially to disadvantaged students.

Many of the other bold goals adopted probably will translate into students taking more standardized tests and getting more classroom drills to learn how to get high scores on these tests.

The summiteers also set the stage for transferring the power to set course content, choose books and make policy from school boards to school principals and teachers, letting parents choose the school their children will attend, and create new ways for college graduates to get into teaching.

All of the sessions were private, except for Bush's final speech, in which he pledged support for the six-year-old school reform movement but stopped short of expanding the federal role in education. "Our focus must no longer be on resources. It must be on results."

As Bush spoke, several groups of students policy took turns promoting various causes, including reproductive choice, gay rights, more government assistance for Chinese students in the U.S., an end to intervention in Central America, and support for Bush himself.

Reaction to the summit, an expansion of Bush's campaign promise to be "the education president," has been mixed. Some observers dismissed it as political grandstanding while others were just grateful for any attention to education.

"They met, and they took a lot of good pictures," observed Julius Davis of the United States Student Association (USSA) in Washington, D.C.

"It was a gorgeous photo opportunity," agreed Charles Saunders, Jr. of the American Council on Education (ACE), the college presidents' group in Washington, D.C. "Aside from that, we'll have to wait and see."

On the other hand, Tim Gertey, president of Trinity College in Connecticut, thought the summit was encouraging. "From the point of view of college teachers, it's good news that the country is acknowledging that you teach national goals: make international sense, and we should seek those goals in as many inventive and creative ways as we can."

"I think it's a step in the right direction," added Jeff Cooper, vice president of student government at Occidental College in Los Angeles. Many observers were hopeful the meeting would bring back the federal government, which during the Reagan administration steadily diminished its funding role in education, might take some of the financial burden back.

"(Bush) accomplished more in his first two years in office than Reagan did in eight years," claimed Robert Hochstein of the Carnegie Foundation. Hochstein's boss, Carnegie executive director Ernest Boyer, first proffered the idea for a national meeting to discuss broad education goals.

The very breadth of the goals, coupled with Bush's warning that he won't call for more federal money for education, frustrated other observers.

"I don't see Bush doing anything different," said the USSA's Davis. "Bush is Reagan and Reagan is Bush."

And the trouble some governors had imagining how to improve schools without more money frustrated still other observers.

Current "drug czar" and former U.S. Secretary of Education William Bennett characterized the meetings as marked by "standard Democratic pap, Republican pap, with occasional outbursts of candor and other stuff that rhymes with pap."

Nevertheless, administration leaders plan to issue a call later this month for yet another summit. The next would involve educators, who would be encouraged to endorse specific steps to accomplish the general goals set by the governors.

"Unless you involve more than governors and the president, you're not going to get the kind of results you want," said Rick Juerre, state director for the House Postsecondary Education Subcommittee.

The "results, however, still probably will not be felt on the college level. Few of the problems college students face, such as the growth in the number of courses taught by grad students, enormous financial aid loan debts, and deteriorating campus facilities, have been addressed, much less solved, by the school reform movement so far."

Of the latest stab at reform, ACE's Saunders said, "Elementary and secondary education have got to be the priority, but hopefully, they're not ignoring higher education."
NBC Studies College Students Viewing Habits

(CPS)—College students watch an average of 1.8 hours of television a day, compared to the national average of seven hours daily, says a NBC study. NBC's conclusions were based on a telephone survey last spring of 1,014 students at 50 four-year colleges and universities.

The students listed "The Cosby Show," "Late Night With David Letterman," "thirtysomething," "Growing Pains" and "The Wonder Years" as being among their favorite shows.

Among other things, the study found that 96 percent of the students polled watched TV, and that 60 percent of the men and 39 percent of the women watch late-night TV. However, the opposite is true for daytime soaps: 63 percent of the women and 29 percent of the men tune in.

As with the general public, television was the main source of news for the students polled. Forty-three percent said they get most of their news from television, compared to 27 percent who said they get it from newspapers.

NBC's study was the latest in recent network efforts to study viewing audiences that traditionally haven't been included in the national Nielsen audience estimates.

It comes at a time when the networks, losing audiences to cable, videocassette recorders and independent stations, are trying to include traditionally uncounted TV viewers in national estimates, or at least convince advertisers that these viewers should be considered.

The survey estimates that the 8.5 million collegians in the 18 to 24 age range have a collective spending power of $20 billion annually.

(CPS)—Tuition would not go up as fast if colleges were run more like businesses, a panel of 19 "education specialists" contended.

"What needs to happen in American higher education is no different than what needs to happen in American Industry, and is in fact happening: becoming meaner, a lesser learner," said Robert Zemsky, director of the Higher Education Research Program and head of the panel. Zemsky's group, which was sponsored by the Pew Charitable Trusts, said efficiency probably dictates closing some colleges and foraging others to drop certain programs.

"It will be painful. It will be difficult, but it is in higher education's best interest," Zemsky said.

Zemsky's group, for example, suggested closing campuses that have low enrollment, which it likened to "outmoded military installations, both a drag on the general economy and a misuse of scarce public funds."

The report also recommended reversing the 50-year trend toward campuses offering a wide variety of courses. Zemsky wants schools to scrap their smaller programs, and invest in their most successful ones. For example, a small liberal arts college may decide to cut its graduate programs. A university might invest more heavily in its science course while abolishing less popular curriculums.

Study In Germany

IIIT has had a reciprocal agreement with the German Academic Exchange Service (DAAD) for seven years, an IIIT student can receive full tuition and living expenses plus round trip air transportation for a year of study in Germany. Graduating seniors and graduate students who are US citizens between the ages of 18 and 31 are eligible; a knowledge of German is required. Applications can be obtained from Dean Pearson in 301 ML. Application deadline is December 1, 1989.

LETTER TO HEATHER JONES
FROM MILENA GRABLEWSKI

Dear Heather Jones,

I have only one thing to say: READ THE ISSUE OF TECH NEWS FROM OCTOBER 19! I芬兰id the two wrong things by writing your letter, perhaps you would have thought twice before voicing your concerns.

Please let this be the last word on the Nature's—anonymous Tech Nession

STUDENT ALCOHOL POLICY COMMITTEE

Our meetings of the fall semester of 1989 will be held on the following days:

Thursday, November 9, 3:00-4:30 pm, Programing Office
Thursday, November 23, 3:00-4:00 pm, Programing Office
Thursday, December 7, 3:00-4:00 pm, Programing Office

If you can't make it to the meeting(s), please send a representative from your organization. What we decide on these meetings could have a big affect on I.I.T. Campus.

The list of possible topics for the year:

1. Education programs (BAACHUS)
2. More social programs (alternatives to alcohol functions)
3. Need of training of students and staff on how to handle difficult alcohol situations.
4. Development of a resource notebook on programs, policies, etc.
5. Development of a fair and consistent policy of the campus.
6. Development of a BAACHUS chapter on campus.
7. What is considered "High Risk" drinking on campus?
8. Should beer be cut out of the Bog to other parts of the building?
9. Should the committee develop education programs and policies for the campus community (students, faculty, and staff)?
10. What process should there be for requesting alcohol at functions?
11. Selling alcohol—where and who can sell it?
12. What do we do for those individuals that need help?
13. Should this committee look at other substance abuse issues at some point?
14. How do we "enforce" policies.
15. Is there a system to help people home from a party who need help?
16. Drinking in the commons—is there a policy, where is it?
17. Drinking on the grassy areas—is it okay? (many people do it)
18. Rush—dry or not?
19. What will I.I.T. sponsor for group events?
20. Alcohol Awareness Week Programing (week of October 15-21)

These meetings are held to come up with ideas which we can present to the Alcohol Education and Policy Committee. Please attend them!
GENERAL

TECH NEWS DEADLINE

THE DEADLINE FOR ANY INFORMATION TO BE PUT INTO TECH NEWS IS THURSDAY AT 12:00 NOON. ANY INFORMATION RECEIVED AFTER THIS TIME WILL NOT BE ENTERED IN THE NEXT ISSUE. IT WILL BE HELD FOR THE FOLLOWING WEEK.

ACM

The Association for Computing Machinery is holding a three part resume workshop to help all IIT students get an extra edge on getting a job. There will be free refreshments so come by room 111 of Stuart Building at Noon on the following days to get that edge on your resume and interview:

Part III Wednesday, November 15 Recruiters from Exxon will explain to us what they expect from all IIT graduates. In a resume, during an interview, and after an inter view.

SCHOLARSHIP

The Women of Rotary Foundation are interested in obtaining any exceptionally bright and gifted persons who may need financial assistance and who would qualify. Scholarship applications must be submitted by November 20, 1989. They can be picked up at the Disability Services Office at Farr Hall. For more information call extension 3502 and ask for Mary Alice.

WOUI

The WOUI Executive Board positions of Station Manager, Program Director, Technical Director and Public Relations Director are open to anyone interested. Applications are available at the WOUI office located on the fifth floor of Main Building. Come up during office hours or leave a message in the office mailbox. Be sure to leave your place of contact so that we can get in touch with you. Interviews will be held on Thursday, November 9 at noon in Room 315 of the HUB mezzanine.

The WOUI station managers are looking for assistants. Anyone interested should come up to the WOUI office during office hours or leave a message addressed to Mark Mazmanian at the office mailbox. You could also contact Mark Mazmanian via his WOUI account user name MAZAMAR or through the WOUI VAX shell. Be sure to leave your place of contact so that we can get in touch with you.

DEEPHER DUDE IS COMING!

Delta Phi Epsilon is looking for a few good men to be in their annual "Deepher Dude" contest to be held on November 8. It's a great chance to show off your moves, and have lots of fun. There will be many prizes available. Ladies if you know of a guy that would make a great Deepher Dude, let us know!

For more information contact a sister of Delta Phi Epsilon at 842-9039.

FALL TALENT SHOW

Tryouts in HUB Mezzanine:
Monday, October 30, 7:00 - 10:00 pm
Wednesday, November 1, 7:00 - 10:00 pm
Thursday, November 2, 7:00 - 10:00 pm
All are welcome! For more information contact Marc at extension 3008, after 7:00 or Anita at 335-2079 after 11:00.

MUSLIM STUDENT ASSOCIATION

DAILY PRAYERS:
*FAJR 5:45 am
*ADUHR 12:00 pm
ASR 3:35 pm
*MAGHrib 4:45 pm
*ISHA 9:15 pm

* Prayers are held at family residence area.
A Prayers are held in Hermann Hall.
Please check Today's Events Board for room assignment.

PLACEMENT AND COOPERATIVE EDUCATION

Amoco Information Services is looking for CS or Bus. Adm. students who are interested in participating in mock interviews for the company on November 1, 4, and 10. For more information contact Jennifer Dolphin, Amoco at 856-7553. A $60.00 honorarium will be paid.

We are encouraging all December '89 and May '90 graduating seniors (BS, MS or PhD) to register in our office. There is an immediate need for the following majors:

Bus. Adm. (MIS especially)
Civil Engng.
Metm. Engng.
Chemical Engng.
Computer Science

Fall Recruiting Companies:

ATTENTION INTERNATIONAL STUDENTS AND SCHOLARS

The International House (I-House) at the University of Chicago invites all international students in the Chicago area to visit a U.S. family over the Thanksgiving holiday.

I-House has arranged for international students (spouses and children are welcome) to stay with U.S. families in rural Illinois and enjoy a traditional U.S. holiday.

The only cost to you to participate in the program is a $4.00 application fee and transportation to I-House (bus/train fare $1.00 or approximately $4.00 for a taxi). Everything else is taken care of!

Applications are available at the International Office. Application deadline is November 7.

INDIA ASSOCIATION

This time there is going to be a slight change in the pattern of the directory. There is going to be a magazine section also! So we need all members and non-members to put in some effort in coming up with articles for the magazine section. The articles should be written in English, typewritten if possible (or at least written legibly). Topics for these articles are up to the writer. They could range from interesting, imaginative, technical, arbitrary, etc. but not unprintable. All these will be edited before they are printed.

Deadline: The absolute and final deadline for submission would be November 3, 1989.

Come up with something or put up with what we write ourselves!

MONDAY

REJOICE IN JESUS

ReJOYe in Jesus Prayer meeting will be held on Monday October 30 in Room 306, HUB mezzanine at 12 Noon.

WINTERFEST NEEDS YOUR HELP

The dates for Winterfest '90 have been set for February 2-9, 1990, but it needs your help. The next Winterfest planning committee meeting will be held on Monday, October 30, 1989 at 8:30 pm in the Student Activities Office located in the HUB.

Student organizations are encouraged to participate in the planning.
JOB SEARCH FOR INTERNATIONAL STUDENTS

This workshop is especially for you, the international student. It will be held on Monday, October 30 at 4:00 pm in room 301 Hermann Hall. Learn how to conduct a successful search for employment.

REJOICE IN JESUS

ReJOYce in Jesus Prayer meeting will be held on Monday, October 30 in Room 306 HUB Mezzanine at 12:00 noon.

TUESDAY

INTERVARSITY CHRISTIAN FELLOWSHIP

Intervarsity Christian Fellowship meets on October 31 at 7:30 pm in 105 East Hall.

SPIKE, SET AND SERVE COMPETITION

Spike, set and serve competition for cash price Tuesday, October 31 at 7:00 pm! Come to the game and receive a prize for most obnoxious and craziest costume. Pick up a coupon for a free coke at the Halloween concert at 9:00 in the HUB.

ASME

Our next meeting will be held on Tuesday, October 31 from 12:30 to 1:15 pm in Room 122 E1. Please come and find out about our many activities we have planned. See you there!

WEDNESDAY

INTERVARSITY CHRISTIAN FELLOWSHIP

Biblical reflections and sharing of prayer will be the focus of the campus gathering of the Intervarsity Christian Fellowship on Wednesday, November 1 in Room 305 Fowler Residence hall at 7:00 pm. In recent weeks the Gospel according to John as well as Paul’s letter to the Romans have been the sources for reflections on our life at IIT. The campus community is warmly welcome.

THURSDAY

AIChe

The next meeting of the American Institute of Chemical Engineers is Thursday, November 2 in 108 PH, 12:00 pm. Speaking is Bill Rohde of Exxon. The topic is sales engineering. All students are welcome.

REJOICE IN JESUS

ReJOYce in Jesus Weekly Fellowship meets on Thursday, November 2 at 7:30 pm in the Field Room of Hermann Hall.

BIBLICAL ENCOUNTERS

The student and faculty prayer and study program, "The Bible and You Today," continues the weekly meeting schedule Thursday, November 2 in the Field Conference Room of Hermann Hall (SW corner of the HUB) at 12:00 noon. The week’s program will focus on the interdynamics of faith and human reason as reflected by the texts of the New Testament scriptures. Just because the program has been going on for a number of weeks does not feel intimidating, this opportunity to deepen insights into personal values, life purposes and the self in Christian perspective is definitely open to the whole IIT community.

SCIENCE AND RELIGIONS

The Catholic Seminar, "Science and Religion" conducted by the Rev. Michael Ginsler, will meet on November 2 in the HUB Field Room.

AIIE

There will be a general meeting for AIIE on Thursday, November 2 at 12:30 pm in Room 121 E1. The guest speaker will be Sung Huf, a graduate student at IIT. Refreshments will be served. All new members welcome.

FRIDAY

MUSLIM STUDENTS ASSOCIATION

FRIDAY PRAYER:
At 12:00 pm in the IIT chapel for Quran recitation.
KHUTBA:
First group: 1:15 pm
Second group: 12:15 pm

DANCE-A-THON

On Friday, November 3, the biggest dance of the year will begin. Be prepared for the Dance-a-thon.

KOREAN EVANGELICAL FELLOWSHIP

The Korean Christian Fellowship meets Friday, November 3 at 7:00 pm in the IIT chapel located between the Residence Lounge and the high rise apartment. The program which is structured Biblical study with a prayer format, involves undergraduate as well as graduate students and their families in an experience of Korean Christian community on campus. All interested persons are heartily welcome.

COMBINED INTERVARSITY CHRISTIAN GROUP

The Combined Intervarsity Christian Group meets in the HUB Field Room on Friday, November 3 at 7:30 pm.

SATURDAY

ATTENTION INTERNATIONAL STUDENTS AND SCHOLARS

Visit Brookfield Zoo with the International Club. The cost is only $3.00 (including bus and entrance). Bring your own sack lunch. Sign up at the International Office in Farr Hall. Deadline is Friday, October 28th. Hurry up! Places are limited.

CHINESE BIBLICAL SEMINAR

The Chinese Bible Study Fellowship at IIT gathers in the Field Room of Hermann Hall on Saturday, November 4 at 7:30 pm. Anyone interested in the Chinese Biblical tradition through Chinese culture is cordially welcomed. The program is presently focusing on the New Testament gospel of St. John.

SUNDAY

CHAPEL HOLY COMMUNION

Sunday celebration of Prayer and Eucharist-Communion takes place in the IIT Chapel Sunday, November 5 at 11:45 am. The Liturgy will include those present in the Scripture readings and Prayer Intercessions/music. This traditional Holy Communion Prayer of Christian unity welcomes the IIT community.

NEXT WEEK

MONDAY

REJOICE IN JESUS

ReJOYce in Jesus Prayer meeting will be held on November 6 in Room 306 HUB mezzanine at 12:00 noon.

TUESDAY

ASME

On Tuesday, November 7, Mr. Archie Stevenson from International Magnesium Association (IMA) will come and speak to our organization. Everyone is welcome to attend.

This event will be held from 12:30 to 1:30 pm in Room 122 E1. Please come and bring a friend. Refreshments will be served.

WOUI

Attention! WOUI will be having a general staff meeting on Tuesday, November 7 at noon in the WOUI office located on the 5th floor of Main Building. All staff members are required to attend and anyone interested in WOUI is encouraged to attend.

THURSDAY

ReJOYce in Jesus Weekly Fellowship. Bible study, praise music, and refreshments. All are welcome. 7:00 pm in the HUB Field Room.

STUDENT ALCOHOL POLICY COMMITTEE

The next meeting of the Student Alcohol Policy Committee will be on Thursday, November 9 from 3:00 to 4:00 pm in the Programing Office in Hermann Hall.
AROUND CAMPUS

The Attitudes of Women at IIT

by Al Byon

That title got your attention, didn't it? Well, it got me further reading. At least, it got me further reading. Read on to find out what I found out.

A couple of weeks ago, I wrote my column for Tech News and in it asked, "What do you want?" I wanted people to respond either by getting a hold of me at Tech News or by giving me a good answer when I came up and asked. Unfortunately, not too many people got a hold of me at Tech News. On the other hand, I did get some good responses, and I thought I'd share them.

One of the issues that people wanted to read about was women, especially their attitudes. I thought about this for a while and then I talked to our Editor. It was obvious that, yes, a column could be done, but how should I do it? I mean, should I just write a column on a woman of my own and see what happens? Or maybe I should make some generalizations and see who has the same opinion as I have. Whatever the case, it was a limited column. By a limited column, I mean that I went around and interviewed people on this question (both men and women), and have put it together as one article.

As you read the column, you will notice some interesting things. First, you will notice that none of the men I talked to will put their name by their quote. Third, and finally, you will notice all the women I interviewed were glad to be quoted. With this done, we will now begin to look at the attitudes of women at IIT.

The first guy I interviewed has this to say: "Oh God! He chuckled and rolled his eyes as he thought about this response. It's pretty bad when ugly girls have attitudes and you know lots of them here do. The ugly girls that go to school here know that they are really ugly girls here. Because of this they seem to feel that they're the only ones they got, so it's just hard to get an education."

My next interviewee had stated this: "The ugly woman. Women come to IIT they are fine. They are the prettiest women here. Even in the four or five years which they are there they are molded by the sororities and co-ed departments. The women who go to school here don't worry about how they look and they take it to an extreme. They'll go to class without make up or having done their hair. For all we know they could have just gotten out of bed."

The final guy I talked to stated his opinion in the following manner: "It depends, some of them you love, some of them you hate, most of them are a bunch of bitches. When we make generalizations about this issue you have to realize that when you think about something like this you're remembering the bad qualities, and not the good ones. At IIT, women come from sweet to Guy's standards change while they are at IIT. Women in engineering, that is a bitch. Women in the architecture department, that is another story. Women in the I.D. department are weird, weird but. At this school, women's priorities are messed up. They are so worried about studying and careers that they have no social life."

Some other small comments I received from guys were that: "The women here aren't accessible. They build a wall, you can't talk to them without a bar room conversation." "They assume everything is social. It's time now to look at the other side of the coin. How do women view women at IIT?"

The first female student I talked to was Sheila Magrath. Here is what Sheila had to say: "A lot of women are picky. They say I'm too gay. The guys have to be very attractive. Guys have to be well dressed. Girls can be looked upon as bitches. I've met a lot of girls who have that kind of mentality. They don't want to be seen with a man who is too attractive."

The diversity of programs and opportunities at IIT will give talented professionals the resources to create a rewarding career. For this you will enjoy opportunities in some of the world's most powerful and exciting cities: Washington, D.C., the home of the White House and the nation's capital; Chicago, the world's third largest city; Minneapolis/St. Paul, Omaha, and Des Moines.

For more information regarding opportunities with US WEST a $20 billion company, attend our presentation, Monday, November 8, 7:00 p.m., Room 303, Student Union.

U S WEST is a leading communications company throughout a 48 state region, is looking for candidates with management experience who enjoy the challenge of utilizing the latest computer and telecommunications technology to meet our customer's needs. U S WEST is proud of the diversity of our employees and regional locations. We offer qualified candidates challenging opportunities in cities such as Seattle, Portland, Phoenix, Minneapolis/St. Paul, Omaha, and Des Moines.

The Unknown Reviewers

The Dude on the Left

It was another Thursday, and another new band in the Bog, and once again, it was a band that it's too bad you missed. The band was called The Wild, and the best way to classify them is as a heavy metal band.

Musically, this band was O.K. They played all varieties of heavy metal from AC/DC to Def Leppard to Poison, and even threw in some Tom Petty for the lighter at heart. The crowd seemed to be into this band from the start. What was interesting about this band however was the fact that they played a lot of their own songs, all played with that heavy metal sound to them, but knew when people wanted to here something they could sing. The Wild also remade some classic songs into heavy metal, such as Gloria and Love Potion 90. The Wild is Steve Cepican on vocals, Desty Sweezen and Tom Pekar on guitar, Gary Schwartz on bass, and Steve Birloch on drums.

The Wild showed a lot of promise to be a quality band. Some of the songs they sang Thursday seemed out of the range of the lead singer, but the originals highlighted the musical writing talents of the band. The biggest problem the band seemed to have was getting the music mixed properly, at least for the first couple of sets, but in the nice concrete atmosphere of The Bog, that would be hard for any band. At the start of the concert, I was going to give the band one thumb down, but as the evening went on, and the band became more in touch with the Bog crowd, The Wild turned that thumb upside down. I give them one thumb up.

Now, a little commentary. I realize this semester there have been a lot of new bands on Thursday nights, and a lot of you probably say, "Who's this band? I've never heard of them before, I guess I won't go to the Bog." Well, that's really too bad because you don't realize the musical talent you are missing. Of all of the new bands that have come to the Bog this semester, I don't think of them were that bad, in fact, I hope to see most of them again next semester replacing some of the traditional Bog bands that are starting to become stale. I guess what I'm trying to say is even though you may have never heard of a band before, that doesn't mean it's not worth a chance to find out to see them spend that two dollars and see out for yourself.

EXTRA! EXTRA!
The 1989 Yearbooks Are In And On Sale Now!

SENIORS

of all types for yearbook portraits.
No experience necessary.
Benefits continue throughout your lifetime.
Apply as specified below.

Portrait Sign-ups will take place for two weeks:
Week #1: 10-25-89 to 10-27-89
Week #2: 10-30-89 to 11-3-89
Students may sign up in the students' activity office located on the northwest side of Hermann Hall, from 9:00am to 5:00pm.
Portraits will be taken on November 7 and November 8, from 9 to 5pm in room 305 Hermann Hall.

The Dude on the Right

Hey music fans, welcome back for another exciting edition of the Unknown Reviewers. The aliens decided to let me go, so I'm back. And on with the review.

Last week in the Bog, The Wild brought their brand of hard rock to a fairly enthusiastic Bog crowd. Their sets included a blend of original songs and old favorites to keep everyone from getting bored. From the beginning, it was pretty obvious that The Wild was going for the heavy metal look, and to me, they didn't quite seem to make it. They didn't have the vocals for your standard everyday metal cover, "Pour Some Sugar on Me", or "You Shook Me All Night Long." They did do several songs well when they were in their vocal range. Guns N' Roses, "Sweet Child O' Mine", and scores of other originals written especially for their ranges, showed a very promising band.

The second set included some classic tunes from Zeppelin's "Communication Breakdown," to a heavy metal "Love Potion Number Nine." A few more originals, and a pretty decent Jimi Hendrix inspired guitar solo kept things pretty interesting.

All in all, I'm not really sure what to give these guys. After all, they had some talent, but I felt "bored" because they really didn't transmit any of their energy to the crowd. I guess they get another "I Don't Know" shrug for a total of one thumb down and a shrug. Now, knowing they The Wild was a new band to the Bog, they probably deserve another chance now that they know what a typical Bog crowd expects from them.

I'd just like to include that I'm glad the Bog management has finally "seen the light" on the entire light situation and has decided to turn them down a little more and make it more like a concert atmosphere in the Bog. Let's hope it stays that way.

That's it until next week when the unknown Reviewers will review another new band. Shortcuts. Until then, get your homework done early so we can pack the Bog to the walls.

FRIDAY

BATTLE OF THE DJ'S

LIFE will be sponsoring a giant "Battle of the DJ's" party in the Hermann Hall Rotunda on Friday, November 10 starting at 9:00 pm. People from over 100 universities (i.e. fraternities and sororities) will be attending. Everyone is invited, but college ID's and a $2 cover fee will also be available. For further information contact Brenda at extension 5081 or 848-8771.

SATURDAY

ATTENTION INTERNATIONAL STUDENTS AND SCHOLARS

Everyone is invited to the First Annual International Potluck Dinner! It will be held Saturday, November 11 from 5:30 to 8:00 pm in Room 302/304 of the Hermann Hall mozzanine.

Potluck means that everyone brings food. Bring whatever you think is typical of your country that will serve five to seven people. If you live in the halls and have no place to cook, you may bring something from the grocery store, fresh fruit, cookies or something from the deli.

Beverages and table service will be provided. Call the International Office (567-3807) before Wednesday, November 8 so that we know approximately how many people to expect.

There's about one hour after the dinner when someone would enjoy some international entertainment! If you are interested in singing, dancing or playing an instrument, contact Joyce Mary Herko at the International Office before Monday, November 6.

IN TWO WEEKS

FRIDAY

MUSLIM STUDENTS ASSOCIATION

The monthly meeting will be held on Friday, November 17 at Hermann Hall after Maghrab prayer and dinner will be served.

Earthquake

continued from page 1

Medication in sufficient quantities to last a few weeks. Organizing and testing a family emergency plan which would keep each family member's survival. Should you be involved in an actual earthquake, remember that few people can greatly increase your chance of survival and can help to reduce the possibility of serious injury. If a house is摇

The greatest protection inside a building is found under heavy furniture or in doorways. Avoid open ceilings or roofs that are the most vulnerable to collapse and should be avoided.

Large windows or groups of windows can shatter and shards of glass can fly inward. These areas should also be avoided.

Items with lots of fixtures or furniture can be a dangerous situation should the furniture or fixtures fall or slide. It is better to be unable to withstand seismic forces and may collapse. These buildings will have to be evacuated in an orderly fashion. If possible, try to move away from buildings, especially those with masonry or glass or outer walls that may be loaded with heavy fixtures.

Avoid electric utility lines which may fall or snap. After the shaking has stopped, the danger of a later earthquake may still be over. Ruptured gas lines or downed power lines may still present life threatening hazards. Fractured water mains may be a nuisance and can add to property damage and impede firefighting efforts. Buildings may also fall on to the road and inundate areas downstream. Traffic and access to damaged areas may be obstructed. Fire department emergency back doors also needs to be considered as the situation in an area may change drastically. This area should be considered immediately after an earthquake includes:

Buildings in danger of collapse may need to be evacuated quickly. First aid needs to be rendered to those in need. Gas and electric service to the building may need to be turned off by someone previously trained in these tasks. Small fires should be extinguished and equipment is avail- able for the purpose and there is no threat to life from such actions.

Be sure that everyone is accounted for after the quake. Families, businesses, schools, or individuals may have to be self-sufficient for a period of several days after the quakes. Preparations taken before an earthquake may greatly enhance people's ability to do this and enable us to live tolerably in unpleasant surroundings.

Halloween

continued from page 1

host more than 20,000 people who crowd streets, throw beer bottles and hurt each other. Similar problems have plagued college costume parties at the universities of Massachusetts-Amherst, Florida, Colorado and Ohio State.

No one is sure how all this started, or how Halloween, of all days, turned into the biggest college party of the year. Ernest Karr, a professor of middle English at the University of Texas, says it all started with students' childhood practice of putting on costumes and "trick or treating." "Now it gives them the chance to put on a costume and party," he said.

But it's more than just an excuse for a party, says Chech, a University of Miami student who has worn a pumpkin last name.

"There will be parties no matter what, but Halloween is different because there is more to give it than just drinking five kegs."

According to legend, All Hallows Eve gives devils six hours to get the souls of the dead on October 31 to deal with the evil they can have to go back to hell in the morning, November 1, the start of all Saints Day.

The tradition of trick or treating comes from treating the devil so that they won't trick or play tricks on campuses, the tricks sometimes turn dangerous.

Some revelers at the University of Illinois-Amherst vandalized local stores in 1979, prompting UM to impose a five-year ban on school Halloween.

In 1985 at the University of Illinois Champaign campus, windows were smashed, bonfires were set and party-goers were showered with glass from broken beer bottles. A visiting Northwestern university student was struck in the head with a beer bottle and lapsed into a coma. He later had to undergo brain surgery.

SIU's 1988 "celebration" was similarly tragic.

More than 300 people went to the hospital because of lacerations on the face from broken bottles, one person was stabbed and a woman was raped, reported Tim Hildebrand, SIU's student president.

In response, many colleges and college towns are moving to dry up Halloweens with new rules and regulations this year.

A university of California at Santa Barbara committee made up of students, administrators and local authorities is given the job of coming up with rules about using alcohol safely and to discourage students from inviting out-of-town guests to Halloween.

The committee also sent letters to nearby communities, hoping they'll discourage students from going to Isla Vista, UCSB's town party. They plan to meet with representatives of the community to arrange for a "fall break" during Halloween, 1990, closing residence halls and pushing students home.

"Students are taking it very well," said student president Hildebrand. "Something had to be done. It was just too violent.

Such bans may have come about much more since the five-year ban on campus on October 31 to deal with the evil they can have to go back to hell in the morning, November 1, the start of all Saints Day.

Pineapple Goes To Leaf

The varsity swim team held its annual Pineapple Intersquad Meet last Tuesday and senior Troy Leaf won five out of his five events for the coveted Pineapple first prize. Leaf was expected to win the 50 and 100 yard freestyle events, but his wins in the 100 and 200 individual medley were not anticipated. Leaf also won the 500 free event but had a battle with freshman Tom Whytlaw until the last 200 yards when he pulled away to get a nine second lead and the first place to seal his first place in the Intersquad Meet.

Junior Mike Mikulas got second place with wins in his specialties, the 100 and 200 yard backstroke events as well as second places in the 50 and 100 yard freestyle races. Mikulas also got a fifth place in the 200 I.M. race.

Third place went to freshman Tom Whytlaw who only got one first place in the 1000 yard freestyle, but who garnered two second places in the 100 back and 500 freestyle as well as a third in the 200 I.M. and a fourth in the 200 yard breaststroke race.

Other first place winners were senior Rich Helmsley who won the 100 yard breaststroke, freshman Robert Gwiazda in the 200 breaststroke, senior James Finn the 200 freestyle and, senior Ken Zuber in the 200 yard butterfly event.

Only team member not to score in the meet was Wendy Anderson, who is the only female on this year's squad, but Wendy's time of 28.2 in the 50 yard freestyle is 1.9 seconds from qualifying for the women's national championship in March 1990 in Canton, Ohio.

Scoring Results - Pineapple Meet

1. Leaf 25
2. Mikulas 16
3. Whytlaw 14
4. Helmsley 13
5. Zuber 11
6. Prokes 10
7. Gwiazda 9
8. Finn 8
9. Grasien 6
10. Boon 5
11. Grage 5
12. Oden 3
13. Ippolito 3

Sophomore Lisa Espinelli (#3) and Sophomore Sami Nguyen (#5) are the players of the week. Coach Meyer said their contribution in the Northeastern game earned them honors.

Volleyball Team Suffers Setback

Our Scarlet Hawks suffered a minor set back this week in the CCAC Tournament. After beating Mundelein and St. Xavier to up their winning streak to 13, they lost to St. Francis and St. Xavier to take 3rd place. They proceeded to beat Northeastern on Tuesday in match play in straight sets. Their record is now 29-5. Be sure to attend the game on Oct. 31 which is Fan and Parent Appreciation night. Also, there will be a serving contest as well as a costume competition and a dance afterwards. November 3-4 the Hawks will travel to McKendree to compete in the NAIA District 20 playoffs.

Sports Quiz

Last week's winner: Jeff Bruen
Submit correct answers in the sports editor's mailbox in the student activities office in the HUB. The first one to submit all the correct answers wins a U.B. Pass.
1) How many World Series have the Giants played in?
2) How many World Series have the A's played in?
3) How many have the Giants won?
4) How many have the A's won?
5) What cities did the Giants play in before San Francisco?
6) What cities did the A's play in before Oakland?
7) Who moved the A's to Oakland?
8) Name 8 past managers of the A's.
9) Name 3 ex-White Sox to serve the A's in the last 5 years.
10) Name 3 ex-Cubs to serve the Giants in the last 5 years.

DISTRICT 20 RANKINGS
St. Francis 35-3
Illinois Tech 29-5
St. Xavier 30-12
McKendree 22-10
Greenville 17-15
Rosary 16-16
Mundelein 13-24
National College 11-21
Trinity Christian 9-17
Eureka 8-12
Sangamon State 6-10
Olivet Nazarene 5-14
Barst 0-11
