JENNINGS LOSES TO LOTT BY A NARROW MARGIN IN NET CHAMPIONSHIP MEET

Ammer Tech Star and University of Illinois Man Share Doubles Titles in City Indoor Tennis Contest; Sentences Scores, 11-8, 6-3, 7-5

Scoring: 11-8, 6-3, 7-5

Ammer Tech Star

University of Illinois

Doubles Champ

Although previously an all-American, Ammer Tech star, James Rhodes, and University of Illinois, man, George Jorgensen, were the stars of doubles. The match was a very close one with the final score 11-8, 6-3, 7-5. Both men gave their best in the third set, and it was only after a hard fight that the University of Illinois man won the match.

GEORGE JENNINGS

230 HEAR TRANS BROADCAST EXPERT MONDAY

What is believed to be the best of its kind, a hearing-surveying expert, was given a thoroughly excellent reception by the audience at the hearing-surveying expert meeting held Monday. The experts, Messrs. C. M. Sather, of the Central Radio Corporation gave a vivid demonstration of visual communication as a result of their work on the hearing-surveying expert.

The demonstration was given in the presence of the Board and Chairman, Mr. E. M. B. Rear, and was witnessed by many experts from all parts of the country. The experts displayed the most remarkable proficiency in the use of the hearing-surveying expert.

J. M. DOUGLAS

PARKS

Over 100 attended the meeting, which was held in the hearing-surveying expert school at the University of Illinois, and was well attended.

Doubles Match

The match between Ammer Tech Star and University of Illinois man was a very exciting one, and the audience was thoroughly entertained.

Petroleum Expert is Ammer Tech Visitor

Professor Robert C. Bremner, A.B., M.A., Sc.D., of the School of Sciences, University of Illinois, visited the Ammer Tech Institute last week. Professor Bremner's visit was an opportunity for both students and faculty of Ammer Tech to learn from the petroleum expert's knowledge of the industry.

Sierra's Meet Janitors in Interclass Series

The following event will take place on Thursday, December 15, at 7:30 p.m. in the Sierra Hall. George Jorgensen, the janitor for Sierra, will be the guest speaker. The meeting will be a great opportunity for Sierra students to learn about the work of a janitor.

MUSIC CLUB'S \GIVE XMAS CONCERT

The Musical Club will give their annual benefit concert on Thursday, December 15, at 7:30 p.m. in the Music Recital Hall. The program will include a variety of classical and popular music, as well as a few Christmas carols.

Engineer Board Takes in Three Faculty Men

The Engineer Board took in three new members: Dr. J. M. Douglas, Dr. E. M. B. Rear, and Dr. J. M. Douglas. The new members were welcomed with open arms and are already making significant contributions to the work of the Engineer Board.

WALTON SCOTT CROSLEY HUMOR EDITION

Boyd W. Eby, Editor, 25th Edition, is chief of the "Crosley," annual publication of the Junior class, and is the sponsor of the annual meeting of the Crosley Club.

The work of the Crosley is relatively small, but its influence is great. Its members are responsible for the planning and execution of all the annual events.

The Crosley is published annually and is available for purchase at the Crosley Club. The proceeds from the sale of the Crosley are used to support the annual meeting of the Crosley Club.

Undergrad Members Attend A.I.E.E. Meet

The Great Lakes Regional of the American Institute of Electrical Engineers (A.I.E.E.) met on Monday, December 11, at the Western Electric Company. The meeting was well attended and the proceedings were well received.

The meeting included the election of the officers for the next year and the discussion of various matters relating to the work of the association.

The meeting was well attended and the proceedings were well received. The officers for the next year were elected and various matters relating to the work of the association were discussed.

Crosley Club Holds Annual Banquet

The Crosley Club held its annual banquet on Thursday, December 15, at 7:30 p.m. in the Music Recital Hall. The banquet was a great success and was attended by a large number of students.

P.E.'s Hold Next Meeting Tomorrow

There will be a meeting of the P.E.'s on Friday, December 16, at 7:30 p.m. in the Physics laboratory. The meeting will be attended by the following members of the P.E.'s: George L. Schaefer and Professor J. M. Douglas.

The meeting will be held in the Physics laboratory.

At a meeting of the P.E.'s last week, it was decided that the meeting will be held in the Physics laboratory.
"Constructive Thought" 

One of the most difficult tasks for man is not to forget in the act of the inventions by which he is subjecting a literary system. "Literary," according to the definition of art, is not always the most effective or transferable idea to people who are not able to absorb the idea behind the construction of the invention. The purpose of this article is to develop a new system of education that will improve the way people are able to absorb the idea behind the construction of the system. The old educational system was centered on the idea that literacy could be achieved through rote learning and memorization. However, this system did not take into account the individual differences of the students. This new system of education is designed to be more flexible and adaptable to the individual needs of each student. The system is based on the idea that literacy is not just the ability to read and write, but also the ability to think critically and creatively. 

L orion, a present-day student, engineering and humanistic, one of these courses seldom is interested in education. But, for instance, that s c i e n c e s g r o w n , it is not always so bad, however. It is not easy to develop a system that is suited to all. But if the thought problems and creative problems are considered, it is possible to develop a system that is suited to all. 

In conclusion, the thought problems and creative problems are the key to developing a system that is suited to all. The system is based on the idea that literacy is not just the ability to read and write, but also the ability to think critically and creatively. 

\"Compas Crusades\" 

A few years ago, a student at a black school was asked to solve a puzzle given to him by his teacher. The problem was to find the shortest path through a maze. The student solved the problem in 10 minutes. His teacher was astonished and asked him to explain his method. The student explained that he had developed a systematic approach to solving problems. He had developed a system of thought that allowed him to approach problems in a logical and systematic way. This system of thought allowed him to solve problems more efficiently and effectively. 

\"Safe Water Supply\" 

Lecture to W.S.E.'s 

\"Safe Water Supply\" was the topic of the lecture given to W.S.E.'s. The lecture was given by a member of the W.S.E. The lecture was well-received by the audience. The lecture was given in a small room. The audience was made up of students and faculty members. The lecture was given in a small room. The audience was made up of students and faculty members.
Now Millions Sold Yearly To Wipe Out Dreaded Disease

Every year millions of Christmas seals are sold in a campaign to control and prevent tuberculosis. They have brought millions of dollars to the American Red Cross, which is the agency charged with the work of fighting tuberculosis.

The success of the campaign is due to the fact that the seals are inexpensive and are easily sold. The price of a seal is only a few cents, and many people purchase them in large quantities.

The seals are issued in various denominations, ranging from one cent to five cents. They are sold by the Red Cross and other organizations, and the proceeds are used for the support of tuberculosis hospitals and clinics.

The seals are also used in a game, in which the winner is the one who purchases the most seals. The game is known as the "Seal Game," and is played by children and adults alike.

NOTRE DAME BEATS TECH FIVE, 54-14

Cagemen Travel to So. Bend for First Time
by Lansdale

Thursday night's pre-season sports on the hardwood floor in South Bend featured the Armory Etiquette and the Notre Dame Fighting Irish. As always, the festivities were enjoyed by a crowd of fans from both teams. The game was filled with excitement and passion from the fans, creating a vibrant atmosphere.

**Armour Tech News**

**Basketball Schedule for 1946**

- Dec. 31 - University of Chicago, 7:30 p.m.
- Jan. 15 - DeKalb Normal, 7:30 p.m.
- Feb. 1 - Michigan State, 7:30 p.m.
- Feb. 15 - Augustana, 7:30 p.m.
- Feb. 22 - Augustana, 7:30 p.m.
- March 1 - North Central, 7:30 p.m.

**30-22, With Alumnae Trailing: Basketball**

After the 45-15 defeat handed the Trojans to George College, the Armourmen staged a comeback when they defeated the Alumni 27-22 Thursday night at the Armour. This game cannot be considered indicative of the outcome of future games, but it did show that the Armourmen are capable of putting up a fight. The score was 7-7 in the third quarter when the Armourmen surpassed the Trojans. This is a result of the results of the macroscopic protein combination formed by Myers and Bollin at the Armour. The game was tense and the Armourmen put up a tough fight.

**Good Field Work**

Defensive and offensive work of the Armourmen was considered the highlight of the game, with the Armourmen gaining a 10-1 lead in the fourth quarter. The Armourmen's defense was solid, preventing the Trojans from scoring. The offensive play was also strong, with the Armourmen scoring consistently throughout the game.

**Game Results**

- Armourmen vs. Alumni: 30-22
- Armourmen vs. Trojans: 27-22

**Carbetti's Passion**

**Ready for First Meeting**

Although the first match is more than a month distant, the Armourmen are hard at work preparing for it. The Armourmen are looking forward to the opportunity to show their skills against the Trojans. The Armourmen have been practicing hard and are confident in their abilities to compete.

**Jennings Loses To Lot In Close Game**

Jennings was defeated by Lot in a close game, but the results were not conclusive. The game was intense, with both teams displaying their skills. The Armourmen were close to winning, but the final scores were not decided until the last few minutes of the game.

**Junior Ball Team To Get Sweaters**

Sweepstakes were held to determine the members of the Junior Class Sweepstakes team, which was the winning team. The sweepstakes were a big success, with the Armourmen leading the way.

**Bird's Parlor Built-Up Roof**

Mild enough for anybody... and yet... they satisfy

When the Most Honorable Tootsies comes to a shop, experienced novices fall in, for he is instantly struck by the elegant manners and the shelf full of Tootsies. The merchant discloses his wares one at a time, working down through the showcase as an armadillo. Display cases were conducted on the Japanese system, we venture to predict that Chesterfield would be the first cigarette offered — and about eight times out of ten she would be on a role when 10s are in. At least there's the men who does little to sell Chesterfield and the salami all know it.

And no worries, you madam. The man who does little to sell Chesterfield... that mild difference flavor just isn't enough.
