Cycle To Go To Print on April 15

The issue of the college's organ devoted to the various aspects of the university, the Student News, is scheduled to be printed on April 15. The Student News, which is published every week during the academic year, is the official organ of the student body.

Eleven Juries Formally Initiated to Tau Beta Pi

In Milwaukee Saturday
Hold Joint Meeting with Marquette Chapter and University of Wisconsin Chapter, Which Acts as Host

INITIATION FOLLOWS INSPECTION TRIP, BANQUET

Four juries and six officers were initiated to Tau Beta Pi at 9 p.m. at the Armour Institute of Technology on April 13.

The initiation ceremony followed closely on the heels of an inspection trip and a banquet held earlier in the evening.

Foreword

The initiation ceremony is an important event in the life of any engineering society. It is a time when new members are welcomed into the ranks of the profession and are introduced to the ideals and values that they will uphold throughout their careers.

Initiation is a formal process that involves several steps, including the presentation of a certificate, the awarding of a pin, and the recitation of a pledge. These steps are designed to symbolize the transfer of knowledge and responsibility from older members to new members.

During the initiation ceremony, new members are also introduced to the resources and support available to them through the engineering society. This may include access to professional development opportunities, mentorship programs, and networking events.

In conclusion, the initiation ceremony is a crucial event in the development of new members, as it marks the beginning of their journey as engineers and leaders in the field. It is a time of celebration and commitment, and it sets the stage for the many opportunities and challenges that lie ahead.

A.M. E. V. Views Milwaukee Plant

The A.M. E. V. is located at 2015 N. 4th St., Milwaukee, Wisconsin. The plant is a leading manufacturer of electrical equipment, with a focus on industrial and commercial applications.

The A.M. E. V. plant is situated in a well-developed industrial area, with easy access to major transportation routes.

The plant is equipped with advanced manufacturing technology, including computer-aided design and manufacturing (CAD/CAM) systems.

The A.M. E. V. employs a highly skilled workforce, with expertise in a wide range of engineering disciplines.

The A.M. E. V. is committed to environmental sustainability, with a focus on reducing energy consumption and minimizing waste.

In conclusion, the A.M. E. V. plant is a prominent industrial facility in Milwaukee, with a strong reputation for quality and innovation. It is a vital contributor to the local economy and an important resource for the engineering community.

Foreword

In conclusion, the A.M. E. V. plant is a vital contributor to the local economy and an important resource for the engineering community. It is a testament to the ingenuity and hard work of its employees, and a symbol of the progress and growth of the industry as a whole.

Honoraries

The greatest honors obtained by engineering students—membership in Tau Beta Pi has been bestowed upon eleven members of the junior and senior classes. This award is not one which is given to students for high scholarship but rather one which is bestowed upon men who are in the top one third of the junior class or in the upper half of the senior class are eligible for Phi Kappa Sigma, because it is based upon moral character and not upon academic standing. These students must rank in the top one third of their class and the Phi Kappa Sigma chapter at the University of Michigan is the only one in the country which is so selective in its membership. The award is made to individuals who have been selected by their peers and is based upon their character as well as upon their academic standing.

Fraternity Notes

DELA TA U DELTA

The House held an election of officers at its meeting last week. Bill Lencke was re-elected President of the Chapter, F. Deacon, Vice-President, and H. LaBelle, Secretary. The new officers were installed by the faculty advisor, Dr. T. T. Chapman.

Phi KAPPA SIGMA

Our house has been made up and is now ready for occupancy. The new members are:

H. C. Rapp, Secretary

We wish to express our appreciation to the following boys for their assistance:

Thomas Green

George Schuster

DO YOU REMEMBER THE VICTORY?

The victory over Germany has been won, but the war is not yet over. We must continue to support our troops and to work hard to ensure peace and stability in the world. The end of the war does not mean the end of our responsibilities.

Entries Grow In Softball Tourney

As soon as weather conditions permit, the three-experimental softball tourney will get under way. Entries have been coming in since last week and competition as soon as last year, with most of the teams being already signed up.

Entry Day Tourney

All further entries for teams with the players' class schedules are expected to be turned in to Frank Hardin before tomorrow evening. A schedule will be made up and play will probably start by the end of the weather. The continuation of play can be expected any time of the year, as the snow will not play more than once a team.

Inside Glenn Wins

In last year's tournament, the Glenn antagonists came out on top of the heap, heavily among other classes, the junior class, 2-1, in the final.

Ground rule for the tournament held to include a doubleheader, both teams being invited from Hardin's, but eventually the doubleheader, with no need for the double assassination. Glenn, Parkersburg, and Vanhook were the junior opponents that surprised everyone over Kindred, Sollman, and Baldwin.

The XI Wins

The XI won the calendar and the doubles, coming out on top of the heap, 5-2. Overcoming went down before Falmouth's, and of the XI is the one we're after, but Length of XI kay two-up by the second. The doubles matches were split, leaving the outcome of the tournament depending on the single matches between Hitchcock and Glenn.

Phi Pi's and T.X. Paddle Ahead In Feng Pong Tilt

That class of athlete ended Feng Pong with quite a surprise in the face of the expectations set in their annual tournament. A schedule has been drawn up and all games in the first bracket will have been played off by the first thirty. In these matches the first five Feng Pong is now accepted in the best of three, and the type of play seen in the first-rate matches is justification for its popularity.

Two Teams Hold

To date two entries have been made, Phi Pi Phi and Sigma Alpha. Phi Pi Phi and Phi Sigma Xi vs. Theta Xi. These matches include two teams that have been played, each match consisting of five games. Phi Pi Phi right through A.H. taking the first three matches in singles, and consequently the tournament, with us needed for the doubles assassination. Glenn, Parkersburg, and Vanhook were the junior opponents that surprised everyone over Kindred, Sollman, and Baldwin.

The XI Wins

The XI won the calendar and the doubles, coming out on top of the heap, 5-2. Overcoming went down before Falmouth's, and of the XI is the one we're after, but Length of XI kay two-up by the second. The World's Record Holder... Glenn Hardin... Going Over the Hurdles

WAITING for the gun—when every nerve tension reaches the apex—Honeymooning over the barriers, Glenn Hardin sends Cames, "They don't get on my nerves" he says.

DARING over a low hurdle—Glenn's steed faces how the hare chases enormous physical and nervous energy.

Topping a high hurdle—superbly built of stuff, Glenn Hardin wins a Olympics—out the world's race. His time for the 100 meter race—disenchantment—3.24 seconds.

SPENDING to the hounds—Glenn calls all his nerve resources in the critical event, and after the finish, in sight of the Cames, "Cames gives me all I ask extra assurance," he says.

WORKS Rank among the all-time greats. His career is a story of triumphs, and in sight of the hounds—Glenn's name is "Cames."

AS SPEAKER for the business of a fair-blooded animal, famed Struthion observes: "Cames helps keep our fading popped-up, 1 mile all I please, Cames never get on my nerves."

Armour Tech News

Net Men Practicing for Loyola Contest

Armour Tech's nine bowed in the University of Chicago in the first game of the season last Saturday afternoon, losing by the score of 4 to 1 in a Greenwood Field. Krause's first hit in the initial batter down in Loyola for Armour's lone tally.

Fire Hits for Chicago

Chicago made only five hits of all of the Tech pitcher, Cunniff. He walked two men in both the fifth and the sixth innings, following a clean record in the first four. Fire batters failed for him as the third and fourth runs, while Green, his batter, walked twice in the seventh and eighth. Chicago's pitcher, Matherly, yielded three hits, two made by Krause and one by Green, walked free and struck out eight.

Loyola's Source Loan Tech Run

Masterty kicked two walks in the first inning and Krause officially opened the game by drawing a base hit to center. Krause crossed the plate on the hit, but Guerrero and Krause stayed on while Fuller and Gielow scored on an infield single.

With two men on, Skipper hit one to中心field, at first, who tagged base and threw to home for a double play.

Other Campuses

By W. W.

Arming these pages of anyReview, a Minneapolis University student writes, "I don't think you'll read this, and I pray if you don't before the basketball game I was protégé. We don't know what you bone to, but we know he doesn't call me his five-year basketball protégé."

Janet W. of the basketball team at the University of Chicago, a student of M.B., was shouted to make a pair of easy points from the court and the free throw followed. He did not make it. "But," said Janet, "I was the only player on the line."

J.C.P.: When players lost track of the game, indicates John Maffei, of the National University, who makes his official try through the mail.

Disenfranchised with great enthusiasm, says Saturday. We are looking forward to the other big game and the final relay.
