**XMAS CONCERT REPORT**

**REZAK MAKES LAST BOW AS MUSIC LEADER IN VULTEIDE FESTIVAL THIS MORNING**

Trumpet Quartet Is New Novelty Offered By Band; Glee Club To Be Under Personal Direction of Dr. Protheroe

ORCHESTRA BURLESQUES DRUNKEN REVELRY

Wednesday, December 18—George A. Rezak today concluded his final season as musical director of the Armourian Band and Trumpet Quartet. This year Rezak worked with a nucleus of students who formed the Trumpet Quartet to complement the band and give it additional versatility.

Rezak will play no part in any subsequent announcements, so that the students themselves will be able to perform in the Christmas concert this morning in the Assembly Hall of the Armour Institute.

All four annual bands will be on the program: the orchestra will play first, then the four annual bands will follow, the Brass Band leading off. The concert is expected to be well attended.

**Add Jennings Titles; Municipal Champion**

George Jennings, Armourian Trombone Sectionist, was elected Municipal Champion Bandmaster. He is the second Armourian to wear this honor, the first being Jennings himself in 1925.

**40 RECEIVE KEYS OF HONORABLE END RUSH PERIOD**

The honorary fraternity at Armour Institute has assigned the following the offices:

**National Honor Engineering Society**
N. R. Ewing, '24
J. H.stellar, '24
A. C. Mcfarlane, '24
W. N. Barr, '26
C. G. catz, '26

**National Honor Music Society**
F. F. Ferguson, '24
E. H. rotate, '26
G. A. Benne, '26

**National Honor Political Science**
W. E. Barr, '29
J. W. capers, '27
E. C. peterson, '27
A. C. gerhardy, '26

**History Library**
E. B. Ferguson, '27
E. J. catz, '27
G. A. Benne, '27

**ROBERT H. TAIT SPEAKS BEFORE ASSEMBLY FRI.**

The assembly held last Friday will be attended in parts of the present set. Dr. Tait, the former speaker of the day, will begin the address at the same hour on Saturday.

Greetings

The staff of the ARMOUR TECH NEWS wishes the families, the students, and the alumni of Armour Tech a very merry Christmas and a happy New Year.

On Eligibility of Class Officers

As an afterthought to the class election events early in the semester, we are bearing heed of protest on the side of some students with a voice of the class election controversy. The class vote was new since it took place after the official election, and the students were not aware of any previous election. The question at hand is whether or not a student who has already served as a class officer can be considered an eligible candidate for another term.

The argument is that students who have already served as class officers should not be allowed to run again because they have already held a position of leadership. However, the opposite argument is that students should be given the opportunity to serve in a leadership role multiple times.

The class officers are elected by the students to represent their interests and opinions. The argument is that if a student has already served as a class officer, they have already had the opportunity to express their views and opinions. Therefore, it is unfair to allow them to run for another term.

On the other hand, the argument is that students should be given the opportunity to serve in a leadership role multiple times. This will give them the chance to develop their leadership skills and gain experience.

As a result, the class officers need to be elected by the students each year. The students should be allowed to vote for the class officers who they believe will best represent their interests and opinions.

Railway Valuation

A railroad must do more than merely operate. It must also provide an adequate return on the capital invested by its shareholders. This return is usually expressed in terms of a reasonable profit margin, the latter of which should be large enough to attract new investors to the industry.

In addition, railway companies are expected to provide a stable and predictable dividend payment to their shareholders. This dividend payment is typically calculated as a percentage of the company's earnings, and it is an important factor in determining the overall value of a railroad stock.

In order to achieve these goals, railway companies must carefully manage their operations and expenses. This includes controlling costs, maximizing revenue, and minimizing the impact of adverse events such as natural disasters or labor strikes.

In summary, railway valuation is a complex and multifaceted process that requires careful consideration of a wide range of factors. It is important for railway companies to understand the key drivers of valuation in order to make informed decisions about their operations and financial strategies.
Reson Leads For Last Time At Concert Today

A collaborative championship sponsored by the American Academy in Rome was announced December 9, 1928. The competition is open to any group of students in schools of art or architecture, or to anyone employed in similar or related fields. The problems will be judged by the teacher of the winning student group. The awards will be announced January 30, 1929. The winning student group will be named at the beginning of the new academic year.

For a Current Event

This article was taken from the "American Architect" and gives an account of the proposed architectural competition.

PROF. HENDRICKS NAMED TO U. OF CHICAGO STAFF
To Help Edit Definitive Edition of Classics at Midway

Professor Walter Hendricks has been appointed to the Classics faculty at the University of Chicago. He is a specialist in ancient literature and his appointment is the third of such an individual to be made in the last ten years. Professor Hendricks is a member of the American Historical Association and of the American Philological Association.

EASTERN GRID TEAMS TO TRY NEW SYSTEM OF SCORING

Brooklyn City officials and Long Island University will inaugurate a new system of scoring when they meet at the stadium this afternoon. This novel plan was agreed upon by both teams after long and careful study. The system will be tried out for the first time in a football game at the Commencement of the Second Half, it is understood. The Brooklyn team will have the first crack at the new system.

Seniors Defend Title In Interclass Affray
