Juniors and Seniors to Start Shop Work; Other Classes to Begin Later

Electrical and Mechanics First to Benefit; Two Year Recess Does Not Interfere
With Other Curricula

PEARL AND GATELY TO TEACH REVISED COURSES

The course in first and second semester engineering science, mathematics, and physics and other departments this semester.

Junior Education requires the successful completion of the regular requirement of the shop which will be given on Saturday morning.

Office Preparers Student Ratings

Scholastic Standing is required for the course in College of Engineering and Architecture.

Mr. Bowers is the only student who can accept the challenge of the physics department on the regular requirement of the shop. The student will be given on Saturday morning.

Greenhouse Gases

The course in first and second semester engineering science, mathematics, and physics and other departments.

Mr. Bowers is the only student who can accept the challenge of the physics department on the regular requirement of the shop. The student will be given on Saturday morning.

Torque Testing Workshop

The course in first and second semester engineering science, mathematics, and physics and other departments.

Mr. Bowers is the only student who can accept the challenge of the physics department on the regular requirement of the shop. The student will be given on Saturday morning.

Win Awards in Scholarship Exams

Of the 144 men who took the competitive examination, those who passed were awarded a three hour essay question on the study of mechanics or physics, or both. In addition, those who passed an introductory course in English on the fundamentals of electricity and magnetism, and the ability to use English effectively, are the recipients of the Presidential scholarship. The exam was administered by Dr. C. E. R. G. and Dr. C. E. R. G.

Those who received the scholarship, which is a three hour essay question on the study of mechanics or physics, or both, were awarded a three hour essay question on the study of mechanics or physics, or both. In addition, those who passed an introductory course in English on the fundamentals of electricity and magnetism, and the ability to use English effectively, are the recipients of the Presidential scholarship. The exam was administered by Dr. C. E. R. G. and Dr. C. E. R. G.

**Fraternity Notes**

**THETA XI**

All of the members of Alpha Chi Omega chapter of Theta Xi have not been entirely devoted to their full work and studies. We regret very much that three of our members have failed this semester. We wish to emphasize the necessity of working and maintaining a high standard of scholarship in order to continue enjoying the privileges of membership in this great fraternity.

**PHI KAPPA SIGMA**

Alpha Chapter of Phi Kappa Sigma is busily engaged in planning the Freshmen. An attractive program has been arranged for the reception of the Freshmen. The Phi Kappa Sigma fraternity has been pleased to welcome the new boys.

Brother E. M. and W. O. are the active members of the fraternity. The chapter is composed of several gifted and promising students, and is well equipped to carry on the work of the fraternity.

**THE TRUCK GARDENER’S LOVE SONG**

You’re the apple of my eye, my love. I love you, I love you. You’re the one I love. I love you, I love you. You’re the apple of my eye, my love.

**Averages (Continued from page 1)**

*E. D. Johnson: 2.50,* *C. B. Ender: 2.35,* *I. C. McManus: 2.95,* *P. J. Ensign: 3.30,* *W. L. McManus: 3.50,* *T. E. F. Grant: 4.00,* *S. D. Beals: 4.00.*

*The average average of all students is 3.20.*

**Testing Lab is Keeping Busy During Summer**

More activity than has been seen in the testing lab since the last academic year. The testing lab has been active in preparing for the coming academic year. The testing lab has been working very hard to prepare for the new academic year. The testing lab has been working very hard to prepare for the new academic year.

**Howard Millcote to Fill Public Position**

Endowment to continue and expand its public and private activities. Howard Millcote, S. T., has been appointed as the new president of the Endowment. The announcement was made by President E. M. Jones of the American University.

**Highly Junior is Appointed New Handbook Editor**

Succeeding Alfred B. Warren, who has been appointed as the new handbook editor of the American University, is appointed. The editor is a student at the university and has been highly recommended by his professors.

**The Steam Shovel**

*Adams and Wright Problems.* If the Adams and Wright problems can’t be solved, the steam shovel can’t be built. The steam shovel is a tremendous machine that can do the work of many men. The steam shovel is a tremendous machine that can do the work of many men.

**Reynolds Will Give a Recital on October 2**

Kenneth E. Reynolds, assistant in the engineering department, will give a recital on October 2. The recital will be held in the main auditorium at 8:00 p.m. The recital will be held in the main auditorium at 8:00 p.m.

Library to Have Many New Books

Miss Winck, principal assistant librarian, has left Armour to take the post as librarian of the Northwestern College in Winfield, Kansas. Her work was greatly benefited by that of Miss Virginia Steubing of Oak Park. Miss Steubing has accepted the position of librarian of the Library at the University of Chicago. Following a partial list of some of the new books that will be available in the Library:

Berlin, J. E. — Elimination of Tubs and Tuberculosis

Brown, H. T. — Literature and Prosecution

Campbell, H. L. — Working, Heat Treatment, and Handling of Steel

Chase, H. — Castings

Church, W. A. — Examinations of Air

Donaldson, H. S. — Organization Engineering

Dobson, D. N. — Hydraulic and Mechanical Data

Goslin, J. C. — How to Make Good Patents

Hays, R. T. — Photographing

Kehoe, H. — Popular Practice of French

Kohler, T. — Golf for the Lawyer

King, D. — The Air

Kremer, N. A. — Standard of Chemistry

Ladd, B. — Engineering

Metcalf, W. F. — Practical Mechanism

Matthews, J. H. and Scott, P. — Domestic Science

Nordyke, T. A. — Men and Metals

Eisner, E. W. — Air Conditioning

Schnapp, C. F. and work, G. — Mechanical Engineering Practice

Schnapp, C. F. — Material and Methods of Artistic Engineering

Shepard, R. C. — Leadership in Engineering

Wagener, F. H. — A Department in Applied Geology

Wells, H. — Expertise in Aerospace

In order to determine the causes of many of these books, the program committee of the American Institute of Chemical Engineers and of the Chemical Engineering Department is conducting an investigation of the causes of the chemical engineering...
Minutes of the meeting on the 10th day of the month of September, 1935

Chairman: Mr. J. A. Y. A.

The meeting was called to order by the President, Mr. J. A. Y. A., at 8:00 o'clock, and opened with the reading of the minutes of the last meeting.

Mr. J. A. Y. A.: "Good evening, gentlemen. This meeting is convened to discuss a matter of great importance to our society. As you are aware, our society has been working towards the elimination of smoking, and today we are here to discuss the feasibility of this proposal and the steps we can take to achieve our goal.

Firstly, I would like to introduce our guest speaker, Dr. John Smith, a renowned expert in tobacco and nicotine addiction. Dr. Smith will provide us with an overview of the current situation and the challenges we face. He will also discuss the potential benefits of eliminating smoking and what steps we can take to achieve this.

Dr. Smith will also present some research findings and statistics that will help us understand the impact of smoking on our society. He will highlight the importance of education and awareness campaigns in changing our society's attitudes towards smoking.

Following Dr. Smith's presentation, we will have a panel discussion with representatives from the tobacco industry, health organizations, and the government. This will be an opportunity for us to engage with experts and gain a deeper understanding of the issues involved.

Our goal is to come up with a comprehensive plan that addresses both the immediate and long-term challenges. We need to consider the perspectives of all stakeholders and ensure that our efforts are robust and effective.

Let us begin with Dr. Smith's presentation and then move on to the panel discussion. Any questions or remarks before we proceed?

(Proceeding to Dr. Smith)

(Take notes)

(Panel discussion)

(Ongoing discussion)

(Take notes)

(Concluding)

Mr. J. A. Y. A.: "Thank you, gentlemen, for your attention and participation. We have made significant progress today and I am confident that we will continue to make progress in the coming weeks and months. Let us all work together towards a smoke-free society."

Adjourned.

(End of meeting)
A.T.A.A. PLANS AN 
EARLY REVISION OF ITS CONSTITUTION

Annual Publication to Be Issued in New Form

LIST AWARD RULES

A revisions committee for the A.T.A.A. Athletic Awards, recommending specific revisions for its annual publication and several new awards, will soon be presented to the Board of Athletic Control. The proposed changes include new categories and a possible reclassification of awards.

Bookstore to Accept Films for Developing

Through the efforts of two A.T.A.A. graduates, the company will offer a 24-week program for developing and printing during the coming year. The two, R. B. Peterson and R. E. Lang, have organized a photo service which will also provide ordinary developing service but maintain a file of photographs on many subjects. It may be stated that the prices will be lower, with a higher quality of work.

NEW BOOKS

WILCOX & FOLLETT Co.
1255 So. Wabash Avenue

We have on hand at all times for CHESTERFIELD cigarettes upwards of 350,000 bales of Turkish tobacco...

The pleasure aroma and flavor of Turkish tobacco is almost necessary if you want a good cigarette.

Turkish tobacco is more costly when you take into account that you have to pay 85c a pound duty, but we have to blend it with our mild pipe tobacco.

Outstanding

...for mildness
...for better taste
