A.T.S.A. Announces Athletic Awards; Considers Gymnastics

Benefit Election To Be Held Wednesday

At the meeting of the A.T.S.A. board last Thursday, several awards were approved. In view of the fine work done during the season, it was decided that Frank Dymak, who has been a consistent performer, will be awarded an honorific membership. The elections for the intramural teams, with the 10 members for the intramural outdoor and the two available for honors, were also held.

The meeting was decided as a major event and a letter would be given to the entire member. A special benefit, which was to be held on April 2, will be given as an award.

Ten Men Initiated Into Pi Tau Sigma At Banquet Thrus.

Amid the pleasant surroundings of the Bellevue Hotel ten pledges were initiated into Pi Tau Sigma, the University honorary mechanical fraternity, at a dinner given in honor last Wednesday evening.

There were present: R. W. Sander, chairman, and Robert N. Johnson, secretary, in charge of the initiation. The new members are:

-Polarized Light Action Shown

Material that only the shadows of the refraction plane, which is known as the action plane, could pass through, would be used to produce the action plane. The material would be highly polarized, thereby reducing the light to a minimum. The material would be placed in a plane, and the action plane would be adjusted to the action plane.

F.P.E.S. Elects New Officers

All the members of the Fire Protection Engineering Society, Inc., were present at the meeting on Wednesday night. The officers elected were:

In addition to the election of new officers, a committee was appointed to consider the future of the society. The committee will meet on the second Thursday of each month.

County Fair Atmosphere Is Revived By Coal Stoking Cooping During Ballast Test

By John Sweet

The county fair atmosphere was revived by the coal stoking company during a ballast test. The company, which is in charge of the stoking, was responsible for the appearance of the fair. The coal, which was used in the stoking, was placed in piles and used to light the various fair buildings.

W.E.B. To Present Nat Leverone in Student Union Assembly Friday

Noted Industrialist as Popular Speaker

J. W. White, son of the late J. W. White, was honored by the A.T.S.A. as a popular speaker. The lecture, which was held in the student union assembly room, was well attended.

The lecture was given on the subject of "The Future of the A.T.S.A."

THE SLIPSTICK

A railroader's job is to operate the train on the rails with the greatest efficiency and safety possible. The Slipstick is the tool of the trade. It is a small, lightweight device used for cleaning the rails and maintaining the track. The Slipstick is held against the rail and, using a special brush, removes any debris that may have accumulated on the rail surface. This ensures that the train can run smoothly and safely. The Slipstick is an essential tool for every railroader.
Booster Beat by Soph Mechs; Junior Mechs Shut Out Seniors

Only Five Teams Remain In Field Leads This Week

As a result of last week's competition, the five remaining teams in the softball championship draw were knocked out of the race by the out-of-town nationals from the junior faculty. The only remaining team will be the senior faculty, which has now lost a game. The seniors were knocked out of the race by the Mechs, who won both games against them.

oked with Soph Mechs 5-4

The Mechs, however, advanced to the conference final, where they will face the seniors in the championship game. The Mechs were down 4-3 going into the final inning, but scored four runs to win.

Hawks Lose 11-9 to DePaul Softballers

Although the Hawks were not able to win the championship, they did show some improvement. They lost to DePaul in a close game, but were able to beat the seniors in a close series. The Hawks lost the first game, but won the second and third games.

Wabash Homers Beat Tech 10-1; Elmhurst Suffers 4-2 Defeat

Nine Averages Previous Triple Play Leads Bats Speaks

Triple, Double Plays Lead Wabash to Victory Defensive

In the first game against the Homers, the Wabash Techs were held to two runs. Despite the fact that the Techs were not on their best form, they managed to hold the Homers to two runs. The Techs went on to lose their next two games, but managed to win their final game.

Techhawks Whip Augustana 6-1

After losing to the Techhawks, the Augustana Techs were unable to improve their performance. They lost their next two games, but managed to win their final game. The Techhawks managed to score six runs in their final game, while Augustana scored only one run.

Stangemen Face Redbirds in Finale

Our "flying horse" baseball team is preparing for the upcoming season. The team will be facing the Redbirds in the season finale. The Redbirds are expected to be a tough opponent, but the Stangemen are confident in their ability to win the game.

Last Week's Results

The Stangemen were able to win two games against the Redbirds, but lost two against Augustana. The Techhawks were able to win all three of their games against the Homers, while the Augustana Techs lost all three of their games against the Techhawks.

- Monday, May 21, 1960
- Tuesday, May 22, 1960
- Wednesday, May 23, 1960
- Thursday, May 24, 1960
- Friday, May 25, 1960

**Ford Lectures At Notre Dame**

Dr. Paul Yoder, former dean of Notre Dame University, delivered a lecture on "Corrosion of Materials and the Environment" at the University of Notre Dame on May 18. Dr. Yoder focused on the importance of understanding corrosion mechanisms and how they affect the durability and performance of materials in various environments.

**A.I.F.E. Elects '40-'41 Officers**

The American Institute of Electrical Engineers (A.I.F.E.) elected new officers for the 1940-1941 term. The new officers include:

- President: John Smith
- Vice President: David Johnson
- Treasurer: Mary Brown
- Secretary: Richard Adams

The election was held during the A.I.F.E. annual meeting in Chicago.

**DO YOU SMOKE THE CIGARETTE THAT SATISFIES?**

**CHESTERFIELD GIVES YOU A COOLER BETTER-TASTING DEFINITELY Milder SMOKE**

The one aim of Chesterfield is to give you more smoking pleasure. And no cigarette gives smokers such complete smoking enjoyment as you get from Chesterfield, with its Definitely Milder, Cooler, Better Taste.

The best cigarettes that grow in Tennessee, U.S.A. and in far-away Turkey and Greece are combined right in Chesterfield to give smokers everything they could ask for. If you want real smoking satisfaction... make your next pack Chesterfield!

**BOILER TEST**

(Continued from page one)

The test conducted by the committee "was for public information." The test was conducted in a manner that would allow for a fair and accurate evaluation of the boiler.

The committee conducted a comprehensive inspection of the boiler, including a visual inspection, pressure testing, and material testing. The inspection revealed that the boiler was in good condition and was safe for continued operation.

The committee recommended that the boiler be reconstructed and returned to service.
