SCHOLARSHIP FESTIVELY FROSTED CROSH CLASS SMOKER
Dave Chapman proposes extension of Class Social Activities

SCHOOL HEADS APPROVE IDEA

The freshman social committee under the leadership of Miss Emma S. B. DeLacye, will do an excellent job in welcoming Class A to Armour Tech on Thursday, November 15th, at which time the same committee extended an invitation to Class A to meet two weeks later, November 29th. The reception committee, consisting of Miss Myriam Douglas, Miss Suzanne Davidson and Miss Frances Bell will be in charge of the reception. Attendees should not miss this opportunity to meet their Class A classmates. This will be a good opportunity to make friends and get to know each other. It is recommended that you attend this social event to learn more about your classmates and make new friends. Enjoy the night and have fun! We hope to see you there! 

Dr. Scherer delivers Elocution On Schubert

A student of the Army and Navy School, Dr. Scherer delivered an eloquent speech on Schubert. His speech was well received by the audience and many students expressed their appreciation for his inspiring words. Dr. Scherer's speech focused on Schubert's life, work, and legacy, highlighting his contributions to the world of music. He discussed Schubert's unique style and his influence on later composers. Dr. Scherer's speech was not only informative but also deeply moving, leaving a lasting impression on the audience. The audience applauded his speech, and many students expressed their desire to learn more about Schubert's life and work.

Assembly Today

A student was selected to deliver a speech at the Assembly today. The student delivered a speech on the importance of teamwork and collaboration in achieving success. The student emphasized the value of working together as a team and highlighted the benefits of collaboration, such as increased productivity and creativity. The student's speech was well-received by the audience, and many students expressed their agreement with the student's points.

AC T. TO HEAR OHIO STATE Chemist SPEAK

The Chicago Section of the American Chemical Society will meet to receive a lecture at the City Club of Chicago on December 15th. The lecture will be delivered by Dr. J. B. P. Conner, a distinguished chemist from Ohio State University. Dr. Conner's lecture will focus on recent advances in chemical research and the impact of chemistry on various fields, such as medicine, technology, and the environment. The lecture will be followed by a Q&A session, where audience members will have the opportunity to ask questions and engage with the speaker. The event is open to the public, and everyone is encouraged to attend.

TRAVEL SHOW AT SHERMAN HOUSE

The Travel Show at Sherman House is a popular event for students interested in exploring the world, from virtual tours to travel guides. This year, the Travel Show will feature a special presentation on virtual travel experiences, highlighting how technology has revolutionized the way we explore and experience different cultures. Attendees will have the opportunity to learn about virtual travel opportunities and discover new destinations from the comfort of their own homes. The Travel Show at Sherman House is a must-attend event for students who love traveling and exploring new horizons.

"Aida" Requires Superior In Fantastic Appearance

On Saturday, for the second time during the 1928-1929 season of the Chicago Civic Opera, an adaptation of Verdi’s masterpiece, was presented at the Civic Opera House. The opera was performed by a distinguished cast of performers, including Aida, an American soprano, and David, a renowned tenor. The performance was well-received by the audience, who praised the cast for their impressive vocal abilities and staging. The production was directed by a seasoned director, and the set design was a feast for the eyes, creating a visually stunning spectacle. Overall, it was a remarkable performance that captured the essence of Verdi’s masterpiece, leaving the audience amazed and enthralled.

HOOVER: TRANSLATION HIGHLY PRIZED

Library Owns Original And Translation By The President-Elect

A translation of President-elect Hoover's translation was well-received by the audience. The translation showcased the President-elect’s impressive translation skills and highlighted the importance of accurate translations in spreading ideas and understanding across cultures. The audience praised the President-elect for his ability to convey the essence of the original text, creating a rich and engaging experience for the audience.

STAGE ALL PREPARED FOR FIRST CLASS DANCE OF YEAR; SENIORS HOST TONIGHT AT INFORMAL

Lake Shore Athletic Club Will House Gala Soiree Friday As Three Hundred Dusky Enjoy Rhythm of New York Orchestras

The Class of '29 will reach the climax of its social life at Armour Yacht tomorrow evening when it sets the part of host underclassmen, alumni, and faculty at an informal dance to be given at the Lake Shore Athletic Club. The New Year's Eve soiree will be a grand social event, with a large crowd expected to attend. The dance will feature a New Year's Eve theme, with decorations and music reflecting the festive spirit of the holiday. Attendees are encouraged to dress up for the occasion, and a formal dress code will be in effect. The Lake Shore Athletic Club will be transformed into a glamorous setting, with elegant decorations and a lively atmosphere.

"CHEMIST'S TOOLS, SUBJECT OF A. I. CH. ENG. ADDRESS

WHERE WOULD CHEMISTRY BE WITHOUT THESE TOOLS?

"Where would chemistry be without these tools?" was the subject of a lecture by Dr. A. I. Ch., a distinguished chemist from the University of Chicago. Dr. Ch. provided an overview of the tools and techniques used in chemistry, highlighting their importance in advancing scientific knowledge and solving complex problems. The audience was impressed by Dr. Ch.'s depth of knowledge and the clarity of his presentation. The lecture was well-received, with many attendees expressing their appreciation for the insights provided by Dr. Ch.

Electrical To Hold Smoker Tuesday

Next Wednesday evening is the annual electrical smoker to be held at the Armour Yacht Club. The event is open to all students, and attendees are encouraged to attend. The smoker will feature a variety of activities, including live music, dancing, and socializing. The event is a great opportunity to meet new friends and network with fellow students. The evening will be a fun and festive celebration of the electrical engineering community.

Siga Kappa Delta's Publishes Own Newspaper

Siga Kappa Delta is pleased to announce the launch of its own newspaper, "The Advocate." The newspaper will feature articles on campus news, events, and student life, providing students with valuable information and insights. The first issue of "The Advocate" is now available, and students are encouraged to read it to stay informed about campus activities and events.

Key technical terms and concepts discussed in the text include:
- **Armour Tech**: A college in Chicago.
- **Class Social**: A social event planned by a group of students to welcome new classmates.
- **Chemistry**: A scientific discipline that involves the study of matter and its interactions.
- **Translation**: The process of converting text from one language to another.
- **Virtual Reality**: A technology that allows users to experience a simulated environment.
- **Singer**: A soloist who performs a song.
- **Dance**: A form of artistic expression that involves movement and is performed in front of an audience.

Scheinmoresque

Dear Sirs:

I am not going to sit right down and write the kind of letter that a man finds difficult to write when he has something important to say, but it is rather difficult, good in many ways, truly is. It is a story of a man who is trying to defend the good causes of the country, fighting against the forces that he feels are the most in the world. I am talking about an American who is fighting for the freedom of his people.

VIST HINDSALES, ONE MAN PUMPING STATION

A new "man" pumping station, and a water treatment plant, is located in Moline, Illinois, to be the subject of a forthcoming film project. This plant, which is one of the first of its kind in the country, is a masterpiece of engineering princi-
ples. The complicated processes of chemical treatment, filtration, carbonation and deionization of the water are all handled efficiently, with each section monitored by skilled operators ensuring the purity of the final product.

Quadrangular Meet for Cross-Country

At the climax of the fall season, Armour Tech Cross-Country team competed with success against teams from Illinois College, Westminster College, and North Central College of Naperville in a quadrangular meet Saturday morning, November 24, at Washington Park. This will be the last appearance of the team during the season, with thirty and thirty-five men in the line-up to compete against 100 of the finest teams in the nation. The first twenty places will mean success in the meeting.

WILL OLD ORDER TOPPLE IN FRA TERNITY MIX-UP?

Class Teams Recruit Array of Notables

If signs aren’t deceiving, or if agents don’t do them, then recruitment of certain basketball lineup will not be a matter of second thought in which we will find a scattering of every kind of notable caliber from Florida to Louisiana, and from super-seniors to underclassmen.

All this information was obtained in the bulletin board in the main building, and the signatures of the high-topped gamesmen as they appeared on the application blanks. Since each prospective player has been individually accepted, before he is allowed to matriculate, the chance interested student has evidently been dumped out by the usual follow-up letter. If interested, the student should look to the news for the name of the student in question.

The question is, will rabbis within the circle of the old order, and other social rivals, when their new order is the ultra-democratic center?

For instance, the early class officers have once again been successful in running their campaign for the best of the fall and spring sports.

To obtain the fall and spring sports, as they are known, to be played in the state, the state colleges and universities have arranged to play in the state, with the exception of the State College of New York.

The Phi Psi Cheer was planned for 1910 years ago, but the Phi Psi’s have had only two years, for the rest of the season has been lost.

Other Teams Stretch

But somewhere, sometime there, may be a big surprise that will bring up and meet the prediction of local basketball potentials.

The forlorn scenes, as yet, are not by any means the only ones that will be met with in the state, but they are not the only ones that will be met with even in other states.

The three, of course, were expected to be the last to appear; the first to appear, in the second to appear; but the last to appear, in the first to appear, in the top college.

Grid-Iron Queries

By Professor John J. Snowman

"Ladies and gentlemen: It is my pleasure to announce that the Phi Psi cheer will be held on the campus of the state college, and will be the last to appear in the state.

In the cheer, the early class officers have once again been successful in running their campaign for the best of the fall and spring sports.
