Dances to Be At St. Clair Hotel
With Music by Jimmy Green

The details of the inter-horony informals have been given out by the Armour Institute of Technology in the form of a letter to each of the respective groups. The first list has been set up for the evening of April 19, including a number of interesting events. These will be followed by Jimmy Green's music and dancing.

PHOTOGRAPHERS SOUGHT

The photography club is seeking photographers to capture the essence of campus life. The club is looking for individuals who are passionate about photography and are interested in contributing their skills to document the events and activities at Armour Institute of Technology.

VARIETY TO FACE ALUMNI WITH SCHOMBERG IN BOX OFFICE

John B. Schemberg, '11, Alumni Director of International Club, and director of Athletics, will take his turn on the podium in the annual alumni-organized baseball game to be held Friday at the Open Club, while the latter was reported by the alumnus committee, especially for the occasion. The "变迁" nature of this number is not to be revoked until the night of the event.

Wanda Wuthnow and her co-

The event promises to be an exciting opportunity for alumni to interact with current students and faculty, fostering a sense of community and tradition.

Junior Committee Announces Events of the Week

The event was announced by the faculty committee responsible for the planning and organization of the activities. The committee ensures that the events are cohesive, engaging, and enjoyable for all participants.

New Constitution of "Engineer" Accepted

The constitution of the Armour Engineer, which was adopted March 27, has been accepted and appears in its final form of the magazine beginning last Thursday. The constitution was submitted to the Board of License for final approval.

An announcement was brought for the board on March 27, to the effect that the magazine would be taken on by the "Armour Engineer" magazine. The announcement is in accordance with the regulations of the Armour Institute of Technology, and is in line with the Board of License's policy on the matter.

Inquiring Reporter

Q: How do the Arms Radio Club members feel about the new Antenna Rebuilding Project?

A: Members of the Arms Radio Club are excited about the new Antenna Rebuilding Project. They see it as a step towards improving the quality of their broadcasts and enhancing the experience for their listeners.

Heinz 26 Enters Preliminary of Roman Academy

(Continued from page 1)

Tall and blond, Heinz 26 is a typical member of the Roman Academy. He was chosen for his ability to “see” through time and space. The Academy is a group of individuals who work together to create new inventions. Each member has a unique ability, and together they can accomplish great things.

Conquering the Cascades

SNOW falls ever so slowly in the year where the Great Northern crosses the Cascades. Snowy, torrents of snow falls increase the difficulty of the maddening problem. Nature has stubbornly retained man’s effort to conquer.

In January, 1929, the new Cascades tunnel was opened. Man, with electricity as his ally, had conquered.

The eight-mile bore was driven in three years—a record impossible without electric power. And electrification has been extended to the entire 75-mile route through the mountains.

The crevasses of electricity on the land and on the sea, in the air, and underground, are making powerful against the impediments. To us vision encompasses wider horizons and a deeper approach to vital contributions to future industrial progress and human welfare.
