Three Records Established At
Thirteenth Annual Tech Relays

By Rob Heckelich

Unleashed thirteen it was to come, but as it was it was the opposite. Thus, the Thirteenth Annual Tech Relays witnessed the first-place record books as a new link and yet an old link in the chain of successful track meets. The crowd of 2,500 out through eight hours of prelims and finals at the University of Chicago field house for the night, and in the course of the evening saw three new records.

By taking first place in the college division, Michigan Normal of Ypsilanti's 1,400 yard relay opened the 1934 season. Michigan Normal's victory was only overshadowed by Gene Litrownik of Michigan Normal's own links Don Sommerfield both of whom won two events in the evening competition. Litrownik set a new Tech Relay record in the 190 at the 16.3 block, an old record there, and won the 110. By taking second place in the 110, Sommerfield matched his own links Don Sommerfield both of whom won two events in the evening competition.

Spring Thing To Feature Coeds

Plans for the "Spring Thing" have been completed. The members of the floor show have finished their practice and are ready for the opening night. This Friday, March 22, the floor show "Meet Prospects" will be the meeting place of all the coeds. Sig Koffler will be the master of ceremonies. Miss Blanche Koffler will furnish the music for the evening. The floor show is expected to be the high point of the evening.

All Junior Mechanics who are interested in running for the office of junior marshal must have their applications in the hands of S. W. Rees by today. Each petition must be signed by at least 12 signatures. The election will be held Friday morning in the Student Union.
Colonel Draper Views College's Wartime Duties

Many conflicting opinions have been voiced concerning the position of the college student in the present national emergency. Colonel William H. Draper, Jr., clarified some of the conflicting rumors in his talk, "The Selective Service Act and the College Student." Delivered at the University of Michigan.

Colonel Draper called this act "America's reply to Hitler's unprovoked invasion ofLuxembourg, Belgium, and Holland, and to the fall of France. Ninety percent of our people, a recent Gallup poll indicates, now favor the Selective Service Act."

The underlying principle of this law was declared to be "the demand for a democratic procurement of manpower, regardless of the wealth, position, or occupation of the selector. Continuing, he declared the peacetime registration of 17,000,000 young Americans for selective service in every town and hamlet of this great country. The resulting expansion has increased our army fivefold and by July, the strength of the army is expected to be 1,000,000.

He went on to say, "There are, of course, many cases of medical students, of certain engineering graduate students, of many of the defense industries who are in training for special skills out of which are greatly needed today and tomorrow. Certainly of these should be deferred from service in the military or army duty. But to those who are not, the Selective Service Act was designed to assure that they receive the same treatment as the military and that they are able to carry on their specialized work during this emergency.

He stressed the fact that the first objective of this act must be military training, and that only the training of the men who are to be progressively trained students should be passed on to the national health, safety, and interest."

The Commanding General of the United States Army Training Centers, Lieutenant Colonel John H. Draper, Jr., said, "The Selective Service Act was designed to assure that the men can carry on their specialized work during this emergency."

Erickson Gives Superb Concert At Goodman Before Large Group

by Richard Kitchinelli

So should the history book of ICT read with respect to this event. There is no doubt about it, and there is also a great possibility that despite its many shortcomings, this event may prove to be the outstanding college-organized musical event of the season. True it is that the program began in a rather small format, and the only way by which every member of the orchestra had to make themselves heard, and the girls had also similar difficulties among all the boys in the chorus. True it is that the program was not essentially novel or heavy, and that many of the "old war horses" could have been eliminated in the betterment of everything, but it is also true that all these defects were engulfed in a sea of beautiful and unexpected success.

The orchestra did magnificently well considering its instrumentation and number. Its reading of the classics was excellent, and the entire evening the quality of its playing was high and professional. The chorus had much more mixed looks than if it had not honored the orchestra. There were times when four had stood and in the audience of the greatest successes.

However, even those who performed, Mr. Erickson and the orchestra, Rob. Maud, junior; Robert Munningham, baritone; Gus Maskin, violist, and R. O. Warner, trombonist, Mead had an excellent tenor voice, and should not be as nervously while showing off as he was. Homans brought down the house with his great and beautiful tone. May we hear more from these students when next we hear.
CO-OPS TO SWING INTO ACTION ON MARCH 28 AT ANNUAL HOP

Come all ye students who are heavily burdened; forget your troubles at the CO-OHP on Friday, March 28, at 7 p.m., and let the Furniture Club of America and the Illinois School of Massage relieve your stress.

The CO-OHP is the annual dance presented by the Illinois Tech Corporation.

The Furniture Club of America and Illinois School of Massage will present their annual dance to all dancing fans.

Headquarters for the CO-OHP will be in the ROTC building, a cocktail party, and a grand ballroom.

Concerts by local and national bands will also be featured.

Miss Haley Delivers Textile Talk at IIT

Miss Alice Haley, of the Carbon Corporation of America, spoke last Friday at Lewis on the background of the man-made fibers and the potential properties of carbon fibers.

She related her basic tenets to the need and the development of an infinite variety of fabrics, the quality and texture of the world, and the basic figures and logic of the scientist himself.

Yarn and cloth were passed around the group and the students might examine the material. The speaker concluded with a consideration of consumer problems and helpful hints in eating for rayon fabrics and clothes.

Concert—(continued from page two)

Hollywood has a beautiful French actress who was in our column "Still the Night" he danced grandly to night club tunes. He should work more in the legato style so that he becomes the greatest actor in the world.

Munich's violin solo was the high spot of the evening. His music and technique are on a par with Elgar's. Harmonic double scale, and slow legato are used extensively to enhance the beauty of the violin. It is too bad that Hoons uses us this year. It would be good to hear him play a concerto (Bruch) for us. May we hear from him again some time in the future.

Mr. Erickson goes final and greatest credit for what was done. Despite the great handicaps under which he worked, he produced a rousing evening for all. He directed with great energy, and demonstrated a very high musical skill.

Miss Haley's textile talk will be of great interest to all those interested in the textile industry.

CHEMURGY TALKS TO GIVE AT STEVENS HOTEL

"Give Me a Horse" cries Snooky, As Navy Gives Him The Works

Chicago will be host this month to the Seventh Annual Chemurgy Conference on Theory and Science. The Conference, sponsored by the National Farm Chemicals Association, will be held March 27, 28, and 29 at the Stevens Hotel.

Revolving about the theme "Chemurgy in Defense and Resource Conservation," it promises to be an interesting program of speakers on a wide variety of related subjects. The science of utilizing natural resources, even in peace-time, is one of the most important aspects of the United States.

In war-time it might well become a decisive factor.

Friday evening, March 28, will be devoted to a Yeoh Peasgyn, the theme of which will be "Opportunities for Tomorrow." Young men of national reputation, who have translated chemurgy ideas into actual projects, will discuss employment opportunities for youth in the future. This sounds like an interesting program and will be an important factor in vocational opportunity presented by recent developments.

The voice continued, telling me to read the chart on the wall.

"What will it mean?" I wondered. I looked up into the eyes of the man, who looked at me straight in the face. He smiled and nodded. I turned to the next page.

Final Exam for telephones

This electrical mouth at Bell Telephone Laboratories is putting through new telephone to its final test. Over and over, it can repeat these odd sentences without the slightest variation. They contain all the fundamental sounds that are known to be produced in the human voice. This mouth can make such tests with simple tones of pitch and intensity. At the same time other telephones are being strained, baked, frozen, and subjected to severe conditions of use. This is all part of a carefully planned curriculum that makes every piece of telephone equipment prove it is capable of giving trouble-free service under any and all conditions.

QUOTE & UNQUOTE

"There is no reason why the PTSA cannot conduct a vote for the president. We hope it would take two votes, but then that is so difficult! The first vote could be for any of 30 or 30 names that have already been suggested by the students. The last vote could pick one name from the top 5 or 5 in the previous vote.

The name thus selected would be the name of the student body, the voting having been carried on, of course, both Lewis and Armour campuses, in this is a plea for democratic ideas, for fair play, and for our rights. It is not too late. Let's do something.

Jewel Crow

"Now, you know I'm not going to sit here and tell you what I think. But let's see what you think, and then let's make up our minds what we're going to do."

HAVE WE GROWN UP?

"It's generally accepted around school that we need a new yearbook for the year 1942-1943. The "Pheonix," the yearbook for those of our classmates who were in the "Pheonix," the yearbook we need is not it. Not definitively it is not. The reason is simple. The book and the staff have not been supported by the student body. After all, the yearbook is a contribution of the students, by the students, for the students. We think that the students would pick the name of their own book.

"Understand this is not a kick about the name "Pheonix," but rather one against the method of selection. After all we pay for the book.

There is no reason why the PTSA cannot conduct a vote for the president. We hope it would take two votes, but then that is so difficult! The first vote could be for any of 30 or 30 names that have already been suggested by the students. The last vote could pick one name from the top 5 or 5 in the previous vote.

The name thus selected would be the name of the student body, the voting having been carried on, of course, both Lewis and Armour campuses, in this is a plea for democratic ideas, for fair play, and for our rights. It is not too late. Let's do something.

KUFLF TALKS TO INSURANCE MEN

KUFFL is a new name, Illinois Tech will become a mecca for insurance men, new course under an insurance for the benefit of the new course in the yearbook to be held here.

"Have We Grown Up?"

"Now, you know I'm not going to sit here and tell you what I think. But let's see what you think, and then let's make up our minds what we're going to do."

NEW LAB COURSE FOR SENIOR M.E.'S

The mechanical engineering department has instituted a mechanical laboratory course for seniors. It includes a series of lectures on modern laboratory practice. This is the first year that the course has been offered and the students are divided into small groups which make a thorough study of the equipment and operation of the laboratory. In some cases, the students do not know what to expect. There are about seven seniors taking this course at the present time. However, the course is not yet fully attended.

Some of the projects are testing a turbo-generator, investigation of welding equipment, studying the pressure drop in the boiler and studying the effect of different kinds of insulations. One of the most important courses is to develop knowledge of the principles which are essential in the design and testing of equipment which is essential in engineering practice.

Governor Robert J. Degan

Robert J. Degan

Degan has filed to contest their election of officers Monday, March 13. The results are as follows:

President: James Hayes, Fogg, F.P.B. '92
Vice-President: William S. Sullors, F.P.B. '92
Secretary: William F. Morris, F.P.B. '92
Treasurer: Hugh C. Smith, F.P.B. '92

Degan has filed to contest their election of officers Monday, March 13. The results are as follows:

President: James Hayes, Fogg, F.P.B. '92
Vice-President: William S. Sullors, F.P.B. '92
Secretary: William F. Morris, F.P.B. '92
Treasurer: Hugh C. Smith, F.P.B. '92

THE SCENE FROM LEFT TO RIGHT

The top of the mornin’ to you and as the mornin’ says good day the sky was clouded out at the stage. “There is where I put the moon before the house.” said Bantus and Lila were roller skating, and the doors fell over with the snow and came up with ugly.

“I don’t see where that’s going to change,” she said. “You’re just trying to show off.”

“Ah, she did,” replied Bantus, “and almost before I noticed it we were there.”

The patient was recovering from pneumonia. He had asked repeatedly for food and finally the nurse served him a meal.

A few minutes later the patient called her and said: “Now I want to read a bit, please.”

They say the first time a Stomach is used free air in a gurgle, he blew out four times.

WANTS A CHANCE

Doctor: The best thing you can be is in a good humor.

Patient: What’s the next best thing?

Ed Zedekas: Can I take you home?

She: Sure, where do you live?

Ed: There was a young fellow named Weir.

Who didn’t have an atom of fun.

He '#'d half a dozen girls.

To touch a live wire.

Most any body can get here.

Kind Lady: What are you crying for, little fellow?

That’s your name?

Where do you live?

Small Boy: That’s what the matter.

I don’t have any name or where I live. We moved yesterday and mother was murdered eight days ago.

Sequoia No. 1. Who won the race down there beyond you? Harvard or Yale?

Yale: No, Yale.

Sequoia No. 2. And to think I put every thing I had on Harvard.

A young lady, finding herself stranded in a small town, asked an old man at the station whether she might have a ride.

“Not here hotel here,” he said, “but you can sleep with the station agent.”

“We’ll have a room,” she said. “We’ll have a room, just as you know I’m a lady.”

“That’s right,” drew the old man, “it is the station agent.”

Marriage is that part of a girl’s life that comes between the Sphagnum and bracken.

BE WISE

Gather your wits while you may.

Time always brings sorrow.

For those who are so free today Are the charwomen of tomorrow.

TO ALL EX-NVY MEN

“Tsk, tsk! Betty’s whole existence seems to be running around with a pencil.”

“Yes, her father’s in the top of her pocket.”

A patient purchasing agent sat listening to a saleswoman. “To sell goods,” said the latter, “you must have a scientific attitude. You must be psychic. Now I am psychic. I run the machine of the call on my finger. I know what’s on your mind now.”

“Well, thank you,” replied the bored purchasing agent, “now why don’t you go down.

WAUGHTEAST

No wonder the little hickory tree came down.

For it has just discovered.

It’s too late to go down.

And with that and as Queen Elizabeth might have said to Walter Raleigh, “Keep your shirt on.”

OH MAN

Gods

The yearbook is a source of pride and joy for students, as well as a memento of their high school years. However, the process of designing and producing a yearbook can be a challenging and time-consuming one. It requires careful planning, organization, and attention to detail to ensure that the final product meets the standards of quality and creativity expected by students and staff. This year, the yearbook team faced several challenges, including limited resources, tight deadlines, and the need to adapt to remote learning. Despite these obstacles, the team worked diligently to produce a yearbook that accurately captures the essence of the school year. The hard work and dedication of the yearbook staff paid off, as the final product is a testament to their commitment and passion. The yearbook is a valuable keepsake that will be treasured by students for years to come. It serves as a reminder of the friendships made, the memories created, and the experiences gained during this unique time in their lives.
Psychopathic Types

By Velis Finlo and Ed Pullor

Tobacco is a vivid word.

The devil himself owns the seed.

Demons teeth and Edwardian palms.

Does the vamoose make of your note . . .

Smoking his way through school on other people's cigarettes, the weed-beaked hawks made a name about the campus. His chest burning is but a blind for a dark and twisted mind that is hungry for your heart.

Sports Note: In a light defensive game, the Gamma house's "Merry Girls" is working out a Twenty 29-24. John Risthouse and Bob Anderson starred for the Merry Girls while the seniors were placed by "Billy" Anderson. The session will seek revenge in a return match to be played in the near future.

Bert Anderson, shy hero of the Soph's, is expected to return. He commands the title of the German-American club and has been shown championship form this season.

Other Campuses

Indiana's Manchester College is planning a country week this season. which features an etiquette contest. Coffindale and Etter-Petersen were the judges. Their colleagues could grapple and gnash each other with their favorite juvenile pranks.

On the University of Oklahoma recently had a "blitzkrieg" when, because of an error in the class schedule, an English class and a German class attempted to meet in the same room—at the same time. After a period spent in trying to out each other. Both the Wickham and the English class left for a room down the hall.

It is the policy of the University of Chicago that instructors are either promoted or dismissed at the end of every four years, and assistant professors are either promoted or dismissed at the end of every six years service.

The various college surveys reveal that approximately 25% of America's college students are enrolled in the arts and sciences departments, which means that, in order to be included in the statistics, two-thirds of the students must be enrolled in the liberal arts departments.

Bill Williams, champion of a size match at the Homecoming stick fight, is back on campus.

The crowd of students who gathered around the residence hall to watch Williams take on the challenge of his opponent to see who could throw the largest boy, and I'm sure Uncle Sam will find your services very satisfactory.
GENE LITTLER

BREAKS 440 RECORD

Illinois Tech Team Betters '40 Effort

By Don Keffger

Another Tech Relay goes into the pages of sport history. Another group of outstanding college and university track men have matched strides and strength in the climatizing outdoor meets of the indoor season. Among these many athletes were a few of our own Illinois Tech foot-socket competitors.

Competitor's Dream

From that bitingly cold fought college two-mile relay in the afternoon to the suspended final try of Debbie Kuechle in the pole vault the meet was a competitor's dream or we should say, nightmare. Every event had so many good men that it was truly a tournament of track.

We Techavians didn't quite live up to genial John Schmecher's handling. He threatened the Illinois and myself in the after-noon by saying that every brilliant Techavian must be in the finals. At night, Osbome took him seriously but this race wasn't in the title those blustering beats in the finals. But Dick S. King deserves the title "Lucky Boy" for the means he held of getting into the semi-finals and the low hurdles.

Sprint Medal Outstandingly

A variety of events for which two all one could ask for; not a medi-ocre medal for one new in the world of track this drive of Ray Randolph. Chicago see runner really rounded the course in the mile relay.

TABLE OF POINTS

Well-known Tech head coach was Ray Davis whom the Tech has been making occasion for all this.

TLock's Bob Osborne

On your MARK!

NOTABLES REVEAL MANNERISMS TO TECH REPORTER

By Morgan Finch Jr.

Gene Little of Chicago's 440 rubdown table when standing for a photo of the very first 440 dash ever run this season, will be glad to pose and reach down to the floor for the shoe. Up on the side of the small pair of cowboy boots. When asked if they were real they answered, "No, we bought lighted up ones for the races; otherwise, we ought to, have been wearing them since I was six years old." So, with the cowboy boots, the Relays had the western touch.

On the track side, Hal Nugent of Drake broke his left leg in the pole vault event, and had to get straightened out coming down and the left leg got twisted under him. Hal is a graduate of Simeon and is now a Junior at Drake.

Nebraska Boys Rooters

The men from Nebraska had a small but noisy delegation in the stands. The group consisted of boys from Fort Hays State College. They were on liberty from Great Lakes Training Station and almost no group from Drake. "Uncle John" Schmecher gave them more of a good explanaion what these four flanneled men were about. They had a two mile relay and the Techavians rose up and ran out and came back to the stands to get the applause. Maybe there is something to the Ohio idea.

Ray Harsfeld of the University of Colorado track team is really the one to watch in the pole vault. The former Denver high school star and is one of the few men to have won the two mile relay and almost won the event. John Schmecher, "King of the Relays" added to his list of orpenes. He seems to hold the mystique and keeps the official posted to the best storyst of the tourm. The impossible and has an appropriate story for any occasion.

Some Westsman turned pro Saturday night. The funny story is that the Westsman was a univeristy right, but missed the time by 10 seconds. He was probably in cohorts with Glenn of Nebraska.

Pole Vault Records

When Bob Kuechle of Chicago freshman, broke the pole vault record of the day with his 18 feet, 5 inches, the explosion after that was immense. Once the man of the field housed ceiling it was almost a good thing that he didn't clear another three inches his pole vault records are held by him. Kuechle also hold many other records, the high jump, and might not have peaked in the pole vault with Ed Kuechle as he made him the happiest man in the world.

Bob with Records

Mr. Ed Kuechle was given the award of the hardest working javelin thrower. Well, at least he won the pole vault event at evening. Later, the senior of this season from University division. Three cups were offered to the colleges. The first trophy was awarded to a high school with an athlete on top with 440 dash. The Illinois Tech team was high with a 440 dash. The trophy was all silver plated. The second trophy was given the same only smaller.

"The Thirteen Relays were one of the few big track events I've run," says Alexander Schröder. All the other competitors will back up that statement.

Techavians have

TABLE OF SUMMARY

UNIVERSITY DIVISION

Two-mile relay: (1) Gene Little, Nebraska; (2) Howard Miller, Marquette; (3) David Sarper, Wisconsin, Time, 2:03.

Two-mile relay: (1) Kansas State-James John; (2) Rufus Miller, Wichita; (3) Kalamazoo, Bowl and Tulane; (4) Wisconsin, Time, 2:32.

Spring medals relay: (1) Illinois: Don Bailey, Jack Turner, Bill Wilson, Park, Brown; (2) Wisconsin; (3) Marquette; (4) Drake, Time, 2:25.

Two-mile high hurdles: (1) Charles Harvill, Northwestern; (2) Joe Finch, Northwestern; (3) Robert Kahler, Nebraska, Time, 2:49.

Four-mile relay: (1) Gene Little, Nebraska; (2) Byron Zola, Wisconsin; (3) Tom Johnson, Kansas State, Time, 2:45. (New record, old record 2:45.6 set by Wagner of North Central in 1959.)

Two-mile low hurdles: (1) Robert Goff, Park, Brown; (2) Karl Forbey, Nebraska; (3) Charles Harvill, Northwestern; (4) Clyde Haze, Illinois, Time, 2:37. (New record, old record 2:37.2 set by Wagner of North Central in 1959.)

Two-mile low hurdles: (1) Robert Goff, Nebraska; (2) Charles Harvill, Northwestern; (3) Clyde Haze, Illinois, Time, 2:37. (New record, old record 2:37.2 set by Wagner of North Central in 1959.)

Two-mile low hurdles: (1) Robert Goff, Nebraska; (2) Charles Harvill, Northwestern; (3) Clyde Haze, Illinois, Time, 2:37. (New record, old record 2:37.2 set by Wagner of North Central in 1959.)

COLLEGE DIVISION

Two-mile relay: (1) Michigan Normal; (2) Ohio College; (3) Milwaukee Teachers; (4) Northern Illinois Teachers; (5) Central State Teachers; (6) Illinois Tech, Time, 2:16.

One-mile relay: (1) Northern Illinois Teachers; (2) Ohio College; (3) Michigan Normal, Time, 1:57.9.

High jump: (1) William Taylor, Williams; (2) Thomas Johnson, Illinois Tech; (3) Robert King, Time, 2:16.

Two-mile high hurdles: (1) Don Sommerfeld, Michigan Normal; (2) Vern Ullman, Northwestern; (3) Warren Grant, Coe, Time, 2:46.

Two-mile low hurdles: (1) Don Sommerfeld, Michigan Normal; (3) Robert King, Coe; (3) Thad Kozlowski, Northwestern, Time, 2:38.

One-mile relay: (1) Vinny Weyes, Yankton, South Dakota; (2) Nicholas Zavodsky, Michigan Normal; (3) Terry Welker, Yankton, Time, 2:37.2.

High jump: (1) Niels Johnson, Northwestern; (2) Gene Little, Illionis Tech; (3) Gene Little, Illinois Tech; (3) Paul Johnson, Northwestern, Time, 2:40.

One-mile relay: (1) Bill Davis, Coe; (2) Virgil Rücker, Yankton, South Dakota; (3) Nicholas Zavodsky, Michigan Normal; (4) Terry Welker, Yankton, Michigan Normal; Time, 2:37.

Spring medals relay: (1) Michigan Normal; (2) Illinois Tech; (3) Coe; (4) Michigan Normal; (5) Northern Illinois Teachers; (6) Illinois Tech, Time, 2:46.

One-mile relay: (1) Illinois Tech; (2) Michigan Normal; (3) Coe; (4) Northern Illinois Teachers; (5) Central State Teachers; (6) Illinois Tech, Time, 2:16.

Two-mile relay: (1) Illinois Tech; (2) Coe; (3) Northern Illinois Teachers; (4) Central State Teachers; (5) Illinois Tech, Time, 2:16.

One-mile relay: (1) Illinois Tech; (2) Coe; (3) Northern Illinois Teachers; (4) Central State Teachers; (5) Illinois Tech, Time, 2:16.

Two-mile relay: (1) Illinois Tech; (2) Coe; (3) Northern Illinois Teachers; (4) Central State Teachers; (5) Illinois Tech, Time, 2:16.
Swimming Team Ends Season, Lose Meets To De Pauw, Beloit

Huskhold Elected To Captaincy Of Squad

By Fred DeLongey

Culminating a season's effort sufficient to make the Wisconsin team one of the best in the country, the University of Wisconsin swimming team lost to both De Pauw and Beloit in the last two of their meets of the season.

The team defeated the University of Wisconsin in their last meet of the season, and their last home meet of the season, with a score of 82 to 43, and this victory enabled them to win the conference championship.

The victory over Beloit was their third in a row, and the third consecutive victory over the Beloit team in a season. The team's record for the season was 10-2, and they finished second in the conference.

Eugene 'Red' Little

Profound To Establish Tech Relay Records

By Bert Sherman

"Just a little bit redheaded; a more than young man. But he was the first of his kind to be redheaded. Like his sister, for instance, for this is a description of Eugene Little, Nebraska's great and beloved athlete, who was a member of the Illinois Tech relay team.

In 1940 as an unbridled sophomore, Eugene Little became the first Tech relay team to win the Chicago Intercollegiate Championship, and this year he led the team to victory in the same meet.

The team included Eugene Little, George Hazel, and Robert Miller, who finished with a time of 40.4 seconds.

In the second round of the meet, Eugene Little and Robert Miller ran the second leg, and the team finished with a time of 41.2 seconds.

In the final round, Eugene Little, George Hazel, and Robert Miller ran the final leg, and the team finished with a time of 42.0 seconds.

Eugene Little's time of 40.4 seconds was a new school record, and he was honored for his efforts.

Bucky's Jump

Jumped to win the meet, Eugene Little's jump was the talk of the meet. He leaped over the bar with a distance of 6 feet 6 inches, breaking the record of 6 feet 5 inches set by the previous year's winner, Bob McLaughlin.

Marquette High School at Milwaukee

MARQUETTE HIGH SCHOOL AT MILWAUKEE

Three hours of thrilling track and field events began at three-thirty last Saturday afternoon. Thirty-six-year-old track coach, Mr. W. E. Peterson of Milwaukee, started the track meet.

In the preliminary 300-yard dash, Little of Nebraska won the race in 38.7 seconds. In the 800-yard race, Miller of Wisconsin was victorious with a time of 1:54.6. In the 1500-yard race, Beloit's Blunt took the win with a time of 4:20.6.

In the discus throw, Taylor of Wisconsin and Blunt combined to win the De Pauw meet with a distance of 126 feet.

In the shot put, Miller of Wisconsin won the event with a distance of 50 feet.

In the long jump, Little of Nebraska won with a distance of 23 feet 4 inches.

In the high jump, Hazel of Wisconsin cleared 6 feet 2 inches, tying the record.

In the triple jump, Miller of Wisconsin won with a distance of 50 feet 7 inches.

In the 400-yard relay, Wisconsin won with a time of 45.2 seconds.

In the 800-yard race, Wisconsin won with a time of 1:32.4.

The column concludes with a brief summary of the week's events and a prediction for the upcoming games. Overall, the column is informative and provides a comprehensive overview of the week's events in the world of sports.
Meet Dr. Harold W. D Ave, Teacher, Coach, Sports Enthusiast

Illinois Tech's track squad awash in high gear last Wednesday evening to launch Illinois Tech's number-one sports fan with a $100 bond. Dr. Harold W. D Ave, this season's track manager, has a penchant for all sports but is especially enthusiastic about the track and field events. On April 5, he organized the first track meet of the season, which was attended by over 1,000 spectators.

Davy Track Scholarship

Softball, baseball, football, bowling and ping-pong have been popular sports in the past few years, and the Tech Boosters have organized a new track and field team. This team has already won several meets and is expected to do well in the future.

Coach Davey

Coach Davey pointed to the position of coach of the Tech Boosters. The Tech Boosters have enjoyed a record-breaking season, winning over 100 games, and have been invited to participate in the state tournament for the first time in Tech Boosters' history.

Hockey Hop from April 5 Moved to Big Auditorium

The hockey hop was scheduled to be held in the big auditorium, but due to the uncooperative weather, it will be held in the Armoury instead. The Armoury has been reserved exclusively for the hockey hop, and it is expected to be a great success.

Levi's Fresco and Waring Dwarfs

Levi's Fresco is the composer of the 1925 hit song "My Heart Told Me," and he has been a prolific songwriter throughout his career. He is expected to perform several of his classic songs at the hockey hop, and it is sure to be a crowd-pleaser.

New Progress in Charity Fundraising

Under the urging of the Student Council, a new campaign to raise funds for the Tech Boosters has been initiated. The first meeting of the new campaign was held last Wednesday evening, and it was attended by over 200 students. The campaign, which is called "Tech Boosters for Charity," is designed to raise funds for the Tech Boosters' scholarships and other projects.

Don't Miss These Events

- "Tech Boosters for Charity" meeting on April 5
- "Hockey Hop" on April 5, moved to the big auditorium
- "Levi's Fresco" concert on April 5, at the big auditorium
