Bridge Design Aesthetics: Is the Topic of Talk

SLIDES ILLUSTRATE LECTURE

At its second meeting held October 13 in Room 8, the Armour Branch of the Western Society of Engineers had as its speaker Professor A. H. Wells of the Civil Department. All subject was "Aesthetics of Bridge Design."

In his talk Professor Wells emphasized the need for good in design and the importance of geometry. He showed slides of various bridges and discussed their construction and aesthetic appeal. The audience received the presentation with great interest and many questions were asked about the design and construction of bridges.

BASKETBALL MEN REPORT IN NEXT GYM SUNDAY

All candidates for the basketball team must report to the Armour gymnasium, Thursday, October 25, at 4:00 p.m., for work. Any player who is in doubt about his eligibility to join the team should report to the Armour gymnasium at the same time. The necessary paperwork will be handled by the Armour basketball team coach.

The new coaches are: Mike Johnson, head coach, and Bill Smith, assistant coach.

BEAUX ARTS 1ST PROJECT MAILED

Project No. 1 of the Chi A. J. A. is now under way. The Institute of Design was asked to make a drawing for a New York building, after being submitted by the Junior and Senior students at the Institute. The building is to be a research institute for the Institute of Design.

The project is expected to be completed by November 25. The drawing will be submitted to the Institute of Design for final approval.

IN CLASS KERRICK, RESIDENT

Barber of Class Council

Oct 21. The Armour Institute had its first meeting of the year. The meeting was held in the Armour gymnasium and was attended by over 100 students. The president, Mr. B. M. Kerrick, welcomed everyone and introduced several officers who were elected.

The meeting was followed by a discussion of the current projects and plans for the future. The officers and members of the Institute were assigned tasks and responsibilities for the coming year.

Press Club Meets One O'Clock Today

Students who are in any way interested in working on Armour newspapers or in the business of newspapers should be present at a meeting of the Armour News Press Club which will be held today at 1:30 p.m. in Science Hall (Room 102).

The purpose of the meeting will be to give students who are interested in the newspaper business an opportunity to discuss the various aspects of the business.

"Analytical Chemistry" is Schonberg’s Chm. 12 Talk

John J. Schommer, Professor of Analytical Chemistry, will give the regular meeting of the A. I. E. E. on Friday, November 1, at 7:30 p.m. in Science Hall.

The topic of the talk will be "Analytical Chemistry," and the discussion will center around the various methods used in the field of analytical chemistry.

"Engineer Editor At Magazine Convention"

I. F. Bernhard, editor of "The Engineer Magazine," and K. B. Collier, editor of "The Engineer Magazine," will attend the Armour convention of the Engineers' Club of Chicago on November 25. The convention is being held to discuss the various issues facing the engineering profession.

The Engineer magazine will be represented by its editor, who will give a talk on the future of engineering in the 1930s.

School Calendar

Thursday, Oct. 25: Press Club Meeting in Science Hall.

Friday, Oct. 26: 4:30 p.m., Basketball. Conditioning diet, in the gym.

Saturday, Oct. 27: 12:00 noon, Debate team at Shag, Field, East 44, Chicago Round-up Game.

Monday, Oct. 28: 3:00 p.m., Chicago-Purdue game.

Tuesday, Oct. 29: 12:00 noon, Debate team at Shag, Field, East 44, Chicago Round-up Game.

WHAT ARE YOU SAYING SO LOUDLY I CANNOT HEAR WHAT YOU SAY.

Study Vs. Intensive Study

Recently, considerable discussion was aroused among the students and faculty members concerning the number of hours spent on academic work. Several letters were sent to the News in the subject, and some of these were discussed at the last faculty meeting. In response to these comments, the Dean's office and the Division of Publications have arranged to have a study vs. intensive study plan for all students. The plan is being put into effect immediately.

REAL MEN

A real man never talks about what the world owes him, the happiness in his life, the ease with which he spends his time. If he is a real man, he works hard and gets enough to live on.

A real man does not want praise, nor does he need it. He works with a steady hand.

A real man is not only in his friends, he guards their reputations as his own.

A real man cannot run a country, although he would like to.

A real man will do his own business.

A real man does not judge other people's business, but basse values for what is right and wrong.

A real man never lives in a city, but instead seeks the peace and quiet of the countryside.

A real man drives a car, not a motorcycle.

A real man is not afraid of a fight, but he is not a coward.

A real man is not afraid of the world, but he is not a fool.

A real man is not afraid of death, but he is not a coward.

A real man is not afraid of the unknown, but he is not a fool.

A real man is not afraid of the future, but he is not a fool.

A real man is not afraid of the past, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.

A real man is not afraid of the future, but he is not a fool.

A real man is not afraid of the past, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.

A real man is not afraid of the future, but he is not a fool.

A real man is not afraid of the past, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.

A real man is not afraid of the future, but he is not a fool.

A real man is not afraid of the past, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.

A real man is not afraid of the future, but he is not a fool.

A real man is not afraid of the past, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.

A real man is not afraid of the future, but he is not a fool.

A real man is not afraid of the past, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.

A real man is not afraid of the future, but he is not a fool.

A real man is not afraid of the past, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.

A real man is not afraid of the future, but he is not a fool.

A real man is not afraid of the past, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.

A real man is not afraid of the future, but he is not a fool.

A real man is not afraid of the past, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.

A real man is not afraid of the future, but he is not a fool.

A real man is not afraid of the past, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.

A real man is not afraid of the future, but he is not a fool.

A real man is not afraid of the past, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.

A real man is not afraid of the future, but he is not a fool.

A real man is not afraid of the past, but he is not a fool.

A real man is not afraid of the present, but he is not a fool.
The Inquiring Reporter

Questions: Where do the mules have jackets, do you think that the mules should wear green capes? R. Steiner, '31, Ch. E.: Yes, they should wear them. They should be green because that is the color of fresh, young, growing things. E. J. Wasko, '30, M. E. No, I don't. I don't think they should put that sort of a distinguishing feature on a freshman. You should be more practical.

H. V. Montgomery, '30, F. P. E.: Yes, I think it would be a good idea, formerly attended a state teachers' college with an enrollment about the size of the freshman class, and the freshmen were green caps. This feature, I think, added greatly to the social activity of the campus. I believe it would have the same effect here.

E. J. Stehkin, '31, E. E.: They shouldn't wear them because they might be infeasible to hiking. They might make the freshmen targets of the upper classes. The way it is, the freshmen aren't distinguished from the others when a bunch of the students get together. E. E. Cerdon, '32, C. E.: No. The Senator's jacket is no honor, while a mule's green cap would lower the student in the standing freshmen.

Gifford Roosevelt, '30, M. E.: Yes, I do. I think it would put a little more spirit in the idea of their being freshmen.

E. E. Johnson, '30, E. E.: I think it might be a good idea as long as you could tell the freshman from the upper class.

Fred Ramsey, '30, C. E.: There has never been any way of distinguishing the freshmen except by their hat expression, so it would be difficult to have green caps as a form of tradition.

Fire Drill Successful

The fire drill conducted by the district fire commissioner last Thursday was a considerable improvement over that held last semester. According to the rules of the fire department, buildings should be supplied in less than 5 minutes after the sounding of the alarm. The fire drills are conducted twice per year by the department. The most praiseworthy feature of the drill noticed by the commissioner was the manner in which the students cleared the hallways in the shortest possible time in the present building.

SCHOMMER ANSWERS GRID QUESTIONS

Professor John J. Schommer, one of the foremost football authorities in the middle west, will answer any questions on football that are posing our readers. All such questions should be dropped off the official contribution box of the NEWs, which is located in the lobby of the main building.

Question: What is a player down? Ans.: A player down is when he is "down," or, when he is held by the arm against the momentum of his forward progress, bringing him to a halt.

Question: If a half of the ball is in a player's hand, is the ball on the ground? Ans.: No, the ball is on the ground.

Boxing Team Works Out Two, and Three

The boxing team has been having real workouts Tuesday and Thursday nights in the gym. The starting team is: Snodgrass, Schermerhorn, and Vandergrift. The starting team is: Snodgrass, Schermerhorn, and Vandergrift. The starting team is: Snodgrass, Schermerhorn, and Vandergrift. The winning team was the Blue Devils.

Report For Duty or Forfeit Pass, Edict

U. of C. under orders will be discharged Friday, October 25, at 3:30 a.m., in the south end of the lobby of the Main Building.

It is necessary that more recruiting for duty report for duty at Bridge Field on Saturday, November 1, or forfeit their passes. Several men, after repeated warnings, have not responded to their obligations and the penalty will be imposed. Those men who wish to take the remaining seats on the U. of C. team may obtain their passes tomorrow.

The three remaining home games that are on the Chicago schedule make the following privileges a feasible one. Next Saturday, October 25, Purdue meets the U. of C. and it is noted that Stagg has already let it be known that "they wanted Purdue." On November 1, the International Tournament between squads of Pennsylvania will be the feature of the day. From all appearances, this will be the season's classic at the Chicagos stadium, serving as an indication to either or not Eastern football is entitled to Westerners. The game with Illinois on November 17 is the final of the Masonic Tournament in the Big Ten for the season and it will be most important to us.

All games will be started between 1:30 and 2:30, necessitating that seniors report at Gate B at 11:45 a.m. and 12:15 p.m.

FRATERNITY NOTES

A few of the fraternity have announced additional pledges since last week's list was published. They are:

Kappa Delta Tau: David Ballou, Max Berger.

A good representation of Delta Upsilon was reported in the satisfaction of the Delta Gamma sorority of Northwestern University to attend their open house party, October 31. Next Saturday evening will find most of the men of the Delta Tau Delta fraternity at the Hallowell Dance to be given by the University of Chicago chapter.

The Theta Xi annual Halloween Dance is slated for Saturday evening, October 27.

ARMOUR CHAMBER OF COMMERCE, Inc.

Armour Chamber of Commerce has been invited to attend the University of Chicago's Ball to be given by the U. of C. Chapter. In order to make the affair as realistic as possible, a fire truck has been pressed into service for the evening, and it will serve as official taxi for carrying the guests to the dance and afterward dropping them off at Proby's.

"Such popularity must be deserved!!"

Down deep in the Kujo the native sons believe that anybody who has an explorer for dinner will almost all the brains, courage and other success-multiplying virtues of the unfortunate victim.

We wish we could say the same of Chessfielders—because all their popularity is centered upon whoever smokes them. Frankly, however, this is not invariably true. Several Chessfielders smokers have recently been discovered who are not ambassadors, smooth kings, or even bank presidents.

But—since Chessfielders are an exciting, mild and disagreeable—well—this of us to enjoy them for their round smooth-vinced selves.

Population: Six million smokers are enjoying "em today. Such popularity must be deserved. Make it six million and one."
