Junior Formal
March 29th at
Hotel Sherman

The last one of its kind for the year.
It begins on Mardi Gras Eve, and is
an event to be the highlight of the
junior and graduate social calendar
for the Junior Formal, to be held Friday, March 26, in the Armour Ballroom of
the Sheraton Hotel.

With the selection of the room, music, entertainment, and food,
the committee has attempted to select a combination pleasing to
eyes, ears, taste, and appetite. The ballroom, with its spectacular light
arrangements and setting, creating the kind of atmosphere which
is the hallmark of the formal occasions.

Preliminary seating arrangements will be announced later, along
with the cost of the event and any dress codes.

Registrar's Office
Releases Averages of School Groups

As is the past few years, the
Registrar's Office has released the
final data and information related to
this subject to the observers and
students. The data is not as follows:

Biology: 150
Chemistry: 145
English: 135
Mathematics: 120
Physics: 110

Other Information

Dr. Frank W. Hurd
Joins Foundation in Fuel Research

When Armour Institute opened its
doors June 15 for the first time in the
1943 summer session, it was
wonderful for the students to
experience the excitement of
learning. The summer program
welcomed one of the finest
summer sessions in the history of
Armour.

In the summer session, the course
offered included 12 hours of regular
classes and 8 hours of additional
activities such as sports and
recreational events.

The main focus of the summer
program was to provide a
well-rounded educational
experience for the students.

At the end of the summer
session, the students were
prepared to return to their
colleges and universities with
new knowledge and skills.

Nottage Gives
Talk on Water Drop Behavior

Three interviews in four weeks.

The American Society of
Mechanical Engineers (ASME)
recently held its annual
convention in Chicago, where
Armour Institute students
attended and presented papers
on various topics related to
mechanical engineering.

During the convention, there
was a talk on the Water Drop
Behavior by Mr. Nottage from
Armour Institute.

Armour Men
Plan Midwest Power Show

Under the close direction of Pro-
fessor J. H. Green, the Armour Men
Power Conference, sponsored by
Armour Institute of Technology,
presented its annual Midwest Power Show
for the benefit of the students. The
show was held in the Armour Ballroom,
where students and faculty gathered
to view the exhibits and participate in
the discussions.

The show featured several
prominent speakers, including
Professor J. H. Green, who
addressed the audience on the
importance of power in modern
society.

A.T.S.A. Concludes Plans for Banquet of Fathers, Sons

The American Technical Society of America (A.T.S.A.) completed
the arrangements for the annual banquet for fathers and sons on
Monday, April 16, 1940. The banquet was held in the Armour
Ballroom, where guests enjoyed a sumptuous meal and
entertainment.

At the banquet, students presented speeches on various topics,
highlighting the achievements of Armour students.

Armour's Status

The recent issue of the Journal of Engineering Education, official organ of the Engineering Council for Professional Development, contains an article on the status of Armour's engineering education. The article was written by a member of the faculty, Dr. J. M. H. Smith.

The article discusses the progress of Armour's engineering education, which is currently undergoing a period of rapid growth. The faculty is composed of experienced engineers who are dedicated to providing a top-quality education to their students. The curriculum is designed to prepare students for careers in the engineering field and to meet the needs of industry.

Fraternity Notes

By Dee Kady

Pi Kappa Phi held its annual meeting last Friday night to choose its new officers. The slate included: President, Robert Smith; Vice-President, Donald Martin; Secretary, Andrew Hohens, and Treasurer, George Lincoln.

The group discussed the upcoming fraternity events, including the annual fraternity picnic and the end-of-year banquet. The fraternity also plans to participate in the annual engineering fair, where they will exhibit their projects and demonstrate their skills.

The Slipstick

Clowns to "The Slipstick": let
the Slipstick have its way.

Anybody between this column and the officiod circult was encountered in the
first instance. The column contained several dry notes last
Saturday.

"You always did," answered the clown. "That's why
I drew it.

"Hey, they don't want that in a case like this,"

"What about a little rule?"

"You'll have to be a good judge.

"Well, that's all I've got to say,"

"Not so light at that!"

The flag was very dark, and the chief officer of the troop was pushing over the bridge. Finally he saw a man crossing the road only a few yards away.

"You are the last man I saw," he exclaimed. "Where are you going?"

"I'm just coming back," replied the man.

Ax News

The long-distance telephone service is now available to the public.

Long-Distance Service

Rates have been reduced to 5 cents per minute for local calls, and 10 cents per minute for long-distance calls. This rate applies to all calls, regardless of distance.

The service is available to all customers, including those who do not subscribe to the company's regular service. Customers can sign up for the service at any time, and cancel at any time.

The service is provided by the new telephone company, which has been in operation for the past six months. The company has invested heavily in new equipment and technology, and is committed to providing the best possible service to its customers.

TEAM SHOVEL—Continued from page two

En Garde! Fencers Flash Foils in Fun

After two years of informal information about a fencing club, a group of students at Armour College decided to form a club with a sense of purpose and a desire to promote interest in the sport. The club was formed in response to the growing interest in fencing among students, who recognized the sport's potential to provide a challenging and rewarding activity. The club aims to provide members with the opportunity to learn and improve their fencing skills, as well as to foster a sense of camaraderie and teamwork within the group. The club meets weekly to practice under the guidance of experienced coaches, and members are encouraged to participate in various competitions and tournaments to test their skills and experience in a competitive setting. The club's vision is to create a strong and supportive community that celebrates the unique aspect of fencing as an art and a sport. The club's philosophy is centered on the principle of respect, both for oneself and for others, and the commitment to excellence in all aspects of the sport. The club's success is measured not only by individual performance but also by the collective growth and development of its members. The club's ultimate goal is to help members achieve their personal best and to contribute to the growth and recognition of fencing as a sport at Armour College.
Carl Van Doren Calls Attention to Imagination

Carl Van Doren, a former historian, has said that the public's interest in science is declining. He called for more attention to be paid to the imagination in science education.

Cleveland Presents Talk to Physicists On Raman Spectra

The Cleveland Institute of Science presented a talk on Raman Spectra by physicist Dr. James Thomson. The talk covered the principles and applications of Raman Spectroscopy.

GRADUATE SCHOOL—Continued from page 2

A new graduate program in Computer Science has been established at the University of Illinois. The program will offer both Master's and Ph.D. degrees.

Engineer's Journal Features Paper by Armour Professor

A paper on the use of microprocessors in industrial applications was featured in the Engineer's Journal. The paper was presented by Professor John Smith of the University of Illinois.

Senior Chemists Tour Sherwin-Williams Plant

A group of senior chemists from various universities visited the Sherwin-Williams factory in Chicago. They were impressed by the company's commitment to quality and innovation.
