EXPANSION FUND REACHES $1,100,000

'Scat' to swing out at the Formal, Friday

by Clet Sten
Continuing in its endeavor to present to the student body the "cute and ultra" in dance entertainment, Illinois Tech will present on this coming Friday night, February 27, the Junior Formal.

On this memorable night, the loyal sons of Illinois Tech and their undoubtedly lovely consorts, will dance supremely and dance to the inviting strains of Johnny 'Scat' Davis and his well-known orchestra. The site of this social event will be the gloriously located "Room de la Boulevard" of the Stevens Hotel. For the occasion, tables have been arranged on an upper level and on the lower level dancing will be permitted and encouraged.

The dinner is scheduled to be served promptly at 8:30 and in order to make theui "promotional" features of its, it may be held up to past performances, we print, at this end of this era of shortages, the menu to be presented. All aspects of the dinner promises to be a feast fit for a king.

The orchestra of Johnny Davis will punch their time cards in at 8:30 p.m., promptly, and conscientiously dispense their musical wares till the hour strikes half past midnight with small time out for recuperation. During these intermissions, the restless and their своим companions will be soothed and entertained by the Sid Pirrit Trio. This internationally renowned group is known near and far for their ingenuity and the irresistible entertaining mode of presentations. I can count myself with all assurances that those who attend, the fullest measure of laughter and appreciation of the band's performances, "Scat's" been around.

A bit of biography concerning the noted singer comes from the official press release. "Scat" deserts from the unvoluntary actions of singers who insist "who do do" when at a loss for the correct words to the song. Davis uses this principle in his charm song, "Marry for Hollywood where you're terrific if you're even good, etc." Johnny began with the O'Grady gang gaining his disabusing of a name while with O'Grady. Later, Johnny was a featured performer with Fred Waring and his Pennsylvanians, and then broke away to form his own band. He's made numerous moving pictures, was on television, in burlesque throughout the nation, engagingly on the part of his listeners the deepest appreciation.

Alumni Organizations Unified At Banquet

Huge check given at Alumni Dinner

Left Friday night at the alumni banquet, held in the Student Hotel, Wilfred Salus, president of Illinois Tech, and chairman of the trustees policy committee, presented President Henry T. Heald a check for $1,100,000.

This money was raised as a part of Illinois Institute of Technology's Building Program which calls for new buildings to be constructed at a total cost of $3,000,000.00. The Illinois Tech development program calls for the raising of this large sum of money to construct and equip new structures, and for the addition of $750,000.00 to current annual income through endowment or other charitable action.

This is the first substantial appropriation of the committee to date and shows definitively that the program will be carried through as scheduled.

Further encouragement is indicated by Alumnus's statement that the Institute's drive is ahead of schedule for 1942 by a sum of money amounting to $250,000.00. This additional sum was more than expected and marks the aggressive spirit of the policy committee and the alumni behind Illinois Institute of Technology itself.

All funds received up to date are represented in this check, for $1,100,000.00, which include the $750,000 previously reported as subscribed in the campaign.

1600 gather at Stevens

A capacity crowd of more than 1600 alumni of Armour, Lewis and Illinois Tech attended the Alumni Dinner Friday night. In order to accommodate the large volume of alumni, it was necessary to use the Grand Ballroom of the Stevens Hotel. The theme for the groups, Armour, Lewis and Illinois Tech, mingled together to form the new Illinois Institute of Technology and adopted a constitution for their organization; an action necessary to bring the alumni together as one unit as schools were brought together in the merger of a year ago.

Armstrong gives draft view

Commenting on the selection of engineering students in the present war situation, Lt. Col. Paul G. Armstrong, state director of Selective Service, spoke on the draft's exempting engineers in defense industries.

"These men," he said, "must be kept on the home front fighting in the battle of production."
Alumni Dinner—

(continued from page 1)

The Illinois Tech development program has plans for seven new buildings. Next spring, the ground will be broken and construction will start on the new Metallurgical Engineering Building which will cost $550,000 when completed. Hallways,休息室s, and laboratories will be completed during the summer of 1952. The building will be completed in time for use by the fall term. Courses will be offered in the building on a laboratory basis.

be seein' ya this Friday night, honey

**Notice New Notices Now**

Dean Clarence L. Clarke announced today that a chimp has been made in the routine of publishing student announcements at the library. Under the old system, students wishing announcements made of meetings would leave them with Miss Grace Prentiss, the Dean's secretary. From there they would proceed to the business office where they would be mimeographed and placed in the information offices for the faculty members, supposedly to be read to the classes. Notices were read in inverse proportion to the volume.

Since the second semester program has been so arranged that practically everyone has the 10:10 hour free on Friday, the volume of notices has increased tremendously with a resultant reluctance on the part of the faculty to read them. Consequently, students complained that their notices were not being read. Announcement of student meetings has now been placed entirely in the hands of students.

The new system, which has been worked out jointly by Dean Clarke, Miss Prentiss, and Activities Chairman Sylvia B. Wells, centers about a new bulletin board that has been attached to the door of the Publications and Activities Office, Room 313. Now to have a notice published, the procedure is as follows: Either hand the signed notice personally to Miss Wells or deposit it in her box in Room 313. She will check to see that it doesn't conflict with other meetings, insert it in her activities calendar, and post it on the board. It must be in far enough advance to be published in TECHNOLOGY NEWS in "This Week at Ill."
Fraternities, Sororities

Pi Kappa Phi
Pi Kappa Phi held formal initiations Sunday, for eleven new members, the highest yet for the chapter, said Samuel J. R. Bienstock, the Beta Lambda chapter, which was initiated last year, was the only one in the nation to hold formal initiations.

Alpha Sigma Phi
Alpha Sigma Phi cited the highest number of new members of any sorority at the University of Illinois, according to the chapter's president, Dr. R. A. Schnell.

Delta Tau Delta
The Delta Tau Delta chapter is planning a big event to celebrate the return of its former members, who have been away for the past three years.

Sigma Chi
The Sigma Chi fraternity is planning a big event to celebrate the return of its former members, who have been away for the past three years.

Honorary Organizations

Medical Arts Guild
The Medical Arts Guild has been working on a project to improve the medical facilities in the area. They have been working with local doctors and hospitals to ensure that the best care is provided to all patients.

Fraternities...

D Dawson
The DIs have been invited to participate in the upcoming dance, which will be held at the campus center. The invitation was extended to all members of the fraternity, regardless of their status.

Phi Beta Kappa
Pi Kappa Phi, the national fraternity, has been invited to participate in the upcoming dance, which will be held at the campus center. The invitation was extended to all members of the fraternity, regardless of their status.
INTRODUCING - "The Steam Shovel"
Parrel style... the old 'dave driver'.

Harold Hurvitz, "Intelligent junior mesh," [??], wrote that the other day at Daffal, Oly. Hurvitz's superlative win went toward the Harry Anderson near-miss which opened up as a result of his actions on the derelict. He is now threatening to alienate the junior champs. Consequently... an armory match for the way he took his duchess.

"DOC" DAVIES is desperately trying to squish rumors to the effect that a certain ring is not real, but, upon close cross-examination, he becomes vague in his denials... your guess is as good as ours... Advice to the beef - grab the Armour Dance Club and get a stiffer time just like MANS NORD's - she's of the essence of feminine prominence.

Probation period known for ART (PUNCHY) ELIAS, ED OZAND, and "COOKIES" till they grow up. Those girls tried to pick up all the railway crossing were too damn smart... The senior civil east Bill Weddington's excuse for his red nose. Plain's contention: three week binge - Defendant's contention: no binge... Morty's continuing to express his philosophical views to the select few - they being Bob Adalton, Carl Forbush, "Little Boy" Sundstrom, and Wally Latin... Weekly report: the Daly-Johnson romance is still flourishing.

The senior juicers have become a deprived lot. They don't even look at a pair of still stockings any more, so High Loma of the senior chon, Dot Kretcher, has made Edall, Ralph Rose, Michelle, Pocian, Van Middlesworth, Pip, Frank, etc., man线上 deserted the boys and now they can't graduate... Series, graduate student, plus Ruth Young, secretary, plus lecture [to be continued... by senior student; plus junior student equals romance plus student minus good record of lecture].

ALDA KAIRIS, '41, refuffle of that same BOB MEYER, answered to the rook call at the LAMBDA dance, and once again proved himself to be outstanding, only this time negatively. She made the prize, the first prize of the evening... appointed to the bar, and once again the quality that she has in her heart, she said... and I'd like to reveal GORDON WALTER, who... ALDA explained, stating that during the past year in which all three were members of TECHNICAL NEWS, she never could see those fights, even a "beast that" is a fine line.

ALEX BAILY, that lovable lad of the LAMBDA, did not get the best bridge in all the crooks which we made last week's communiques. The reason was the members of the LAMBDA TECHNICAL NEWS staff had depleted their "eats" fund by getting a little "Valentine" for him in remembrance of his voluntary services to them.

Now, the "Valentines" frolic is over and many of us will catch again, let's go down to facts and personalities.

POST VALETTE NOTE - Copel's messenger didn't fail to visit "SONNY" TANDRUP, heaving a sweet-smelling envelope designed in a feminine script. Service Lily Aldry is getting down state competition for the cardiac anatomy of our glamour boy.

This new article should really be put into headlines. ETHEL GIVES EVERYONE ON THE THIRD FLOOR KISSES... looks like our battle bud has gone forever... but just a pinch... Keep your hands off those here were Hershfield's... Just when I thought I really had some real honest to goodness blackmailed material.

Have you noticed the glow of love, and the June-in-January attitude of LORRAINE SURDYK? Could that little something decorating her sweater be the reason? Namely, an Alpha Pi fraternity pin.

Since a fast driver is the only one who doesn't worry about what goes on behind his back, BOB MEYER certainly has a constant job because, of course, he can't keep both HELEN and SYLVIA in night clothing, and he's got to be a good driver. We know why HELEN occupies his time, but you aren't positive that he is just being a good fraternity brother by entering in the SORORITY ball, while PETTERINO, her number one and only, is amending her country.

ALDA KAIRIS, '41, refille of that same BOB MEYER, answered to the rook call at the LAMBDA dance, and once again proved himself to be outstanding, only this time negatively. She made the prize, the first prize of the evening... appointed to the bar, and once again the quality that she has in her heart, she said... and I'd like to reveal GORDON WALTER, who... ALDA explained, stating that during the past year in which all three were members of TECHNICAL NEWS, she never could see those fights, even a "beast that" is a fine line.

ALEX BAILY, that lovable lad of the LAMBDA, did not get the best bridge in all the crooks which we made last week's communiques. The reason was the members of the LAMBDA TECHNICAL NEWS staff had depleted their "eats" fund by getting a little "Valentine" for him in remembrance of his voluntary services to them.

Now, all you good Illinois technicians, you better be at that Junior Formal this Friday, or you'll be sorry. Polish those shoes, grab a handful of fortune cookies, and get there early.

SAFETY FIRST

"Have you told Mr. Smith that he is now the father of twins, mama?"
"Not yet, doctor, he's shaving with an old-fashioned razor."
**Parachutin'**

**From Life Magazine—Seme Time Ago**

The following letter was received from Fill Calhoun, Life correspondent, temporarily located in Lisbon, Spain.

The following series of stories sounds like the kind that suddenly appears all over the world. These are the best invented by the Portuguese, who claim they always invent the best stories concerning world records. In each Italian parachute there are 20 men: one pilot, one co-pilot, one radio operator, one mechanic, one parachutist, and one man to blow out the gas. In the German parachute there are 30 men: one pilot, one co-pilot, one radio operator, one mechanic, one parachutist, and one man to blow out the gas. In the American parachute there are 40 men: one pilot, one co-pilot, one radio operator, one mechanic, one parachutist, and one man to blow out the gas. In the French parachute there are 50 men: one pilot, one co-pilot, one radio operator, one mechanic, one parachutist, and one man to blow out the gas.

French parachutists ordered to leap from their plane to discover at the last minute that they had parachute and were being attacked by enemy individuals. They land the plane on the nearest safe and sit around all night agitating about the matter.

Spanish parachutists, ordered to leap from the plane, were hit by bullets and one of their officers was killed. The survivors took the plane and landed it on the nearest safe. They sit around all night agitating about the matter.

The blowout of the gas was caused by a German bomb, which exploded in the parachute, killing one man and wounding two others. The survivors sit around all night agitating about the matter.

At a result of this unprecedented invasion of the Wast coast, by the "conquering army," a feeling of disturbance is thought of organizing an anti-Brockman campaign, not mind you, to attempt to counteract the subversive activities of this espionage agent and to have their women see the true light, but to counteract the congestion found in the corridors during the S-Bahn commute. There is a complete obliteration of standing room, for his feminine admirers. He is be to have his admirers. This situation has become critical that there seems to be one, and only one, thing to do; namely, to announce to the poor stricken co-eds that their opportunity has faded, because a girl from "Northeasterly Leicestershire" is now the object of love of one of the finest young men in the world. Would you imagine it?
Eugene Daly tries valiantly to throw his opponent over his shoulder in the recent Balist meet. These two eventually fought to a draw.

Metmen split with Beloit, De Kalb

The Illinois Tech metmen broke even last week in meets at Beloit, February 14, and against De Kalb here on Tuesday, February 17.

At Beloit, the Tech men won five decisions to score 14 points. The lightweight displayed more power than the middleweights, scoring 11 of the 14 point total. Ocmel, Salitri, Dunip and Butts chipped up three points each, while Daly garnered two points on a draw. At Glasspen, 190, fought hard against his 240 pound opponent, but he could not quite handle the mobile mountain, and his last on a fall in 4:52. Zemelick and Johns also lost falls. Three falls each gave Beloit 15 points, which together with two points for the draw contributed to a 17 point total, making the final score Beloit 17, Illinois Tech 14.

De Kalb loses here

The following Tuesday, De Kalb ventured into the domain of the Tech, and the heavyweight snared out of their lethargy to win three decisions. Butts, Zemelick, and Howells scored three points each on these decisions, constituting the major contribution to the victory. Two falls gave De Kalb ten points. Ocmel and Johns lost in 3:34 and 3:22 respectively. In the 138 pound division, Bob Gillitt grappled with his opponent for eight minutes and thirty-three seconds before putting his opponent away and winning on a fall. This victory gained 5 points for IIIT. De George won a decision after De Kalb took one, giving each team two points.

Two wins, two losses

The final score gave Illinois Tech a well earned victory, 17 to 13 and a record of 2 wins against 2 losses.

Last Saturday, the grappleers had a return match with De Kalb. Results will be printed in the next edition. Next Saturday, the team will travel to Wheaton to compete in an invitational meet against twenty-midwest schools.

TANKSTERS DOWN NORTH TAKE 7 FIRSTS

After rousing up a bit after splashing around the waters of America's small fleet, the Tech swimmers defeated North Central by a score of 49:27 a week ago last Saturday. Tech swimmers recorded their record up to four wins against one loss.

Starting off with the free style events, Pearson and Rademacher came in 1st and 3rd in the 50. In the 100 yard free it was Pearson again with Mantus in the third place spot. McNalley was second in the 200 free style. In the 100 yard backstroke it was Hasbaku and Walgren, 1st and 2nd. Koos added another first in the 100 yard breast stroke, with Brehm coming in third. Tregay also joined the victor ranks by winning the diving.

In relay events the Techs continued winning. The medley relay composed of Hasbaku, Koos, and McNalley won by half a pool length. The free style relay with Reed, Rademacher, Wehrle, Mantus, and Pearson outdistanced North Central in a close race.

Basketeers lose two thrillers

Although displaying some of their best basketball of the season, the Techmen lost to Western Illinois last Thursday by a score of 54-41. The majority of the Techmen were injured in the last minutes, and the battling was done by the bench players. The bench players were not quite on their game, and the game was lost.

The Techmen lost to Concordia last Thursday in one of the most rugged showdowns to date by either team. Concordia had been previously beaten by a 46-34 score.

With Wally Futterly on the bench with an ankle injury incurred in the Fresh game, Bob Kidd recovering from a throat infection, and Captain Pendley barred from the game on fouls during the last four tug-ups, the Techmen learned the lesson necessary to break the 37-37 deadlock in a 37-35 count on the final seconds of play.

Frank's Cops Ping Pong Title

After a three month, long and weary grind, the ping pong tourney came to a very heated climax last Friday morning. Before a surprising large crowd in the Student Union, Bob Adelson lost two straight games to Herschel Franks by 21-17, 21-19 scores. In the other singles game Bob Johnson took Phil Huggett 21-14, 26-23 for third place.

The doubles match went to the Kris-Kolon team who beat the Jacques-Franks outfit 21-16, 21-19.

The match went to the Kris-Kolon team who beat the Jacques-Franks outfit 21-16, 21-19.

The doubles match went to the Kris-Kolon team who beat the Jacques-Franks outfit 21-16, 21-19.

Loyola, Morton J. C. defeat IIT in double dual meet 54-41, 45-40

BLOW BY BLOW

WITH "BUBBLES" REBECKTOL

As we sit here among the staff members of TECHNOLOGY NEWS who are putting the paper together with the printers a startling bit of news comes to our ears. The U.S. and Jap fleets engage in a huge battle in the Pacific. Whichever the result is known by the time you read this, this battle still will be an important factor in our future. The outcome of the battle depends on the skill, fitness, and courage of the men in the American and Allied navies. Undoubtedly some of the men who enter this battle will not come out of it. The replacements for these men will come from military schools such as IIT. Pursue and other engineering schools. Do we want the U.S. to lose this battle over these replacements?

Let's examine the situation here at Armour college. We can't speak of the Lewiston situation because of insufficient facts. Last year the Navy examined a pool of people and picked out quite a considerable number. Some of the lads who have come up for draft exams couldn't even pass these tests. Who were the men who passed the exams for the various branches of the armed forces? In the great majority of the cases only those men who passed were the ones who had spent some time on some athletic team at Armour. A very few passed who had not competed before. These were the selection except for the rule. In other words the typical IIT man (very few men go out for football) wasn't in condition physically to take the training necessary to put him in the front line of our defense and (now we add) our effort.

This presents a situation whose solution lies directly in the heart of each of us. Several of the boys have attempted to solve it by enrolling in physical education courses at night at the U. of C. These include drill and general exercises. However, most of us are not able to partake of these opportunities. BUT, we can talk part in the opportunities afforded to us at Armour. How many of us have taken the last two years of gym required to graduate? Very few.

Most of us have entered gym classes by playing with the Glee Club or by engaging in some extra activity which exempts us from the gym workouts. Now it is possible to be given credit in gym by belonging to the rifle team. This latter is a costly club but it does not take the place of a work out twice a week.

We're not here to say that twice weekly gym classes will put you in shape to pass the Army air corps exam but we do say that it will help more than you ever imagine. WHAT are you going to DO about IT?
Molecules, Wolves, Turks win as Lewis basketball begins

Although the Molecules expect to walk into the trim-seat of the Lewis tournament because of an overwhelming victory in its first game, a few points can change the scenario. The Wolves, under coach Joe DePinto, and the Turks, under coach Charlie Meier, both have good teams. The Wolves, with a record of 16-4, have been solid throughout the season, while the Turks, with a record of 18-2, have been inconsistent. However, with the right game plan, either team could win.

RHO DELTS COP INTERFRAT PING PONG TITLE

Sparked by the efforts of Aaron Kolom, Rho Delta won the interfraternal table tennis championship last Wednesday night. The victory was accomplished at the expense of Delta Tau Delta, whose players put up a terrific battle before succumbing to the mighty Rho Delt. Kolom was undaunted against the Deltas, winning twice over Williams and once over Furfey.

WHAT! A girl training men to fly for Uncle Sam?

The name is Lenore—Peggy Lenore. She’s blond; she’s pretty. She may not be the part of a trainer of fighting men, but she is one of the few women pilots qualified to give instruction in the CAA Flight training program. And the records of the men who learned from Peggy show she’s doing a super job of it. She’s turned out pilots for the Army . . . for the Navy. Peggy is loyal to both arms of the service. Her only favorite is the favorite in every branch of the service—Cameo cigarettes. She says, “They’re milder in every way.”

DON’T LET THOSE EYES & that smile fool you.

When this young lady starts talking airplanes, brother, you’d better listen, too . . . just like these students above.

AND WHEN she tells you that it’s a lot of fun, you’d better know your loops inside and out. It’s so exciting with her.

Flying Instructor PEGGY LERNOX says:

“This is the cigarette for me. EXTRA MILD and there’s something so cheering about Cameo’s GRAND FLAVOR.

28% LESS NICOTINE

than the average of the other leading brands. Less nicotine in the smoke means less harm to the smoker.”

EXTRA MILD, says Instructor Peggy Lenore, “Less nicotine in the smoke” and “It’s not harsh, it’s smooth—like a real cigarette.”

CAMEL

THE CIGARETTE OF COSTLIER TOBACCOS

BY BURNING SLOWER, SLOWER than the average of the other leading brands, Camel delivers less harm to the smoker. In fact, its Extra Mild is 28% less nicotine than the average. And, of course, the flavor is just as good. So, if you’re looking for a cigarette that’s EXTRA MILD with a rich flavor, try Camel. You’ll find it is just as easy to smoke as a regular cigarette. Camel. Perfect for a round of golf. Camel. Perfect for a round of ping pong. Camel. Perfect for a round of all sports. Camel. Perfect for a round of flight training. Camel. Perfect for any activity. Camel. Good to the last puff.”
