A.T.S.A. PLACES TICKETS ON SALE FOR DAD’S NIGHT

Complete Plans for New tickets

Black dad’s tickets and fellow’s tickets for Armour’s first major entertain- ment of the season, the A.T.S.A., under the direction of C. W. Brashear, in charge of ticket sales. The dad’s tickets are priced at $3.00 and the son’s tickets at $1.50.

Hold Meeting of Leaders

Like an inspiring presence on the campus, the officers presenting Dad’s Night are gathering momentum. Last Thursday the A.T.S.A. met a meeting of all interested freshmen and sophomores to discuss the possibilities and the significance of a successful Dad’s Night. The meeting was attended by these present:

A. T. Caple, president; J. C. Barlow, president-elect; J. M. Davis, secretary; L. J. Jones, treasurer; J. G. Smith and E. A. Durrington, freshmen leaders;

Junior Class W. J. Clark, manager, E. E. Surratt, executive manager;

J. C. H. Stone, business manager;

R. C. L. Johnson, publicity manager;

P. F. H. Moore, publicity manager.

Freshman Class: D. B. Boss, manager; E. J. Darling, publicity manager.

The faculty representative was F. C. Botts, J. D. Bittel, who worked the radio into the football game.

The Student Union and the Panhellenic clubs and organizations are N. G. Gustafson, J. J. Lee, and E. A. Durrington, respectively.

Of Delta Tau Delta, P. M. Mar.

Smooth Music, Floor Levelos Please Attribute!

The spirit of the “floor- lust” is to be found in the modern conception of this ritual so sponsored by the Armour Art last Friday. This first social affair of the coming year was attended by the students of the Armour School in numbers which far- outstripped the expectations of all attending faculty.

The floor was crowded, the music was loud, and the atmosphere of the previous year’s excitement was characteristic of the occasion.

Colonel Davis Talks on Military Leaders

Colonel Edward A. Dunn, retired staff officer of the United States Army as a major general, is the guest speaker for the regular meeting of E.A.A. at the Hotel Congress and Hotel Treatment of Electrical and Mechanical Engineering.

The lecture was an analysis of the entire structure of the army, so to say, and the way in which the various services are maintained. The speaker brought the audience up to speed on the latest developments in the field of military affairs.

The lecture was accompanied by a slide show of the various aspects of the army’s structure and equipment. The audience was impressed by the range and diversity of the army’s capabilities.

The lecture was well-received by the audience, who were also impressed by the speaker’s ability to convey complex information in an engaging and understandable manner.

The New Street-Cars

The introduction of the new "streamlined" street cars to the people of urban Chicago marks another step forward in the Chicago Rapid Transit Company's revolution of equipment.

Despite the lenient effects of the depression both the Chicago Surface Lines and the Chicago Motor Coach Company were sufficiently interested in this new project to pay a quartet of engineers, and an adequate fortune of transport service that a definite factor of their image returns during this period would be the cause of engineering research that this objective might achieve.

A public notice of this activity was the initiation of the Chicago Surface Lines, in 1935, of the experimental "streamliner" premium service between Chicago and Evanston. The Route was marketed "streamliner" followed shortly.

The Chicago Motor Coach company, however, by presenting a new type double deck bus, constructed by the General Motors Corporation, was the first to take active donation by placing in service a fleet of "streamlined" buses patterned after the experimental type.

The introduction of the new street cars will inevitably have a rather distinct effect on the argument of a portion of the city's public transit riders; and an even greater relative moral impact on the city council, who have been prodded to the theory that the street cars made of transportation more attractive, and should therefore be given priority for service by the more modern, pleasant appearance of these vehicles. This event will naturally play upon some of the moral local politicians who have given the above reason for granting the desired street car to the city's traffic franchise.

The new street cars will be used in their entirety to replace all of the existing equipment on the Madison street line, which connects the Loop with the two major areas of the city. The streets, including the private part of the city should be able to observe the relative merits of each type of new equipment with which each visit after short trips.

Midwinter Stump!

Two only weeks until Thanksgiving recess. Be sure that you think. With those lab reports and problems piling up it looks as if you will have your hands full during the vacation than you do during school. Well, there is no power in defense; there remains a week or so during which you can do a little more than the regular assignments and get a head start on your own work. Why not get down to business, so you can enjoy the holidays without having to worry about that work lying around.

We know it's hard to get homework done when that good radio program is turned on. But it's just like to see a good movie. But remember, the world is full of men who have just got by in their duties—those who have dodged responsibility in favor of too many good times; they claim that old man opportunity just passed them by. There are a few men, however, directing and load—"the average" man, incidentally, who know how to work. Their self-sacrificing efforts for success have become almost an American proverb; hard work and plenty of it, mixed with some well spent leisure hours.

FRATERNITY NOTES

DELTA TAU DELTA

H. J. Quad, 3rd floor, South

If you were wondering what happened over the Thanksgiving holidays, rest assured that we are still here.

The annual basketball game is coming up on December 3rd. We are looking forward to seeing you there.

Thanks for your support.

L. J. Quad, G. E. 35

P.S. We are not sure what the weather will be like, so please dress accordingly.

PHI KAPPA SIGMA

A number of men attended the basketball game given by our Chicago chapter last Friday night.

Plan to come to our next meeting on December 10th.

Thanks for coming to our last meeting.

M. J. Quad, E. 35

P.S. We will be having a special guest speaker at our next meeting.

The chapter is looking forward to seeing you there.

P. J. Quad, C. C. 35

P.S. We are planning a special social event for our next meeting.

The chapter is excited to see everyone there.

J. J. Quad, H. 35

P.S. We will be having a special treat for our next meeting.

The chapter is looking forward to seeing you there.

L. J. Quad, G. E. 35

P.S. We will be having a special performance for our next meeting.

TEHACHA PIE CAGERS MOVE TO LARGER GYM AT ARMORY

"Pop" Warner to Coach Lackland Johnson Turnout

GOOD TEAM MATERIAL

Herschel by small quarters and with only two weeks' notice, the 15th Infantry, under the leadership of Coach Lackland Johnson, is rife with confidence. This week the Army will see his squad of 28 at 9:00 A.M. at Lackland Air Base to begin their tour of duty. This is the first time in the history of the Army that such a large team has been assembled so quickly.

To date three instructors, Hensley, Gillette, and Walker have joined the squad, with three, last year's stars, partially enrolled in the program, but not out to get any playing time.

Team Prospects Appear Good

Although the group is lacking in experience, good things are expected. Five personnel, including the two instructors, have been assembled. Six or seven new players, selected from the pool, will be brought up to date in their work with the military. The group will consist of one or two other players, who will be brought up to date in their work with the military. The group will consist of one or two other players, who will be brought up to date in their work with the military.

While not stars in college, we can't help but mention the successful group of instructors, who have achieved a lot of success in their various fields. The instructors have been with the Army for several years and have been instrumental in the development of the team.

A visit to Coach Mitchell's at Shafter, California, was made by the writer to see the progress that has been made since his arrival. The team has been working hard and is expected to be in fine shape for the upcoming season.

The team is expected to be in fine shape for the upcoming season.
