An Open Letter to Parents of All Freshman Students

To the parents of all freshman students:

We, the faculty of the Armour Institute of Technology, wish to express our appreciation of the efforts you have made in guiding your children during the first semester of their college career.

We hope that you will continue to be as active in their guidance as you have been in the past.

Sincerely yours,

[Signature]

"The Slipstick"

Claw to "The Slipstick" let the Slipstick by where it may.

We like our apartment all right but it's too near the draft.
Oh, don't let that bother you. It's a dynamite place.

[Note: This seems to be a playful, nonsensical poem, possibly a limerick, with a humorous take on living in an apartment near a drafts.]
SCIENCE NOTES

By J. A. Riede

The largest single pile of flak- 
shells ever made, which was re-
cently completed by the Allies, 
was measured to be 11,915 in. 
wide, and 915 in. high. The large 
shells used were of the huge 
size which is used in naval 
attacks.

The University of Michigan, 
Wash- 
ington and Texas State, have a plan 
to develop an underwater rocket 
that will move through the water 
as fast as a man can swim.

The University of Texas will 
be awarded a grant of $500,000 
to build a new science building 
that will house the physics and 
mathematics departments.

Near the end of the war, a 
new type of guided missile was 
developed. It was designed to 
seek out and destroy enemy 
aircraft at high altitudes.

A new type of underwater 
submarine has been developed 
that can travel at speeds of up 
to 50 miles per hour.

Science Notes is a regular feature of the Michigan Daily, offering insights into the latest developments in the field of science and technology.
SOPHOMORES WIN INTERCLASS TITLE FOR SECOND TIME

Defeat Juniors After Taking Frosh in Opener

FINAL: 21-14

Showing that their victory last year wasn't just a fluke, the sophomores repeated their feat of interclass basketball titles. Defeating the junior varsity by a convincing 21-14 margin, they took the title once again.

NET TOURNAMENT TO BE FINISHED BY FIRST SNOWFALL!

In past years Radar had it that (in recent years) sports were all right but they took more time than they were worth. Well, either the cars were wrong or there have changed, as the fall and winter tournaments have attracted a large per cent of the student body. From the figures that we have at present it seems that over sixty per cent are participating in the fall and winter seasons. This is quite a turmoil and it seems to be an increased interest in athletic activities.

Of the forty-eight men who started the season there were only eight left after the season. The reason is that some of the men were eliminated while some were dropped for various reasons.

The tournament was held at the old gym on October 29th, and was well attended by the students.

The tournament had two rounds of play, with the first round consisting of a preliminary round and the second round consisting of the finals.

The final game was played on October 29th, and was won by the seniors. The team consisted of four seniors and four juniors.

The seniors had the advantage in the first half, and led 14-8 at the half. In the second half the juniors played better, but the seniors held on to win 21-14.

The seniors were led by Bill Johnson, who scored 10 points, and Jim White, who scored 8 points. The juniors were led by Bob Smith, who scored 12 points, and Jim Brown, who scored 6 points.

The tournament was a success, and the students enjoyed it greatly.
