RAYMOND QUIT ABOUT ARMOUR DEVELOPMENT

However is Optimistic For Future of Institute

"I can make no definite statement at present to regard it as a certainty that the Institute will go on," President Howard said Monday night.

"One thing can be said, and that is that the committee of inquiry is still engaged in its work, and it will be some time before it will be able to give us its report."

Following the President's statement, the Board of Trustees adjourned for the week.

J. K. Area Quiet In Batting Practice

J. K. Area, C. K., 3B., in immediate batting practice, showed the hitters what to expect when he was called to the plate in the third inning at the site of the new stadium. His effort was met with cheers from the spectators who were watching the game.

The annual banquet was held at the Armour Institute Cauldron tonight. The banquet was attended by members of the faculty and staff, as well as students and alumni.

The evening began with the President's address, followed by the presentation of awards to outstanding students and faculty members.

Evening Friday Evening, President Billing and Bill Henry and O. W. Hoeller and W. J. Warren led the Members of the Armour Institute Cauldron in a toast to the success of the institute.

The awards were presented to students who had demonstrated excellence in their studies and contributions to the institute.

The banquet ended with a closing address by the President, thanking all those who had contributed to the success of the institute.

The next day, the institute held its annual science fair, where students showcased their projects and research.

The fair was open to the public, and many students and faculty members attended to support the efforts of the young scientists.

The institute's commitment to education and research continues to thrive, and the future looks bright for Armour Institute.
As a result of a questionnaire circulated by the University Union among the freshmen, there was a general feeling that March means is taken.

Several interesting notes were included. One student, X.Y. Z., commented on the delicious nature of the food served at the cafeteria, which he found particularly pleasing. Another, John Smith, noted the variety of courses available, stating that he had never experienced such a broad range of academic opportunities in his previous studies.

The atmosphere at the University was described as lively and dynamic. Many students commented on the sense of camaraderie and community that exists among the student body. The university's commitment to fostering intellectual growth and personal development was highlighted by several students, who expressed their gratitude for the opportunities provided by their education.

A number of students also shared their concerns and suggestions for improvement. One student, Jane Doe, pointed out the need for better support services for students with disabilities, while another, John Brown, called for increased funding for scholarships and financial aid programs. These comments reflect the ongoing efforts to create a more inclusive and supportive environment at the university.

Overall, the responses to the questionnaire painted a positive picture of the University experience, with students expressing their satisfaction and identifying areas for improvement. The university administration is expected to review these comments and make adjustments to policies and programs in response.

IOWA CHAMPS FALL BEFORE
TIMELY HITTING AND TIGHT
PITCHING OF KRAFFT MEN

First Everloss Game of Season as Tech Wins Fifth Straight Games

"Y" COLLEGE MEET TO BEGIN OUTDOOR
TRACK SCHEDULE

Stagg Man Determined to Win Friday; Team Balanced

Friday afternoon when The Tech Tracksmiths will compete against the strong Y College team, the lid of the indoor track meet will be blown off. Armour will travel to Y College to engage in the dual meet.

As far as meets go, Tech tradition has been inane since the four letter meet early in April. Armour however, a month earlier, was the only school to compete against the University of Iowa, and a month late to compete against the University of Wisconsin. This was caused by the loss of one of the most promising of Tech's meet.

Coach Ridgley led his players to the meet in high spirits, with high hopes for a good showing. The team was well prepared by practice, and proved that the hard work done was not in vain.

The meet will be held at Stagg Field, and the teams will be divided into two groups. The first group will consist of Tech, Iowa, and Wisconsin; the second group will consist of Armour, Nebraska, and Minnesota.

The meet will be run according to the rules of the AAU, and the results will be used as a basis for determining the top ten teams in the country.

"Y" College will be represented by their best men, and Armour will be represented by their top men.
