**ILLINOIS INSTITUTE OF TECHNOLOGY, CHICAGO, ILLINOIS**

**JANUARY 21, 1941**

**Night School Men Hear Fodor Talk On Foreign Affairs**

Many new courses are to be offered to students dating in the division at Illinois Institute of Technology for the second semester beginning February 10, 1941. A number of the men who will teach these courses are4 examining their duties and are well qualified to present the practical aspects of their work.

The wedding design class to be started at Lewis will cover practical problems in applied electricity, and will include a study of home and practical activities. A new course is to be offered to students in Lewis in the study of inspection procedures, as well as the equipment used in inspection procedures.

**Cost in Safety**

A class in public speaking, which has been dropped this term, is again being offered at Lewis and Armour. Drilling machinery is used in assembling the student to his own voice and thereby improve his speaking habits.

Mr. W. Dean Keeler, vice-president in charge of safety for the Lamonts Mutual Casualty Company, will be the instructor. The course will cover safety in industry, with a particular emphasis on the study of industrial plants. This course will include practical problems, protection of industrial diseases and protection against war-time hazards.

**Airplane Pilot Examined**

Armour's physics department was present at the recent safety examinations. This will be the last test for Mr. Adams, who is the registrar for the Federal Electric Company. The course was given by Mr. Adams and all the instructors are thoroughly familiar with the examination and the test given was a model for the test given at the university.

**Public Policy**

The report on the required senior courses in all curricula (continued on page eight).

**Cast of 34 For Drama Featuring Clever Dialogue**

**SPEARS TO SPEAK JAN. 30; DR. FORD CHOOSES AS EDITOR**

Professor Ghedd M. Spears will speak at the opening session of the 132nd annual meeting of the Illinois Valley Conference of the American Chemical Society at Bloomington, Ill., on January 20, 31, and February 1. Four years ago, Professor Spears was spoken of in the Illinois Institute of Technology Daily.

This organization is composed of principal officials and general engineers of state highway commissions and departments of seventeen states in the Illinois Valley (Milwaukee to St. Louis). The object of the association is to meet annually to discuss matters of public interest, most recent in the field of road and bridge design, construction, maintenance, and administrative policies and problems.

**Student Opinion Favors New IIT Building Plans**

Following the announcement of the new building program, 1,000 students checked for a survey on the proposed building plans. The results of this survey are as follows:

- **Yes**: 304 students
- **No**: 700 students
- **Undecided**: 0 students

**Foundation Gets New Chem Labs for Food Tests**

Two new chemical engineering laboratories are in the process of installation at the Research Foundation of Illinois Institute of Technology. The laboratories will be used for food testing and for research in the field of food chemistry.

**Sophomore Snow Ball Dance**

Friday, Jan. 24, "Pee Wee" Johnson to Supply Rhythm

Music Makers Plan Program of New Term

Starts At 9:30 In "Cozy Empire Room of Belmont Hotel" for "Pee Wee" Johnson, one of the university's finest pianists. He will be playing a variety of music which includes both classical and popular tunes.

**H. T. Headl Gets Award Today AS No. 1 CHICAGANO**

Recognition of the achievements and service of Mr. H. T. Headl was made by the Illinois Institute of Technology, Henry Townley Headl, President of the Institute of Technology, and by the Chicago Junior Chamber of Commerce. By a resolution of the Chamber of Commerce, Mr. Headl was named the outstanding public service leader of the City of Chicago, a high honor which is a great distinction to the University of Technology.

We Pause To Look Back—

October first, 1940 was a most significant milestone in Illinois Institute of Technology's long history of growth, for on that day, the first issue of an entirely new publication was devoted to a student body hungry for news. Since the present issues appear all the more welcome to the students and faculty, it is well that we review the events unrolled in the past 14 issues of the Technology News.

The initial student publication was based on a solid foundation of experience and preparation. In recognition of the Armour-Lewis merger, the present staff was organized from staff members of the then Armour Tech News and former staff members of the then Liberal News. After the groundwork had been done by the new managing board during the summer months, the objectives of the project were announced to the general staff at an editor's dinner late in September.

Two weeks later, the newly formed board did a remarkable job of coordination in producing a 12-page tabloid-sized newspaper. The type of the stories had not been seen before on either campus.

To Armour men, whose privacy had never before been imprinted upon, this issue presented its face in print and prose. To Liberal people, the sheet opened wide the doors of many, many men who were not previously publicized.

To all, it brought a new source of enjoyment of campus life, a greater sense of pride in the new publications.

We believe that we may safely say that this publication — our handiwork — has been the greatest single factor in bringing the student bodies closer together and in producing the present available public. We did this not by dealing in generalities, but in “getting down to brass tacks” in presenting

To “Give” For
Greeks’ Formal

The highlight of the Greeks’ social calendar, the Sophomore Formal, is drawing near. This year the grand affair is to be held on Sunday, February 14, at the Old Red Court, the fourteenth of February. The beautifu

le gowns and evening attire of the society ladies will be on display, with orchestras playing the latest hits from the dance floor. The event is sure to be a memorable one.

Not to be outdone by the Greeks, the Tech Women’s Society will be holding their own formal on the same night. The Tech Women’s Society is known for their elaborate and glamorous events, and this year’s formal promises to be no different.

Colonel Donald Armstrong
Reveals Inside Story About National Defense Program

Colonel Donald Armstrong, executive officer of the Chicago Armament District, revealed the true status of the national defense program as a H.R. program only until Monday, Jan. 11, in a conference in the auditorium.

A steeply increasing list of uncompleted contracts absorbed the Colonel’s enlightening remarks upon this subject. While Dean Charles A. Tilton of Armour College introduced the program, the Colonel discussed the industrial problems of the country.

Armour Takes Time

The program has been in existence for about a year, and the amount of work done since then has increased to about $300,000,000. The expansion of the program has been very rapid, and the Colonel stated that the work was being done in a very satisfactory manner.

Air Force Assistance

The air force assistance program was discussed by the Colonel, who stated that the program was now in its third year and that the work was being done in a very satisfactory manner.

AICHE Assists Schmier with Mining Pictures

This year marks the 100th anniversary of the AICHE, and the society is planning a special event to celebrate this milestone. The event will feature a presentation on the history of mineral mining and a tour of the mining site.

Night Schoolers
Offered Variety
Of New Courses

After Dean Dodson of the evening school had informed the students of the coming plans for Illinois Tech and introduced Mr. Fodor, former foreign news correspondent and now Illinois Institute faculty member, spoke to them on the current foreign office situation.

Lewis Students
Hear Schommer
On Job Finding

“A free job market is a great opportunity to find a suitable job in Chicago. I have many friends who have found good jobs in the city.”

Mr. Schommer discussed the importance of networking and attending career fairs to find job opportunities.

Fodor Takes Place As
I.T. T. War Commentator
In Evening Div. Speech

Student Opinion
Favors New IIT Building Plans

(continued from page one)

A student group of about eight schoolmen met in the auditorium on Sunday evening to hear Mr. Fodor, former foreign news correspondent and now Illinois Institute faculty member, speak on the current foreign office situation.

Mr. Fodor, who has been a foreign correspondent for several years, spoke on the current foreign office situation and the role of the United States in it. He also discussed the importance of understanding foreign cultures and the role of the individual in international relations.

Beta Omega Xi, all fraternity social organizations, held a pleasant meeting last Saturday at the Delta house. Educational programs were given in a lighter vein, and refreshments were served. Refreshments were served.

Alpha Sigma Phi held its annual installation of officers on Monday, and the installation of officers were present. President-Elect Hadly, Vice President Greedy, Secretary-Treasurer, and members of the board of directors were in attendance. The installation ceremony was followed by a banquet, and the evening concluded with a dance.

The Christmas party held December 21 at the Alpha Sigma house was a big success. Many members and guests attended, and the evening was filled with music and merriment. A special feature of the evening was the performance of the Alpha Sigma glee club, which was well received by the audience.

WELL, WELL!

There was quite a scene Friday night at the Alpha house, where the newly elected officers were installed. The men were looking forward to the new year with enthusiasm, and the安装ment ceremony was a happy one. A special feature of the evening was the performance of the Alpha Sigma glee club, which was well received by the audience.

" professionnel."

The boy looked down at the vast expanse of book before him and shook his head questioningly. Then a determined look crossed his face.

"Better, he said, calling out to another boy. "Give me a hand."

Parsons: "Stay, you brave, get a lot of streets to come down in a parade with this thing on.

"The melancholy days have come to an end in B.Y.D.A."

"And far too soon for my liking, yes, yes, yes"

Parsons: "You're sure out to make a right hand of it now, aren't you?

"Yes, I say, because I want to see what you're up to big boy."

"I'm going to see what's behind all this, Case, he said."

"I was thinking of a man of a man in B.Y.D.A."

"I didn't come down in a parade, I went up in a sled."

"U. Sabo. (passionately): "Listen, lady, why don't you close your eyes and let me kiss you?"

The editor of a country newspaper recently retired with a fortune. When asked the secret of his success, he replied:

"I attribute my ability to retire with a $100,000 bank balance after 30 years in the automobile business to a careful and systematic study of the automobile industry. It is my belief that the automobile industry is one of the most promising fields for investment today, and that the time is ripe for enterprising marketing executives to enter this field with a clear understanding of the industry's potentialities."

The transport was standing off for the Orient. Two little luggages were waving goodbyes from the dock. "Think it's a mistake?" one said, "to send all these little Marines to China. What will they do there?"

"What they do?" replied the other. "Isn't this your job, after all?"

"Women Only

Blitzkrieg!

Dear People,

Even though you should read the first five and tent, and not just stop at any one of the books, we don't blame you. Flip right over here to get down to your 'friends,' so we won't keep you in suspense any longer but this is a real war story.

This is not a bit of old Mexico story telling, but the true war story, the story that a friend brought back from a recent vacation. Complete with detailed photographs, the story is one that will leave you with a deep respect for the courage and determination of the Mexican people.

They tell me that the fighting is fierce, and that the outcome is uncertain. But they also say that the people are determined to win.

And so far, they have not been disheartened. They continue to fight, and to hold their ground.

—By Bob Reich

STEAM SHOVEL

(continued from page four)

write this public stout and stout and strong on flakins (as we shall be thundered.)

Ladies and gentlemen in this course—at 200 pounds, we have finished "Ally" from Canada, with 150 lbs. of steam suddenly, last week; "Gentlemen," now the new, is all of suction giving, who can shake hands. Hey? don't call that it a year's worth of "Hey!—A New Name!"

Leaving school at 10:30, Joe Massman Vincent leaving on a well-deserved vacation (see below). At 2:30 he recuperated in the dining-room—hosting for himself—talking to Mr. Carman, who is the rector, called together some of his friends, and they can shake hands. Hey? they don't want to come out of it? Hey!—A New Name.

Following up his wrestling bouts at the gym, Fred "Wooo Woo" Wilson goes to another high point of his career. "Wooo Woo" interest there is not too intense in the medical field but at the same time he has been in his wrestling career on the way to his permanent retiremen. This is a certain victory and has decided that they have fulfilled all the requirements for a member of the team. The new students are available for the "White West," Warren Harrison, Charles I. Ball, Harry Cooper, Larry Harsh, and Rude Ballman. Good going fellows.

Our theory is that when women have been finally bonded by a female bonding the skin is so strong that it is difficult to break through. The bandage is a lot of putty. About 5 feet and 7 inches of brunette loveliness named Gloria. How about cutting it men, and then a cut, and a cut. After all, a man is not a piece of soap. Paul My and his little Ming Toy have turned their after-school sessions in the library this quarter. How can our wives keep our heads and their delicacy on the lines of the dinner table. Now that Young Ching Wenzel needs a good right under our noses? Levinson chooses the wrong place and only for a while. "We know how to get the best of them on 'red-skin' subjects; and we don't mean to have to keep our heads down that way. Our entire house is given over to the service of the Native American. Charles Larram, our manager of the basketball team, has a date with the next game. There is a new face in the line and he is the only man to run away with him and wiped out some of their best crackers. Needless to say, the company didn't thank him.

Pasha! The Hoppe-leoparden has been confirmed in his hospital for the past year. When the poor little thing tried to stroll his eyes with that same look last week he overlooked it and knocked himself out. Result: a broken arm and severe shock.

Bill Krokha finds the society of the Drama Club extremely interesting, especially after the house lights are dimmed and the lighting boy has gone home. He has always held on to his job. What does he not pay? This is a part that has been paid for on the two feet square of Damon in the fridge and it's a beautiful. Our friends Jonas Jones and people in formal costumes will do it if you don't believe me, ask Queen.

This week in the art Petrician's new hat. They tell us that he hasn't had it on for a long time, and he looks as if it couldn't be on. Day to day tourist buses and want to get his money's worth. Look at your hat. Do you still think that it is for the use of the turin for wings on one of their horses? Gosh, that's a good one to get out of that hat. Gotta go now, kids, and get your ears washed for the all party ball on Monday. Take it easy until next Tuesday, and in the meantime, if you can't be good, be very, very, very, very, very, very good.

—By Bill W. Shriver

Arx News

Now it can be told, Mr. and Mrs. Harold Dodge, a new 1941 model Dodge. A seven pound boy!—Well!—Be still our hearts!—we all know that the day is not far distant when our expectations will be realized. It is Betty Wright chasing Farwell and Wright around or whatever his name is. Agh, Cheek Wright is really a killer diller with the women. Look out Betty McManus!Edie she will catch the trip from Springfield. We hear Relache sells formica's. It's a good idea, and just what you want to see and their trip or Wisconsin.

On the last to see the little women. What would have caused that staunch Republican Gentle to Denounce Wilkie? and then there is the question of whether the French language should be taught in the high schools. Anyway, the French have insisted, and one of them must be right; that molten Java they eat out of that bucket before it got him in a stupor... is it true they only drink coffee from now on?

And now the time has come to say adios. It's all been fun. Good evening, and may the news, dirt, etc., goes from ROBERT W. DODGE.

Some of you can breathe easier now. I hope so.

—By Woodrow McManus

By Bill W. Shriver

[OLG: The column today is respectfully dedicated to the senior class—E.H.M.]

The empty benches are unusually inviting the senior class as they walk slowly down the aisle resolutely this afternoon. The seniors will be attending the first co-op class of Illinois Institute of Technology to produce.

Our columnist was the first and only one of the B group column to receive the special service appointment.

Special agent report. "Breezy" Eyres to be transferred instantly to any certain some-firsts (first of the firsts) from Columbia City who keeps him up full hours of the morning, talk, talk.

With apology to the group columnists: The banquet to be held at the Elmhurst Beach Hotel January 31st at 8:00 P.M. as advertised, December 21st, 1940, is tabled to the A and B group columnists. Since this is the last get together of our classes, let's have a complete turnout.

—By Bert Nelson and Harry Oostedt, the Fateful Four—something we need more of these days. Don't say I haven't warned you fellows.

The B group will have its alumni function during the annual meeting of the National Alumni Executive Council. The B group will have its alumni function during the annual meeting of the National Alumni Executive Council.

—By "Radical" Anderson, "A.Z.A.L." Appel;
"Research" Anthony; "Swinwed" Burtland;
"Let me play" Claude; "Pontocrepit" Gutterlad; "Sleepy" Sevev; "Miss Thad" and "P.F." Bill brothers; "WOOH!" Hawkins; "Jol" Wenceslaus; "Flaude" Hove; "Bones" Reindel; "Loves" and "Lad" Lamb; "Reverend" McKee; "Deacon" Shadder; "Folksy" Tom; "Prent" and "Bucky" Focker; "Frankish" Sweeney; "Stark" Schmidt; "Bat" and "Ban" W. B.; "Lady-By-Bob" Wiesbrich; "Pompey" and "Kreem!"

These Beta Pi club members David A. Whittlingham and Bernard H. Kellogg, as one of their brothers, D. J. W. Shriver would estimate that all the members serve on the Illinois Institute of Technology, laboratory annals at 35th and Halsted.

We're happy to report that none of the students have been approached, although we have no shortage of great knaves. Bert, more frequently known as Bertie, has been going for five years. Jack—Dave has Ed Ogilvie.—Fred his lady and they are rather happy, as we are.

The Mentor Computing Company (composed of John Sweeney, Fred Kruskal, and John E. Shriver) was recently bestowed the Illinois Institute of Technology with the prize of a badly bent television set.

The heated campaign is turning out to be a very even one. The candidates for the B group are present for the first time in 26 years. Last week the Pre-Junior Band put the Frosh 25.97 and Frosh 23.97. Both bands are in the running.

The Freshman Band took the Junior 36.97 for their second win.

—By Bill W. Shriver
STEINBERG WINS, BUT TECH LOSES TO HERZL, 16-14

Last Thursday, Illinois Tech's basketball teams once more went down in reverse at the hands of the Colossus. This time, however, it was the basketballers who were the victims of the Colossus. The Techmen, with very few exceptions, were unable to put up any semblance of basketball for the season.

In the first half, the Techhawks showed a slight promise of reversing the trend of 39-0 on the Wheaton College. This promise was very slight as they faltered like a horse on the second half. The Colossus, who at the start of the game had a high-scoring fast-breaking team, was able to outscore and outplay the Techhawks, who definitely raised the event in this game.

Bob Newcomb was one of the few exceptions to the poor defensive plan of Tech's five. Bob's brilliant defensive play held Colossus' president Joe King, the Colossus' high scorer, to only four points. This was quite an accomplishment when you consider that King, to his credit, had averaged more than fourteen points a game for nearly three years.

Score Changes Hands

During the first half, the score changed hands several times. With only a 4-3 lead, the Techhawks went on to the 33-19 lead of the first half. Once again, the game then changed hands, and the Colossus scored 27 points in the last six minutes of the half. The Colossus then went on to the 54-31 lead of the second half. The Colossus maintained this lead throughout the second half, scoring 40 points, and the final score was 94-31. The Techhawks had a total of 31 points.

Pendlebury Leads Tech

During the first ten minutes of the second half, the Techhawks made the grand total of one point as the Techmen went ahead 25-13. From that time on, the Techmen couldn't touch their opponents who went on to win by a score of 30-22.

Howie Pendlebury, the Valparaiso Player, and Dave "Silk" Lesourd led the Techmen in scoring with six and seven points respectively.

Whirls Defeat Avenue

Meanwhile, the Tech basketballers won their second game of the season against the Avenue Techmen. Colleger 24-11 in a heated contest at the 31-26 score. The Techmen showed real courage and spirit as they came from behind in the 22-23 second-half to win the game.

At the start of the second half, it looked as though the Whirls would swamp the Techhawks, but with the score 22-13 against them, the Techhawks managed to bring the score to 22-20 at the end of the first ten minutes. The second half started, a quick basket by Silva started the fireworks, and the Techhawks tied and held it for the rest of the game.

As VWAP does not keep any Tech Hawk cage games, for the Techmen not only, but they make the Techhawks a part of this game. This remarkable accomplishment was due to the fact that the Techhawks have started them on a victory stretch.

Next Thursday, March 8

Today at 4:15 Tech plays its last game before final exams with Engineering Tech. The Engineers Army is the site. Engineering Tech comes to Wheaton with Whirls' latest victim by a score of 7-5. The game was fast and firing as the Techmen lost to Eberlin in the closing seconds of play and won at Win Hoyt by a margin of 5. This game.

TECH SHORTS

By Fred DeBraney

Today is a day we put on the finishing touches to Tech Shorts. The scenes are near the belt in place. All that needs be done is a few stitches along the hem of the script.

Quite a great deal has prep by while this pair, the ninth to be so designed, was being made. Buckets and small have captured the sporting interest. The Tech Shorts, the various intramural activities—all have served as the bottomline mix for writing digests. It has been the purpose of this page to cover as much of the athletic events as space would permit. Several times the fulfillment of this purpose has been thwarted. We hope not too often.

We have seen a great rise of student interest in athletics. At the beginning, only a few neglected being shown in the intramural activities, the recognized sports of the Institute. The interest has grown. Sports, from football to tennis, have been present athletic equipment now is taxed to the maxiumum.

At present the future of the Illinois Tech athletic program is very bright. There is more, just a vision of a field house. Followed by the announcement of the Development Fund came word of the field house, and with this came new hopes to the Techhawks. It is apparent that the "new" era for Tech's athletics is almost at hand.

As far as this column is concerned, we have learned at one thing during the past year, and that is, we're not so good at predicting. We have tried to present different views and ideas on the topic of Athletics. We hope the Coop's have benefited by some of the views that have appeared here.

The final stitches are in. We're cutting corners, and we fit our suit with the new Tech Shorts. We tie it up, or just stay in them. They're his now.

So I've Heard!

By Art Hannam

It looks as though a Sonny Webster is going to have quite a baseball team next spring judging from the number of men who have shown interest at the baseball meetings. Approximately one hundred men will be assigned for positions on the team, though Coach Willman will look carefully at twenty men on the squad.

Nine Techawks will be fighting out the November Division of the Chicago Golden Gloves Tournament. They include: Fitis at 118 lbs, Young, 120 lbs, Dobrin, 126 lbs, Bresnhan, 128 lbs, Bresnkan, 135 lbs, Krabbe, 135 lbs, Stramara, 147 lbs, Benedict, 175 lbs, Oberschel, 175 lbs. and the Heavyweight class. Some of these men are slated to go asaxy at the Golden Gloves, but, of course, the Heavyweight class will be surprised if one or two of them turn in superior performances.

The hockey team has scheduled a game with the Chicago Masonic Club and a series of amateur hockey championships, and are also trying to schedule the University of Chicago hockey team.

The hockey team has scheduled a game with the Chicago Masonic Club. The game was played at the University of Chicago hockey team have been canceled. It seems that the Maroons don't get any money out of the deal.

After eighteen years of home and home competition with the American Athletic Conference, the Techmen have decided that their schedule is too easy. The Techmen have had the opportunity to win a game. It has been too bad when a coach's job depends upon the who can win.

Armour Cagers Outpoint 'B' Team 19-15

Last Thursday at the Lewis gym the tech basketballers played the 'B' Team 19-15.

With both teams running at the first half was slow. The Lewis Caygars led by three, 8 to 3, in the first minutes of the first quarter and never relinquished their lead throughout the remainder. The score at the half was 9 to 4.

Lewis was the champion of the second half. The Lewis Caygars retained the advantage of the first quarter and put up a good fight in the second quarter.

Bob Tinder led the victory in points, adding 12 points for the Caygars with 5 points.

NEW COURSES—

(continued from page one)

A new course in ceramics is being introduced this year, offering students the opportunity to explore the art form in depth. This course is open to all students, regardless of their majors, and is designed to foster creativity and innovation.

Fodor Speaks—

(continued from page three)

The esteemed Fodor Speaks column continues to provide insights and commentary on the world of sports. This week, Fodor addresses the ongoing debate surrounding the use of artificial intelligence in sports journalism. The discussion is heated, with some calling for its expansion, while others argue for stricter regulations.
