Your Greatest Problem

You sometimes pause in the midst of your day's work and contemplate your greatest problem. At least, you should. People who just plug along from hour to hour, never analyzing themselves or their situation, are like a battered steam train. If the track is not taken. The crash may come at any minute.

People who pause to think, who stand so near to our work that we cannot see it in its true proportions. Pay a little more attention. Back off a little way and take a good, long look at your work as it might appear to an outsider. You will see the workings of your particular industry in a much better light, and find ways in which to make your efforts more effective. Just the simple thought of an outsider, "What is my greatest problem?" helps to focus attention and discover how many of the lesser anxieties cluster around the main attack on life's work.

The next time you find yourself particularly comically, just stop and take a half hour off. Then think out your line of procedure. Cover up what you are doing, and what you ought to be doing. Put your work aside. This is where you are going wrong. You will find it not so hard to do some of the small tasks, and make some of the daily items of a serious attack which through haste or over-ambition you have neglected. In fact, you'll find yourself wondering how you could have been so blind.—L. O. D. /Cellarboys Committee.

Shall We Be Taken In?

Galworthy has made the statement: "Our fate is in the hands of three great forces: the Church, the State and the Press." And that's the way it seems to be, particularly in our own case, where the Press has the power to influence the people. The Press is always in the forefront of any movement. And so it is time that we all stand up and be counted in the fight for freedom of the Press.

There was a time when we were able to control the news before it reached our people. But the Press is now a powerful weapon in the hands of the enemy. It is time that we all stand up and be counted in the fight for freedom of the Press.

If you are interested in this subject, please join us for a meeting this evening at 7:30 in the Armory. We look forward to seeing you there. Thank you.

STUDENT OPINION

LIKES KALDICEOPHY

In response to your request for student opinion on the book "The Mushroom," by J.R.R. Tolkien, I would like to express my thoughts. Although I have not had the opportunity to read the entire novel, I have read several chapters that piqued my interest.

One of my favorite scenes was when Bilbo Baggins, the hobbit, sets out on a journey to reclaim the Arkenstone of Thranduil. This scene not only captured my imagination but also highlighted Tolkien's talent for creating vivid characters and rich settings.

Another aspect that I enjoyed was the exploration of the nature of good and evil. Through the characters of Gandalf and Saruman, Tolkien effectively portrays the conflict between these two forces. The book also delves into themes of redemption and the power of hope.

In conclusion, "The Mushroom" has sparked my interest in Tolkien's work. I look forward to exploring this captivating narrative further in the future.

KALEIDOSCOPE

PURRING, for some reason, finds an important niche in conversation. You make a point. Someone else makes a point. And why not the cat? After all, she is there. And she is purring. She has many reasons for doing so. Perhaps it is because she is happy, or because she is hungry, or because she is cold. Perhaps she is purring because she is tired, or because she is hot, or because she is bored. Whatever the reason, the purring cat is a common sight in many households.

The STEAM SHOVEL

Two very energetic young gentlemen, wearing the latest in steam shovel gear, were busily engaged in moving earth on a job site. One of the men was driving the shovel, while the other was operating the steam power. The scene was typical of a construction site, with machinery and equipment scattered about.

Unknown

The scene is a picturesque one, with the sun setting over a nearby hillside. A group of children are playing in the field, their laughter carrying on the breeze. A farmer in overalls is driving a team of horses, guiding them with a gentle touch.

Before you go and those other two, Your love I did entwine. The love that knows a secret well. Middle-aged man walking down the street.

One day a young mechanic, seeing some of the more expensive parts of a machine, said to himself, "If I can make these, why not make a whole machine?"

John B. Waddell

The scene is a picturesque one, with the sun setting over a nearby hillside. A group of children are playing in the field, their laughter carrying on the breeze. A farmer in overalls is driving a team of horses, guiding them with a gentle touch.

To buy a typewriter is to buy a tool for the mind. Typewriters are not just machines; they are tools of thought.
A.L.E.E.- (Continued from page one) "Lavatory," a charming little place that will bring out the best in a promising child and the best in a cleverly mentored. Let’s not forget that the name of the ARMOURED Tech School. The Tech training is for the least trained yet it is Naval, Constabulary, Peace, Danger, Money, Firemen, and Firemen and Macaroni. We are likely to be on board in the next event, Railway, Money, and Numeral are members of the most relay teams that won for America last year and although George North’s smiles will be shining, we can be sure that these men will win in a fine performance in one of the relays. None of the records of the Tech Relay are of any more than 300 yards. The government has adopted this principle to defeat any possible cases in races, including these, which are usually under the handicap of women.

A LIGHTE SMOKE OF RICH, RIPE-BODIED TOBACCO

For twenty-five years the research staff of The American Tobacco Company has worked steadily to produce a measurably more enjoyable cigarette—namely, a cigarette having a minimum of salable components, with as improved richness of taste—"A LIGHT SMOKE."

We believe that Lucky Strike Cigarettes embody a number of genuinely basic improvements, and that all these improvements combine to produce a superior cigarette—a modern cigarette, a cigarette made of rich, ripe-bodied tobaccos—A Light Smoke.

TECH WRESTLERS BEAT MORTON JR. IN SEASON’S LAST Loss: First Two; Then Take Remaining Eight Outs

FINALLY 26-10

Drizzling with a torrential downpour, the Tech wrestlers defeated Morton Jr’s. Falcons, 26-10, in the latter’s first tea last, at the stadium in the first half of the season. The game was played in all of the remaining games and the two teams ended the series with identical scores of 10.

Darren started off the scoring spree by placing a sacrifice fly for the first run of the game. Morton Jr. responded in the bottom of the first inning with a run, but Tech scored four runs in the second inning to take the lead for good.

Tech Swimmers Win Third in Row

Last week, the Tech swimmers continued their winning streak, which started with a victory against Central M.C. last week, and continued at the Beiblet Cup. The meet was held at the Beiblet Cup, site of numerous swimming meets.

Tech won 14-7 over Central M.C. in the first meet of the season. The score was 14-7 in favor of Tech, and the meet was a tough one for the Tech swimmers, but they were able to pull off the win.

Tech swimmers' performance was recognized by the coaches, who praised their hard work and dedication. The team is looking forward to continuing their winning streak in future meets.

SHORT TALK BY KRAFTAF STARTS BASEBALL YEAR

Armour Tech's baseball season opened officially a week ago today when Coach Kraft gave a short talk to the appropriate group who seek on us its blessings. The meeting held in the gym last Friday night was the largest in the history of Armour Tech baseball and attended by over 1000 people.

The talk was given to the varsity team and the freshers, and was well received. The talk was on the importance of team spirit and the need for the team to work together to achieve success.

Tech swimmers' performance was recognized by the coaches, who praised their hard work and dedication. The team is looking forward to continuing their winning streak in future meets.
