ALTHER, GETTLE, REGNEY ELECTED TO I. I. T. BOARD

by Frank Niles

Mr. Alther, vice-president of the Universal Oil Products Company, is well known in oil processing, having studied in the laboratory of the University of London using the standard cutting machine. He is one of the board of trustees.

Charles Gettle is the executive chairman of the Board of Trustees of Western New York Institute of Technology and is now president of the University. He is also president of the University of Detroit and the University of Chicago.

William H. Regney began his career as a chemical engineer with the Western Electric Company in 1924 and is now president of the company.

(continued on page eight)

ENGINEERS TOP LEWIS RECORD IN PLACEMENTS

The Lewis placement service, which was organized in May 1949, has continued to bring to the attention of students on the Lewis campus. Up to the present time, placement has been in the hands of the senior department, and no other offers have been received by the junior department. At the end of the first year, placements have averaged 7 percent per month, which is higher than the national average. Therefore, throughout the year, the average of over 1 percent has been maintained.

Departmental Placement

These services have been offered not only to Lewis students but also to other students on the Lewis campus. In the fall of 1950, the placement service began to be offered to the students of the college. A total of 30 students has been placed in jobs, and an average of four per month has been maintained.

Fall Issue of Armour Engineer & Alumnus To Be Released Soon

In the near future, the fall issue of the Armour Engineer & Alumnus will be published. The magazine is published quarterly and is sent to all Armour alumni and friends.

DeMoney Elected Social Chairman

The senior commissions last week made two decisions that will undoubtedly have a major impact on the lives of the seniors.

Probably the most important decision was the election of the Social Chairman for the class of 1951. The election was held during the week of September 24, 1950, and the results were announced on September 26. The new Social Chairman is DeMoney E. H. E.

Lewis Scene Of A.M.A. Aptitude Tests For Pupils

The Association of American Medical Colleges will give an aptitude test on Wednesday, November 21, at 3 P.M. for students who wish to apply for entrance to medical schools. The test will be administered at the Medical College of Wisconsin.

OTHERS ILLUSTRATED

The selection of a man for the job is not an easy one. From a group of 15 final candidates, two men were selected by the directors of the company. The selection was made by M. W. Fodor, head of the department of psychology.

The second item of note was the decision to reverse the election for chairman of the board of directors. It was decided to try a new system, which is called the "majority vote" system. The new system will be as follows: the chairman will vote first, and then the members of the board will vote in order of seniority. The chairman will have a majority vote, and the other members will have equal votes.

The new system is to be in effect for the remainder of the year.
Galluping Poll

West and South Side Branches of Illinois Tech Show Decisively Opposite Views in Presidential Poll.

By James Murray

Chicago, Ill., Oct. 28—ILLINOIS INSTITUTE OF TECHNOLOGY ACCUSES FRANKLIN D. ROOSEVELT AS THE BEST MAN TO LEAD OUR COUNTRY IN THE YEARS TO COME. When the polls were opened last week at the Lewch and Armour campuses, the polls were anything but clear, however, for had it been left to the Armour students alone, Wendell Willkie would have been our next leader.

Roosevelt Wins at Lewis

The first results that will be received at this poll were the results from Lewis, as reported by Minnette Hest, Galluping Poll representative from the West side campus. From this it is seen that there would be no use referring to the results from Armour, for the installation was an en bloc-in favor of the Democratic candidate. The final vote at Lewis was as follows:

<table>
<thead>
<tr>
<th>Candidate</th>
<th>Votes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Roosevelt</td>
<td>352</td>
</tr>
<tr>
<td>Willkie</td>
<td>187</td>
</tr>
<tr>
<td>Thomas</td>
<td>66</td>
</tr>
</tbody>
</table>

Disaffection Evident

On inquiring we found that the surprisingly large number of votes for Willkie Thomas are a result of “much disgust” with the present leader. Many also thought the Republican candidate entirely too incapable. Now this is not to say that they do not think that Willkie, however, for about half declared they would vote for Thomas regardless of who else was on the ballot.

With the above results fresh in our minds we hastened to see how the Armour men stood on the important question of Willkie. When the above results were tabulated during the day the figures were just the same. Willkie Thomas and a blank. The book read thus:

<table>
<thead>
<tr>
<th>Candidate</th>
<th>Votes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Armour Total</td>
<td></td>
</tr>
<tr>
<td>Willkie</td>
<td>352</td>
</tr>
<tr>
<td>Roosevelt</td>
<td>187</td>
</tr>
<tr>
<td>Thomas</td>
<td>66</td>
</tr>
<tr>
<td>Blank</td>
<td>6</td>
</tr>
</tbody>
</table>

These results having been explained we hurried even more quickly to sum up the grand total and to decide the winner.

<table>
<thead>
<tr>
<th>Candidate</th>
<th>Votes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Roosevelt</td>
<td>352</td>
</tr>
<tr>
<td>Willkie</td>
<td>187</td>
</tr>
<tr>
<td>Thomas</td>
<td>66</td>
</tr>
<tr>
<td>Blank</td>
<td>6</td>
</tr>
</tbody>
</table>

Opinions Vary Widely

As was expected the reason given to support each voter’s choice varied widely on the temperature. Two main reasons included the personality, the last term and the business policy of each candidate. Approximately 60% of those voting for Willkie were opposed to a third term for any candidate, regardless of whom he might be. But as a general rule those who were of this opinion also claimed Willkie’s diplomatic ability in foreign affairs would insure our safety from the turmoil across the world. Following in the order of this opinion was the question of business policy, a major concern of the entire student body. The sentiments of those who voted for Willkie were that he was better equipped to handle the business aspects of the world. This is the reason why he was considered the best man to lead the country in the years to come.

F. D. R.’s Foreign Policy Disapproved

Your writer was quite surprised to see how many forward-thinking students voted against Roosevelt’s foreign policy. The most common reason given was the belief in a “New Deal.” However, as a result of your class contact, the names of these people will now follow Frostman, and Harry Wereseroff’s next light. Cast your ballot with Hugh Stroop, Jenkins, contact Matt Thom, and you will find that your vote counts in the decision of the next leader of the nation.

P. D. R.’s Foreign Policy Disapproved

So there you poll students, and we hope you are satisfied in some way (Willkie men) with the outcome. Now since instead of having you cast ballots, we are having a “polling” in your class contact, the names of these people will now follow Frostman, and Harry Wereseroff’s next light. Cast your ballot with Hugh Stroop, Jenkins, contact Matt Thom, and you will find that your vote counts in the decision of the next leader of the nation.
Home Mechanics Course Offered To Men, Women

Putting pleasure before business, the Illinois Home Economics Association opened the 39th year of its winter annual meeting with a tour through the local state capital building, followed by a supper party. The next day, Friday night, the meeting was held at the School of Architecture. New Salem, the reconstructed village, in which the "roast" was begun by the architect, who then turned the attention of the Great Rumanian to the interior of the house.

Even as adjourned by the young home economics expert, the dinner served at the board banquet Friday evening, was pronounced excellent. The renovation of education and democracy was discussed after supper, and then a splendidly-lined program was given by members of the group. Miss Hazel Schultz, who accompanied the Lewis girls, was nominated as a vice president of the association.

Breakfast the next day was a discussion of various college problems. Both the high school and college students were present for lunch to finish the convention. All 100 members were present as the last session was held.

Cheerios: Use Shown In Applause Poll

Wendell L. Willkie, the Republican candidate for the President, has shown great in the current Hinsdale County, Willkie is responsible for the current Hinsdale County. A willing and able volunteer in the current Hinsdale County, Willkie is responsible for the current Hinsdale County. A willing and able volunteer in the current Hinsdale County.

Lewis' Experts Active In Home Economics Talk

Received with enthusiasm by both men and women students at Lewis, a new course in Home Economics is now being offered for both the home-maker and the educator. Professor R. W. Hunzinger, who also teaches art, is a regular member of the Home Economics faculty. The course at Lewis, "In the home", says Professor Hunzinger, is the man's world around the house. Consequently, when she finishes the course, she doesn't know where her place is in the home around the house.

Two Lewis Girls Up In Air Over CAA Plane Facts

All 20 available positions were filled in the Civil Aeronautics Authority's flight training program at Lewis. Two young girls --- Shirley Ann Jenkins and Beatrice Harris --- have been selected by the "plane facts" with the boys on Tuesday and Friday evenings, in the new "flight training" --- as ground school is known --- will continue for 12 hours on the flight training.

From the new text and manual issued by our interested Uncle Sam, Dr. H. M. Allen Country man will administer 24 hours of meteorology, navigation and aircraft operation will follow for another 31 hours each at the capable hands of E. C. Shuman. In the air, the students will be instructed by Henry Douglas and Harold Hardin at the Elmhurst airport.

ARRX DANCE

(Continued from page one)

This dance is to be held at the American Women's Center in the evening of the last day of the conference. The Center is in the general chairman's quarters and is added to by a committee consisting of Richard Schmiedel, Robert A. Johnson and Warren Spels.

An added touch has been given to this year's affair in that it is classified as semi-formal. This will allow the participants to shine although they wish; whereas the young ladies may wear formal attire and thus blend in with the air of the occasion.

The Medinah Country Club is located approximately twenty miles from the Loop straight west on Lake Shore Drive. A map of the route will be posted on the bulletin boards.

(In The Lewis Building)

Since 1915
The Greeks Had A Word For It

It has been rumored that the Lamberts were greatly surprised when in the midst of their Chinese Atmospheric experiment a bomb came a knock on the door. It was quiet, and in walked Ed Brown and his assistant with their camera equipment. The older Lamberts were relaxed by this knowledge, that the girls have had made visits at their "secretly female" alibi.

This is a good way to fetch a final grade for this project. (I was the only worth the Lamberts are through running.)

Now for the Kappas—Chicago suddenly becomes vacant. It may be, in light of going through all the excitement of being a "Police Queen," they decided to kick a bit of peace and quiet in order to talk without being disturbed. The pimping and yelling of the Kappas is a good way to achieve this purpose.

The Kappa Alumnae had a luncheon today, and Mickey Walker was chosen to represent the sorority. She is the president of the Miss Movie Blankie, their faculty sponsor.

My, my, the Sigma cure go do go in atmosphere! We found them in a French setting next day one, a Viennese the next, and a garden outdoor setting. Alas, a gaiety, and Kennedy will play the part of the Gypsy princess at the latter.

Alpha Rho Chapter of Kappa Alpha Psi fraternity which is located at J. J. T. gave the Annual Ball Saturday evening. The guests were the usual students and prospective pledges of the chapter. After a very dressy meal and est, the group entered the dance hall and square dances were given by the brothers.

The smoker was high lighted by the singing of the "Kappa Hymn" and the "Loving Cup Song."

As a result of the smoker, ten men were bid into the pledge class and will now be going through the honors of wearing a white scroll. Plans are now being formulated by the chapter for its annual banquet, Alpha Rho formal dance and the First Annual New Year's Eve Scholarship Ball.

A young woman and a handsome farm lad were walking along a country road to the dances. The farm lad was carrying a large ball on his back, holding a chicken in one hand, a gun in the other and leading a goat. They came to a dark lane.

She said, "I'm afraid to walk here with you. You might try to kiss me." But he said, "Oh, how could I with all these things I'm carrying!"

"Well, you might stick the cane in the ground, put the goat in it, and put the chicken under the umbrella."

The Height of Humor

Way, I wouldn't trust him with the sleeves of my coat. NS Y. Year

"Where's our Nellie?"

"She's out in them hills!"

"Then how do you know she's alive?"

"That's all right, our Nellie rides a bike and she can travel that way."

R. W. J.

Junior: Mama, look at that funny man across the street.

Mother: What is he doing?

Junior: Sitting on the sidewalk talking to a banana pee.

Pass the Buck

Passy: "What ails Albie? She's always wandering sideways, like a drunk.

T. J. K.: She was a snappy kid in winter, she had the best clothes.

Passy: But when she demned a baking suit she wasn't there at all.

Boozer Scooters

Let's hear what you think of this, will ya? If you like it I'll have more, but if that's the case I won't get me a bottle of furnarnic polish—and at least I'll have a good finish.

DEREK

GODDESS

Alpha Sigma Phi triumphed over Theta Xi in their opening game. The Sigma Phi boys had tough sledding at first, but finally came through with a pair of touchdowns over the plucky Theta Xi boys. The Sigma Phi win was not the least bit allaying all the pinching and yelling on the sidelines for good old Alpha Sig. In the game, Theta Xi center dropped on his head and lost his memory for the remainder of the contest.

Alpha Sig pledges will give a dance in the third floor hallway.

Triangula's speedwell expert—Chick Ball has gone overboard in a new hydroplane with which he hopes to saw beautiful women from drowning. Pledge Doug Seidel is now a trumpeter in the "Knights of Ar- senic" and was assigned to keep the rowdiness of the new house under water. The goplinis haven't boded us as yet, but the bubbles created such a thick layer of steam that several books drifted to the surface. Chick was like any other Bloomingtonite and made short work of the Alpha Sig pledges.

Pi Kappa Phi took the Delta's in a 300 game played last Thursday. Schwarzwald held a meet in the gymnasium and accounted for the touchdowns Long pinning and hard blocking were the big factors in the spectacular game. The Delta's were led by Switzer and Unbrighthart who were outstanding in the whole game. Hirtle's tackling was that of a lifeguard on the "Delta" all-star. Seibert took a bad fall in the last play of the game, but got up with a bad bloody nose. But in spite of all this, both sides were in high spirits.

The Noise of the Kappas was loud and clear. They had a song with the lyrics: "The gunpowder fits!" No further comment is needed.

The Pompeii fraternity in Bloomington really celebrated after the game. "The noise of the Kappas was loud and clear. They had a song with the lyrics: "The gunpowder fits!" No further comment is needed."

One of our housemates, Frank Boker, is going around telling everybody to close their eyes. He seems to be a real Bocker because he gave a few of the boys 5 and 10. Result: no more colors for the long time.

Recent bone-fragment from our Department of Anatomy.

Phileas Bob, visiting from Chicago, is trying to get in the social life and is trying to be a grouch. He just wants to get a position, helping beautiful female pigs get what they want.

After football practices, quarterback Allen Goldberg sets his own training table at the House, mostly because he brings back part of Oden field every night.

Phi Kappa Bob Greenberg is anxious to get in the social life. He is trying to get a position, helping beautiful female pigs get what they want.

The Lewis club has been organized since 1906. In that year Dr. D. P. Boder and Dr. J. F. Carpenter of the Lewis faculty at that time, threw a large Sigma Xi in the Lewis Oak room. It was expected that an effective group of Sigma Xi members would be organized, which was possible at the individual schools, will be formed.

The Lewis Oak room is a broad scientific fraternity, founded forty-four years ago at Cornell University. Its membership is made up of persons and their immediate descendants.

Among the many improvements effected by the recent merger of the two groups, is the addition of the Armour and Lewis Sigma Xi clubs. As the faculty of the Illinois Institute of Technology is a large college, the Sigma Xi club membership is expected that an effective national network of Sigma Xi groups will be organized, which was possible at the individual schools, will be formed.

The Lewis club has a long and distinguished history. In 1906, Dr. D. P. Boder and Dr. J. F. Carpenter of the Lewis faculty at that time, held their first meeting to organize the Sigma Xi club. The meeting was held in the Lewis Oak room.

The Lewis club has a long and distinguished history. In 1906, Dr. D. P. Boder and Dr. J. F. Carpenter of the Lewis faculty at that time, held their first meeting to organize the Sigma Xi club. The meeting was held in the Lewis Oak room.

Our new society, the Sigma Xi, is the second largest national scientific fraternity in the United States. It was organized in 1906, and has chapters in nearly every college and university in the country.

Blitzkrieg!

Hi there neighbor!

Well, the "machines" got together in the world at the senior election, and a good time was had by all while listening to the struggle for the Presidency. It appears that between Stevens and a hothead, they elected a darned good bunch of boys (as far as election goes) and that that all that matters. It has been proclaimed that today is Topsy Trou's big day. Indeed, all the students of Lewis College are expected to join the party. The paying guests have been given notice that the party will be a lively one and that there will be no drinking in the school. People have been told that they are expected to come along and join in the fun.

International Correspondence School, the nation's largest private correspondence school, has a total of 100,000 students who choose any of the 400 different courses offered at the lowest cost at a rate of $10 per term. Papers are corrected by a crew of 200 instructors, who mail out 20,000 papers at a cost of $10.

The University of Chicago now has a faculty of 855, which is larger than the number of students enrolled when the University opened fifty years ago.

Southern Illinois Normal University recently closed a new building and opened another in connection with a school rally. The men were dressed in their street clothes and joined the parade as it passed through the campus. The girls, who were dressed in their finest attires, also joined the parade which ended in a pep meeting with social events for the rest of the evening.

Prof. W. O. Mather, eleventh-century scholar, who was President of Franklin College, was very crowded and did not wish to ask any of the students to leave the class. The professor, who had never asked for students, is said to have ordered the candy bar to those who would vacate the room. He took the order a bit too far.

Quite a favor was raised at the University of Kansas. The suggestion was made that the cheerleaders be attired in skits instead of shirts. The change from plain white was voted down by the student council who thought that girls looked better in skits, and the women's committee persuaded the female students to purchase those costumes for them.

The University of Arkansas medical school's department of pathology has just completed the largest autopsy in the state's history. It involved the examination of a 400-pound cow, which was found dead recently.

Students at Kansas U. and many other universities throughout the country are preparing to enter their junior college. Sara A. Coggins of Milwaukee, Wis., paid for her tuition at Mississippi State College with $125,000 in gold bullion. Rolling gold is not a bad investment for gold bullion.

For the first time in many years, Armour College has a football team. As yet unofficial, it is in the process of choosing its color from the many neighboring teams this year.

By H. P. Krohn

Arx News

It was not long before everybody became aware of the Arx News. The news was everywhere, spreading like wildfire. And the Arx News was the source of the news.

The one about looking for the key to the Arx was not new. A key was safely tucked away. With a quick glance and a wave, the key was returned.

Down with Willie Johnson's Kreations

Robert R. Schneider, manager of the junior football team, is all set to start the tournament.

Attention all bowlers! The juniors are anxious to match their skill against any experienced bowlers. See Oren or Levin for arrangements.

Down with Broader and Hutchings

Bosworth and Winkle finished second to none (14) in the junior election poll. From the many discussions between classes it is safe to say that the junior class is in for a good senior year.

Since last Tuesday, the juniors have been bombarded with questions about the upcoming election. They are still undecided on their choice. When Prof. Pleeke looked into 200 Main Hall, he could see the juniors with a distinguished faculty, but he expressed the juniors from class on the grounds of inadequate housing facilities.

Down with Joseph and Levin

Gilbert Chisholm, 19, is all nerves these days. He is preparing for his final exams, but his future is uncertain. It will be Mr. and Mrs. Chisholm.

By H. P. Krohn

Psalms of An Engineer's Sweetheart

Vertly, I say unto thee, marry not an engi-

neer. For an engineer is a strange being, and is possessed of many evils.

Yes, he speaks correctly in parables which he calls formulas. And he wields a big stick which he calls a right triangle.

And he hath but one Bible, a hand book.

He thinketh only of steam and strain, and without end of thermodynamics.

He showeth always a serious aspect, and pichets his beer in a cup by the spridge.

He doth not know a waterfall except by its horsepower, but a streetcar except that he uses it for his own pleasure.

There is an election of officers to be held at the meeting. The details are on the board.

The new number on Wabash and Bushnell is the result of the old drug store and the new drug store.

Down with Thomas and Parker

We want "Harriett-Harriett" Kalliev (SA) for President.

To prove that Ben should be the unanimous choice for president, note how cleverly he evades the issue in the following "Wimp" letter:

"I am not interested in being President of the University. I am just here to get my degree and then return to my work."

This is a classic example of how a Phoenix student can be so unassuming that Ben could no longer resist his claims. He is a man of great power.

With no warning whatsoever, he grabbed E. J. hand, shook it vigorously, and shouted in a truly political fashion, "How do you do, Mr. President? I am your humble servant." (2 votes for Kalliev.)

SPES

The now numbed on Wabash and Bushnell rejoice at the result of their vote in the drug store. They have found their leader.

Down with Thomas and Parker

We want "Ben-Peeke-Ben" Kalliev (SA) for President.

To prove that Ben should be the unanimous choice for president, note how cleverly he evades the issue in the following "Wimp" letter:

"I am not interested in being President of the University. I am just here to get my degree and then return to my work."

This is a classic example of how a Phoenix student can be so unassuming that Ben could no longer resist his claims. He is a man of great power.

With no warning whatsoever, he grabbed E. J. hand, shook it vigorously, and shouted in a truly political fashion, "How do you do, Mr. President? I am your humble servant." (2 votes for Kalliev.)

SPES
Senior Mechms, Senior Firemen, Junior Civilians Pace Touchball Race

Although no upset was recorded in last week's intramural touchball game, the Senior Mechms were eliminated from the competition by the Soph Mechs. By scoring 35 points in the first half, the Soph Mechs took the lead and never looked back. In fact, so scared were the last year's champions that they refused to even fight back in the last second of the game, finally making the score 135-5.

Nov. 22, 1961

Junior Mechs Shut Out Soph Civilians 33-0

The Junior Mechs have been dominant in the competition, shutting out the Soph Civilians 33-0. Despite the Soph Civilians' efforts, the Junior Mechs maintain an unbeaten record.

Senior Chemists Win One, Lose One in Week's Play

A fast moving Senior Chemists team on Tuesday, October 21 defeated the Senior Chemists, which had placed second in the competition, by a score of 120. In the opening minutes of the game, the Soph Mechs scored an impressive 20 points, leading the game early on.

In the second half, the Senior Chemists countered with a 20-point lead, but the Soph Mechs continued to push the game forward. The final score was 120-20.

Intramural Touchball For Week of Oct. 28

1. Jr. PPR vs. Coast No. 2
2. Jr. Toler vs. Sr. Civilians
3. PPR vs. PPR
4. Sr. Toler vs. Sr. Civilians
5. Sr. PPR vs. PPR

Senior Chemists Win Against Jurisprudence

The Senior Chemists also took on Jurisprudence, winning with a score of 100, showcasing their dominance in the competition.

CHROME TRIUMPH

Last week's Senior Chemists' game was a triumph. The first game was against the Soph PPR, which the Senior Chemists won by a score of 120. The next game was against Jurisprudence, who also fell short to the Senior Chemists.

LBoom's Junior Touchball

Matthew Davis scored two touchdowns, one against Jurisprudence and the other against PPR. The last six points were made by Matt Davis.

Couch Drills Freshmen in Elementary Principles

Pacing how to handle beginners in the gym, the coach explained the fundamental principles of touching on Monday, October 21. The meeting was held in the Student Union Building.

Joe Hartman Leads New Tech Rifle Club

At a special meeting of the Rifle Club on Friday, October 25, a new president was chosen. Joe Hartman was chosen by a unanimous vote of the members. The new president announced that the club would hold its first practice on Tuesday, November 1.

 occupation of the position of president. The first meeting of the club was held on Tuesday, October 22.

Cage Aspirants Welcome Meyer

Forty men turned out at the first official Cage Aspirants practice. The team, coached by Richard Meyer, started the season off with a loss to the Tech basketball team for the season of 1961-62. This large group included many of the top players in the competition. The team, composed of a variety of players, is expected to compete strongly in the upcoming season.

Senior Chemists Win Against Jurisprudence

The Senior Chemists also faced Jurisprudence, winning with a score of 100, further cementing their dominance in the competition.

MICHES STAGE COMEBACK

The Junior Mechanics Literary Society (JMLS) held its annual Senior touchball game on Thursday, October 24. The game was played on the field and was won by the Soph Mechs, 100-0.
RINGS ORDERED; CO-OPS PLAN FOR JAN. GRADUATION

Candidates for ITTC's first graduating class, the Z-11 Co-Ops, met on Monday, October 21, to discuss plans for their commencement exercises which will be held on Wednesday evening, October 24. Since this is the first group of co-ops to complete the five-year course of alternation between school and industry, president Walter Meyers hopes to make the graduation a very significant occasion.

Committees Announced

In charge of senior publicity are Peter Woods (chairman), Paul Jockleman, John Kress, and Herman Plaut. The jewelry committee is composed of William Anthony (chairman), John Ackstrom, Frank Holmquist and Walter Meyers. Those in charge of graduation arrangements are Michael Lerdiehl (chairman), Gary Holmquist, Ron Kallek and Stanley Zabawa. The cap and gown committee is made up of Regis Johnson (chairman), Harold Krumel, and Ragni Nystrom. Arrangements for announcements are to be made by Edward Schmidt (chairman), Stuart Oster, Lawrence Schaffman, and Raymond Koscoy. In charge of Honors are Kenneth Kielbacker (chairman), Fred Keen, Rusty Laven, and Gilbert Chubinski.

Kratzhohlf Speaks To Teachers At Urbana Meeting

Starting Oct. 31 and continuing through November 2 the University of Illinois campus at Urbana will be the scene of the thirty-sixth annual High School Conference. This conference is held for the advancement of better teaching in our public high schools. Dr. W. C. Kratzhohlf, Director of the Department of Educational Tests and Measurements, and Professor of Mathematics at Illinois Institute of Technology, will speak to the mathematics teachers. The topic of his speech will be, "Rational Methods of Using Visual Aids, Charts, and Exhibits."

Illinois Tech Takes Honors In Boat Race

"She's coming about! That was typical of the many crises here on Saturday, October 22 as Illinois Tech 'sailed' off with top honors in the second Midwest Intercollegiate Sailing Championship held at the Columbia Yacht Club. The local mariners had to best three Big Ten crews, Chicago Michigan and Wisconsin, to gain this distinctive triumph.

KLT was racing top and took Michigan with the fifth race when double trouble hit the 'Yegg' in its last three boats on Friday. The crew of Parks and Nagooka turned over, and then Kramm and Honan cut a corner too sharply and fouled a mark, while in the lead. This耽误 reversal gave Michigan a big 10 point lead. With only three races to make up this difference, the Engineers started to boom right along.

Parks hove to across the finish line three times for 31 points, whereas Kramm took a second, a third, and a fourth. When the total points were added, it appeared at first that a tie existed between Illinois Tech and Michigan. However, a quick check-up on the figures indicated that Parks had won by the narrow margin of one point, with a total of 69

Each school is represented by two crews, and each crew is made up of two men. Representing Tech in the races were Bill Parks and Renee Nagooka, who comprised one crew; and Jack Kramm and Bob Honan, who were the other crew. There were eight races, and both crews sailed in each race, although both (supplied by the C. Y. C.) were exchanged at the end of each race. The points were awarded on the basis of 10 for first, 7 for second, 4 for third, and so on, with a score of 1 point. The total number of points attained by each school determined the winner.

Many Return At Hockey Conclave

Forty men turned out for the first meeting of the Illinois Tech hockey club held last Friday afternoon. The entire squad from last year has returned with the exception of McEnroe, Clay, and Ogan, center.

The outstanding players of last season's team who will be with us again this year are Clay Jones, goal; Dick Meador, Bill. Cook, George Crawford, and Bill Towson, wing.

Walter Blackmer, president, is an important coming candidate at center, having formerly played in practice with the Toronto Maple Leafs. The team schedule is not made up yet, but games will be played with Chicago, Detroit, and Notre Dame.

EXTRA MILDNESS

EXTRA COOLNESS

EXTRA FLAVOR

With SLOWER-BURNING Camels

In recent laboratory tests, CAMELS burned 25% slower than the average of the 15 other of the largest-selling brands tested — slower than any of them. That means, on the average, a smoking plus equal to 5 EXTRA SMOKES PER PACK!
TRUSTEES—
(Continued from page one)
In accordance with the policy of the alumni organization of Armour and Lewis, two alumni representatives were also elected to the board; namely, J. Warren McCaffrey, of Chicago, and E. H. Pennell, of Wilmot. Mr. McCaffrey, a graduate of Armour Institute, is now president of the Patco and Engineering Service Company, patent attorney, and president of the Armour Tech Alumni Association.
The Lewis alumni representative, Mr. Pennell, has had a varied career in training.

Armo Motorcyle Visits Home Of F. Lloyd Wright

A motocycle of fifteen Armo left Chicago at crack of dawn Sat-
urday, Oct. 9, for the Wisconsin lake country. The purpose of this pilgrimage, sponsored by Scraft, was to visit Frank Lloyd Wright's school and home at Taliesin, the "Meroc" of American architects.
At Madison, the group went through the Forest Products Labor-
atory. This laboratory is maintained by the Government, in co-
operation with the University of Wisconsin. It is a scientific and technical research institution whose business is to aid in protecting and enhancing the value and utility of forest products.

In the afternoon the Armo expected to see the historic "Old" house in Madison and later had a taste of night life in Madison.

The Armo spent Sunday at Talie-
sin, in the home of Architect, Wight and his apprentices in the Taliesin Fellowship. Mr. Wight talked informally on architecture and showed the Armour students "streamline," a model of an idea-
city. He also explained the plans for a $10,000,000 residential and entertainment center for Washing-
ton, D.C.

Freshmen Meet
This Friday For
Officer Election

An important freshman meet-
ing will be held next Friday, Nov. 4, in room 107 of Armour Stu-
dent Union at 9:00 A.M. At that time the important business will be the installation of candidates for class offices. The meeting will be conducted by Robert E. Dunbar, temporary chairman of the freshman class, assisted by a committee of ten. Besides a temporary committee, the group includes Charles Hill, Robert Flanagan, Daniel O'Connor, Ray Holmberg, Mike DeLuna, Bud Thompson, Bob Seegmiller, Charlie Primer, Bob Bud-
deke, and George Synhodis.
