Nagano, Japan - When it comes to a cigarette that will suit you... you want to think whether it's mild, you want to think about the taste. That Chesterfields are milder and taste better is no accident... The farmer who grows the tobacco, the ware- housemaster who sells it at auction to the highest bidder, every man who knows about leaf tobacco will tell you that it takes mild, ripe tobacco to make a good cigarette.

In making Chesterfields we use mild ripe home-grown and Turkish tobaccos.

...but, after all is said and done, it's the cigarette itself that counts...the question is, does it suit you?
