Hams Get Berwyn and Crystal Pops

The Armour Yacht Club has been organized for some time and now that the season is at hand, a most successful project can be announced. Three yachts, the first of several thousand, have already been purchased, and the club is expected to purchase more. There are plans for a regatta and other events, which will be held in the coming months.

Two Times Two Are Four—Oldenburst

Dr. Ralph J. Oldenburst of the Math Department announced the discovery of a new planet in the solar system. The planet, discovered by the oldenbruster, will be called Oldenburst. The planet is located in the Ophiuchus constellation and is estimated to be about the size of Jupiter. The discovery was made by using a new telescope that Dr. Oldenburst constructed himself.

Honorary Flash Men Jam Chicago Stadium

 Armour's foremost honorary society, Honor E, met on Tuesday to discuss the current state of the university community. The group is made up of distinguished members of Honor E, who play an active role in the affairs of the school. The meeting was held in the main auditorium of Armour.

World Not Flat Like Quarter, Round Like Two-Bits, Asserts G. C. Griffin

G. C. Griffin, in an article published in the Chicago Star, asserts that the world is not flat like a quarter but round like two-bits. He bases his argument on various scientific evidence, including the observation of ships sailing away on the horizon. Griffin's theory has been met with mixed reactions from the scientific community.

News' Reader Happy; Things Seem Injured

Police last night had the pleasure of the company of a large group of people, who were gathered to enjoy a night of music and dancing. The event was organized by News, a local newspaper, and was held at the News headquarters.

Chess-Nuts Must Meet Atop Sherman Hotel

The Armour Yacht Club will organize a chess tournament at the Sherman Hotel today. The event will feature a series of matches, with the winner being determined by the highest number of points earned. The tournament is expected to attract a large number of participants from various parts of the city.

A.C.E. Meeting: Dull, Worthless

A meeting of the A.C.E. held last Friday, April 3 in the basement of the Armour building was attended by a small group of attendees. The meeting was described as dull and uninteresting, with little discussion or activity.

F.P.E. Blowout Ends As Building Is Reased

Prof. J. B. Finnegan, during a recent lecture on "The Persistence of Fiction," demonstrated the method of breaking down a story into its constituent elements. According to Finnegan, the key to understanding fiction is to break it down into its basic components, including the characters, setting, plot, and theme. The lecture was well-received by the audience, who were engaged in the discussion and participated actively.

Ban Slide Rules As Unnecessary, Use Fingers

Slide rules, once a staple of mathematical discussions, were eliminated at the recent meeting of the American Institute of Mathematics. The decision was made after a thorough analysis of their usefulness and effectiveness. The use of fingers as an alternative method was recommended.

Lindsey Sickett, your favorite assistant, was not available due to personal reasons. However, substitute Lindsey will be available to assist you in organizing your schedule and managing your day.

On behalf of the faculty and students of Armour Tech, we express our sympathy to the parents of the students killed in the deaths of the Armour Tech News with this issue.

Fraternity Notes

THETA SIGMA

Because of failing scholarship, decreasing funds and the fact that all of our members are now at school, Theta Xi is very fortunate to survive the pledge of the late J. E. C. D. D. and B. P. The Kiwanis Club is also proud of the fact that we are the first to host a Kiwanis barbecue for our alumni meeting which might be held on April 15 if the next pupils round-up will not be on one of the dates.

DELTA COW DELTA

The radio show held in the Stadium auditorium on Saturday night was attended by a large number of students. The entertainment was provided by the students from the university.

HI CAPTAIN BUSH

Thomas B. Bush, assistant coach for football for one week, raised our entire body by making us all smile. We are sorry to see him go but happy for the new coach.

The pledge pin on Raymond A. Dodge's lapel has been presented by a safety pin. We have been asked not to wear them, and we were not impressed. Bumgar was right.

The conclusion of the campaign has been met with great success and we are grateful to the alumni for their support.

PIE CAPON STIGMA

Planning for the Mothers' Club Card Party to be held on tomorrow night was under way on Monday. Committee work, and circus party were under way. The next meeting will be held on the 9th.

Last Wednesday evening the house was well attended and a large number of students were present. We hope the Pie Cow Banquet on the 9th will be a great success.

The combination of the two events has been met with great success and we are grateful to the alumni for their support.

FLY PIG FLY

We were visited Wednesday by Brothers Everett Wicks, Percy Hall and Frank of the Pi Kappa Alpha Chapter at Purdue, but we still have our challenges.

The Lambda chapter is planning for other fraternity events during the year. We hope to see more of you at these events.

Other Campuses

Tony's Tavern at State Park in the different cities each week on Friday nights. Tony's features a menu of dishes that vary from week to week.

Spike McCloud, Armour Tech.

Is flying an interesting extended visit with a limited number of days. He took his friends and sisters on a tour of the country.

And his plane is much better than the one on the Sky Line.

The Steam Shovel

John O'Brien rode down to the courtesy hall on the steam shovel "State." He said it was hard and that the men were tired.

Jerny Daugh, John L. Morris, E. S. G. and Charles Station played basketball on the same floor at the same time.

The steam shovel is to be worked by students who are qualified to do so.

KALEIDOSCOPE

Our attention was recently directed to the following statement made by Master Stearns, who is best known by his delightful humor and his use of language as well as by his ability to express himself in the most beautiful and eloquent manner.

"I would not trust you with the care of the delicate apparatus of the steam shovel. Self-contained engines are far more reliable in this type of work."

The safety of the Pickett appurtenances depends on proper maintenance. It is essential that we learn to take proper care of them.

Without the proper care of the delicate apparatus, the steam shovel cannot perform its function properly.

In summary, it cannot be overstressed that the steam shovel is a delicate apparatus and that proper care should be taken in its use.

Subject to infinite variations Arrival of unproduced states

The development of our planet may have commenced with the very earliest particular efforts of nature.

REGULAR CUSTOMER

The Nebulae Company of London is one among myriad of similar systems which make up the universe.

We are informed that the nebulae are composed of gases and dust, and that these materials are constantly moving through space and time.

The nebulae are a fascinating spectacle and provide us with a glimpse into the history of the universe.

HELLO TELEPHONE COMPANY

"You won't have a telephone in New York. You'll be ordering things from a telephone book."
Benzamine Fried Finds Enzyme ‘sw

Paul R. Fried formally announced his new contribution to the Science of the Enzymes at the American Chemical Society meeting last week. The enzyme, which he designated as Ribonuclease, is a compound that will cause the breakdown of ribonucleic acid under certain conditions. It is a significant addition to the chemistry of enzymes.

Committee Finds Library Handling Porcine Books

A recent study by the Library Committee revealed that porcine books are being handled in an inappropriate manner. The committee recommended that new policies be implemented to ensure proper handling.

Physicists Introduce a Thirty-Six Hour Day; Time for More Home Work

By Gary M. Lifshitz

Beginning April 15, 1977, this will take effect in all departments of the university except the graduate school, where the new schedule will be implemented on a trial basis for the first two weeks of the month. The new schedule will allow for more time to be spent on research and writing.

Slapstick—(Continued from page 1)

In one of the most ambitious overhauls ever, the New York Times is undergoing a major redesign. The newspaper is being reshaped to accommodate the increasing use of images and graphics. The move is expected to be complete by the end of the year.

VICTORY RESTAURANT

3035 Worthing Ave.

Philip Merivale says: “My throat’s grateful for Luckies —a light smoke”

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoked cigarettes, more than 87% stated that they personally prefer a light cigarette. Mr. Merivale verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That’s why so many of them smoke Luckies. You, too, can have the same protection of Luckies—a light smoke, free of the irritation by the exclusive process “It’s Toasted.” Luckies are gentle on the throat.

New Men Absolutely Hopkins on Any Diamond

"This year's Tour opened with one of the most spectacular of the season," Grand Opening Country Coach-Kraft, admittance given to the track of this season, with only three.Remove the term from the Diamond Club last week. The term will be held by General Manager, as no Coach-Kraft is going to beat its all-glass field.

The pitching staff will be led by Wally Truman, a southern border, where now all in the street. Among these will be Jim Grimes, who was suspended from the Hill St for selling the track's signals, and the best-known Black-Jag players.

InSteinberg and Rames, Armstrong has a new crop of expert catchers. Both are right-handed behind the plate. The infield is made up of a group of returnees, Steinberg, a Bradford student, will play first base. Bill Wagstaff, Steinberg's catcher, who has not played for some weeks, will play the second. Bob Kiefer, a Bradford student, will play the third, and Bill Wagstaff, the catcher, who has not played in the outfield, will play the outfield.

The team will meet tomorrow to decide who bats to bat. Steinberg, being the only player known to bat left-handed, is in the fundamental in batting to the team.

Swimmers Sunk in Eight Meets; 4 Wins Bought

Two-thirds claimed their second meet last week when they turned in two wins in backswimming, with a tally of 125 to 50 in the first matches. Their final score was 125 to 55. Steinberg, a Bradford student, will play the first base. Bill Wagstaff, Steinberg's catcher, who has not played in the outfield, will play the outfield.

The team had their weather-beaten bodies with a moisture-sealing coating during the two meetings against North Central and Illinois.

In two meets, a pair of invisible center winging these two wins, took principal in hemorrhaging a second, 27 points, and 3 points per cent. Steinberg scored and 12 points, and 9 points for the second. Steinberg, a Bradford student, will play the first base. Bill Wagstaff, Steinberg's catcher, who has not played in the outfield, will play the outfield.

In a meet with the Armour's Pulloga, the team's second meet was decided by a 125 to 55 score, which Steinberg, a Bradford student, will play the first base. Bill Wagstaff, Steinberg's catcher, who has not played in the outfield, will play the outfield.

The second meet was a minor matter in Armour's favor, 68.00 to 45.00. Wally Kiefer, a former member of the track, returned to the track in the second meet of the season. Kiefer scored 9 points and 1 point for the third base. Steinberg, a Bradford student, will play the first base. Bill Wagstaff, Steinberg's catcher, who has not played in the outfield, will play the outfield.

In a meet with the Armour's Pulloga, the team's second meet was decided by a 125 to 55 score, which Steinberg, a Bradford student, will play the first base. Bill Wagstaff, Steinberg's catcher, who has not played in the outfield, will play the outfield.
